DEPARTMENT OF LABOUR - STEAM BOILERS, ELEVATORS & FACTORIES BRANCH

Regina, May 25, 1948.

RE: Inspection of 2 Pass. Boiler Record No. 10318, L.S. Boiler Record
No. 10218

Located in the Crooked Lake Indian School - Marieval, Saskatchewan.

Owned by Department Indian Affairs - Ottawa, Canada.

Inspected May 19th 1948 by Inspector J. W. Cook who reports:

Boiler Record No. 10218 in "very poor" condition. Install a new boiler. It is suggested that the new high pressure boiler be moved here from Ft. Qu'Appelle, Indian Hospital when new plant is completed there and a reducing valve be installed in order that all work may be done with one unit.

Boiler in "good" condition. Renew tubes.

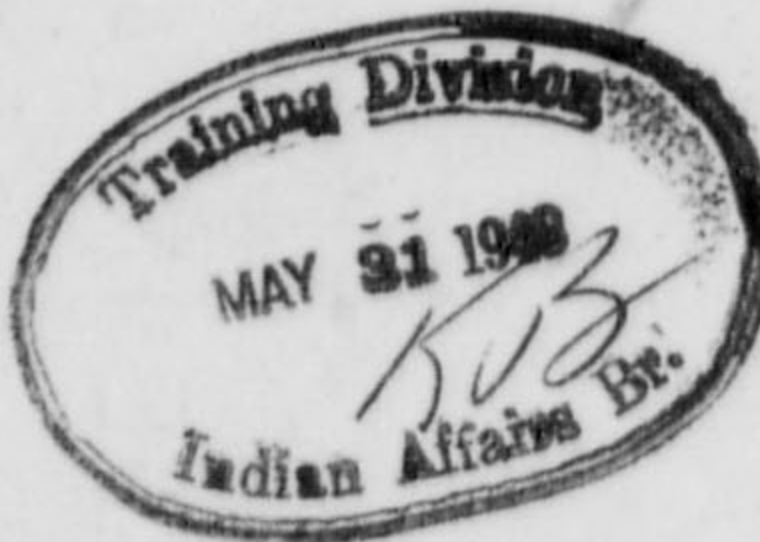

Inspection fees payable to the Department before the Inspection Certificate as required by law may be issued \$ 10.00. Kindly remit.

NOTE:- It is unlawful under The Steam Boilers Act and regulations pertaining thereto to operate a boiler or pressure vessel without being in possession of a subsisting Inspection Certificate issued in connection therewith.

Yours very truly,

CHIEF INSPECTOR *KA*

RE: Inspection of C.I.S. Boiler Record No. 15105

Located in the Round Lake Indian School - North of Broadview, Sask.

Owned by Department of Indian Affairs - Ottawa, Canada.

Inspected May 19, 1948 by Inspector J. W. Cook who reports:

Boiler in "fair" condition. Renew front cracked section.
Make 3" safety valve to work or install a new one of the same diameter.
Repair leaky nipples east side of boiler.

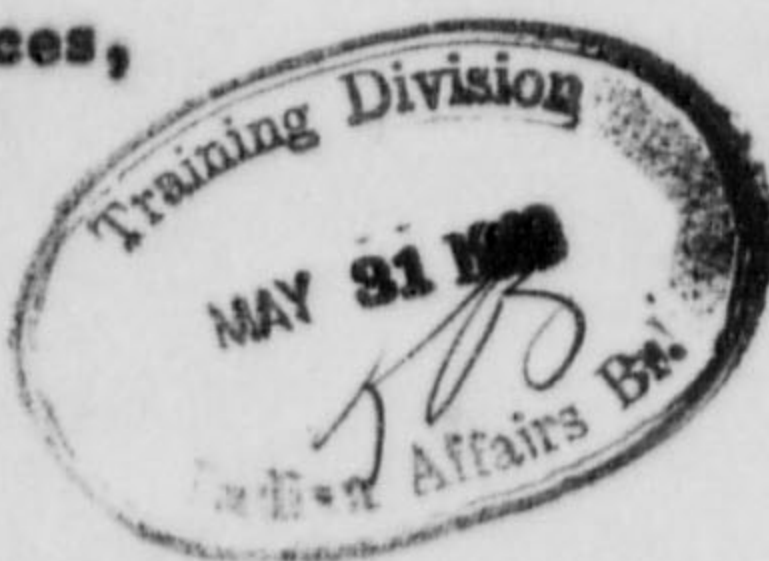

Inspection fees payable to the Department before the Inspection Certificate as required by law may be issued \$ 3.00. Kindly remit.

NOTE:- It is unlawful under The Steam Boilers Act and regulations pertaining thereto to operate a boiler or pressure vessel without being in possession of a subsisting Inspection Certificate issued in connection therewith.

Crooked Lake Agency,
Broadview, Sask.,
June 10th, 1948

J.P.B. Ostrander, Esq.,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
Regina, Sask.

Re File 971-304-11 A.U. May 26th, 1948.

As requested in your above letter I recently visited Round Lake School and discussed with the Principal the matter of overcoming the fire hazards mentioned in the Inspector's report. Enclosed herewith is a requisition for the material required, the Principal is willing to have the work done by his staff.

As regards the furnace room this would require 1272 sq.ft. of Flexboard to make it fire proof. We have included this on our requisition.

With reference to the Inspector's recommendations I beg to report as follows:

1. Two doors with double acting hinges are included in our requisition.
2. Pipes and collars for kitchen range will be purchased by the Principal.
3. Kitchen stove will be moved out 18" from wall and asbestos Flexboard has been requested in our requisition.
4. All loose electric ends have already been taped.
5. Material for a chimney in the men's sleeping quarters is included in our requisition.
6. The defective fire extinguishers have been taken to Whitewood for repairs.

W. J. D. Kerley
W. J. D. Kerley,
Superintendent.

PROVINCE OF SASKATCHEWAN

Office of the Fire Commissioner

May 21, 1948.

Dear Sir:

On May 7, 1948, I visited Round Lake Indian Residential School for the purpose of making a fire inspection of the building. Upon arrival I contacted Mr. J.H. Card, Engineer, who accompanied me through the school.

It was immediately noticed that the building was very old and in poor state of repair, especially in the basement section of the building. Because of the building's age and type of construction, if a fire should break out in any section of the premises, it would spread very rapidly and would be very difficult to control. The furnace room is in a very poor state of repair with exposed joists above the heating plant, improper fuel storage, no enclosures to shut off the furnace room from the rest of the building, and a gasoline engine driving an electric plant, together with storage batteries within a few feet of the furnace. It would be very difficult to improve this condition unless a complete renovation job was carried out and I do not believe the rest of the building warrants this expense.

In view of the above-mentioned hazards, it would be in the interest of good fire prevention practices to give immediate consideration to improving the conditions which exist in this building.

Listed hereunder are recommendations which could be applied, with very little cost and would improve conditions considerably:-

1. Doors would be placed on landings of main staircase on both 2nd and 3rd floors. These doors would prevent the spread of fire and smoke from floor to floor which, of course, would give students more time, in the event of a fire, to reach the fire escape. It appears as though there had been doors on these landings at some earlier date and had since been removed.
2. Chimney inlet for smoke pipes of kitchen range requires repairs.
3. Kitchen stove moved out from wall to a distance of 18" and a wall protected from the heat of the stove by asbestos board and an air space.

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- 2 -

4. All loose electric wire ends to be properly taped.
5. The heater in the men's sleeping quarters to be serviced by an approved chimney. At the present time the smoke pipes from the heater pass through the roof of the building.
6. Several new extinguishers have been purchased in the past year and a large percentage of same were found to be plugged. These extinguishers should either be returned to the manufacturers or repaired and left in working condition.

Trusting you will give these recommendations your personal and immediate attention and advise this office accordingly when recommendations have been complied with as we would appreciate your fullest co-operation in this regard. I am

Very truly yours,

Sgd. R.A.W. Switzer,
Fire Inspector.

Mr. J. B. Ostrander,

Regina, June 11th, 1948.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copy of a letter received from the office of the Fire Commissioner, Province of Saskatchewan, advising how to remedy fire hazards at the Round Lake Indian Residential School. This matter was taken up with Mr. Kerley and he was instructed to discuss with the Principal how best to eliminate these hazards.

I am enclosing copy of Mr. Kerley's letter and requisitions for materials required to make this building comply with provincial fire regulations. Mr. Kerley states that the Principal is willing to have the labour performed by the staff of the school. I would therefore recommend that he be given instructions to obtain this material from the Security Lumber Company at Broadview.

Mr. W.J.D. Kerley, Superintendent,
Indian Agency, Broadview, Sask.

We have your voucher No. 418 covering the cost of a jacket heater purchased by the principal of the Round Lake School. Apparently the matter was not brought to our attention previously and consequently no authority was given for the expenditure.

Please let me know why the principal considered it advisable to ignore our purchasing regulations. We may have some trouble in having the account passed for payment.

Bernard E. Neary
Superintendent of Education.

Enclosed herewith is a requisition for a new engine for the water & lighting at the Round Lake Residential School. The old engine would need a new block, cylinder head, pistons etc., and these repairs are not available in Canada, they would have to be secured from Wisconsin and I understand that the cost would be almost as much as a new engine. Under the circumstances I believe it would be much better to purchase a new engine.

File 1572-304-11 A.U.

E1

Regina, August 13th, 1948.

Indian Affairs Branch, Department of Mines and Resources, OTTAWA.

When visiting the Round Lake School recently I found that Reverend J.A. Card, the Principal, was absent but that the Farming Instructor, was in charge. In Mr. Card's absence the old engine which had been operating the lighting plant had broken down and it appeared quite evident that it is not worth the cost of repairing.

I asked Mr. Kerley to get quotations on a suitable 6 to 7 h.p. engine for the lighting plant, and I am enclosing a requisition and copy of a letter from Mr. Kerley in this connection.

I would recommend that authority be granted as soon as possible for Mr. Kerley to purchase the Fairbanks-Morse engine referred to on the requisition, at a cost of \$331.00.

Gentlemen:

We have been advised by our Winnipeg Office that the attached invoice covering a Jacket Heater in the amount of \$151.11 has not been paid. You will note that the material was shipped on May 28, 1948 and we would appreciate any assistance you can give us in the mailing of the cheque for the above amount.

Yours very truly,

REV. J. A. CARD,
Principal

WHITEWOOD,
Saskatchewan

29700

November 6th, 1948.

Indian Affairs Branch,
Dept. Mines & Resources,
Ottawa, Ont.

Attention Mr. Hoey.

Dear Sir:

Early this summer our Jacket Heater ceased to function because of the water pipes gradually being choked by the mineral salts adhering to the inside of the water pipes.

About that time the Indian Agent, Mr. Kerley was on a tour of inspection and realizing that we could not get along without the heater ordered one shipped to us.

Yesterday Mr. Kerley was here and advised me that the cost of heater had not been paid to Crane Limited of Regina.

Enclosed are copies of the invoice with the request that this matter be given your consideration.

As mentioned several years ago this is not caused by misuse or overloading the heater but by the minerals and salts in the water which we have to use.

Your attention would be greatly appreciated.

Yours faithfully,

J. A. Card,
Principal.

Re: File 651-5 (E.1)

We acknowledge your letter of Jan. 13th raising the allowance for the night watchman at the Cowessess Indian Residential School to \$60.00 per month. We have changed our Voucher No. 786 accordingly. Incidentally we would like to know why the allowance for the night watchman at the Round Lake Indian Residential School was not also increased as the Round Lake School is more of a fire trap than the Cowessess School.

As regards the night watchmen's clocks at both these schools it will be necessary for the Department to supply a new clock to each as they cannot secure dial cards for this type of clock, they are no longer printed, and the present supply will only last until April 1st.

(Sgd) W. J. D. Kerley,
Superintendent.

Mr. W.J.D. Kerley,
Superintendent, Indian Agency,
Broadview, Saskatchewan.

With reference to your letter of the 15th instant, it was an oversight that we did not mention previously that \$60.00 a month would be allowed for night watchman services at the Round Lake School. The Voucher which you submitted for that School at the rate of \$40.00 per month has been changed to \$60.00 per month.

Owing to the present period of the fiscal year, it is not possible to provide funds for the purchase of night watchmen's clocks. You may apply again at the beginning of the next heating season. It is noted that they have sufficient dial cards to last until 1st April.

Memorandum:

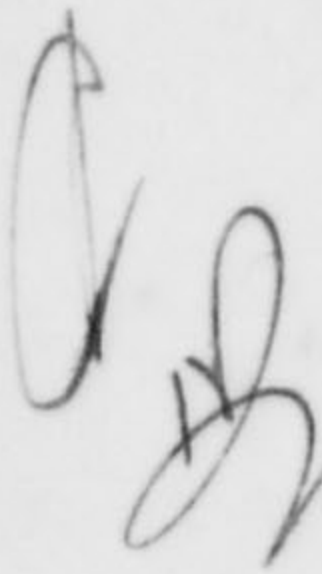

DIRECTOR, LANDS & DEVELOPMENT SERVICES BRANCH

Re: Round Lake Indian Residential School

On 29th November, 1948, Superintendent Kerley requested us to obtain at once 1 #8639 FM 1000 GPH Self Oiling Typhoon Pump at a net cost of \$113.80, for pumping water for the above school.

Our Purchasing Branch placed the order with the Canadian Fairbanks-Morse Company, Winnipeg, and the pump mentioned was delivered to the school. For your information I attach copies of subsequent correspondence.

We would appreciate it if you would advise us at the earliest possible date regarding what action should be taken.

Mr. J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
Regina, Saskatchewan.

Future Policy - Round Lake Residential School.

I also had an opportunity of discussing the future policy of the Department with regard to this school with Dr. Dorey yesterday.

You will recall that in discussing the situation in my office recently, you were advised that the Donald Inspection Company report on the general condition of the building was unsatisfactory.

In fact their report concluded as follows:

"We consider that the condition of this building not such as to justify major repairs or additions but should be replaced with a new one as soon as provision can be made therefor".

It is agreed that the situation at Round Lake with regard to replacing the residential school with day schools presents a much more difficult problem than that at File Hills.

However, we would appreciate receiving from you the same information as requested under our letter of the same date on the File Hills Residential School. We will then be in a position to hold further discussions concerning this school with the United Church officials.

MEMORANDUM

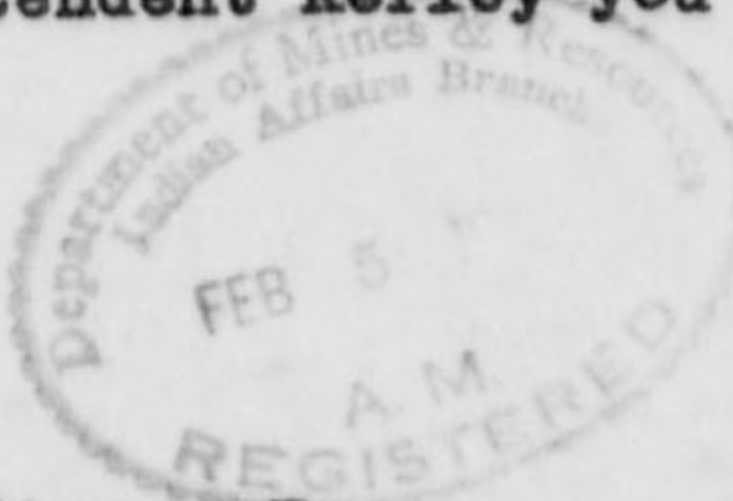

Re: Round Lake Indian Residential School
Whitewood, Saskatchewan.

On the basis of verbal information furnished this Division by the Indian Affairs Branch to the effect that the new water pump recently installed at the above school was unsatisfactory, we have written to Indian Superintendent W.J.D. Kerley and have requested him to obtain such technical data as is necessary to enable us to comment intelligently.

You are advised that this pump was purchased and installed by the Indian Affairs Branch with no technical advice from this Division.

The Director of the Indian Affairs Branch is having an official memorandum prepared outlining his request, which will be forwarded to you in the next few days.

Upon receipt of a reply from Indian Superintendent Kerley you will be further advised.

Re: Round Lake Indian Residential School,
Whitewood, Sask.

In reply to your letter # I. A. 1556-11 of
the 26th ultime., the following are the facts requested:-

1. There is a Pump House 8' X 8' over a "wet well" at the lake shore, this well is 4' square and 11½' deep with 5½' of water at present. The suction line of 1½" pipe is connected to the water pump in the boiler room. The water is pumped into a cistern 9' in diameter, 9' deep in the boiler room by a F. M. air cooled 2½ H.P. engine connected to a pump jack to an old pump said to be a F. M. (name could not be determined). This outfit cannot pump the wet well dry.
2. The difference in the level of the water in the wet well to the highest point where the suction pipe enters the boiler room is about 40 feet. It appears that this pipe could have been put in lower as it comes in 6 feet over the top of the pump. If the pump is put in the Pump House at the lake shore, an oil stove would be the best method to heat it, as being so small there would be no room for fuel. The present pump there takes 3 to 4 hours to pump the cistern full.
3. The size of the suction pipe is 1½" and is 378 feet from one pump to the other.
4. The electric supply is a 32 Volt D. C. unit, driven by a F. M. Z Type Self Oiling 6-7 H.P. gasoline engine. The same engine is used to drive the pump by another pulley.
5. The existing pump is a F. M. Self Oiling Typhoon Pump, Pressure 100 lb., Speed 215 R.P.M., 2500 G.P.H.
6. The F. M. 1000 G.P.H. Self Oiling Typhoon Pump #8639 has been sent back to Winnipeg.

The old pump is worn out beyond repair, it leaked so badly that it caused the shorting of the Generator which is situated close by. I might add that the whole set-up is very bad and in very poor shape. The measurements given were supplied by Mr. Leishman of the Round Lake School Staff. Any assistance that you can provide will be greatly appreciated.

Memorandum

24022

Re: Round Lake Indian Residential
School, Whitewood, Sask.

Further to our memorandum of January 31st, you are advised that we are in receipt of information from Indian Superintendent Kerley with regard to the arrangement of the water supply system at the above.

We have analyzed the data presented in Mr. Kerley's letter of February 3rd, and it may be summarized as follows.

There is a "wet well" located at the Lake, a distance of approximately 378 feet from a concrete reservoir in the boiler room of the school building. An old pump powered by a 2½ H.P. gasoline engine pumps water from the "wet well" to the reservoir in the boiler room. From the reservoir in the boiler room the water is pumped into a pressure tank by another pump which is driven by a pulley and belt from the diesel engine connected to the electric generator set. Mr. Kerley states that this pump is worn out and leaks so badly that further repairs are impossible.

A new Fairbanks-Morse 1000 g.p.h. pump was recently purchased and installed to replace the old unit referred to. This new pump failed to give satisfactory service and has been returned to the Winnipeg Branch of the Fairbanks-Morse Company. A request from Indian Superintendent Kerley for authority to purchase a 2500 g.p.h. pump was then received by the Indian Affairs Branch, at which time they sought an opinion from this Division.

Following the above summary, it is our opinion that the 1000 g.p.h. pump should serve the purpose if properly installed. It is therefore recommended that the Fairbanks-Morse Company be requested to supply a self oiling Typhoon pump suitable for belted service having a capacity to deliver 1000 g.p.h. against 100 lbs. per square inch pressure when connected by suitable pulley and belt to the existing Fairbanks-Morse Type Z self oiling 6-7 H.P. gasoline engine.

It is also recommended that the Fairbanks-Morse representatives in Winnipeg be requested to direct the installation of this pump and put it into satisfactory service.

T. S. Mills

Chief Engineer.

SHIP TO Rev. J.A. Card, Principal, Round Lake Indian Day School, Whitewood Sask.

Purpose for which required

QUANTITY		UNIT PRICE	TOTAL
1	Self oiling Typhoon pump suitable for belted service having a capacity to deliver 1000 g.p.h. against 100 lbs. per square inch pressure when connected by suitable pulley and belt to the existing Fairbanks-Morse Type Z self oiling 6-7 H.P. gasoline engine. <u>NOTE:</u> On Purchase Order 36658 we ordered a Typhoon pump for the Round Lake School, but when it reached the school it did not operate properly and Indian Superintendent Kerley returned it to the Company, and requested that we supply him with a larger pump. The matter was referred to the Lands and Development Services Branch, and after making enquiries, they recommend that the above mentioned pump should be suitable. In view of the fact that the pump ordered on Purchase Order 36658 has been returned to the Company, we would appreciate it if you would issue a new Purchase Order, and if you could issue this immediately it would be appreciated, as the pump is urgently required. In connection with ordering the pump, the engineers of the Lands and Development Services Branch recommend that the Fairbanks-Morse representative in Winnipeg be requested to direct the installation of this pump and put it into satisfactory service. While the pump should be shipped as shown above, the account should be sent to: Mr. W.J.D. Kerby, Superintendent, Indian Agency, Broadview, Saskatchewan.		

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Re: Water Pump at
Round Lake Indian Day School

Upon receipt of your requisition of the 23rd ultimo for a self-oiling typhoon pump for service at the above school, we wrote to the Canadian Fairbanks-Morse Company Limited, Winnipeg, inquiring as to the cost of a more suitable pump than that ordered on purchase order No. 36658. We have today received a reply, copies of which are attached.

You will note from this letter that No. 8639 pump was returned to the company and a credit note issued. A larger one, No. 2240, was shipped from Regina to Round Lake Indian Day School on 21 December last, and an invoice amounting to \$244.35 was forwarded to Indian Superintendent Kerley.

We are withholding action on your requisition of 23 February until we hear further from you on this matter.

Gentlemen,

In reply to your letter of Feb. 25th. pertaining to the self-oiling Typhoon Pump, required by the Indian Affairs Branch officials at Whitewood, Sask., we wish to advise that on November 29th. 1948, we received a long distance 'phone call from Whitewood, Sask., advising us to ship:

1 - Only Outfit 2639 1,600 G.P.H. self-oiling Typhoon Pump.

Credit was issued to the full amount of \$113.80, covering return of this pump, December 16th., 1948. The billing and Credit Note both were issued to Department of Mines and Resources, Indian Affairs Branch, c/o W. J. B. Kurley, Indian Agent, Broadview, Sask., the goods both being shipped to and returned from The Round Lake Indian School at Whitewood, Sask.

December 10th., 1948, we received a letter signed by J. A. Card, Principal of the Round Lake Indian School, requesting that we forward a larger pump. Our Outfit #2240, 2500 G.P.H. self-oiling Typhoon Pump was shipped from our Regina Branch, December 21st., direct to the Round Lake Indian School, Whitewood, Sask.

The Invoice amounting to \$244.35 was forwarded to the Dept. of Mines and Resources, Indian Affairs Branch, c/o W. J. B. Kurley, Indian Agent at Broadview, Sask.

We now assume that this pump has been installed and is now in service, as we have heard nothing further to the contrary.

At no time was any order number mentioned or used in the purchase of these two pumps, and we note that the amount of \$244.35 covering the sale of the second pump, is still outstanding on our

Re: Water Pump at
Round Lake Indian Day School

Upon receipt of your requisition of the 23rd ultimo for a self-oiling typhoon pump for service at the above school, we wrote to the Canadian Fairbanks-Morse Company Limited, Winnipeg, inquiring as to the cost of a more suitable pump than that ordered on purchase order No. 36658. We have today received a reply, copies of which are attached.

You will note from this letter that No. 8639 pump was returned to the company and a credit note issued. A larger one, No. 2240, was shipped from Regina to Round Lake Indian Day School on 21 December last, and an invoice amounting to \$244.35 was forwarded to Indian Superintendent Kerley.

We are withholding action on your requisition of 23 February until we hear further from you on this matter.

File: 89802-15-2 Sask.

Gentlemen,

In reply to your letter of Feb. 25th. pertaining to the self-oiling Typhoon Pump, required by the Indian Affairs Branch officials at Whitewood, Sask., we wish to advise that on November 29th. 1948, we received a long distance 'phone call from Whitewood, Sask., advising us to ship:

1 - Only Outfit 2639 1,000 G.P.H. self-oiling Typhoon Pump.

Credit was issued to the full amount of \$113.80, covering return of this pump, December 16th., 1948. The billing and Credit Note both were issued to Department of Mines and Resources, Indian Affairs Branch, c/o W. J. B. Kurley, Indian Agent, Broadview, Sask., the goods both being shipped to and returned from The Round Lake Indian School at Whitewood, Sask.

December 10th., 1948, we received a letter signed by J. A. Card, Principal of the Round Lake Indian School, requesting that we forward a larger pump. Our Outfit #2240, 2500 G.P.H. self-oiling Typhoon Pump was shipped from our Regina Branch, December 21st., direct to the Round Lake Indian School, Whitewood, Sask.

The Invoice amounting to \$244.35 was forwarded to the Dept. of Mines and Resources, Indian Affairs Branch, c/o W. J. B. Kurley, Indian Agent at Broadview, Sask.

We now assume that this pump has been installed and is now in service, as we have heard nothing further to the contrary.

At no time was any order number mentioned or used in the purchase of these two pumps, and we note that the amount of \$244.35 covering the sale of the second pump, is still outstanding on our

Re: Water Pump - Round Lake School

As you are aware, we have had considerable correspondence with regard to the above, and in addition to a letter from this Division you also received a letter from the Lands and Development Services Branch. As a result of the information they received from you, they recommended the purchase of a certain type of pump. A copy of their memorandum in this regard was forwarded to you under cover of our letter of 23rd February, 1949.

As stated in that letter, we forwarded a requisition to the Departmental Purchasing Agent, and we have just received from him a memorandum dated 3rd March, 1949, copy of which I enclose. Please let us have a full explanation of the matter at the earliest possible date.

Re: Round Lake Indian Residential
School,
Whitewood, Saskatchewan.

You are advised that we have received a letter from Reverend J.A. Card, Principal of the above school, to which was attached an invoice covering the cost of a water pump recently installed. This matter was commented on in our memorandum of February 17, 1948.

The subject has been discussed between our Chief Architect and Col. Neary, who advised that it was an internal matter which your Branch would handle.

Therefore, we are enclosing the attached correspondence and invoice for your action.

D.M. Mackay, Esq.,
Director,
Indian Affairs Branch,
Department of Mines and Resources,

ROUND LAKE INDIAN RESIDENTIAL SCHOOL

THE WOMEN'S MISSIONARY SOCIETY
United Church of Canada

REV. J. A. CARD,
Principal

WHITEWOOD,
Saskatchewan

March 14th, 1949.

Mr. T. S. Mills,
Chief Engineer
Dept of Mines & Resources,
Ottawa.

141556-11

Dear Sir:

Further to your memorandum under date of Feb. 17th which is enclosed.

The statement in first paragraph sets out the condition and manner of getting our necessary ~~of~~ supply of water for all purposes except for drinking and cooking. This entails going across the lake in the winter to a spring. The greater of the year we haul our water from a spring about 4 miles distant on No. 9 highway since it is not possible to reach the first mentioned spring by going overland.

It was in December while I was in Hospital with an attack of Pneumonia that the old pressure pump gave out. Our man at the school phoned me at the hospital saying that the only pump he found available was one of 1000 G.P.H.. I advised accepting it. It was shipped in but was never set up according to my Farm Manager since Mr. Kerley, Indian Agent received authority to purchase a 2500 g.p.h. pump. This larger pump was received, installed and is giving good satisfaction.

Recently in conversation with Mr. Kerley he requested that we should pay half cost of new pressure pump from our school moneys. When I came into this work I understood that all such expenditures were to be taken care of by the Department. Certainly, if we have to expend our moneys for Jacket Heaters, Pressure Pumps, and other such purchases it will not be possible to keep within our budget.

We would request that the purchase of this new pressure pump be taken by the Department of Mines and Resources - Indian Affairs Branch.

Yours respectfully,

J. A. Card
J. A. Card

LANDS AND DEVELOPMENT SERVICES BRANCH

Ottawa, February 17 1949.

Memorandum

Re: Round Lake Indian Residential
School, Whitewood, Sask.

Further to our memorandum of January 31st, you are advised that we are in receipt of information from Indian Superintendent Kerley with regard to the arrangement of the water supply system at the above.

We have analyzed the data presented in Mr Kerley's letter of February 3rd, and it may be summarized as follows.

There is a "wet well" located at the Lake, a distance of approximately 378 feet from a concrete reservoir in the boiler room of the school building. An old pump powered by a 2½ H.P. gasoline engine pumps water from the "wet well" to the reservoir in the boiler room. From the reservoir in the boiler room the water is pumped into a pressure tank by another pump which is driven by a pulley and belt from the diesel engine connected to the electric generator set. Mr Kerley states that this pump is worn out and leaks so badly that further repairs are impossible.

A new Fairbanks-Morse 1000 g.p.h. pump was recently purchased and installed to replace the old unit referred to. This new pump failed to give satisfactory service and has been returned to the Winnipeg Branch of the Fairbanks-Morse Company. A request from Indian Superintendent Kerley for authority to purchase a 2500 g.p.h. pump was then received by the Indian Affairs Branch, at which time they sought an opinion from this Division.

Following the above summary, it is our opinion that the 1000 g.p.h. pump should serve the purpose if properly installed. It is therefore recommended that the Fairbanks-Morse Company be requested to supply a self oiling Typhoon pump suitable for belted service having a capacity to deliver 1000 g.p.h. against 100 lbs. per square inch pressure when connected by suitable pulley and belt to the existing Fairbanks-Morse Type Z self oiling 6-7 H.P. gasoline.

It is also recommended that the Fairbanks-Morse representatives in Winnipeg be requested to direct the installation of this pump and put it into satisfactory service.

(sgd) T.S.Mills
Chief Engineer.

Memorandum:DEPARTMENTAL PURCHASING AGENT

Re: Water Pump, Round Lake Indian
Residential School
Your File: 89802-15-2 Sask

We have noted the contents of the letter which you received from the Canadian Fairbanks-Morse Company. We have had considerable correspondence with Indian Superintendent Kerley about the pump required at the Round Lake School, and forwarded to you a requisition dated February 23rd for the type of pump recommended by the Lands & Development Services Branch.

From subsequent correspondence it appears that the Principal of the Round Lake School, which is a Government-owned institution, ordered a pump which was not satisfactory, and was later informed by Superintendent Kerley that a larger pump had been authorized. We cannot find any record of ever having given any such authority. The Principal of the Round Lake School secured a larger pump as it was urgently needed. The Reverend Principal, Mr. Card, explains the matter as follows:

"It was in December while I was in hospital with an attack of pneumonia that the old pressure pump gave out. Our man at the school phoned me at the hospital saying that the only pump he found available was one of 1000 GPH. I advised accepting it. It was

.....2

ARCHIVES PUBLIQUES
CANADA

shipped in but was never set up according to my Farm Manager, since Mr. Kerley, Indian Agent, received authority to purchase a 2500 GPH pump. This larger pump was received, installed and is giving good satisfaction."

Under the circumstances there is no necessity for taking any further action on our requisition of February 23rd, and when the account for the pump is received, it will be submitted to you, and it is hoped that you will be able to issue a Purchase Order.

AIR MAIL

2nd April, 1949

Mr. W.J.D. Kerley,
Superintendent, Indian Agency,
Broadview, Saskatchewan.

With reference to your letter of the 12th ultimo regarding the pump at the Round Lake School, Reverend Mr. Card has written to the Lands & Development Services Branch in reply to a letter he received from them.

Please obtain and forward by airmail an account for the 2500 GPH pump which is now in use. The account should be dated previous to March 31st, as the transaction took place last December. We understand that the pump ordered on Purchase Order 36658 was returned unused.

We received your Voucher No. 194 dated 29th November, 1948, for \$113.80, and this amount was forwarded to the Canadian Fairbanks-Morse Company for payment of the pump ordered on Purchase Order 36658. Consequently, when you are forwarding the Voucher for the larger pump which is now in use, you should deduct from the Invoice the amount of \$113.80, which we have already paid to the Canadian Fairbanks-Morse Company.

Memorandum:DEPUTY MINISTERRound Lake Indian Residential School.

The following telegram has been received from Mr. W.J.D. Kerley, Superintendent, Indian Agency, Broadview, Sask. -

"ROUND LAKE SCHOOL BARN TOTALLY DESTROYED BY FIRE YESTERDAY -stop- HALF OF WOOD SUPPLY SIX CALVES ONE HOG LOST -stop- COWS BEING MILKED IN CORRAL -stop- URGENT NEED DECISION ON NEW DAY SCHOOL -stop- REQUEST INSTRUCTIONS"-

This is one of the residential schools which we are hoping to replace with day schools. Unfortunately, the Indians are widely scattered and a decision cannot yet be reached as to where day schools should be situated. A map is now being prepared showing all homes on the reserve and indicating the number of children of pre-school and school age. The Superintendent of Education has already had preliminary discussions with the officials of the Board of Home Missions of the United Church of Canada concerning the closing of this school. However, we had not intended to proceed with its closing until June 1950. It would seem from Mr. Kerley's telegram that we may have to consider the erection of day schools immediately.

Requisition No. 89802

Order No.

To the Departmental Purchasing Agent, Ottawa,

PLEASE FURNISH THE FOLLOWING SUPPLIES FOR USE OF Round Lake Indian Day School

VOTE 516 ALLOTMENT ALLOCATION SYMBOLS

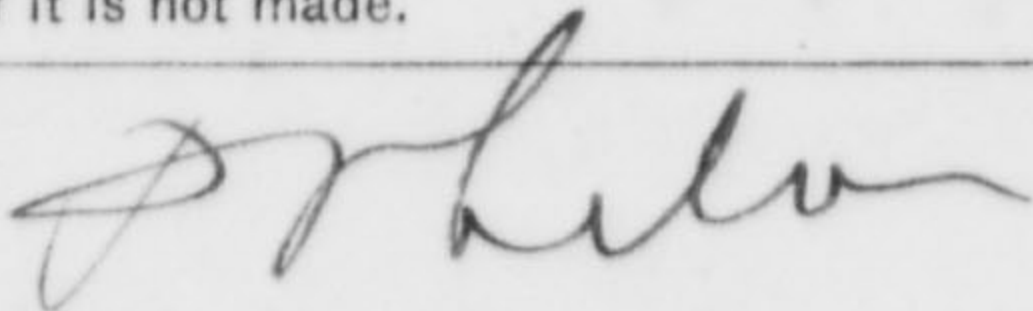

SHIP TO Rev. J.A. Card, Principal, Round Lake Indian Day School, Whitewood
Sask.

Purpose for which required

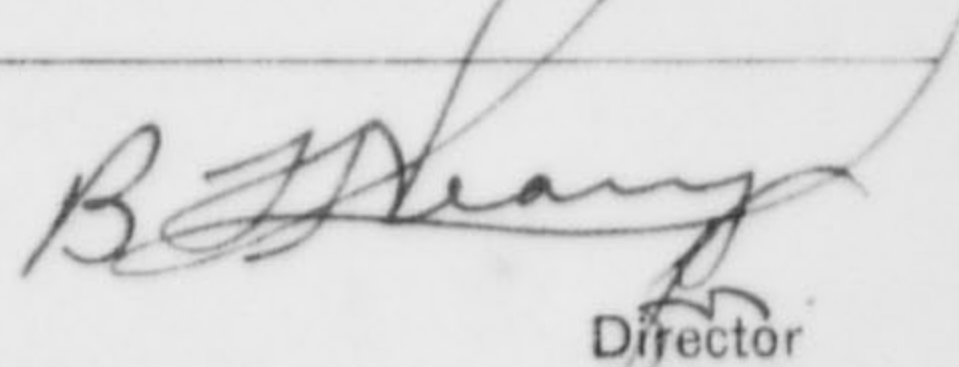

QUANTITY		UNIT PRICE	TOTAL
1	Self oiling Typhoon pump suitable for belted service having a capacity to deliver 1000 g.p.h. against 100 lbs. per square inch pressure when connected by suitable pulley and belt to the existing Fairbanks-Morse Type Z self oiling 6-7 H.P. gasoline engine. <u>NOTE:</u> On Purchase Order 36658 we ordered a Typhoon pump for the Round Lake School, but when it reached the school it did not operate properly and Indian Superintendent Kerley returned it to the Company, and requested that we supply him with a larger pump. The matter was referred to the Lands and Development Services Branch, and after making enquiries, they recommend that the above mentioned pump should be suitable. In view of the fact that the pump ordered on Purchase Order 36658 has been returned to the Company, we would appreciate it if you would issue a new Purchase Order, and if you could issue this immediately it would be appreciated, as the pump is urgently required. In connection with ordering the pump, the engineers of the Lands and Development Services Branch recommend that the Fairbanks-Morse representative in Winnipeg be requested to direct the installation of this pump and put it into satisfactory service. While the pump should be shipped as shown above, the account should be sent to: Mr. W.J.D. Kerley, Superintendent, Indian Agency, Broadview, Saskatchewan.		

I hereby certify that I have personal knowledge that all the above articles are required in the Department and for Departmental purposes only. The expenditure required by this requisition is strictly unavoidable and the public interest will suffer if it is not made.

Dear Colonel Neary:

Re: Round Lake Residential School

I am advised that the barn and blacksmith shop at Round Lake have been burned to the ground. I do not know what your Department can do to provide temporary accommodation for the stock, so that it will be adequately covered for next Fall. I shall be very glad to know what you have to suggest.

Yours sincerely,

May 21st, 1949.

Indian Affairs Branch, Dept. of Mines & Resources,
Ottawa.

Re File 661-5 (E.1), May 18th, 1949.

In reply to your above letter I regret to report that the barn at the Round Lake Residential School was destroyed by fire on May 11th, 1949. The fire started about 2.15 P.M. It also spread to the following adjoining buildings and these were also destroyed.

Blacksmith shop,
Two granaries near barn,
One granary in the field at the straw stack.

The following equipment and live stock were also lost:

Two wagons,
One hay rack,
One milking machine,
One cream separator,
Six horse collars,
Two sets of harness,
Six hay forks,
Five manure forks,
Six calves,
One hog.
The threshing machine was slightly damaged.

The R.C.M.P. investigated the cause of the fire and found it was set by Ronald Allary age 13, a pupil belonging to Ochapowace Band.

Temporary stalls have been erected in the implement shed where some of the cows are being milked and the rest in the adjoining corall. Stock other than milch cows have been turned out to pasture.

W.J.D. Kerley
W.J.D. Kerley,
Superintendent.

Regina, July 7, 1949.

Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ontario.

Please refer to my letter of June 3rd, 1320-6-7-108 reporting on the investigation of the fire which destroyed the barn at the Round Lake Residential School.

In my letter I recommended that a charge be laid against the juvenile who admitted setting fire to the barn, and requested instructions from the Department in this connection. The Mounted Police have made a further request for instructions. Could I be advised at the earliest possible of the action to be taken.

Round Lake Residential School

The following telegram was sent to you on June 30:-

DISCUSSED SITUATION ROUND LAKE DOCTOR DOREY STOP
IN VIEW POSSIBLE DIFFICULTIES HE WOULD PREFER
CONTINUING OPERATE THIS SCHOOL AT LEAST ONE MORE
YEAR STOP IF BARN PROVIDED UNITED CHURCH PREPARED
CONTINUE UNTIL DAY SCHOOLS CAN BE BUILT STOP
CANNOT GUARANTEE EDUCATIONAL FACILITIES THESE
CHILDREN PORTAGE AND BRANDON AS PROPOSED TO
YOU BY TELEPHONE HENCE CHANGE IN PLANS".

Dr. Dorey further intimated that the Women's
Missionary Society felt that in closing the File Hills
Residential School they had created many problems for
this year and that it would be advisable to delay the
closing of the Round Lake Residential School for at
least another year.

This of course raises the question of erecting a
barn and whether or not powder or fresh milk can be
purchased for use at this institution. I would appreciate
a recommendation from you concerning this and also any
advice you can offer as to how a barn can be erected
fairly cheaply for their immediate use this winter.

Bernard F. Heary,
Superintendent of Education.

REGIONAL SUPERVISOR OF INDIAN AGENCIES
Saskatchewan

DEPARTMENT OF
MINES AND RESOURCES

INDIAN AFFAIRS BRANCH
1741-6-7-108

Indian Affairs Branch,
Department of Mines & Resources
OTTAWA, Ontario.

Registered July 14, 1949.

Round Lake Indian Residential School.

With reference to Department letter of the 4th instant, 661-1 (E) regarding continuation of the Round Lake Residential School for another year or two, I visited the school this week, accompanied by Indian Superintendent Kerley, to enquire into the matter of the erection of the barn.

Mr. Card, the Principal is away on holidays and Mr. Leichman, the Farming Instructor, was in charge, therefore it was necessary to discuss the matter of stable accomodation for the cattle and horses with Mr. Leichman.

I found that there are eighteen Holstein cows being milked at the present time and four more are to calve shortly which would mean twenty or more milking cows when the school opens the 1st of September. In addition to this there are 30 head of other cattle made up of young heifers and young steers. They are all Holstein breeding. It was their intention to butcher the steers for winter meat at the school and to keep the heifers for replacement of aged milk cows.

It is my opinion that there has always been too large a herd of cattle at the Round Lake School. If they intend to milk cows to have the milk for the use of the pupils, ten cows would be enough to keep with the present pupilage. Owing to the fact that the cost of erecting stable accomodation for the large number of cattle at the school, (and the fact that the main building is really not fit for occupancy at all) I do not recommend erection of a cattle barn and I would recommend disposing of all of the cattle before the winter sets in and the purchase of powdered milk for food purposes.

However, some stabling accomodation is necessary as it is necessary to keep two teams of horses at the school and occasionally in the winter the Indian Superintendent or the Doctor drives to the school with horses and it is necessary to have a double stall for that purpose. In other words I would recommend the erection of a horse barn with three double stalls and a harness and feed room at one end. Enclosed is an estimate of the material necessary for such a building. The estimate was prepared by the Security Lumber Company of Broadview, Saskatchewan on a rough plan which I prepared, the barn being 16 feet wide and 36 feet long with no loft.

Continued on Page 2 .

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The bill of material amounts to \$1009.92, f.o.b. Broadview in addition to which there will be freighting and gravel which will probably add a further \$150.00. I would recommend that an order be placed at once for the material in accordance with the estimate and requisitions enclosed. I endeavored to contact one William Pilchak of Stockholm, Saskatchewan, who has done some carpentry work for the Department in the past, as I believe he would take on the work of erecting the building on an hourly basis on a satisfactory manner. However, he was absent and Mr. Kerley will contact him as soon as possible advising me of the possibility of employing him. Assuming that the labour performed in this manner will not exceed 50% of the amount of the bill of material, the barn will cost something under \$2,000, and I would recommend that an amount of \$2000 be made available for the purpose at the earliest possible date in order that it may be completed before cold weather sets in.

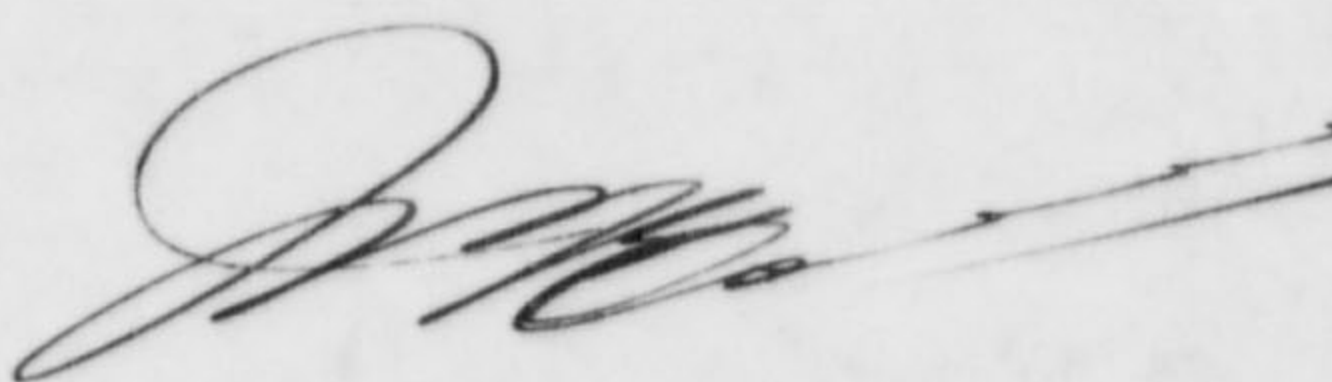

If the school is to continue a complete new lighting plant is needed and it should be 110 volts. The previous plant was 32 volts and there is so little electrical equipment being used from this plant, that a change to a 110 volt will not result in any expense of changing the electrical equipment. If the Department decides to re-open the school for the new term, a lighting plant should be ordered at once.

I investigated the possibility of transferring some of the Government equipment from the File Hills Residential School to the Round Lake Residential School and I communicated to the Department in this connection yesterday asking authority to transfer the following items: 1 7H.P. Fairbanks Morse engine, 2 oven kitchen range (the one at the Round Lake School is worn out and in my opinion not worth repairing) one small washing machine and one drier.

The heating boiler at the Round Lake School was recently inspected by the Boiler Inspector and he reports it is satisfactory.

In any case I certainly do not think that the Round Lake Residential School should re-open unless a new Principal is appointed as I do not consider Reverend Mr. Card is fitted for the position.

Please instruct me further in this connection at the earliest possible date.

Dear Doctor Macdonald:

In connection with the decision to continue the operation of the above school I wrote to Regional Supervisor Ostrander in regard to the erection of a barn. His reply reads in part as follows:

"I visited the school this week, accompanied by Indian Superintendent Kerley, to enquire into the matter of the erection of the barn.

Mr. Card, the Principal, is away on holidays and Mr. Leichman, the Farming Instructor, was in charge, therefore it was necessary to discuss the matter of stable accommodation for the cattle and horses with Mr. Leichman.

I found that there are eighteen Holstein cows being milked at the present time, more are to calve shortly which would mean twenty or more milking cows when the school opens the 1st of September. In addition to this there are 30 head of other cattle made up of young heifers and young steers. They are all Holstein breeding. It was their intention to butcher the steers for winter meat at the school and to keep the heifers for replacement of aged milk cows.

It is my opinion that there has always been too large a herd of cattle at the Round Lake School. If they intend to milk cows to have the milk for the use of the pupils, ten cows would be enough to keep the present pupilage. Owing to the fact that the cost of

erecting stable accommodation for the large number of cattle at the school, I do not recommend erection of a cattle barn and I would recommend disposing of all of the cattle before winter sets in and the purchase of powdered milk for food purposes.

However, some stabling accommodation is necessary as it is necessary to keep two teams of horses at the school and occasionally in the winter the Indian Superintendent or the Doctor drives to the school with horses and it is necessary to have a double stall for that purpose. In other words I would recommend the erection of a horse barn with three double stalls and a harness and feed room at one end."

We feel that Mr. Ostrander's recommendation is a reasonable one and if you concur we would appreciate hearing from you as soon as possible. If your reply shows agreement we will immediately wire Mr. Ostrander to proceed with the erection of a horse barn.

Bernard F. Neary,
Supt. of Indian Education.

Dear Colonel Neary: Re: Round Lake Indian Residential
 School

I have your letter of July 20th. The suggestion made involves a very drastic change, and certainly I could not consent to its acceptance without consulting with Mrs. Loveys, Executive Secretary of The Woman's Missionary Society, and our Superintendent of Missions, Dr. R.J. McDonald of Regina, Sask. I have sent them by air mail copies of your letter and have asked them to reply as soon as possible, giving their judgment in the matter. When we have that judgment, we shall write you.

With kindest regards,

Yours sincerely,

O t t a w a, Ontario.

Dear Colonel Neary: Re: Round Lake Indian Residential
School

When I replied to your letter a few days ago, I told you that I would get the reaction of Mrs. Loveys and our Superintendent of Missions to the suggestion that no cattle barn be built at the Round Lake School and that the herd of cattle be disposed of. I advised you that I thought your suggestion was a pretty drastic one and that I certainly would not agree to it without consulting Dr. R.J. McDonald, the Superintendent of Missions, and Mrs. Loveys.

To-day I have a reply from Dr. McDonald, in which he expresses himself quite decidedly as feeling that "the suggestion is altogether too drastic." He feels that we would not be justified in trying to feed the children at the School, using only powdered milk, - particularly since there is such a fine herd available. He says he is not in a position to say whether too many cows are being kept; perhaps a reduction in the stock would be justified. However, he feels that there certainly should be a sufficient herd kept to provide milk for the children of the School.

Dr. McDonald also points out that, as he understands it, in addition to the instruction given in the School, part of the value on the herd lies in the training in farming and dairying which it provides. To dispense with the herd would be to lose almost altogether the value from this source of instruction.

As soon as I have a reply from Mrs. Loveys, we shall pass the information on. I shall be greatly surprised if she expresses herself as favorable to the course suggested in your letter.

Yours sincerely,

2-31-7-108

8

Regina, August 4th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to the situation at the Round Lake Residential School, and the condition of the health of Reverend J.A. Card, the Principal, I have to report that Mrs. Loveys visited the Round Lake School with me on the 2nd instant. When at the school we found that Reverend Mr. Card was in hospital at Saskatoon under observation as a result of his disturbed mental condition. I have today received a telephone message from his son, Walter, who is temporarily in charge of the work at the Round Lake Residential School, to the effect that he has been informed by telephone from Saskatoon that Mr. Card's illness has been diagnosed as "hardening of the arteries", with the result that there seems a possibility that he might be in a position to return to his duties at no far distant date. In the meantime I understood from Mrs. Loveys that she is endeavouring to find someone to act temporarily as Principal at the school until Reverend Mr. Card is fit to return to his duties.

Mrs. Loveys is quite determined to continue to have a number of milch cows kept at the Round Lake School, notwithstanding the fact that I have tried to convince her that it would be much less difficult, from the point of view of the Department, to not build a cow barn at the present time, and for the school to purchase the necessary milk for the children. She emphasized the fact that the school was getting a certain amount of profit out of the surplus milk which was being produced by the milch cows, and that this extra profit was necessary for the operation of the school. Of course, in my opinion, it is for the Department to decide whether or not to make this concession in order to improve the financial conditions at the school, at the expense of the taxpayer, by building a barn large enough to house at least 12 head of cows and a bull, in addition to the horse barn which I recommended some time ago as necessary.

Mrs. Loveys suggested that a barn be built for the cows without a loft. Of course this can be done at considerably less cost than would be the cost of a hip-roofed barn with a loft. The milch cows at the school are of Holstein breeding, and if the feed is not kept in the building, and has to be taken into the building twice a day in the cold weather, it would be difficult to keep the cows warm enough that their milk supply would not be considerably reduced. Holstein cows in full milk do not do well if they are not kept warm in the winter.

I shall await the decision of the Department before taking any action to endeavour to find out what would be the cost of a suitable barn for 12 milch cows, and a bull, but with a loft, and if we are to build a barn for the cows, the same barn should serve for the horses, and should be made larger, accordingly. I would estimate the cost to be in the neighbourhood of \$10,000.00 at least. This might be reduced to \$6,000.00 if the barn is built to house 12 cows, a bull, 6 horses, and room for some calves and feed, but without a loft.

I shall appreciate being advised at a very early date as to the decision of the Department in this connection.

J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
Saskatchewan.

Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Canada.

Dear Colonel Neary:

Re: Round Lake Indian Residential
School

On my return to the office, I find correspondence regarding this school and the suggestion that the barn be not rebuilt and that the children be supplied with powdered milk. I have also the comment of Mr. Supervisor Ostrander that there is too large a herd of cattle at the Round Lake School.

As you know, I have a very great regard for Mr. Ostrander but I am wondering on what he bases his opinion that the herd is too large. It is very well to say that ten cows would be enough to take care of the present pupilage but that means that every cow is giving milk at the full capacity. Further than this, I think it would be a very great mistake to cut out all live stock on a farm situated in the Qu'Appelle Valley. As a matter of fact, horses might be dispensed with and tractors installed but I think there should be cattle on that farm.

Quite apart from the opinion of Mrs. Loveys -- which I am sure will coincide with my own -- I am writing to say that a small barn to house six horses, with harness and feed room at one end, is entirely unacceptable. We are looking for, and expecting, the erection of a barn that will house at least a reasonable number of cattle. I would suggest fifteen or twenty head, letting any of the other stock run loose.

I should be very glad to know if there is a possibility of your being in Ottawa during the next couple of weeks as I may be able to make a trip to discuss this and other matters with you personally.

With kindest regards,

Yours sincerely,

GD:HC

Round Lake Residential School

Further to our previous correspondence concerning the barn required at this school, I have now been in touch with Dr. Dorey and can provide you with additional information.

He thinks that a barn for fifteen cattle should be provided and fails to understand the need for housing six horses. He suggests that we build a barn without a loft but that we make the foundation sufficiently heavy to permit a loft being added at a later date if required.

I have included the amount of \$6000 in our Supplementary Estimates for this project and would appreciate your advise as to Dr. Dorey's suggestions.

As soon as an agreement has been reached, it is our intention to have you call for tenders for this project.

DEPARTMENT
OF
MINES AND RESOURCES

13034

File 2148-6-1-661-108

Air Mail

Regina, September 2nd, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to telephone conversation with Colonel Neary on the 27th ultimo, a plan of a suitable barn for the Round Lake Indian Residential School was prepared, and quotations given thereon by Harvey Lunam Construction Company, of Regina, after which the writer made an effort to secure quotations on the same building from contractors in Broadview, Messrs. Webb and Melanson, and Mr. W. Wellbelove. Both of these contracting firms declined to submit a tender on the building, as they both stated they had more work ahead of them than they would be able to perform before winter. After making several other enquiries as to contractors who might probably be interested, Mr. William L. Pilchak, of Stockholm, Saskatchewan, was contacted, and a quotation received from him.

Written quotations from the two contractors are enclosed herewith. It will be noted that the quotation of Harvey Lunam Construction Company is \$8,500.00 without a loft, and \$10,100.00 with a loft, while the quotations given by Mr. William L. Pilchak are \$8,000.00 without the loft, and \$10,000.00 with the loft. I am enclosing herewith a rough plan of the proposed building with a gable roof, on which the quotations are \$8,000.00 and \$8,500.00 respectively. Also enclosed is a photostatic copy of a loft and hip-roof on which, if added to the plan shown, the contractors have tendered \$10,000.00 and \$10,100.00 respectively.

It is very difficult without blue prints and specifications to get tenders quickly on a building of this kind, as very few hip-roof barns, or barns of any kind, are being erected by contractors in late years. However, the plan shown meets with the requirements of the barn necessary at the Round Lake School, and should be erected at the very earliest possible date. I would therefore recommend approval of the plan, and that the contract be awarded to Mr. William L. Pilchak, of Stockholm, Saskatchewan, who will perform the work in accordance with the plan, in either the gable roof type or hip-roof type, with loft.

While I have been rather anxious to have this barn constructed with a loft, and have so requested, I have concluded that the plan shown without a loft will prove quite satisfactory for a few years, as the barn will be warm and, although it will cool at times, when hay or other feed is being taken in or out in the winter time, it will soon become warm again, and I do not think the milch cows will suffer a great deal in the colder weather. Therefore, having given careful consideration to the whole matter, and particularly the urgent need to have a barn completed as quickly as possible, I now recommend that the barn be built without

a loft by.....

- 2 -

a loft by Mr. William L. Pilchak, of Stockholm, Saskatchewan, at the price of \$8,000.00, he to supply all material and perform all labour, at the earliest possible date.

May this matter be considered urgent, please, and the necessary authority given me to proceed, at once. There will be some delay in securing all of the material, and I am sure the barn cannot be completed in less than two months from the date of commencement, as Mr. Pilchak will not be able to engage a very large crew of men because of the fact that we are in the midst of harvest.

Dear Sir:-

I hereby submit my tender for the construction of a Barn 65' X 32½' at the Round Lake Residential School, as per plan attached. I agree to supply all material and furnish all labour for the sum of Eight Thousand Dollars (\$8000.00) if built with a Gable Roof and Ten Thousand Dollars (\$10,000.00) if built with a Hip Roof, and Loft.

I further agree to commence work as soon as I am awarded the contract, and complete the work as soon as possible.

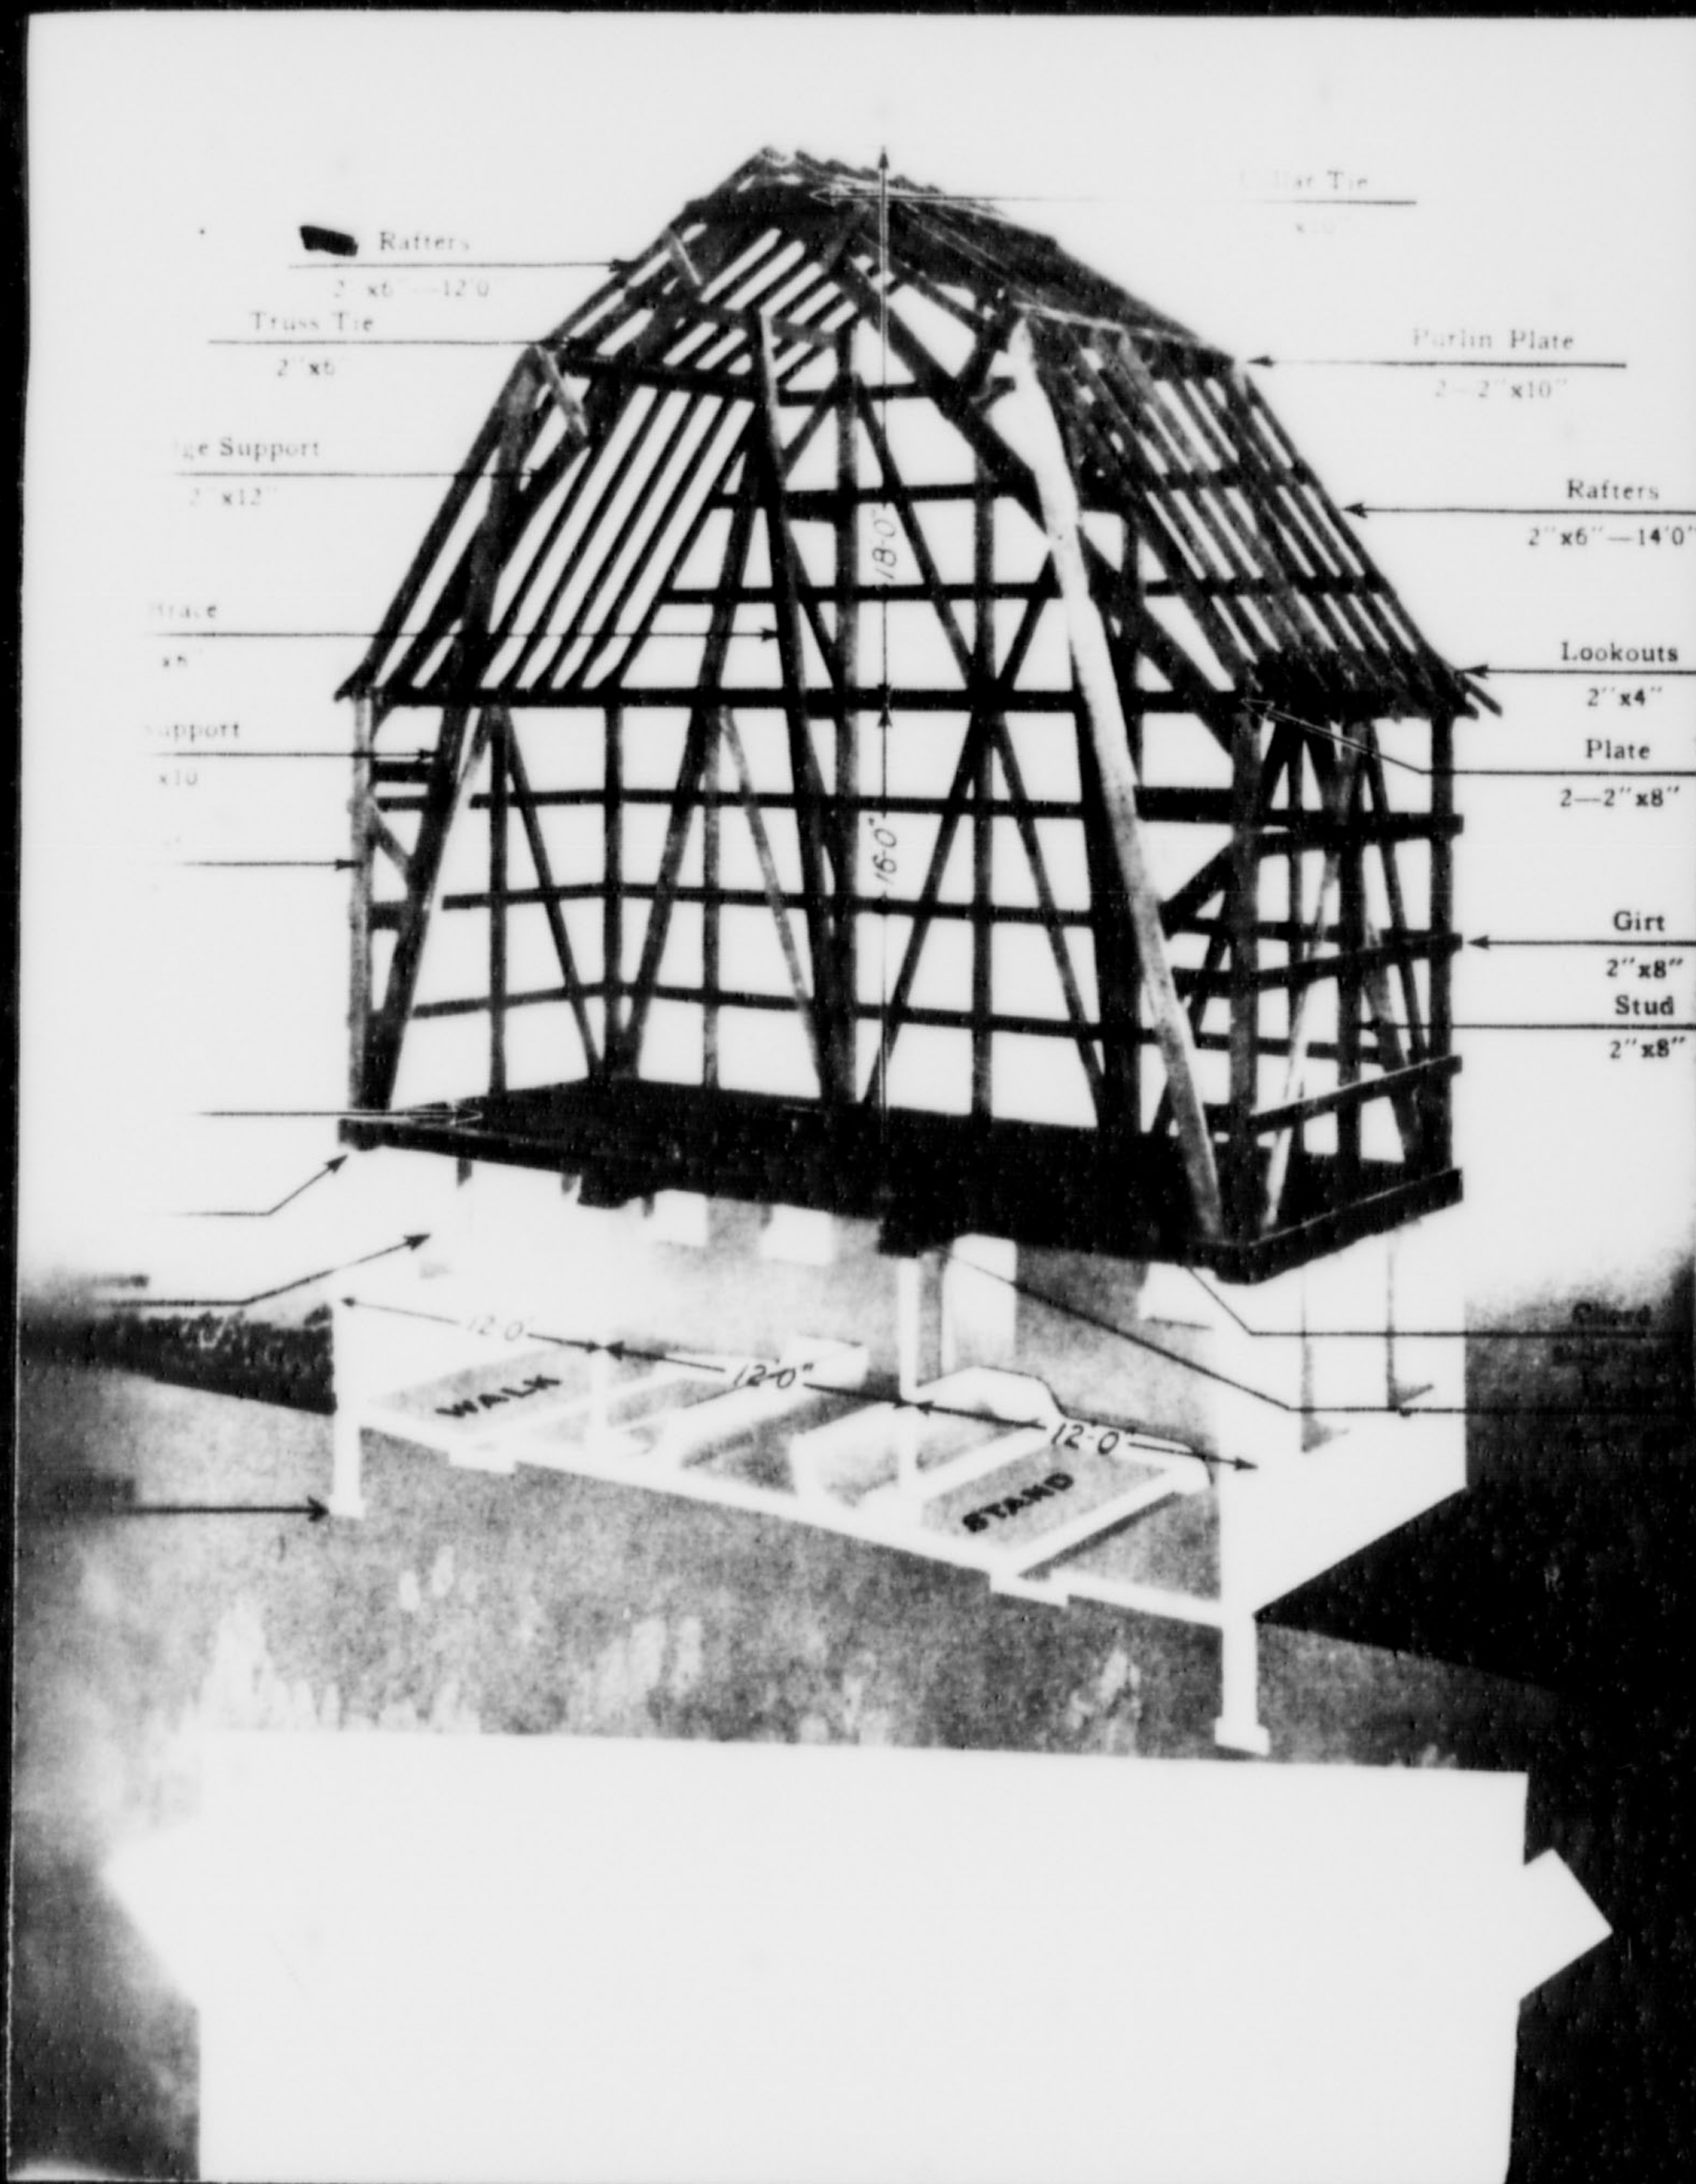

William L. Pilchak

SPECIFICATIONS ON BARN PROPOSED FOR
ROUND LAKE INDIAN RESIDENTIAL SCHOOL

The Barn to be erected on concrete footings 3 ft. below ground level, the floor to be laid on 2 x 6 stringers firmly at rest in compacted ground, and shall be on 2'6" material laid flat.

Horse stall floor to be of 2 x 4 on edge. Roof to be of 2 x 8 rafters, fitted and roofed with asphalt shingles, insulation to be composed of shavings and lime on ceiling and 2" rock wool in walls.

Exterior walls to be of 2 x 8 studdings at 16" centres, sheeted on interior, with 1" sheeting, and on exterior with 1" sheeting and on exterior with Sisalkraft paper with siding similar to cove siding. Stanchions shall be of 2 x 4 and posts of 4 x 4.

Contractors to supply all hardware such as locks, hasps, hinges, etc. Wiring to be installed, giving one outlet every 150 sq. ft. with 4 conveniently located plugs, one outside light over entrance door.

Windows to be supplied with storm sash. Trough to drain to exterior ground only.

The feed room is to be metal lined with 26 guage galvanized iron on 1" or similar material.

Drop-siding to be of fir and all material fir except spruce sheeting.

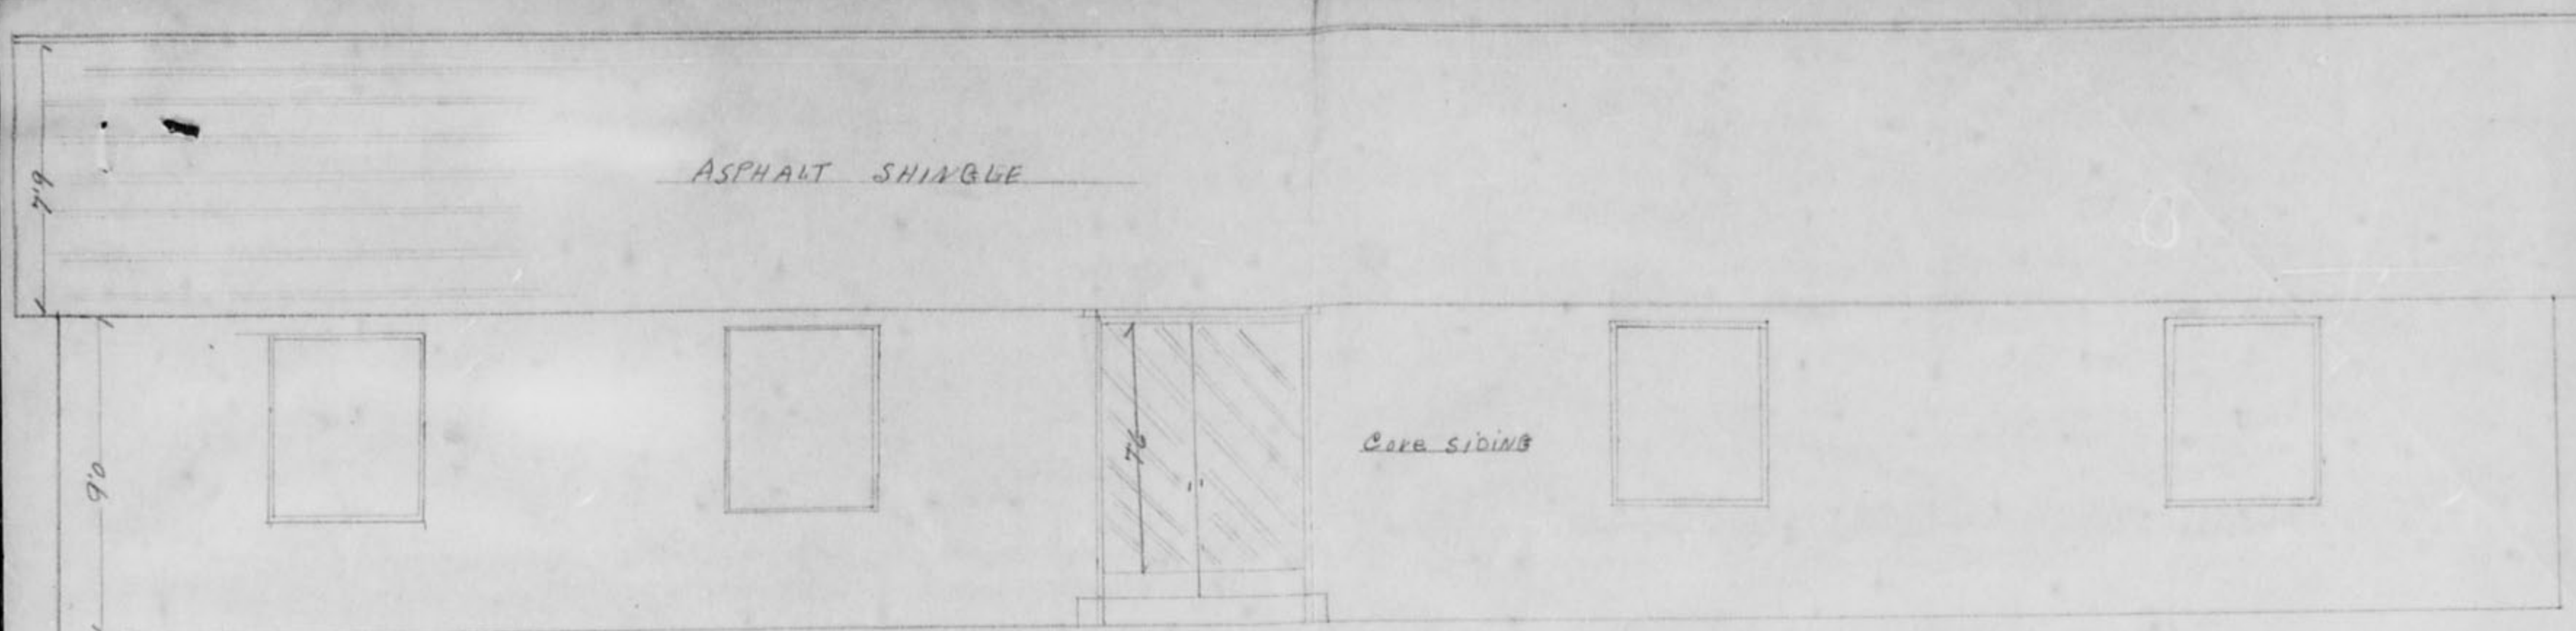

ROOF

If gable roof, no special specifications other than above. If hip-roof, specifications of rafters and bracing to be in accordance with attached photostatic copy. If hip-roof, and loft is added, the length of the studdings shall be 12' with the floor joist at 8', suitably supported and braced.

The completed job to be in accordance with prescribed practice in every particular, and subject to examination and approval of an official of the Indian Affairs Branch and the Principal of the Round Lake Indian Residential School, at any time.

TO HIS EXCELLENCY

THE GOVERNOR GENERAL IN COUNCIL:

The undersigned has the honour to report:

THAT it is immediately necessary and funds are provided in the 1949-50 estimates, Indian Affairs Branch, Mines and Resources, to construct a barn at the Round Lake Indian Residential School in the Crooked Lakes Indian Agency in the Province of Saskatchewan,

THAT it is necessary to erect this barn immediately as the former barn on the property was destroyed by fire on May 12, 1949;

THAT our Field Officials have approached building contractors in Southern Saskatchewan and were only able to obtain two tenders as follows:-

William Pilchak, Stockholm, Saskatchewan .. \$8,000.00

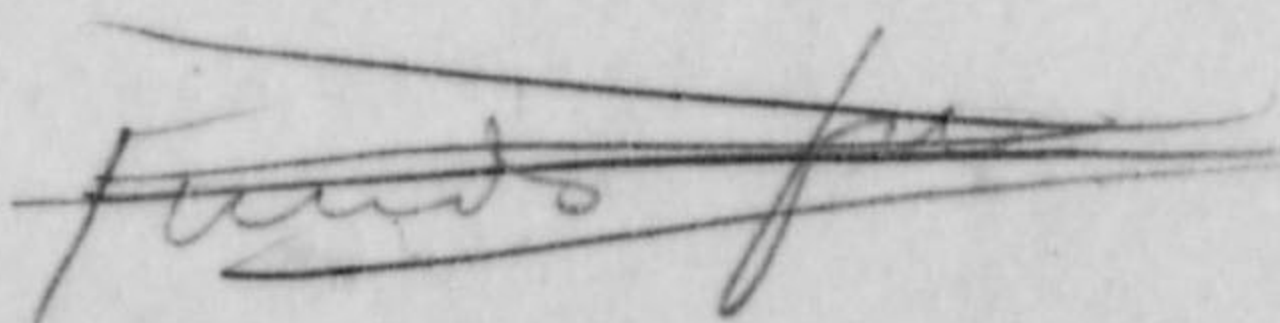

Harvey Lunam, Regina, Saskatchewan \$8,500.00

THAT the construction of this building is a pressing emergency.

The undersigned, therefore, recommends that authority be granted for the acceptance of the tender of William Pilchak in the amount of \$8,000.00 for the construction of the barn it being essential that this work be undertaken at once and carried to completion in order that the building may be available for use in the near future.

Respectfully submitted,

Minister of Mines and Resources.

Memorandum:

MISS H. MURPHY

Round Lake Residential School

Please prepare a draft Order-in-Council for the erection of a barn at the Round Lake Residential School. Base your submission on the submission on the Chenail Day School - 5 file regarding the hiring of Mr. Farley and put in the following clause:-

"Our Field Officials have approached building contractors in southern Saskatchewan and were only able to obtain two tenders as follows:-

William Pilchak, Stockholm, Saskatchewan,
..... \$8,000.00

Harvey Lunam, Regina, Saskatchewan,
..... \$8,500.00."

Then follow with the usual phrases and recommend awarding contract to lower tender, namely, that of William Pilchak.

Do this in yellow and let Mr. Phelan see your draft before sending to Deputy Minister.

Bernard F. Neary,
Superintendent of Education.

REGIONAL SUPERVISOR
OF INDIAN AGENCIES

PLEASE QUOTE

FILE 2133-6-1-661-108

661-5
13317

Regina, September 1st, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am in receipt of Department letter of the 26th ultimo, File 661-5 (E2), with which was enclosed memorandum from the Lands and Development Services re the water supply at the Round Lake Indian Residential School.

When visiting the school yesterday I enquired into this and, incidentally, asked the Principal, Reverend J.A. Card, why the test was taken, and at whose request. He informed me that he knew nothing about a test having been taken, or anyone requesting it.

The Department would naturally assume that the water referred to in the test was that being used for drinking and cooking at the school, which is not a fact. The bacteriological report reads: "Sample of drinking water from a cold water tap on first floor of school". There is no water being taken from the taps at the school for drinking purposes other than from tanks especially placed at the school for drinking purposes, and the water in these tanks is obtained from a very fine lively spring some distance from the school. It is hauled regularly to the school for drinking purposes in a clean receptacle. The water from the taps in the bathrooms and other places about the school is used for washing purposes only, and comes from a seepage well near Round Lake. It has been known for years that this water is not fit for drinking or culinary purposes, and it has never been used as such unless deliberately by some member of the staff of the school who should know better.

I do not see that any action should be taken in connection with this memorandum other than I have already taken to ascertain that the staff and the children of the school fully understand that they must drink no water with the exception of

that water which.....

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

The buildings at the Round Lake Indian Residential School are badly in need of exterior painting and there is an item in the current year's Estimates of \$3,250.00 for labour and material for this purpose.

Enclosed is a requisition amounting to \$1,842.50 for material and labour to paint the main buildings, and the classroom building at this school, being based on a quotation given by Messrs. Webb and Melanson, of Broadview, Saskatchewan.

I am submitting the matter to the Department for consideration, and it will be noted that the amount is not sub-divided as between material and labour. I have no doubt that if the Department decides to proceed with painting these buildings the necessary paint could be purchased by the Purchasing Agent, and a painter engaged to perform the labour at somewhat less than the amount quoted. However, there is some doubt about the wisdom of spending money on painting these buildings unless it is proposed that the Round Lake School will continue in operation for a number of years. If the school year ending June 30th, 1950, will be the end of the operation of the Round Lake Residential School, then I do not recommend the expenditure. However, I would be glad to receive the instructions of the Department in this connection as to the wisdom of painting at all, and the question of the material being purchased by the Purchasing Agent, instead of accepting the offer of Messrs. Webb and Melanson for both material and labour.

Re: Round Lake Indian Residential School
Your File 2157-6-1-661-108

We have your letter of the 6th instant
with reference to painting the exterior of the
above school.

As far as I am aware at the present time,
it is extremely likely that this school will be
closed at the end of June, 1950. The situation
is so doubtful that it is felt inadvisable at
the present time to expend the amount that would
be necessary to paint the exterior of the above
mentioned building.

CONTRACT AGREEMENT

THIS AGREEMENT made (in triplicate) the
..... day of in the
year Nineteen Hundred and A.D.

BETWEEN

..... William L. Filchak, Stockholm, Saskatchewan,

hereinafter called "The Contractor", of the first part;

AND His Majesty the King, represented by the Minister of
Mines and Resources of Canada, hereinafter called "The
Minister", of the second part,

WHEREAS the party of the first part, for the consider-
ation hereinafter mentioned, has agreed with the party of
the second part, to do, furnish and perform the work, materials,
matters and things required to be done, furnished and per-
formed, in the manner inafter described, in connection with
the work or works;

NOW THIS INDENTURE WITNESSETH that the said parties
hereto, hereby covenant, promise and agree, each with the other
as follows:

ARTICLE I: The covenants, clauses, provisos and conditions
of the Tender Form, General Instructions to Bidders, and
Specifications, (embracing the General Conditions, Labour
Conditions, General Specifications and Trade Specifications)
together with the drawings and such additional detail drawings,
shop drawings and instructions, as may from time to time be
furnished, shall be as fully part of this Agreement as if
attached hereto, or herein repeated, and should the Contractor
or Minister fail to sign them, they shall nevertheless be
binding on both parties.

ARTICLE II: The Contractor undertakes and agrees:-

- (a) to do, furnish and perform, the works, materials, matters and things required to be done, furnished and performed, in connection with the following work or works namely,-

The erection of a Barn 65 ft. by 32½ ft. at the
ROUND LAKE INDIAN RESIDENTIAL SCHOOL in accordance with
your tender of September 1, 1949. This barn is to be
erected with a gable roof and in accordance with the detail
and specifications attached to your tender.

- (b) to complete substantially, and to the satisfaction
of the Minister, all the work, on or before the
date or dates following, viz:-

the.....^{first}..... day of^{December}.....
Nineteen Hundred and^{Forty-Nine}.....A.D.

- (c) Time shall be deemed to be material and of the
essence of this contract.

ARTICLE III: The Minister undertakes and agrees, in con-
sideration of the premises, and subject to the performance and
observation on the part of the Contractor, of all covenants,
provisos and conditions in the specifications contained;

- (a) To pay the Contractor in current funds, for the performance of the contract
Eight Thousand Dollars (\$8,000.00)
 subject to additions and deductions as provided for in the Specifications governing the work.
- (b) To make progress payments on account thereof, as provided for in the Specifications, equal to ninety per cent (90%) of the value, proportionate to the amount of the Contract, of labour and materials incorporated into the work, as estimated by the Engineer, less the aggregate of previous payments.
- (c) On completion of the entire work, and on full performance of the covenants and clauses of the Specifications, to make full payment of the balance due under the Contract, as set out in the Specifications.

ARTICLE IV: The Contractor and the Minister for themselves, their successors, executors, administrators and assigns, hereby undertake and agree, to the full performance of the covenants contained herein.

IN WITNESS WHEREOF these presents have been
signed and sealed on behalf of His Majesty, by the Deputy
Minister of the Department of Mines and Resources, and the
Contractor, the day and year first above written.

September 21, 1949.

Mr. J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
R e g i n a, Saskatchewan.

Round Lake Residential School - Barn.

As you were informed by telegram of September 19, approval has been obtained for accepting the tender of William Pilchak, Stockholm, Saskatchewan, for the erection of this barn for an amount of \$8,000.

Enclosed is Contract Agreement, in triplicate, which should be signed by Mr. Pilchak and forward to this Department for signature by the Deputy Minister. When this has been done, two copies will be returned to you, one copy for the contractor and the other to be retained either by you or by Superintendent Kerley.

Please find attached Progress Payment forms which can be submitted by the Indian Superintendent, in accordance with Article III (b) of the contract.

This letter is being sent to you in duplicate so that you may forward a copy to Mr. Kerley.

Encl.

Philip Phelan,
Chief, Education Division.

CONTRACT AGREEMENT

THIS AGREEMENT made (in triplicate) the
..... *26th* day of *September* in the
year Nineteen Hundred and *forty-nine* A.D.

BETWEEN

..... William L. Pilchak, Stockholm, Saskatchewan,
hereinafter called "The Contractor", of the first part;

AND His Majesty the King, represented by the Minister of
Mines and Resources of Canada, hereinafter called "The
Minister", of the second part,

WHEREAS the party of the first part, for the consider-
ation hereinafter mentioned, has agreed with the party of
the second part, to do, furnish and perform the work, materials,
matters and things required to be done, furnished and per-
formed, in the manner inafter described, in connection with
the work or works;

NOW THIS INDENTURE IT ISSETH that the said parties
hereto, herby covenant, promise and agree, each with the other
as follows:

ARTICLE I: The covenants, clauses, provisos and conditions
of the Tender Form, General Instructions to Bidders, and
Specifications, (embracing the General Conditions, Labour
Conditions, General Specifications and Trade Specifications)
together with the drawings and such additional detail drawings,
shop drawings and instructions, as may from time to time be
furnished, shall be as fully part of this Agreement as if
attached hereto, or herein repeated, and should the Contractor
or Minister fail to sign them, they shall nevertheless be
binding on both parties.

- 1 -

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ARTICLE II: The Contractor undertakes and agrees:-

- (a) to do, furnish and perform, the works, materials, matters and things required to be done, furnished and performed, in connection with the following work or works namely,-

The erection of a Barn 65 ft. by 32½ ft. at the
ROUND LAKE INDIAN RESIDENTIAL SCHOOL in accordance with
your tender of September 1, 1949. This barn is to be
erected with a gable roof and in accordance with the detail
and specifications attached to your tender.

- (b) to complete substantially, and to the satisfaction
of the Minister, all the work, on or before the
date or dates following, viz:-

the.....first..... day ofDecember.....
Nineteen Hundred andForty-Nine.....A.D.

- (c) Time shall be deemed to be material and of the
essence of this contract.

ARTICLE III: The Minister undertakes and agrees, in con-
sideration of the premises, and subject to the performance and
observation on the part of the Contractor, of all covenants,
provisos and conditions in the specifications contained:

- (a) To pay the Contractor in current funds, for
the performance of the contract
Eight Thousand Dollars (\$8,000.00)
.....
..... subject to additions and
deductions as provided for in the Specifications
governing the work.
- (b) To make progress payments on account thereof, as
provided for in the Specifications, equal to
ninety per cent (90%) of the value, proportionate
to the amount of the Contract, of labour and
materials incorporated into the work, as estimated
by the Engineer, less the aggregate of previous
payments.
- (c) On completion of the entire work, and on full
performance of the covenants and clauses of the
Specifications, to make full payment of the balance
due under the Contract, as set out in the
Specifications.

ARTICLE IV: The Contractor and the Minister for themselves,
their successors, executors, administrators and assigns,
hereby undertake and agree, to the full performance of the
covenants contained herein.

IN WITNESS WHEREOF these presents have been
signed and sealed on behalf of His Majesty, by the Deputy
Minister of the Department of Mines and Resources, and the
Contractor, the day and year first above written.

DEPARTMENTAL PURCHASING AGENT

Re: Round Lake Indian
Residential School -

Attached is a requisition for a set of batteries for the above mentioned school. I also enclose a letter dated October 21st from Regional Supervisor Ostrander. We have not taken the time to make a copy of it, so when you have obtained from it the information you require, it should be returned to our office.

It is very important that the batteries should be ordered at once, and if at all possible, I hope you will be able to accept Mr. Ostrander's suggestion that he be authorized by wire to purchase the batteries from the Hart Company, at a cost of \$275.00, F.O.B. Whitewood, the railway address of the school.

FILE 2571-6-1-
661-108

Regina, October 31st, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 25th instant, File 661-5 (E1), regarding the contract for the barn at the Round Lake Indian Residential School, I have to say that I visited the Round Lake School to inspect the work of construction of the barn on the 28th instant.

Work has progressed very favourably and with as much speed as is humanly possible, with the result that Mr. Pilchak expects to have it completed by the middle of this week (the 3rd or 4th of November). He has been having trouble financing and had submitted an interim progress report the week previously, but had not received a cheque. As the work will no doubt be completed by the time the \$800.00 security cheque will have reached the Department, I did not collect it from him, and would ask that this formality be waived.

Re: Round Lake Indian Residential
School. Your File 2571-6-1-661-108

We have your letter of October 31st, and it is noted that the erection of the barn is progressing favourably, and that it is expected that it will be completed early in November.

Official letter of November 2nd explained the manner in which we handled the security deposit. Present regulations do not allow us to waive the acceptance of a security deposit cheque.

As soon as you are satisfied that the barn has been properly completed, you should forward another progress payment, and if you mark it "Rush", we will arrange to have the cheque issued immediately.

Re: Round Lake Indian Residential
School. Your File 2571-6-1-661-108

The attached Progress Payment No. 2 has been received from Superintendent Kerley. In connection with this matter, I would refer you to your letter of October 31st and our reply of November 4th.

It was inferred from your letter that the barn should be completed by this time. If so, and the work is satisfactory, you should forward a Progress Payment for the balance due the contractor, and when we receive your letter certifying that the barn has been completed, we will forward him the additional \$800.00 which was held as security.

ED
Mr. Philip Phelan,
Chief, Education Division,
Ottawa, Ont.

Dear Sir:

We just received shipment of 8 desks (seats). Our only guide to sizes was a Moyer School supplies. This shows as follows,-
No. 1 large, age 14 and adults

No. 3 medium, " 9 to 14

No. 5 small, " 5 to 9

It was the middle size we required. Since this ~~time~~ happened inadvertently may we return the four seats that have not been unpacked.

Thanking for your very kind services, we are

Yours truly,

FOR ROUND LAKE INDIAN RESIDENTIAL SCHOOL

J. A. Card

Dear Mr. Card:

Round Lake Residential School

We have your letter of November 10 with reference to the desks recently forwarded to your school.

The requisition of August 30th refers to:

"The teacher requests 8 individual seats # 3. Present seating not sufficient for small pupils"

In view of this information we ordered eight single chair desks, small size.

I suggest that you communicate with the company and ask them to exchange four of the desks which you have received for four of the medium size desks.

Yours sincerely,

Bernard F. Neary,
Supt. of Indian Education.

11769

AIR MAIL

Regina, November 14th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to Department letter of the 10th instant, File 661-5 (E1), returning Progress Report #2, in connection with the erection of the barn at the Round Lake Indian Residential School, my last visit to the school was on November 4th, and I have been away in the northern part of the province ever since. However, on November 4th I found the barn almost completed, but Mr. Pilchak was short on windows, which the lumber company at Stockholm had been promising to deliver to him for two or three weeks, and, of course, the building cannot be said to be completed until the windows are received and installed.

As stated, I have been away from the office for some time, and must remain here for two or three days to attend to urgent correspondence, therefore I shall not be able to visit the Round Lake School until toward the end of this week, and I am not prepared to make a statement that the work is completed and satisfactory until I have made another visit.

As soon as I am able to visit the school I shall communicate further with the Department. If, at that time, all the other work is completed, with the exception of the windows, I shall recommend that the progress report which has been returned to me be re-submitted, as I know that Mr. Pilchak is having some trouble financing, and I do not like to see him held up too long for a further interim payment merely because the lumber company cannot secure windows for him.

Department of Mines and Resources,
O t t a w a, Ontario.

Dear Colonel Neary: Re: Round Lake Residential School

I have received a letter from our Superintendent in Regina, Rev. R.W.K. Elliott, of which I am enclosing a copy. You will note that Mr. Elliott thinks that Mr. Card has not received much co-operation or assistance from Mr. Curley, but that is really not my reason for writing.

I am much concerned about the lighting equipment. I think the situation which Mr. Elliott has outlined is definitely dangerous, and I should be glad if you would communicate with the Agent, or whoever is responsible, to see that the matter is attended to. I am quite sure that you can do this without any reference to what has been said regarding Mr. Curley's attitude -- which may or may not be a correct statement of the situation.

Yours sincerely,

Geo. Dorey

C O P Y

Regina, Sask.
November 9, 1949.

Rev. George Dorey, D.D.,
299 Queen Street West,
TORONTO 2B, Ontario.

Dear Dr. Dorey:

On Monday I visited the Round Lake Mission and had an interesting talk to the children and a fair visit with the staff there. Mr. Card seems to be in just fair health. He does not seem to be able to stand very much extra effort. His talking with the Indian Agent seems to be a very sore spot. He has not received very much co-operation or assistance from Mr. Curley. The lighting equipment is in very poor repair. They have made several attempts to put it in shape and each time they will have light for a day or two then unannounced darkness. This is not very satisfactory for this type of residence. The carrying of coal-oil lamps and the hanging of metal lamps is a dangerous experiment amongst these youngsters.

There is also a need for some mode of transportation here. It would seem that it would be very helpful if a station wagon of some description might be made available for the transport of the staff and children when necessary from the Mission to town and back again. This station wagon might be put to very good work for the church during the summer months. Maybe we could approach the W.M.S. to do something in this regard. There seems to be a very good spirit prevailing amongst the staff and in the school as a whole.

With kind regards.

Yours very sincerely,

(signed)

R.W.K. Elliott

Dear Doctor Dorey:

We have your letter of November 15th
enclosing a copy of a letter received from Rev.
R.W.K. Elliott.

On October 29th we placed an order
with the Globelite Batteries Limited for a new
set of batteries. These were to be supplied
immediately. We wired the firm on receipt of
your letter, but have not yet had a reply. However,
I expect that the batteries are there by this time,
or if not, they will arrive in a few days.

It may interest you to know that
in a letter dated November 14th, Regional Supervisor
Ostrander advised us that the new barn is practically
completed.

Sincerely yours,

INDIAN AFFAIRS BRANCH

PLEASE QUOTE

FILE...2681-
108/6-1-661

12395

Regina, November 16, 1949.

A I R M A I L

Indian Affairs Branch,
Department of Mines & Resources,
OTTAWA, Ontario.

I am enclosing herewith a Progress Report, which is final, as the barn at the Round Lake Residential School has been completed by the Contractor, Mr. William Pilchak, as per Contract. I might say that Mr. Pilchak has left nothing that could be desired in the way of materials or workmanship in this building.

Mr. Pilchak has received \$5,400.00 less \$800.00 or his 10% deposit, which was not sent forward on account of the urgency at the time of letting the Contract, and as I stated in my letter of October 31st, I thought the \$800.00 security should be waived. This was not concurred in by reason of Departmental regulations as explained in Mr. Phelan's letter to me of November 2nd. With reference to Mr. Phelan's letter of November 4th and November 10th, I am assuming that Mr. Pilchak's deposit of \$800 is held in a Suspense Account, therefore it will be returned to him on a separate authority from the \$2600.00 requested on the enclosed Progress Report.

Mr. Pilchak's Contract price was \$8,000.00 and to date he has received \$4,600.00, therefore the balance due him is \$3,400.00 made up of: \$2,600.00 final payment plus his \$800.00 deposit.

Re: Round Lake Indian Residential
School. Your File 2681-108/6-1-661

We have your letter of the 16th instant
advising us that the barn at the above school has
been completed.

While we accepted Mr. Pilchak's tender of
\$8,000.00 for the construction of this building,
there was only an amount of \$7,100.00 included
in the Supplementary Estimates. It will, therefore,
be necessary for us to transfer an additional \$900.00
from some other project, before we can complete the
payment to him.

We are arranging to forward to him a cheque
for \$1,700.00, which together with the amount of
\$5,400.00 already expended, makes a total of \$7,100.00
as explained above. We hope to get the transfer
through within the next week, and will then forward
him the remaining \$900.00 plus the \$800.00 which was
deducted from the original payment as security.

Re: Round Lake Residential School

With reference to official letter of November 24th, we have now arranged for the transfer of sufficient funds to pay the balance due on Mr. Pilchak's contract for the erection of a barn at the above school.

A cheque for \$900.00 is going forward to Mr. Pilchak by airmail, and a cheque for \$800.00 will go forward this week. The latter amount covers the security deposit on the contract which was deducted from the first payment made to Mr. Pilchak. This particular cheque was placed with the Finance Department, and it will take a few days longer for it to be issued.

Memorandum:

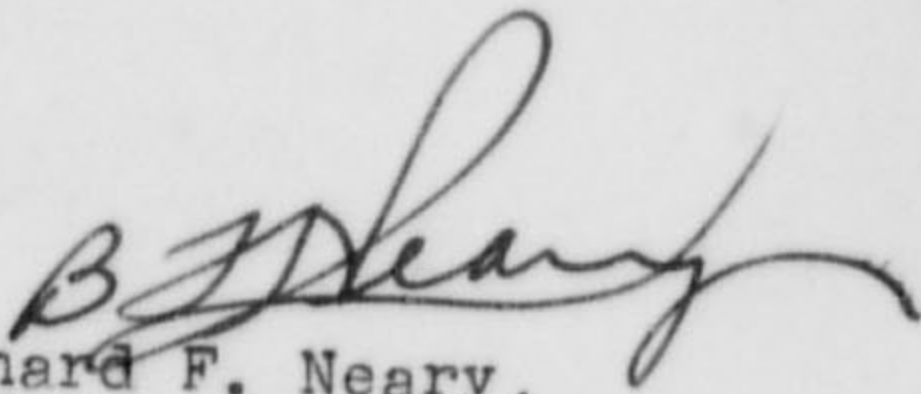

DIRECTOR

Round Lake Residential School

Please find hereunder an Army Message just received from Mr. Ostrander concerning the fire in the barn at Round Lake School. It is difficult to tell from the Army Message whether the fire was started by the school staff or by the agency staff.

This is a new barn and it is hoped that the damage to it is not serious.

21 head of cattle suffocate

STOCKHOLM, Sask., March 16 (Special).—Twenty-one head of Holstein cattle valued at \$4,000, including a fine bull, were burned or suffocated in a barn fire Wednesday at the Round Lake Indian residential school, 10 miles south of here.

Fire fighters saved the new \$10,000 barn from destruction by organizing a bucket brigade and by closing the doors after leading out several head of livestock and hauling out a burning tractor which caused the blaze.

Barn Damage \$500

Damage to the barn was estimated at \$500.

Fourteen of the fine herd lost were cows which supplied the mission with milk.

An overheated tractor which a boy had driven into the barn for the night started the fire at 4.45 p.m. by igniting a gasoline leak.

John Swanson, who was cutting ice on the lake, used his tractor to pull the burning machine from the barn. An eyewitness said his action undoubtedly saved the building by reducing the intensity of the blaze.

Led To Safety

Four horses and five or six head of cattle including several calves were led to safety before the doors were closed, smothering the fire.

Fire extinguishers and barrels of water hauled to the scene on a truck helped bring the flames under control.

The fire burned through the double ceiling to the loft in two or three places.

Cattle stabled near the tractor were killed by flames, others by suffocation.

An Old Machine

The mission tractor, an old machine, was kept in the barn at night for easier starting in the morning. It was used daily for crushing feed and sawing wood.

Round Lake mission, operated by the United church, had asked the Indian affairs branch for a new tractor which would not have to be kept in the barn.

None of the mission staff was on hand when the boy driver brought in the machine.

Fire A Year Ago

The barn, 70 to 80 feet long, replaced one which burned down a year ago with a loss of more than \$20,000.

The mission has about 80 Indian pupils who joined the staff and several farmers to fight the blaze.

Located in the Qu'Appelle valley between Stockholm and Whitewood, the mission is about 140 miles northeast of Regina.

Fuel truck overturns and burns

DAFOE, Sask., (Special). — A truck carrying diesel fuel overturned and burned four miles north of here on highway No. 6 Wednesday at 5 p.m. The driver was uninjured. He is Albert Clarke of 306 Grandview avenue, Moose Jaw.

Escaped through window

It was thought Wednesday night that the driver had swerved to avoid an oncoming car, and lost control. He made his escape from the burning vehicle by smashing a window.

The vehicle was a three-ton truck with a small tank at the rear. Total loss is estimated at \$3,000. Mr. Clarke owned the truck, which was insured, and was driving it under contract with the MacCam company of Moose Jaw.

M. Rudnitsky funeral held

PREECEVILLE, Sask., (Special) — Funeral service for Metro Rudnitsky, 43, who was crushed to death by a truck near Canora Saturday, were conducted Tuesday at the Ukrainian Catholic church here with interment in the Ukrainian Catholic cemetery.

Mr. Rudnitsky was born in Buchanan district. He married Miss J. Shabbits of Buchanan there in 1931. They kept a store in Buchanan until 1948, when they moved to Preeceville.

Surviving are his wife, three daughters, Evelyn, Grace, and Margy; a son, Nestor, all at home; his father and mother, Mr. and Mrs. B. Rudnitsky, Preeceville; two sisters, Mrs. J. Tulik, Preeceville, and Mrs. J. Statchuk, Buchanan; two brothers, Bill and Tom, both of Buchanan.

TWO-THIRDS LOST

In filleting 100 pounds of fish, there is a waste of approximately 67 pounds.

AIR MAIL

Indian Affairs Branch,
Department of Citizenship and Immigration,
OTTAWA, Ontario.

Regina, March 17th, 1950.

18512

The following is an army message sent to the Department yesterday regarding a fire at the Round Lake School, which resulted in the loss of fourteen cows and estimated damage of \$500.00 to the barn:

" MR BLANCHE CROOKED LAKE AGENCY CLERK ADVISED ME BY PHONE OF FIRE IN BARN LAST P.M. AT ROUND LAKE SCHOOL STOP REPORTS KEEPING TRACTOR IN BARN AND BACKFIRE STARTED BLAZE STOP INTERIOR OF BARN SCORCHED BUT DAMAGE TO BUILDING OF NO ACCOUNT LOSS EIGHT TO TEN COWS STOP KERLEY AT WHITE BEAR HE WILL INVESTIGATE AND REPORT FULLY IN A FEW DAYS."

Enclosed is a cutting from the Leader Post of March 16th, 1950, with reference to this fire. I have not had Mr. Kerley's report which might furnish somewhat different information from that given in the Leader Post news report. However, I believe that the Department should officially take note and protest one paragraph of this newspaper report. The source of information must have been Reverend J.A. Card, the Principal of the school. The public, who have to pay for our mistakes, are given the impression that Indian Affairs Branch was responsible for supplying a new tractor to the school and that, failing to do so, has been the cause of the fire. Mr. Card asked if the Department would supply a new tractor for his school, and he was informed that the purchase of a new tractor was not the responsibility of Indian Affairs Branch, that such replacements are regular expenses of an Indian Residential School, for which the school is being paid a per capita grant.

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

With regard to driving an overheated tractor into the barn, I do not need to point out to the Department that this was highly improper and unsafe. If a school boy took it upon himself to drive the tractor into the barn to keep it warm through the night, I have no doubt that it had been a common practice. Also if a school boy was operating the tractor for crushing feed or sawing wood without supervision of an adult member of the school staff, that, also, was definitely wrong.

There is no doubt that a request will be coming from Reverend Mr. Card for the Department to pay the cost of repairing the barn. Unless Mr. Herley's report indicates that the newspaper report is very inaccurate, I do not think that the public should bear the expense of repairing the barn which was built, at the expense of the public, only four months ago.

I wonder if the church authorities will still be quite satisfied with the present management at the school, now that they have lost about \$4,000 worth of their cattle through what looks like mismanagement and neglect.

J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
Saskatchewan.

MEMORANDUM TO THE DIRECTOR

Round Lake Residential School - Fire in Barn

Please find hereunder a preliminary report from Mr. Ostrander concerning the fire in the barn at the above school. You will note that I have already suggested to Mr. Ostrander that he counteract the mis-information given concerning the purchase of the tractor. We will further advise you with regard to the report expected from Mr. Kerley.

I hope to discuss the future of this school with you at a later date.

Bernard F. Neary,
Superintendent of Education.

FILE 6-6-2 (108)

Crooked Lake Agency,
Broadview, Sask.,
March 20th, 1950.

J.P.B.Ostrander, Esq.,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
Regina, Sask.

I investigated the fire which occurred in the stable at the Round Lake Residential School on March 15th and submit the following report.

The fire occurred at 4 P.M. The tractor had been sawing wood and the farm manager, Mr. Myles Hoggarth, was taking a truck load of wood to the school. The tractor was driven by Ronald George, a pupil aged 14. He drove the tractor into the barn and shut off the fuel and walked to the other end of the barn, he heard it sputter and then saw a flash and immediately the straw near the tractor burst into flames. The boy ran to the school and got the farm manager who was in the kitchen, and with additional help they put out the fire with extinguishers and water. To prevent draft the doors were kept closed, this made it difficult for the firefighters to remain inside for any length of time. Mr. John Swanson who was cutting ice on Round Lake came with his tractor and pulled the burning tractor from the barn. When the fire was extinguished it was found the cattle had suffocated.

Thirteen cows, one bull, two heifers and four calves died. One front tire of the tractor was burned and both rear tires damaged, the magneto was also burned. The damage to the building consisted of practically all the electric wiring, the west end of the building, ceiling and stalls badly scorched, fifty-seven panes of glass 10" X 12" were cracked or broken.

It is probable that a backfire ignited the straw and the heat from this burst the sediment bulb intensifying the flames and eventually spreading to the fuel tank which further increased its intensity.

I consider that this was gross neglect and lack of supervision on the part of the school Principal. The tractor should not have been kept in the barn as there are other buildings which could have been utilized for this purpose. Straw should not have been allowed to accumulate around the tractor. While Mr. Card told me the tractor had been used twice a week for chopping grain and cutting wood, it would seem that one full day per week would be sufficient.

I do not feel that the electric wiring should be replaced or the building repaired at this time. Unless there is a change in management I would recommend that this school be closed. I would further recommend that the cultivated land be leased this spring and the day schools built as soon as possible.

Mr. Card denied giving an interview to any newspaper reporter. The only reports were to myself and the R.C.M.P. He emphatically denied stating that he had asked the Indian Affairs Branch for a new tractor. The newspaper report was sent in by Mr. Earl Statesbury of the adjacent Bird's Point resort who was formerly an Editor in Esterhazy.

W.J.D. Kerley

PLEASE QUOTE

FILE 723-108/6-1-

661

19779

AIR MAIL

Regina, March 23rd, 1950.

Indian Affairs Branch, Department of Citizenship & Immigration,
OTTAWA, Ontario.

With further reference to my letter to the Department of the 17th instant, File 668-108/6-1-661, regarding the fire in the barn at the Round Lake Indian Residential School, enclosed is report of Indian Superintendent W.J.D. Kerley, from which negligence on the part of the school staff is noted.

It will be noted Mr. Kerley does not recommend repairing the building at this time, or replacement of the wiring unless there is a change in the school management. Further, it will be noted Mr. Kerley recommends that the cultivated land be leased this spring, as the school will have no tractor for operations. I might point out here, also, that the manner in which the land has been farmed in the past has not resulted in much income to the school.

I would particularly refer the Department to the last paragraph of Mr. Kerley's report wherein he states Mr. Card denied giving an interview to any newspaper reporter. I regret to say I do not believe this, as only Mr. Card would know that he had asked me to ask the Department to supply the school with a new tractor. He gave as his reason for thinking that the Department should supply a tractor, the fact that, having lost a quantity of fuel wood as the result of the fire which destroyed the former barn, he was forced to replenish the fuel supply with funds which otherwise might have been used to buy a new tractor. However, I told him I would not recommend it. Regarding Mr. Card's emphatic denial that he had asked the Department for a new tractor, this may be true, in a sense, but he did ask me to ask the Department for one.

J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
Saskatchewan.

April 4, 1950.

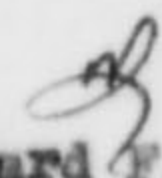

Mr. J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
304 Post Office Building,
R e g i n a, Saskatchewan.

Round Lake Residential School.

Reference your 723-108/6-1-66
of March 23rd.

I have passed to the Director both your above letter and the report from Mr. Kerley concerning the fire at this school. We have discussed the matter at some length and as you are aware, I will be seeing Dr. Dorey and Mrs. Loveys in Toronto next week. I intend to press for the closing of this school and the erection of the four one-room day schools which have been provided for in our Estimates. I naturally expect considerable opposition from Mrs. Loveys.

Mr. A. Dewar, M. P., in whose constituency this school is situated, has assured me of his support, if necessary. He intends to visit this district during the Easter recess and you might advise Mr. Kerley that he can anticipate a visit from Mr. Dewar. I am sending this letter to you in duplicate.

Bernard F. Neary,
Superintendent of Education.

DIARY DATE

SET FOR.....

15-3-50:

1. With reference to the above date, telephone call was received from the Rev. J.A. CARD, Principal of the Round Lake Indian Residential School, Round Lake, Sask., to the effect that there had been a fire in the barn and that it had apparently been started from a spark in the tractor, which was stored in the barn.

2. In view of the fact, that a fire had been started by one of the boys on the 13-5-49 at which time the barn had been completely destroyed. The above information was transmitted to S/Sgt. Parsons, Yorkton Sub-Div., H.Q., and he advised that Cpl. Symonds would contact the writer on the following date.

16-3-50:

3. This date patrol was made via P.C.#8608 to Stockholm, Sask. where the writer was contacted by Cpl. Symonds, patrol then continued to the Round Lake Dist., and subsequent investigation made.

4. The barn in question is 60 ft in length by 20 ft. wide, and housed the milch cows & work horses used by the mission.

5. Investigation disclosed a large area of scorched wood on the ceiling and walls at the rear or west end of the structure. There was no sign of any burning on the floor and the burning portion on the walls was approx. three feet from the floor level, indicating that the flames had flashed upwards. Fire damage to the structure had been of a superficial nature and the barn does not appear to be structurally weakened, as a result of this fire.

6. Approx. 20 head of cattle were overcome by the smoke from the burning tractor. Total Damage incurred by the fire is approx. \$5,000.00

7. Apparently during the cold weather, the tractor has been stored in the rear of the barn to facilitate easier starting of same. The tractor in question is an old Model John Deere machine and was used by the school for instruction of the pupils in proper farming methods. And was used by several of the older boys.

8. On the day of the fire the tractor was operated by one Ronald GEORGE (Age 14) at the end of the day he had driven the tractor into the front of the barn and parked it at the rear near the rear door.

9. The following is a copy of statement received from
Ronald GEORGE (T.I.).

I am 14 years of age and attend Round Lake Indian Residential School. I have been here for five years. Last fall I started driving one of the tractors at the school. Yesterday March 15th. 1950 we were sawing wood with the tractor. At about 4.00 p.m. we quit and I drove the tractor into the barn. The tractor had been running steady for about one hour sawing wood and was hot, the water in the radiator was boiling. I drove the tractor in the east door and through the barn and stopped just inside the door on the west end. I shut the throttle off and also the gas. The tractor engine stopped almost immediately. It turned over a few times, but was completely stopped by the time I was off the seat and about two or three yards away. I started to leave the barn by the east door. Just as I got to the door I turned to pull the door shut and just as I had pulled the door a couple of feet I noticed flame from the tractor. They appeared to be coming from underneath the gas tank and were shooting up on the left side of the tank. At that time the flame was about as high as the gas tank itself. There were no flames from the right side of the tank or the tractor. I left the door as it was and ran to the residence and yelled that there was a fire on the tractor. Mr. Myles HOGGARTH, the farm manager and Murray WEMMAN, the engineer and some others were having lunch in the kitchen, they all ran to the barn to help fight the fire and to get the stock out of the barn. I was not smoking yesterday when I put the tractor in the barn and did not have any matches in my pockets. As a matter of fact I haven't had a smoke since Xmas holidays I believe the fire started from a spark from a spark plug or the wiring. There was quite a bit of gas leaking from the glass bowl underneath the gas tank. This gas used to drip and run down the pipe to the carburetor and then drip down on the side of the engine near the spark plug. This same tractor caught on fire last fall when I was one-waying in the field. The fire started that time underneath the carburetor on the left side I jumped off the tractor and threw some dirt on the blaze which was only about five or six inches high and put it out. Albert WASACASE was fixing fence about $\frac{1}{2}$ mile away and I went and got him to start the tractor for me. I told him about the tractor catching on fire, but didn't tell the farm manager as he was away on holidays at the time. This tractor is a John Deere and is quite old. There has always been a leak near the glass bowl under the tank ever since I have been driving the tractor and the side of the engine was most always wet with gas under the carburetor. After I notified the men of the fire I went back to the barn with them and helped them fight fire. I carried water and caught a team of horses which we were going to use to pull the tractor out of the barn, however they got another tractor and pulled it out of with that.

Cont'd from Page -2-:

STATEMENT OF: Ronald GEORGE, cont'd.

I believe there were 21 cattle died in the fire. Some were milch cows & some hieifers and one bull.

SGD: Ronald GEORGE.

10. Myles HOGGARTH the farm manager was interviewed in this connection and the following statement obtained.

STATEMENT OF: Myles HOGGARTH, Farm Manager, Round Lake Indian Residential School, Round Lake, Sask.
BEGINS: I have been employed as farm manager at the Round Lake Indian Residential School since Nov. 1st., 1949.

On Wed. March 15th., 1950 I was employed with my duties around the farm yard. Five of the boys were sawing wood during the afternoon. About 4.00 p.m. the boys quit sawing wood. I saw Ronald GEORGE leave the sawing outfit with the tractor preparatory to putting it in the barn.

I went to the kitchen in the meantime and was having lunch when Ronald GEORGE came in & stated the tractor was afire. I think I had only been indoors approx. five minutes when young GEORGE came in and informed me of the fire.

I went immediately to the barn and began to fight fire. We pulled the tractor out through the back door and away from the barn with another tractor. Most of the fire appeared to be on the tractor. We put it out with chemical extinguishers.

Twenty head of cattle including a bull were overcome by smoke.

The tractor in question is an old model, approx. 11 years old. It was a John Deere Model AR. This tractor needed considerable repairing before spring work could be commenced with it.

Ronald GEORGE has never mentioned to me that the tractor caught fire in the field with him one day.

The sediment bowl on the tractor did leak at one time, but was repaired around Christmas time. I had not noticed it leaking lately, but possibly it could have leaked and I did not notice it.

SGD: Myles F. HOGGARTH.

Ext 2. 11. In interviewing HOGGARTH it appeared that this man did not understand the workings of a tractor and had very little mechanical experience and it is thought quite possible that the engine was leaking gas from the sediment bowl and that HOGGARTH did not notice it.

12. Rev. J. A. CARD was also interviewed, but could give no further information in regards to the fire

Cont'd on Page -4-.

Cont'd from Page -3-.

13. The engineer in charge of the Residence steam plant it was learned has been promoted to the job from that of boys supervisor and has no prior knowledge of steam firing.

14. In view of the age of this building, it is considered very unsafe to have one unskilled in Steam Engineering in charge of the heating plant due to the fact of the possibility of fires and the fact that some 80 children reside in the building.

15. The aspect of the tractor catching fire from the leak from the sediment bowl has been discussed with competent mechanics and they have advised that this could start the fire. Also it was learned that on that model tractor, unless the petcocks on the sides of the cylinders are opened this could also cause a fire.

16. In view of the foregoing it is thought that the fire herein is of purely accidental nature and no further Police action is considered necessary.

17. Extra copies attached for the information of Dept's concerned.

CONCLUDED HERE:

Cst.
(E.W. Tyler) #14561.

YORKTON - Sask.

SIR: Re: Round Lake Indian Residential School,
Fire Prevention Act - Round Lake Dist. Sask.

1. (16-3-50) This date whilst investigating re: Round Lake Indian Residential School - Accidental Burning of Barn, Round Lake Dist. Sask. (Please refer to Esterhazy Detachment report dated 18-3-50), it was brought to the attention of the Writer & Cst. E.W. Tyler that the above school was considered a fire trap and unsafe to be used as a residential school for the following reasons:

- (a) The wiring is very old, faulty and bare in a number of places.
- (b) The heating system is antiquated and not considered safe, particularly when the steam firing is being done by an unskilled engineer (ref. para 14 of report referred to in para (1) herein.)
- (c) Discipline appears to be lax and the 80 Indian children housed in this structure apparently have little or no training in fire prevention and the action to take in case of fire.
- (d) The building in question is very old and of frame construction and would afford very little chance for small children to escape in case of fire.

Ext 1 2. Informant in this regard is very concerned regarding the children housed in this school. He advises that at the time the barn first burned, on 13-5-49, this building was condemned by the Provincial Authorities, however, same has continued to be used without any action being taken concerning any of the fire hazards for which the building was condemned. Subject stated that on a recent visit to the school he had noted an open container part full of hi-test gasoline sitting on the floor of a store room and in the adjacent room Indian children were doing the laundry. He advised that it was a well known fact that the Indian boys smoked whenever the opportunity afforded itself. He added that the basement of the school was littered with trash and inflammable material, consisting of part full cans of paint, rags, etc., which had accumulated in the basement over a period of years. Informant also stated that the last 20 or 30 Indian children to arrive at the school had never participated in fire drill at the time of his visit.

3. The Informant wished the Police to take some action herein as he felt that the school should be closed or rebuilt and fire-proofed. He was advised that same would be reported and brought to the attention of the authorities concerned.

4. This matter is reported for record purposes and for whatever action is deemed necessary. Extra copies attached.

(CONCLUDED HERE)

T.H. Symonds, 11695, Cpl.
Yorkton Section NCO.

The O.C., "F" Div.,
R.C.M.P., REGINA.

1. Forwarded for your information. Could the conditions outlined herein be taken up with the proper authorities with a view to rectifying the situation, please?

Re: Burning of Barn at Round Lake
Residential School, Round Lake
Dist., Sask.

We enclose copy of a report from Esterhazy, Sask., dated 18 March, 1950, which sets out the results of investigation concerning the fire which occurred in a barn on the Round Lake Indian Reservation. This fire was apparently of accidental origin and originated with a tractor which had been driven into the barn.

2. There is also enclosed copy of a report which deals with the apparently unsatisfactory condition of the Residential School on the Round Lake Reserve which is considered to be a fire hazard. This report is forwarded to you inasmuch as you may wish to have some enquiries made concerning the reported conditions at this school.

Dear Sir:

Re: Round Lake Indian Residential
School.

The above school was visited on March 23rd
by Indian Agent Kerley, D. G. N. Morrison and myself.
Mr. Kerley was most anxious that we visit this school
and note its general condition.

The school is operated by the W.M.S. of the
United Church of Canada with Rev. Card as principal.
There are only 62 pupils in attendance.

The main portion of the school building was
constructed about 50 years ago and additions have
been made since that time, although none of these
have been built within the last 30 years. The building
is of frame construction throughout - and is in very
poor condition. Externally, numerous windows are broken
out, the roof sags, the wooden shingles on the roof
are poor, the concrete work in the foundations and
steps is cracked and doors to the outside entrances
to the basement are off their hinges. Internally,
while for the most part the school seemed clean, many
things are out-dated or in poor condition. In a
bathroom, off the boys' dormitory, the floor has
been partially removed to facilitate some plumbing
repairs but has not been relaid. In the boys' play-
room, the water and heat has been shut off as the
room could not be kept warm due to broken windowpanes
and drafty doors. There were numerous places
throughout the building where the plaster was falling
from the wall.

In all parts of the building, the great fire
hazard is most noticeable. Evidence of a fire having
started in the boiler room wall can be seen. Only
extremely prompt action could prevent a catastrophe

. 2

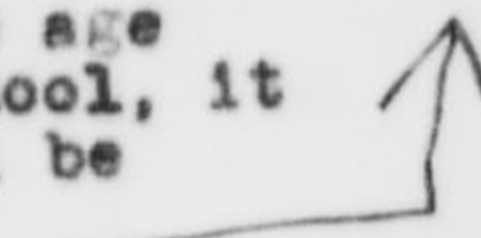

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in this room. A new boiler has been installed within the last year or two but the feed door is warped preventing its locking. This is done by a wooden pole which is propped against the door from the woodpile immediately in front of the boiler. The fire escapes (fireman type) are accessible through windows. The school is lighted by a 32 volt Delco plant which is housed in a small shed, some 75 feet from the main building. In this building we found an uncovered pail of gasoline, beside a stove which showed signs of having been burning earlier in the day. A new set of batteries has recently been purchased for this lighting plant. At several places in the wiring throughout the building, we saw where connections had fused.

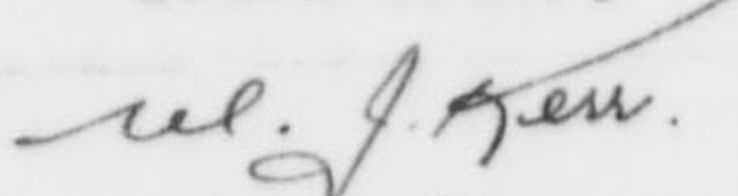

The outbuildings with the exception of the barn appear in a run-down condition. The granaries are leaning in all directions with doors partially off their hinges; the fences are in poor shape and the electric wires carrying power to the barn and pig pen are about six feet above the ground.

The barn, which was constructed last year, was partially destroyed by fire about six weeks ago. The fire originated from a tractor which was stored in the barn in cold weather. About 75% of the electric wiring in the barn will have to be replaced, but there is very little damage to the barn itself. This building is in good condition. Fire extinguishers from the school were used to extinguish the fire in the barn. They were taken to Whitewood to be recharged. Although they had been ready for 2 or 3 days, no one from the school had taken them out.

The fire hazard at this school should be definitely checked by a fire inspector, as I am of the opinion the building is unsafe. From the age and the general run-down condition of the school, it would appear quite reasonable that the school be closed immediately. 

The only redeeming feature of the school is its location. The buildings are on a shelf on the north side overlooking Round Lake, which is approximately 300 feet distant. The land slopes gradually down to the lake affording excellent drainage.

Yours truly,

WJK:MD

Round Lake Indian Residential School

Dear Doctor Dorey:

The Superintendent of Education has given me a full report on his recent discussions with Mrs. Loveys and yourself concerning the future of this school.

Since then, I have received two very disturbing reports, one from our engineers and the other from the Royal Canadian Mounted Police.

I am attaching a copy of the report from the Department of Resources and Development and would draw your attention particularly to the following features which are indicative of poor management and organization on the part of the school principal and staff:

- (1) Numerous broken window panes;
- (2) The very dangerous fire hazard which exists and the apparent lack of discipline which has resulted in the warping of the door on the new boiler;

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- (3) The uncovered pail of gasoline;
- (4) The failure to obtain the fire extinguishers when refilled;
- (5) The dilapidated condition of the buildings generally.

The Royal Canadian Mounted Police report covers the circumstances which recently resulted in the second fire at this school. Pertinent extracts are as follows:

"Subject stated that on a recent visit to the school he had noted an open container part full of hi-test gasoline sitting on the floor of a store room and in the adjacent room Indian children were doing the laundry. He advised that it was a well known fact that the Indian boys smoked whenever the opportunity afforded itself. He added that the basement of the school was littered with trash and inflammable material, consisting of part full cans of paint, rags, etc., which had accumulated in the basement over a period of years. Informant also stated that the last 20 or 30 Indian children to arrive at the school had never participated in fire drill at the time of his visit."

.....

"In interviewing HOGGARTH it appeared that this man did not understand the workings of a tractor and had very little mechanical experience and it is thought quite possible that the engine was leaking gas from the sediment bowl and that HOGGARTH did not notice it."

.....

"The engineer in charge of the Residence steam plant it was learned had been promoted to the job from that of boys supervisor and has no prior knowledge of steam firing."

"In view of the age of this building, it is considered very unsafe to have one unskilled in Steam Engineering in

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

charge of the heating plant due to the fact of the possibility of fires and the fact that some 80 children reside in the building."

After reading these reports, I called the Superintendent of Education in for a further discussion and it was decided that this school should be closed immediately.

We realize that the building is old and in need of replacement, but there can be no excuse for the present careless management which has already resulted in two fires and which could so easily result in the destruction of the main building. It is felt that the Department would be remiss in its duty if it failed to safeguard the lives of the staff and the 60 odd Indian children at this school.

Therefore, I direct that you advise the principal and the staff of the Round Lake Residential School that arrangements are to be made to have all the Indian children at this school returned to their homes as soon as possible.

In the meantime it is our intention to establish an educational survey committee to review the facts we have already obtained concerning the possibility of replacing this residential school with day schools and to report to the Department as to the type of educational facilities which should be provided for the Indian children presently served by the Round Lake Residential School.

It would be appreciated if you could advise me by May 15th as to the name of one of your officials who could serve on this committee. It is our intention to appoint one of the officials of the Education Division to this committee and to request the Department of Education in Saskatchewan to appoint a third member.

Yours sincerely,

Director.

OTTAWA, May 1, 1950.

MEMORANDUM

DEPUTY MINISTER

I am forwarding herewith our file on the Round Lake Indian Residential School, which school, because of recent disturbing reports on conditions there, the branch proposes to close. Before moving in the matter, however, I am forwarding herewith a draft of a letter to Reverend Doctor Dorey, Secretary of the Board of Home Missions, of the United Church of Canada, advising him of the action the department considers should be taken in the circumstances and would appreciate your instructions in this regard.

The branch takes the position that it would be unwise to permit a situation such as exists at this school, to continue. It might, however, ease matters for the church concerned if action as proposed were deferred until the close of the current school year.

Mr. A. E. Dewar, M.P., in whose constituency this school is situated, is aware of the conditions referred to and I should like to suggest that his views on the action proposed be obtained before a letter is forwarded to Doctor Dorey.

Round Lake Indian Residential School

Dear Mr. Dewar:

I am advised that officials of the Education Division of the Indian Affairs Branch have made you acquainted with conditions now existing at the above school. It is our intention to write to Dr. George Dorey, D.D., Secretary of the Board of Home Missions of the United Church of Canada and to draw his attention to the unsatisfactory conditions which exist due to poor management on the part of the Principal and an inefficient staff. We intend to have this school closed immediately and to have all the children returned to their homes because of the dangerous conditions existing due to lack of proper control by the Principal and other staff members.

It is our intention to establish an Educational Survey Committee to review the facts we have already obtained concerning the possibility of replacing the Residential School with Day Schools and to report to the Department as to the type of educational facilities which should be provided for the Indian children presently served by the Round Lake Residential School. We have asked Dr. Dorey to name one of his officials who could serve on this Committee. It is our intention to appoint one of the officials of the Education Division

Dear Mr. Dewar:

Round Lake Indian Residential School

I am advised that officials of the Education Division of the Indian Affairs Branch have acquainted you with conditions at the above named school. It is our intention to write to Reverend Doctor George Dorey, Secretary of the Board of Home Missions of the United Church of Canada, drawing to his attention the unsatisfactory situation which exists, due to poor management on the part of the Principal and his inefficient staff. Circumstances are such that we propose to close this school and to arrange for the return of the children to their homes.

We have in mind the establishing of an Educational Survey Committee to review the facts already obtained concerning the proposal to replace the residential school with day schools, and to report to the department on the type of educational facilities which should be provided for the Indian children presently served by the Round Lake Residential School. We have asked Doctor Dorey to name one of his officials to serve on this Committee, to which the branch will appoint a member of the staff of the Education Division. We are also requesting the Department of Education of Saskatchewan to appoint a member.

Before taking the steps indicated above, we would appreciate your comments concerning the proposals made.

Yours sincerely,

W. J. C.

RA COPY for *C. H. B. J. Neary*
Round Lake 661
A OTTAWA, Ont.,
May 11, 1950.

Hon. W. E. Harris,
Minister of Citizenship and Immigration,
Ottawa, Ont.

Dear Mr. Harris:

Re: Round Lake Indian Residential
School.

This will acknowledge receipt of your letter of May 9th wherein you set forth certain proposals relating to the Round Lake Indian Residential School.

For your information would say that for some time past I have been rather concerned with the particular problem that the operation of this school has presented. As stated in your letter, I have been fully aware of the poor management in evidence.

My first comment would be that in view of the fact that the school term is almost completed and also the fact that the weather is much warmer, which would naturally necessitate less heating of the building, I believe it would be wise to work out some scheme whereby school could be kept open until the end of June. The way this could be done would be to appoint a night watchman full time for the next two months and then we would be sure that no fire or calamity would befall the inmates. Should this proposal be received kindly, I would at this time recommend Thomas Miskiman of Broadview, whom your Agent in that area could contact and put to work for this particular job.

I am quite in accord with your views as expressed regarding the appointment of an educational survey committee to review the facts at hand in regard to this school. My own views of course are that as soon as conveniently possible that it is wise to do away with all residential schools and get down to a day school basis. In the experience that I have had and advice from those working closely with Indians, I am inclined to believe that day schools are one of the basic solutions to the Indian problem. I quite agree that many more isolated areas

.....2

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

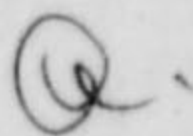

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

require the residential type of school but for general purposes, I cannot too strongly urge the doing away with of residential schools.

In consideration of the foregoing therefore, I would suggest that no time be lost in getting your board established and a decision arrived at. Should the committee decide in favour of the day schools, these will have to be built some time during the summer. So that the children do not have to suffer, all haste is necessary to get this project started.

Trusting that these observations are of service and assuring you of my continued interest,

Yours very sincerely,

Austin E. Dewar,
M. P. for Qu'Appelle.

Reverend George Dorsey, D.D.,
Secretary, Board of Home Missions,
The United Church of Canada,
299 Queen Street West,
Toronto 2B, Ontario.

Dear Doctor Dorsey:

Round Lake Indian Residential School

The Superintendent of Education has given me a full report on his recent discussions with Mrs. Loveys and yourself concerning the future of this school. Since then, I have received two very disturbing reports, one from our engineers and the other from the Royal Canadian Mounted Police.

I am attaching a copy of the report from the Department of Resources and Development and would draw your attention particularly to the following features which are indicative of poor management and organization on the part of the school principal and staff:

- (1) Numerous broken window panes -
- (2) The very dangerous fire hazard which exists and the apparent lack of discipline which has resulted in the warping of the door on the new boiler -
- (3) The uncovered pail of gasoline -
- (4) The failure to obtain the fire extinguishers when refilled -
- (5) The dilapidated condition of the buildings generally.

The Royal Canadian Mounted Police report covers the circumstances which recently resulted in the second fire at this school. Pertinent extracts are as follows:

"Subject stated that on a recent visit to the school he had noted an open container part full of hi-test gasoline sitting on the floor of a store room and in the adjacent room Indian children were doing the laundry. He advised that it was a well known fact that the Indian boys smoked whenever the opportunity afforded itself. He added that the basement of the school was littered with trash and inflammable material, consisting of part full cans of paint, rags, etc., which had accumulated in the basement over a period of years. Informant also stated that the last 20 or 30 Indian children to arrive at the school had never participated in fire drill at the time of his visit."

.....

.....

"In interviewing HOGGARTH it appeared that this man did not understand the workings of a tractor and had very little mechanical experience and it is thought quite possible that the engine was leaking gas from the sediment bowl and that HOGGARTH did not notice it."

.....

.....

"The engineer in charge of the Residence steam plant it was learned had been promoted to the job from that of boys supervisor and has no prior knowledge of steam firing.

"In view of the age of this building, it is considered very unsafe to have one unskilled in Steam Engineering in charge of the heating plant due to the fact of the possibility of fires and the fact that some 80 children reside in the building."

After reading these reports, I called the Superintendent of Education in for a further discussion and it was decided that this school should be closed immediately.

April 5th, 1950.

W. W. Perrie, Esq.,
Supervising Engineer,
Engineering & Construction Service,
Department of Resources & Development,
Regina, Saskatchewan.

Dear Sir:

Re: Round Lake Indian Residential School.

The above school was visited on March 23rd by Indian Agent Kerley, D. G. N. Morrison and myself. Mr. Kerley was most anxious that we visit this school and note its general condition.

The school is operated by the W.M.S. of the United Church of Canada with Rev. Card as principal. There are only 62 pupils in attendance.

The main portion of the school building was constructed about 50 years ago and additions have been made since that time, although none of these have been built within the last 30 years. The building is of frame construction throughout - and is in very poor condition. Externally, numerous windows are broken out, the roof sags, the wooden shingles on the roof are poor, the concrete work in the foundations and steps is cracked and doors to the outside entrances to the basement are off their hinges. Internally, while for the most part the school seemed clean, many things are out-dated or in poor condition. In a bathroom, off the boys' dormitory, the floor has been partially removed to facilitate some plumbing repairs but has not been relaid. In the boys' playroom, the water and heat has been shut off as the room could not be kept warm due to broken window-panes and drafty doors. There were numerous places throughout the building where the plaster was falling from the wall.

In all parts of the building, the great fire hazard is most noticeable. Evidence of a fire having started in the boiler room wall can be seen. Only extremely prompt action could prevent a catastrophe in this room. A new boiler has been installed within the last year or two but the feed door is warped preventing its locking. This is done by a wooden pole which is propped against the door from the woodpile immediately

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in front of the boiler. The fire escapes (fireman type) are accessible through windows. The school is lighted by a 32 volt Delco plant which is housed in a small shed, some 75 feet from the main building. In this building we found an uncovered pail of gasoline, beside a stove which showed signs of having been burning earlier in the day. A new set of batteries has recently been purchased for this lighting plant. At several places in the wiring throughout the building, we saw where connections had fused.

The outbuildings with the exception of the barn appear in a run-down condition. The granaries are leaning in all directions with doors partially off their hinges; the fences are in poor shape, and the electric wires carrying power to the barn and pig pen are about six feet above the ground.

The barn, which was constructed last year, was partially destroyed by fire about six weeks ago. The fire originated from a tractor which was stored in the barn in cold weather. About 75% of the electric wiring in the barn will have to be replaced, but there is very little damage to the barn itself. This building is in good condition. Fire extinguishers from the school were used to extinguish the fire in the barn. They were taken to Whitewood to be recharged. Although they had been ready for 2 or 3 days, no one from the school had taken them out.

The fire hazard at this school should be definitely checked by a fire inspector, as I am of the opinion the building is unsafe. From the age and the general run-down condition of the school, it would appear quite reasonable that the school be closed immediately.

The only redeeming feature of the school is its location. The buildings are on a shelf on the north side overlooking Round Lake, which is approximately 300 feet distant. The land slopes gradually down to the lake affording excellent drainage.

Yours truly,

W. J. Kerr,
Engineering and Construction
Service.

Major D. M. MacKay

Director Indian Affairs Branch

Department of Citizenship and Immigration
Ottawa, Canada

Dear Major MacKay:

Your correspondence regarding the Indian Residential School at Round Lake has been received and the Woman's Missionary Society is very disturbed that the closing of this School should be considered almost immediately.

We have known that the health of our principal has been poor but it was impossible for us to get a medical report which would say that he should not continue his work and at no time has the Department definitely told us that a change should be made, until I had a conversation on the telephone with Mr. Ostrander, when I was in Regina in February. We took action immediately and told Mr. Card that his services would terminate on June 30th.

As far as the condition of the School is concerned, you may recall that we have been requesting a new School for 15 years, knowing that the present one was in poor condition. While no steps were taken toward building, we always received encouragement and we were definitely told that the building of the Round Lake School was high on the list of new buildings.

While we have accepted responsibility for the staff and we know the condition of Mr. Card's health, we understood that the supervision of the School was under the Department of Indian Affairs and if the school buildings are in such poor condition, we should have been made aware of this by those who have been supervising.

While we believe in the Day School Program, we cannot overlook the fact that our schools are being closed too quickly and our constituency will not accept the closing of Round Lake without protest.

From last September until February, the children were

"The engineer in charge of the Residence steam plant it was learned had been promoted to the job from that of boys supervisor and has no prior knowledge of steam firing.

"In view of the age of this building, it is considered very unsafe to have one unskilled in Steam Engineering in charge of the heating plant due to the fact of the possibility of fires and the fact that some 80 children reside in the building."

After reading these reports, I called the Superintendent of Education in for a further discussion and it was decided that this school should be closed immediately.

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

We realize that the building is old and in need of replacement, but there can be no excuse for the present careless management which has already resulted in two fires and which could so easily result in the destruction of the main building. It is felt that the department would be remiss in its duty if it failed to safeguard the lives of the staff and the 60 odd Indian children at this school.

It would be appreciated if you would advise the principal and the staff of the Round Lake Residential School that arrangements are to be made to have all the Indian children at this school returned to their homes as soon as possible. In the meantime, it is our intention to establish an educational survey committee to review the facts we have already obtained concerning the possibility of replacing this residential school with day schools and to report to the department as to the type of educational facilities which should be provided for the Indian children presently served by the Round Lake Residential School.

Would you kindly advise me by the 15th of May, if possible, as to the name of one of your officials who could serve on this committee? It is our intention to appoint one of the officials of the Education Division to this committee and to request the Department of Education in Saskatchewan to appoint a third member.

Yours sincerely,

Director.

Deputy Minister's Office

DEPUTY MINISTER

MEMORANDUM

I am forwarding herewith our file on the Round Lake Indian Residential School, which school, because of recent disturbing reports on conditions there, the branch proposes to close. Before moving in the matter, however, I am forwarding herewith a draft of a letter to Reverend Doctor Dorey, Secretary of the Board of Home Missions, of the United Church of Canada, advising him of the action the department considers should be taken in the circumstances and would appreciate your instructions in this regard.

The branch takes the position that it would be unwise to permit a situation such as exists at this school, to continue. It might, however, ease matters for the church concerned if action as proposed were deferred until the close of the current school year.

Mr. A. E. Dewar, M.P., in whose constituency this school is situated, is aware of the conditions referred to and I should like to suggest that his views on the action proposed be obtained before a letter is forwarded to Doctor Dorey.

Before writing to Dr. Dorey, please a letter to Mr. Dewar M.P. such letter to be signed by the Minister.

Round Lake Indian Residential School

Dear Mr. Dewar:

I am advised that officials of the Education Division of the Indian Affairs Branch have made you acquainted with conditions now existing at the above school. It is our intention to write to Dr. George Dorey, D.D., Secretary of the Board of Home Missions of the United Church of Canada and to draw his attention to the unsatisfactory conditions which exist due to poor management on the part of the Principal and an inefficient staff. We intend to have this school closed immediately and to have all the children returned to their homes because of the dangerous conditions existing due to lack of proper control by the Principal and other staff members.

It is our intention to establish an Educational Survey Committee to review the facts we have already obtained concerning the possibility of replacing the Residential School with Day Schools and to report to the Department as to the type of educational facilities which should be provided for the Indian children presently served by the Round Lake Residential School. We have asked Dr. Dorey to name one of his officials who could serve on this Committee. It is our intention to appoint one of the officials of the Education Division

W. W. Perrie, Esq.,
Supervising Engineer,
Engineering & Construction Service,
Department of Resources & Development,
Regina, Saskatchewan.

Dear Sir:

Re: Round Lake Indian Residential School.

The above school was visited on March 23rd by Indian Agent Kerley, D. G. N. Morrison and myself. Mr. Kerley was most anxious that we visit this school and note its general condition.

The school is operated by the W.M.S. of the United Church of Canada with Rev. Card as principal. There are only 62 pupils in attendance.

The main portion of the school building was constructed about 50 years ago and additions have been made since that time, although none of these have been built within the last 30 years. The building is of frame construction throughout - and is in very poor condition. Externally, numerous windows are broken out, the roof sags, the wooden shingles on the roof are poor, the concrete work in the foundations and steps is cracked and doors to the outside entrances to the basement are off their hinges. Internally, while for the most part the school seemed clean, many things are out-dated or in poor condition. In a bathroom, off the boys' dormitory, the floor has been partially removed to facilitate some plumbing repairs but has not been relaid. In the boys' playroom, the water and heat has been shut off as the room could not be kept warm due to broken window-panes and drafty doors. There were numerous places throughout the building where the plaster was falling from the wall.

In all parts of the building, the great fire hazard is most noticeable. Evidence of a fire having started in the boiler room wall can be seen. Only extremely prompt action could prevent a catastrophe in this room. A new boiler has been installed within the last year or two but the feed door is warped preventing its locking. This is done by a wooden pole which is propped against the door from the woodpile immediately

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

in front of the boiler. The fire escapes (fireman type) are accessible through windows. The school is lighted by a 32 volt Delco plant which is housed in a small shed, some 75 feet from the main building. In this building we found an uncovered pail of gasoline, beside a stove which showed signs of having been burning earlier in the day. A new set of batteries has recently been purchased for this lighting plant. At several places in the wiring throughout the building, we saw where connections had fused.

The outbuildings with the exception of the barn appear in a run-down condition. The granaries are leaning in all directions with doors partially off their hinges; the fences are in poor shape, and the electric wires carrying power to the barn and pig pen are about six feet above the ground.

The barn, which was constructed last year, was partially destroyed by fire about six weeks ago. The fire originated from a tractor which was stored in the barn in cold weather. About 75% of the electric wiring in the barn will have to be replaced, but there is very little damage to the barn itself. This building is in good condition. Fire extinguishers from the school were used to extinguish the fire in the barn. They were taken to Whitewood to be recharged. Although they had been ready for 2 or 3 days, no one from the school had taken them out.

The fire hazard at this school should be definitely checked by a fire inspector, as I am of the opinion the building is unsafe. From the age and the general run-down condition of the school, it would appear quite reasonable that the school be closed immediately.

The only redeeming feature of the school is its location. The buildings are on a shelf on the north side overlooking Round Lake, which is approximately 300 feet distant. The land slopes gradually down to the lake affording excellent drainage.

Yours truly,

W. J. Kerr,
Engineering and Construction
Service.

Dear Mayor Mackay

Your letter of May 20. marked "Confidential" was forwarded to me here -

I am very sorry to read this whole report. I have sent it on to Mr. W. H. Loveys as this school is operated by the Roman's Missionary Society.

I have asked Mr. Loveys to give the whole matter her immediate consideration and as I shall be in the West until the 20. of June to take the necessary action.

Two things give me the greatest concern.

1. That Pound Lake is to be closed immediately and that it would seem that it is not to be reopened as a Residential School. We had hoped that it might continue its operations with a person in charge who might effect the transition in an orderly fashion as was the case at Nunee. May I also point out that our experience would indicate that there is only the slightest possibility of school accommodation being available within a year. In the meantime the children will have nowhere to go and under such circumstances I can see - based again on experience - that other religious bodies will entice the children into other schools.

2. On Friday last I had a talk with Rev. J. Staley of Edmonton, Mr. Gooderham and Mr. Robertson. It seems clear that when the term opens in September the attendance at Edmonton

will not likely be more than 80 or 50 % capacity - Under such circumstances we cannot operate without a serious loss. We discussed certain possibilities such as - turning the school over to the Medical Service - Bringing up the stories who are without accommodation and for whom it is proposed to build an addition at Hurley. This latter does not seem as hopeful or possible as it might appear to be logical.

My great concern is that the Constituency which our Board represents will rebel against closing any more schools operated by Protestant Churches while every school operated by the Roman Catholic Church is filled and in some cases with our children -

So far as our Board is concerned we believe in the Day School Programme intelligently applied but we cannot overlook the fact that to many of our supporters it looks like selling our children down the river - We should not be asked to go too fast or too far in a hurry.

May I point out that Norway House School which we need and which cannot be replaced by Day Schools has now been out of existence 5 years - We have suffered from the lack of this school - I hope to hear that a start is being made at rebuilding this season.

As soon as possible I shall visit Ottawa to discuss these matters -

Yours sincerely
G. Dorey.

Reverend George Dorey, D.D.,
Secretary, Board of Home Missions,
The United Church of Canada,
299 Queen Street West,
Toronto 2B, Ontario.

Dear Doctor Dorey:

Round Lake Indian Residential School

The Superintendent of Education has given me a full report on his recent discussions with Mrs. Loveys and yourself concerning the future of this school. Since then, I have received two very disturbing reports, one from our engineers and the other from the Royal Canadian Mounted Police.

I am attaching a copy of the report from the Department of Resources and Development and would draw your attention particularly to the following features which are indicative of poor management and organization on the part of the school principal and staff:

- (1) Numerous broken window panes -
- (2) The very dangerous fire hazard which exists and the apparent lack of discipline which has resulted in the warping of the door on the new boiler -
- (3) The uncovered pail of gasoline -
- (4) The failure to obtain the fire extinguishers when refilled -
- (5) The dilapidated condition of the buildings generally.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Royal Canadian Mounted Police report covers the circumstances which recently resulted in the second fire at this school. Pertinent extracts are as follows:

"Subject stated that on a recent visit to the school he had noted an open container part full of hi-test gasoline sitting on the floor of a store room and in the adjacent room Indian children were doing the laundry. He advised that it was a well known fact that the Indian boys smoked whenever the opportunity afforded itself. He added that the basement of the school was littered with trash and inflammable material, consisting of part full cans of paint, rags, etc., which had accumulated in the basement over a period of years. Informant also stated that the last 20 or 30 Indian children to arrive at the school had never participated in fire drill at the time of his visit."

.....

"In interviewing HOGGARTH it appeared that this man did not understand the workings of a tractor and had very little mechanical experience and it is thought quite possible that the engine was leaking gas from the sediment bowl and that HOGGARTH did not notice it."

.....

"The engineer in charge of the Residence steam plant it was learned had been promoted to the job from that of boys supervisor and has no prior knowledge of steam firing.

"In view of the age of this building, it is considered very unsafe to have one unskilled in Steam Engineering in charge of the heating plant due to the fact of the possibility of fires and the fact that some 80 children reside in the building."

After reading these reports, I called the Superintendent of Education in for a further discussion and it was decided that this school should be closed immediately.

Dear Sir:

The officials of the Education Division of the Indian Affairs Branch have proposed that a thorough educational survey be made of the Indian reservations which are served by the Round Lake and the Cowessess Indian Residential Schools. It has been suggested that this survey be made by a committee set up for the purpose in order to determine the educational facilities required for all the children of school age.

It is our intention to appoint one representative from the Education Division of the Indian Affairs Branch to this educational survey committee. While the Round Lake Residential School is being considered, a representative of the United Church of Canada will sit on the committee. While the Cowessess Residential School is being considered, a representative of the Roman Catholic Church will sit on the committee.

In order that we may obtain as complete a report as possible, it has been recommended that the third member of the committee be an inspector of schools or official of the Department of Education of the Province of Saskatchewan. It would be appreciated, therefore, if you would advise as to whether you could appoint such an official to assist in the proposed survey. If this is possible, we would prefer an inspector or official such as Dr. Buck ^{your Director of Correspondence Education} who has had previous wide experience in inspecting Indian schools.

It is felt that this survey could be carried out in August and will probably be completed by the committee in two

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

ARCHIVES PUBLIQUES
CANADA

Ottawa, July 5, 1950.

Memorandum:

DEPUTY MINISTER

Round Lake Indian Residential School

Cowessess Indian Residential School

As you are aware from previous correspondence, the Round Lake Residential School has deteriorated considerably during the past few years and we have contemplated the necessity of closing this institution.

This matter was referred to Mr. Austin E. Dewar, M.P., with the recommendation that we establish an educational survey committee to review all the facts already obtained concerning the proposal to replace this residential school with day schools. His reply was in the affirmative and I have therefore prepared the attached letter, addressed to the Deputy Minister of Education for the Province of Saskatchewan.

You are also aware of the reasons for including in this survey the nearby Cowessess Residential School, operated by the Roman Catholic Church. I believe that Mr. Dewar has informed the Minister as to the advisability of including both these schools in the proposed survey.

To summarize, therefore, we would establish two educational survey committees composed as follows:

1. Round Lake Residential School:

- (a) A nominee of the Indian Affairs Branch,
- (b) A nominee of the Department of Education, Province of Saskatchewan,
- (c) A nominee of the United Church of Canada.

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

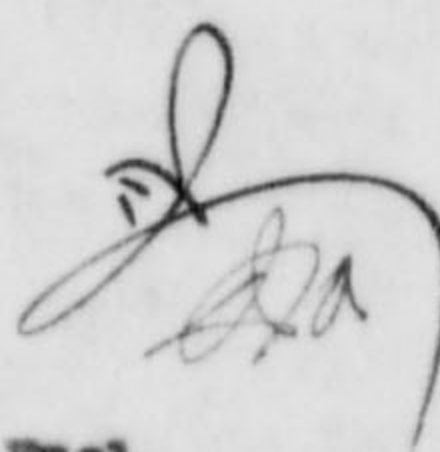

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. Cowessess Residential School:

- (a) A nominee of the Indian Affairs Branch,
- (b) A nominee of the Department of Education,
Province of Saskatchewan,
- (c) A nominee of Roman Catholic Church.

It is felt that in this way all sides will be heard and we can then place before the Minister a firm educational policy which can be followed on these two reserves. The 1944 census shows the following population:

<u>Reserve</u>	<u>United Church</u>	<u>Roman Catholic</u>
Cowessess	25	381
Kahkewistahaw	160	48
Ochapowace	131	26

AIR MAIL

Dear Mr. Fortier:

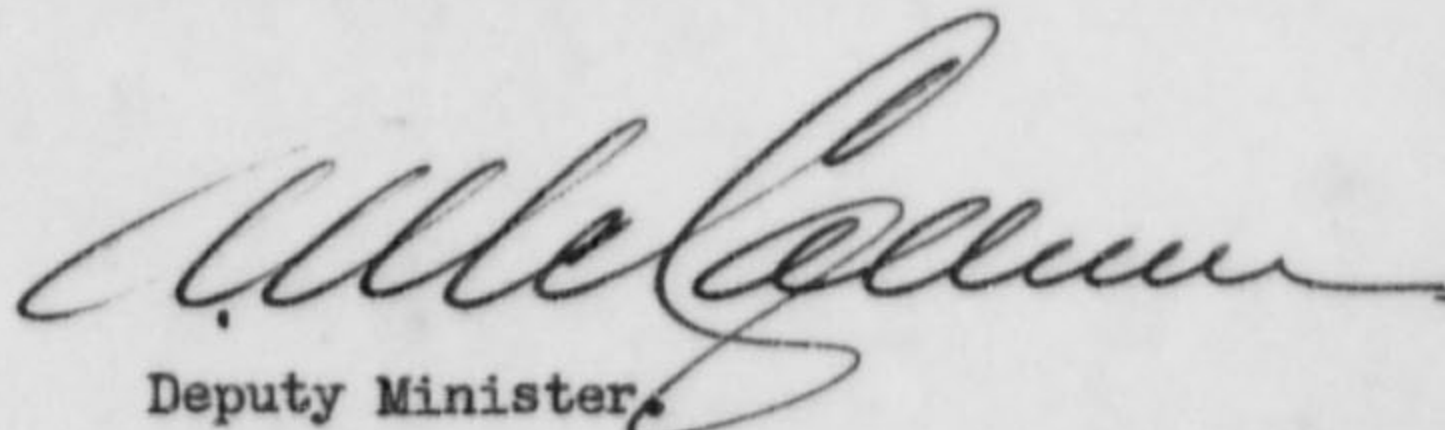

I regret the long delay in answering your letter of July 5th, 1950.

Arrangements which you suggest will be most satisfactory to us and we will be pleased to make the services of Dr. G. J. Buck of our Correspondence School available for the two week period which you suggest.

I have been in telephone conversation with Mr. Ostrander of your Department and informed him of our willingness to participate in the proposed survey.

My delay in reply will undoubtedly mean something of a rush as far as your Department is concerned. We will, however, be ready to make the services of Dr. Buck available within a matter of hours of being notified of the time at which the survey is to commence.

Yours faithfully,

Deputy Minister.

Colonel Neary:
Crooked Lake Agency Educational Survey:
(Round Lake and Cowessess Residential Schools).

You said that you had not yet heard from Rev. Dr. Dorey regarding representation of his church on the committee. Perhaps one more letter is necessary, warning him that it may require two weeks of his nominee's time. I attach a copy of a letter which should help the church nominee appreciate the job he is expected to do.

We also have to give Mr. Supt. Kerby time to make some preparations.

It would be helpful, too, to see the existing schools at work. Rev. A. Piché will have Qu'Appelle functioning early in September and would be able to deputize his responsibilities there.

All fairs and counter-attractions will be over after Labour Day. The Indians may be "home". We shall know also how the railroads are.

I suggest, therefore, a "firm" date of Monday, Sept. 18 to begin sittings, etc.

For file purposes would not the "one" file be more convenient?

Round Lake Educational Survey

Dear Doctor Dorey:

On July 4th a letter was written to Mrs. Loveys
with regard to the educational survey proposed for Round Lake and
Cowessess.

I attach a copy of this letter and would
appreciate a reply so that we can proceed with the survey as soon
as possible.

Yours sincerely,

Bernard F. Neary,
Superintendent of Education,

Encl.

BFN/EM

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

, August 3, 1950.

W.J.D. Kerley, Esq.,
Supt. of Indian Agency,
Broadview, Sask.

My dear Mr. Kerley:

Under separate cover there are going forward to you maps, specially printed on white paper of the following reserves:

No. 71	Ochapowace
No. 72	Kakewistahew
No. 72A	Kakewistahew
No. 73	Cowessess
No. 74	Sakimay

These are for use by the educational survey committee which is to inquire into educational needs on these reserves some time this autumn, in August, I hope.

There is very little detail on these maps and there appears to be a lot of preliminary work necessary on them in order to show the following:

- Existing and proposed roads.
- Existing and proposed power lines.
- Existing and possible sources of water supply.
- Existing Indian schools.
- Provincial schools within walking distance.
- Home-locations coloured to show whether the denominational affiliation is Catholic, non-Catholic or aboriginal.
- The band number of the head of the house.
- The quality of the land for economic purposes.

You are probably aware of the proposed composition of the committee which is:

..2

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

- (a) A Branch official
- (b) A provincial education official
- (c) A representative of the denomination concerned.

There will, therefore, likely be two committees, each deliberating on those school matters with which each of the two larger denominations is concerned. It may be possible, however, for the travelling and exploration to be done by all the members of the committee together so as to save the time of certain officials, but this consideration is at the option of the ecclesiastical members of the committee.

The duration of the sittings, travelling, hearings, etc. will depend upon the completeness of the information available from recently prepared maps, statistics and reports, and the number of persons who wish to be heard by the committee(s). We must try to avoid any long procession of Indian individuals who desire to make representations, and at the same time avoid being influenced by petitions, signed by many although engineered by only a few.

In surveys conducted elsewhere by the Department white residents of the area have offered or been invited to give their views especially when such persons have a professional or official political relation to local education such as inspectors or trustees.

Certain accommodation and conveniences are necessary. The committee members will probably prefer the hotel at Whitewood. In default of a recording device, a shorthand writer will be desirable at several sessions. A place for the committee to meet in privacy will be necessary - a place furnished sufficiently to permit a few visitors at a time. Transportation will, of course, be required. Favourable weather is something for which we shall hope, and we shall hope also not to disturb unduly the ordinary business of the agency which is probably great enough at this season.

Reverend Father Piche of Qu'Appelle school is already designated as a member of the committee and the ecclesiastical authorities of the area are all probably aware of the intended survey. It would seem in order, therefore, to acquaint the Chiefs and Councillors with what is intended, although the dates have still to be determined.

OTTAWA, Ontario.

With reference to Department letter of the 2nd instant, File 661-5 (E), re the Round Lake Indian Residential School and proposed educational survey of the Crooked Lake area, I have to say that I communicated with Mr. McCallum, Deputy Minister of Education, on the 5th instant, and was informed by him that he would appoint an official from the Department of Education to take part in the educational survey within a few days.

On the 8th instant I received a telephone call from Dr. Buck to the effect that he had been informed by the Minister that he is to be the representative of the Department of Education in the proposed survey. He also stated that he will be available on short notice when informed of the date the survey will commence.

Reverend Sir:

Attached is a copy of the notes regarding the educational survey concerned with Cowessiss, and some forms which you may desire some colleague to complete.

In the interval between now and our first meeting some additions to the agenda may occur to you.

I hope we shall all find satisfaction in this undertaking.

Yours most sincerely,

C. A. Clark

Rev. Fr. Ficki, O.M.I.,

Principal,

Qu'Appelle Indian Residential School.

My dear Dr. Buck:

Attached is a copy of some notes regarding the educational survey in the Crooked Lake Agency. These notes correspond generally to parallel activities in other Indian areas. Usually we have to consider denominational interests, and the "procedure" allows for that.

In addition to what you may suggest for inclusion in the agenda, you may be able to give some attention in advance to that Metis school which is a sort of wing of the Cowessess Residential school. Your Department may have some limitations on any proposal for integration.

Yours most sincerely,

C.A. Clark

Crooked Lake Agency Educational Survey

1. Date to begin: Monday, September 18

2. Place and time of first meeting:

Indian Superintendent's Office,
Broadview, Saskatchewan.

10.30 AM

Hotels suggested: Whitewood (14 miles east of Broadview)
Broadview (not modern).

3. (a) Area of Special interest:

Indian Reserve No. 71	Ochapowace
72	Kahkewistahaw
72A	" "
73	Cowessess
74	Sakimay

These are situated north of C.P.R. mainline
between Whitewood and Grenfell, Saskatchewan.

(b) Comparative studies of:

White Bear - 50 miles south of Whitewood
Assiniboine - 50 miles west of Whitewood

4. Some schools of special interest:

Round Lake (U.C.) Indian Residential School
Cowessess (R.C.) Indian Residential School
Assiniboine inter-denominational school (Indian)
White Bear separate denominational schools (Indian)
Cowessess Day School (Metis)

5. Main purpose of survey:

To make recommendations concerning the school

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

ARCHIVES PUBLIQUES
CANADA

5 (cont.)

- 2 -

facilities required for all children of the bands listed in 3 (a). Such recommendations may be arrived at by reaching agreement on answers to such questions as:

- a. What is the potential school enrolment taking into account the denominational affiliation of families?
- b. Where do these children live?
- c. What homes provide adequate living conditions for school children during the whole year?
- d. For how many children is boarding-school accommodation really necessary?
- e. Where should such accommodation be provided?
- f. Is it possible, in respect of the residential schools:
 - (1) to reduce the number of boarders?
 - (2) to increase the number of pupils enrolled?
 - (3) to organize and administer these schools more efficiently in all departments?
- g. (1) What changes or adaptations of the existing installations or in the use thereof seem advisable?
(2) Will existing or projected provincial schools enrol Indian pupils?
- h. If additional school buildings are necessary:
 - (1) Where should they be sited and what arrangements for light and water are possible?
 - (2) What children should attend them?
 - (3) How many classrooms should each such additional school contain?
 - (4) How will the pupils get to school?
 - (5) Where will the teachers live?

Indian Affairs. (RG 10, Volume 6333, file 661-5, part 6)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

6. ~~E~~. Persons to be consulted:

- (a) Representative Indians and others who desire to be heard or whom the Committee designates.
- (b) Clergymen associated with the lands listed
- (c) Principals, teachers and staff of the schools
- (d) Trustees and officials who are concerned with any schools coming within the Committee's purview
- (e) Field Officials of the Indian Affairs Branch
- (f) Members of the Dominion and Provincial Parliaments

7. ~~E~~. Methods of getting the facts:

- (a) Guided tours of the reserves and visits to schools and homes
- (b) Study of departmental documents, maps, population analysis, reports of economic and social conditions
- (c) Recorded interviews and discussions

8. ~~E~~. Procedure:

Monday September 18. Morning session devoted to planning - study of maps, review of statistics, In the afternoon, weather permitting, an orientation tour of the special area. Evening sessions will likely be necessary. Ecclesiastical representatives on the committee may absent themselves from sessions at which their interests are not to receive attention.

Crooked Lake Agency Educational Survey

Please find attached notes made by our Educational Survey Officer concerning the educational survey to be made of the above agency in mid September. The place and time of the first meeting have been set for the office of the Indian Superintendent at Broadview, Saskatchewan, for 10.30 A.M., Monday September 18.

This information has already been passed directly to Dr. Buck, Father Piche, and Dr. Dorey (whose representative has not yet been named).

You will find in the attached note various points concerning the survey which will assist both Mr. Kerley and yourself. A copy of this letter is being sent directly to Mr. Kerley.

Bernard F. Neary,
Superintendent of Education.

Dear Sir:

Re Indian Residential School, Round Lake
Sask.

I have to-day received a further report from our Fire Inspector that little or no change has been made in the above mentioned building since our original inspection of May 23rd, 1950.

So far as this office is concerned, we do not believe that any changes could be made in this particular building which would make the building a reasonably safe place to house these children in. We have condemned the building to you as of May 23rd and I do not hesitate to once again draw to your attention that we have condemned the building and wish some action to be taken on this matter.

We have to-day forwarded a copy of our report to the Rev. J. Ormiston upon his request.

Yours truly,

R. E. Tiffin,
Fire Commissioner.

IN YOUR REPLY REFER TO
No. 5
TO DATE OF THIS LETTER.

Balcarres, Sask., Oct. 23rd. 1913 191

Ref.: Your Letter 191 No.

447833

Sir,-

I have the honour to submit herewith a report
on the Round Lake Boarding school, which was visited
by me on the 17th of this month.

Staff.

Rev. H. McKay	Principal.
Miss Munro	Natron
Miss Reid	Asst. Natron
Mr. Godfrey	Farmer
F. McKay	Teacher (Indian)

1. At the time of my visit there were 31 children
in attendance, although the returns and register show
there are 41 enrolled. The explanation given was that
the children were at home helping their parents. To
my mind this excuse is not sufficient. It is most
unusual to find 25% of the children enrolled at home,
and I understand it is without the consent of the
Department or the Resident Agent. I would advise
that the Principal be instructed to get the children
in at once, and in future to get authority before
letting them go home. Otherwise this practice will
become a great nuisance and a hindrance to the

Ottawa.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

447833

advancement of the children.

2. The children were clean and looked exceedingly healthy. The school is fortunate in having a first class Matron and ⁵ Asst. Matron.

3. The ^{main} building, in which is situated the living and quarters of the girls, the Staff, and the kitchen and dining room, is a very old building and very dilapidated, as has been already reported. Much of the furniture is wrecked and it is difficult to make the place look right. The boys' dormitory is, in my opinion, hardly fit for further use.

4. I found the closets in bad shape. You will remember I have before complained about this condition of affairs. The Principal is altogether too careless about matters of this kind.

5. The surroundings of the school are in bad condition, especially the stables, and I would find fault even with an Indian if he allowed his premises to get into such shape. It was noon when I made my visit to the stables and I found they had not been cleaned and the animals were standing in a litter several inches deep. Attached to the stable is an old log building, half fallen down, in which there were a number of pigs, - a most unsightly place and a poor example to Indians. The yards too, presented a poor example for Indians, and on the whole the place is far from what a training school should be.

6. The home farm consists of 130 acres of land, of which 100 acres was in crop this year. Seventy acres produced 2,200 bushels ^{wheat}; 20 acres, 1,000 ^{oats} bus. and 10 acres ^{barley} 500 bushels. There are seventy head of cattle owned

Collected material
3/9/10/12

by the Institution, -twenty of these are kept at the school and fifty elsewhere.

7. Over a year ago some five carloads of lumber was brought out to the school, -some of it is very fine flooring and siding. This has been piled very carelessly and in some cases just thrown off the loads and in consequence of being exposed to the weather it is badly warped and in bad shape generally. It is hard to understand why the lumber was not piled up properly in the first place and how people ^{could} stand by and see thousands of dollars worth of material going to waste. I instructed Mr. McKay to have it repiled and covered. This, of course, is Church property, but nevertheless it should not be allowed to go to waste.

8. I understand that the teacher employed at this school last year was not very competent. The work in the class room was not anything like as advanced as I found it on previous occasions. At present my Indian boy, Fred McKay, is teaching. He had been in charge only a few days, and consequently I cannot say much about his work.

9. Financially the school is in good condition. When the grant for the quarter ended Sept. 30th, 1913, is received there will be a credit balance after paying all outstanding accounts.

Mr. McKay does not reside at the school but is living on his own farm which adjoins the school property.

I have the honour to be,

Sir,

Your obedient servant,

H. M. Graham

South Saskatchewan Inspectorate,

IN YOUR REPLY REFER TO
No. 5
TO DATE OF THIS LETTER.

Balcarres, Sask., Feb. 20th 1915

Ref.: Your Letter

Sir,-

I have the honour to inform you that I visited the Round Lake Boarding school on the 8th. of the month.

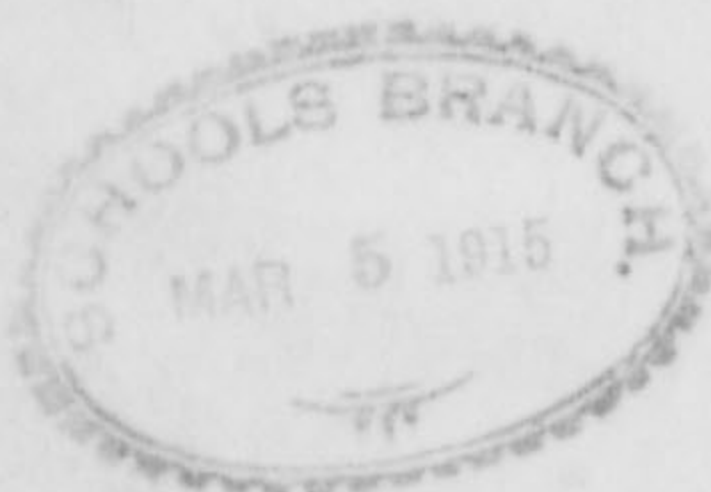

1. I regret to say that I found general conditions about the school proper, in very poor shape. The building, as you know, is in a most dilapidated condition and has been in this shape for several years. It has been going from bad to worse until it has got to such a state that it is really unfit for the purpose for which it was intended.

2. A description of the boys' dormitory would not be out of place. The room is situated in a detached building over the class-room. The walls and ceiling are dirty and the floor worn out in places. The paint which was on the floor at one time has about disappeared. The beds are old iron ones with the enamel worn off. In almost every case the springs are badly broken and many of them are for beds of a different make, so that the frames are projecting over the sides of the beds. Each is supplied with four or five patchwork quilts, between which the boys sleep.

Duncan C. Scott, Esq.,

Deputy Supt. General of Indian Affairs,
Ottawa.

In

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In the centre of the room is a small old sheet iron stove(a most dangerous affair) ,which supplies the heat for the whole room.The whole dormitory presents a very unkept and dismal appearance,in fact it is not fit for habitation,and as for the beds and mattresses,-they should be destroyed. I noticed there were not sufficient beds in the dormitory and on making enquiries learned that in most cases two boys sleep in each single bed. .

3. The outside closets were as usual in a most disgraceful condition,not fit for animals,let alone human beings. You will remember that a few years ago a similar condition of affairs existed and we built ~~new~~ closets.These are now in the same state. To call such a place an example is absurd,-far better to have no closets.

4. The girls' dormitories are in the residential portion of the school and the beds and furniture are in about the same condition as that in which I found the boys'.

5. The air in the class-room was not fresh and I noticed a change for the worse since my last visit.

6. The children,especially the boys,had a decidedly unkept appearance.The faces looked unwashed and in a great many cases their hair was long and looked as if a comb and brush were never used. The Church is making a mistake in allowing these children to be taught by an Indian boy,who has degenerated

degenerated, and whose ideas are not exactly what should be instilled into Indian children.

7. The stables are not what they should be in order to give a proper example to Indian boys.

8. The work in the class-room has fallen away and the sooner a change is made the better it will be.

9. I believe that these children are well fed, and I have always found this Branch of the school work well managed.

10. The whole institution presents a most dismal picture, and the sooner the Presbyterian Church takes action and replaces Mr. McKay the better it will be for the Indians and the work generally. I consider he is utterly unfit to handle this school. It was a great pity that when a change of Principals was made a few years ago that the Church did not insist on Mr. McKay keeping out of the work. I would strongly advise the Government and Church not to build a school if Mr. McKay is to have anything to do with it. The old man means well enough but he is not cut out for the work.

11. On the farm last year was produced the following-

Wheat	1000 bushels.
Oats	200 "
Barley	100 "
Potatoes	100 "

12. The financial standing of the school is good as will be seen by the statement enclosed.

The

13.

The following is list of the staff :-

Rev. High McKay,	Principal.
Miss Munro	Matron
Miss Jess Munro	Asst. Matron
Miss Reid	Cook
F. Sparks	Farmer
F. Ahetepew	Teacher.

All of which is respectfully submitted.

I have the honour to be,

Sir,

Your obedient servant,

A. M. P. Hume

OFFICE OF
THE INSPECTOR OF INDIAN AGENCIES
SOUTH SASKATCHEWAN INSPECTORATE

BALCARRES, SASK., March 3rd. 1916

[Handwritten signature]

Sir,-

[Handwritten 'R']

I have the honour to submit herewith a report on the Round Lake Boarding school (Presbyterian) situated on Ochapowace Reserve, Crooked Lake Agency.

1. I visited this school on the 24th of February in company with the Indian Agent.

2. The staff is as follows,-

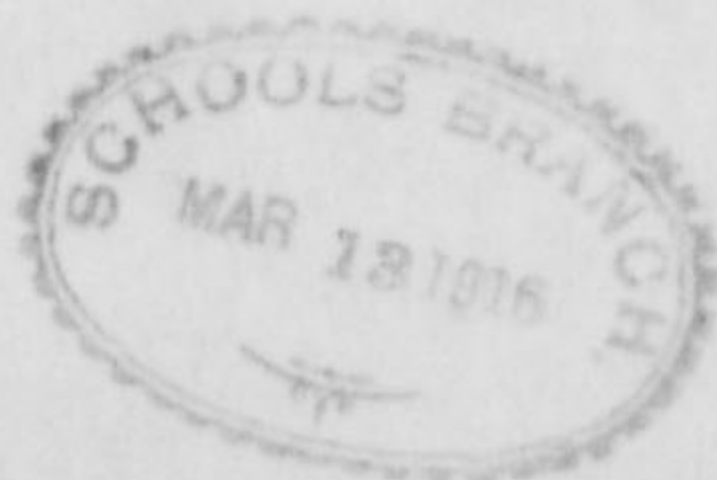

Rev. Hugh McKay	Principal
Miss Munro	Matron
Mrs. McIsaacs	Asst. Matron.
Miss Jessie Munro	Cook
John Morgan	Farmer
F. Atapew(Indian)	Teacher.

3. At the time of my visit there were 41 children in attendance and 48 enrolled. I was pleased with what I saw in the class-room. The children have made advancement since my last inspection. They read well and understand what they are reading about. They are particularly well advanced in arithmetic and their writing is

Duncan C. Scott, Esq., splendid.

Deputy Supt. General of Indian Affairs,

Ottawa.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

splendid.

4. The pupils were clean and well dressed and tidy in appearance, reflecting great credit on Miss Munro, who is a very capable woman, and her two sisters, who comprise the rest of the inside staff.
5. This school had a very successful farming season in 1915, the returns being as follows,-
1700 bushels of No. 1 wheat
800 " Barley
600 " Oats.
They also had an ample supply of garden stuff. The wheat is still on hand and will be sold later on. The oats and barley will be fed to the stock.
6. The school own 90 head of horned stock and 65 head of this number is kept at a ranch some miles away. The balance is looked after by the pupils under the direction of the farmer. The school has been fortunate in having a good man throughout the year. I was sorry to learn that he is leaving on April 1st.
7. It is perhaps superfluous for me to refer to the delapidated condition of the buildings at this point, as this matter has been reported on

on so often. Everything about the place is in bad shape. The interior furnishing of the dormitories is in very bad condition, but I must say I found everything scrupulously clean.

8. Mr. McKay is particularly fortunate at this time in having capable people on his staff, but owing to the condition of the buildings and equipment they are laboring under great disadvantages.
9. The Principal does not live in the school but in his own private home on his farm some three hundred yards away.
10. The finances of the school are in good shape, as will be seen from the attached statement.

I have the honour to be,

Sir,

Your obedient servant,

A. M. Graham

Inspr. of Indian Agencies.

Financial Statement, Round Lake Boarding school,

Round Lake Boarding School

I visited this school on the 3th. It is situated in the Qu'Appelle Valley at the east end of Round Lake just across the river from the Ochapowace reserve. It is under the auspices of the Presbyterian Church. The Staff consists of the Principal, the Rev. Mr. Greer, Mrs. Ed. Garrett, teacher, Mr. Ed. Garrett, Farming Instructor, Miss N. Campbell, Matron, Mrs. C. Burgess, Assistant Matron, Mrs. Goth, Cook and Miss Handford, Laundress. At the time of my visit there were 68 children on the register comprising the following grades,-

Standard	I.	26
	II.	7
	III.	15
	IV.	19
	VII.	1
		<u>68</u> pupils.

The day of my visit there were only 51 present, 17 being absent on the reserve. Mr. Murison inspected this school on June 6th and 7th last year and in his report he gives a comprehensive description of the building and the equipment and at that time he recommended several changes in the lay-out of the school but to date no changes have been made. I must say that this is one of the worst managed institutions I have visited in an official capacity since I have been with the Department. To me it appeared like a ship on the ocean without a rudder, even the staff were quarrelling among themselves and are divided into two factions. The Principal is about to retire, therefore, there was no use of my finding fault with the management of the school as he

The Department should insist on the Principal not allowing so many children to be absent at a time. This is wrong; Indians get their children out of school under the slightest provocation.

Absolutely true, and this has been going on for years. It has been reported to the Department time and time again, with no result.

Too many changes take place.
Men of the wrong stamp are
engaged. I consider money
spent so far has been
practically wasted.

Wm. J.

The responsibility for this
condition must rest largely
with Dr. McKay. The Dept.
knew this well.

Wm. J.

I will down with a man myself.

Wm. J.

informed me that he did not intend to make any changes and that it would be up to the new Principal. Mr. Greer has been there since sometime last summer and from his conversation I gathered that he endeavoured to take steps to straighten this out when he first went there but met with opposition from some of the staff and as he had no authority to discharge them he threw up his hands and let things drift. You can imagine the lack of discipline at this institution. What the school needs is a first class principal, who will not be dictated to by outsiders and a man with some backbone and good common sense. There is so much at fault with both the building and the management that it is useless to criticize the institution from any one angle. I will just mention a few of the essential points.

The new Principal, I was advised, would arrive about the 6th of June, upon his arrival he should be properly instructed as to what is expected of him by the Department and several changes will have to be made in the staff as those who are there now certainly cannot work together. I learned that the Department contemplate making several changes in the building. Before this is done a competent engineer should examine the building. The dormitories are too small and too many children sleep in one room and most of the girls are sleeping two in a bed. The furnaces are too small to heat the buildings. The laundry is poorly equipped and is inadequate. The Girls'

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

dormitories were fairly clean but the boys untidy and the bed clothes dirty. The children were fairly well clothed but untidy. The grounds around the buildings were untidy. No provision is made in the school for the isolation of any case of sickness. At the time of my visit one girl was ill in the girls' dormitory. The supply of water for the school is taken from the Lake and is pumped from there into a tank in the building. The water pipes were only put down 12" under ground and this means that they freeze up every winter and a new set of pipes has to be purchased. The pump house with the engine was evidently stationed on the ice this winter, when the ice melted the pump house was not moved and is now half under water. The day I was there, Mr. Hillhouse, our Farming Instructor, was with me and he tried to pull the house ashore but had not sufficient power and unless they find some way of moving it they will be compelled to carry the water from the lake.

The work in the class rooms is very poor. Mrs. Garrett I presume would be a fair teacher in a small country school but the class she has is entirely too large for her. There is only one class room and the children attend so irregularly that their progress is very slow. The discipline in the school room is poor and it was difficult to hear what the children were saying. They would not speak up so they could be heard.

June 15th, 1922.

Dear Mr. Ferrier: -

Commissioner Graham has forwarded the report of Mr. Inspector Christianson on his inspection of the Round Lake Boarding School. The Commissioner may have discussed with you the conditions found to exist by Mr. Christianson.

It would be advisable, during your visit in the West, if you could arrange to inspect this school and enquire into the work being performed by the members of the staff, the discipline and any other matters requiring attention. You will be in a position to advise the new Principal in all matters connected with the work at the school.

You should enquire specially into the matter of the frequent leave of absence granted the pupils. In the past they were allowed home for indefinite periods on the most trivial pretext. The new Principal should discontinue this practice.

Certain alterations are required to the steam heating plant and the Commissioner was requested to arrange for the visit of an expert to make suggestions as to the changes that are necessary. This matter is again being drawn to the attention of the Commissioner.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

June 15th, 1922.

Dear Mr. Graham: -

I have noted the report which you forwarded from Mr. Inspector Christianson on his recent inspection of the Round Lake Boarding School.

I am requesting Mr. Ferrier to arrange to visit this school during his present inspection trip in the West, and to enquire into the various matters referred to in the Inspector's report and to advise the Principal generally regarding the management, discipline and other matters in connection with the work; also to enquire into the duties performed by the members of the staff.

Regarding the several changes required in the school building, I may say that you were requested to take steps to ascertain what is needed in the way of alterations to the steam heating plant, and to arrange for the visit to the school of an expert to make the necessary suggestions as to what is required. When this report is received, we propose to make whatever changes are necessary without cost to the church authorities. I shall be pleased if you will attend to this matter at an early date.

I hope that the new Principal will meet with every success, and that, when he has had time to become thoroughly acquainted with the work, the conditions complained of will be overcome and there will be a decided improvement in the work at this school.

Yours very truly,

Duncan C. Scott

Dear Mr. Scott:-

I have your number 108-1-6 of the 15th instant, asking me to pay a visit to the Round Lake Boarding School.

I have discussed the best date for this visit with Mr. Commissioner Graham and we have decided that it would be better for me to go to Round Lake to help the Reverend Mr. Ross in any way I can, after my tour in British Columbia.

In all probability I will be at the Round Lake Boarding School during the first week in August. I have written the Reverend Principal to this effect.

Mr. Commissioner Graham hopes that the alterations needed at the School will be completed before my visit.

Respectfully yours,

Russell T. Ferrier

Sir : -

I am enclosing herewith a report of an inspection of the Round Lake Boarding School which is under the auspices of the Presbyterian church. The inspection was made by Mr. J. W. Smith, Provincial School Inspector.

I may say that there is a second class room in this school now that can be used should the Department insist on a second room being opened. I provided for this when re-modeling the detached class room at Round Lake.

I do not think the Principal, Mr. Ross, is giving satisfaction to the Advisory Board of the Presbyterian church here, and I doubt whether his services will be retained for any length of time, although I have no authority for saying so. However, two of the Committee were in the office yesterday and told me that they were not satisfied. Personally, I do not think he has the experience and qualifications necessary to supervise an institution of this kind.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

SIGNATURE OF INSPECTOR... J. W. Smith

BUILDINGS AND PREMISES

The residence is fairly comfortable but not sufficient accommodation is provided for the staff.

The school house is a 2-storey frame building with^a class room on each floor. The lower room only is used at present. Heating system is satisfactory, sufficient light is provided, but the windows are placed on both sides of the class rooms. Inside is finished in wood instead of plaster.

GENERAL REMARKS

(Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.)

Mr. Ross, the principal, has charge of the institution. The class room teaching is conducted by Mrs. Ross.

Pupils are divided into two groups, one group attending the class room in the morning and the other in the afternoon. The group not in the class room is instructed in household and farm duties, etc.

In my opinion the efficiency of the school could be increased by:

1st. Having all children up to the age of twelve or thirteen years attend the school during the whole of the school day. The time before nine in the morning and after four in the afternoon should be sufficient for instruction in light household tasks, etc. for the younger children.

2nd. By engaging another teacher to take charge of the junior classes. The class room work is much too heavy for one teacher.

ser A few more of the larger sized desks for the use of the older pupils are required.

Inspector's Report on the

Report on

Indian School,

located on Serving the Crooked Lake Agency.

Reserve, Province of Saskatchewan.

Date of Inspection September 14, 1923. NUMBER of pupils present 19 Boys 27 Girls
 NUMBER of children of School age on the Reserve 30 Boys 37 Girls. NUMBER of children claimed by teacher to be of his own FAITH all. NUMBER of children that should attend this school 70. NUMBER of children enrolled 67, being 95.71 per cent. of those that should attend. AVERAGE ATTENDANCE for 3 months being 63.84 of those enrolled. What Church, if any, supervises the school activity Presbyterian was the inspector accompanied by the Indian Agent or other official Conference with Indian Agent after inspection.

N.B.—The inspector is specially requested to answer all the above questions.

Note—The above answers refer to the school as a whole.

THE TEACHER

Lower Room.

Name Mrs. Mary Belle Ross Age 33
 Salary \$720 per annum.
 Qualifications Second Class, non-professional, Ontario, no normal training.
 Health Good.

Success Doing generally effective work. The subjects are well presented.
 A bright, capable lady. Mrs. Ross is principal of the school.
 Suggestions In oral class work it would be well to strive for a good effort on the part of each pupil in answer to questions. To this end the raising of hands seems best. It is desirable that pupils should speak loud enough for the rest of the class to hear. In the Reading lesson, whilst one pupil is reading, the others in the class should be following in their books. Continued stress should be placed on gathering the thought and expressing it naturally.

REMARKS RELATIVE TO THE EXAMINATION OF THE PUPILS

Lower Room--Grades III, IV, V, VI.

Classes examined or heard:

Grade VI, Arithmetic, good--accurate and neat.

V, Composition, fairly good power of expression.

IV, Geography, fairly good knowledge.

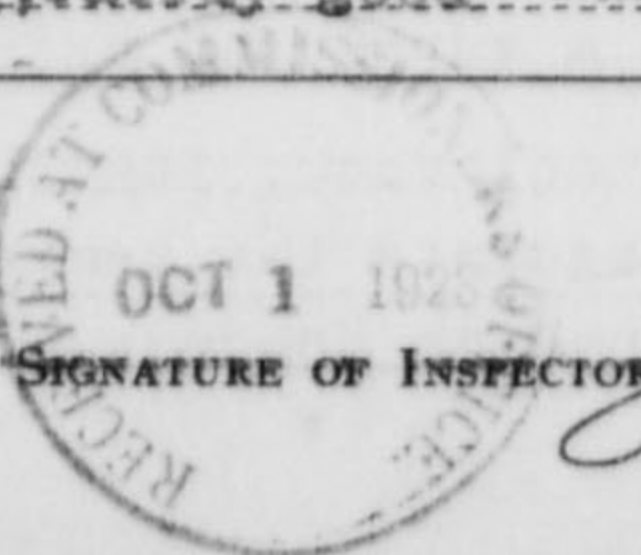

Grades III and IV, Reading, generally very fair--enunciation and expression need emphasis.

Grades III and IV, Arithmetic, generally pretty good.

All Classes, Physical Training, fairly good--Music and Drawing pretty good.

[OVER]

DATE OF INSPECTION September 14, 1923.

 ARCHIVES PUBLIQUES
 CANADA

ATTENDANCE PROBLEM, REMEDIES SUGGESTED, &c.

Pupils are required to attend from 7 to 18 years of age.

The farm instructor has the duty of seeing that pupils are in attendance.

The chief difficulty seems to be that parents wish to keep their children at home to work.

It would seem that arrangements might be made to release the older pupils from school, for a limited period, under proper restrictions, during the busiest season.

ORDER, CLEANLINESS AND DISCIPLINE

Lower Room.

PUNCTUALITY..... Good.

CLASS ORGANIZATION..... Generally good.

PRESERVATION AND ARRANGEMENT of Furniture..... Good condition. Arrangement of desks might be improved.

CARE OF MATERIAL..... Good.

CLEANLINESS of Pupils..... Fairly good.

do of School-house..... Very good.

OBEDIENCE..... Pretty good.

CONDUCT of Pupils in School..... Pretty good.

" out of school..... Good.

Sir : -

I beg to make the following report
on Schools in the Crooked Lake Agency.

ROUND LAKE BOARDING SCHOOL:

I visited this school on November 29
which is under the auspices of the Presbyterian Church with
the Reverend J.A. Ross in charge as Principal and his wife
who acts as Matron and teacher for the Junior classes. Miss
Carruthers who has second class professional standing tea-
ches the senior classes, Miss E.M. Quirk is cook, Mrs.S.
McIntyre laundress and Mrs.S. Runacres seamstress. Mr.
Philp has been engaged as farmer and his wife who is a grad-
uate Nurse will take up the work of Nursing Matron when
she arrives; they are expected at an early date.

There are seventy-two pupils enrolled
forty one girls and thirty one boys, there were thirty four
girls and twenty six boys present on the day of my visit,
twelve were absent on account of sickness, three of these
have attained the age of eighteen years. The pupils presented
a fairly clean appearance. I found three girls sick in bed

CANADA

with chickenpox; there is no accommodation at this school for isolation in case of sickness and these children are sleeping in the same dormitory with the rest of the girl pupils, I commented on this and the Principal stated that the Doctor said that as the children had already come in contact with the disease it was possibly just as well that it should be permitted to run its course as no doubt they would get it any way.

BUILDINGS:

The school room which was a detached building was recently burned down together with all the desks and school equipment and classes are now being held in the play rooms, they have a few old desks, some with broken legs which are very inadequate and I found the children sitting on the lockers in the play room. Teaching under these conditions is a difficult matter and I would suggest that forty eight single desks be supplied. They would be available later when class room accommodation is provided. The new portion of the main building is much brighter since it has been re-modelled, it does not however provide adequate accommodation for the pupilage and staff. They are very cramped for room. The septic tank has been giving excellent satisfaction, the laundry is too small to permit of installing proper laundry equipment, the facilities have been improved however by the installation of sett tubs and a hot water heater, a new chimney has also been built from the laundry to replace the old galvanized^{iron} one and this has added considerably to the safety of the building from the danger of fire. The old portion of the school at the rear of the new addition is of very little use, it can only be described as a rookery, being out up with small rooms and dark holes and corners, radiation was installed in this

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

portion of the building when the new furnace was put in but it is found impossible to heat them and a heating stove has been placed in the sewing room. I think it would be a mistake to spend any money in trying to re-model this portion of the building, it would be better to tear it down and add to the main building, it will be necessary to provide class room accommodation and it appears to me that it would be better to add class rooms on to the main building rather than erect another separate school as the upstairs accommodation could be utilized to good advantage. The pumping and electric light installations have so far been giving good satisfaction. The water is pumped from a soakage well located at the edge of the Round Lake into a pressure tank in the school, it may be necessary to enlarge the reservoir so as to provide larger storage capacity for water.

FARM:

The farm in connection with this school consists of half a section of land about half of which is in the valley, they raised this year 635 bushels of wheat and 750 bushels of oats. They had a large garden which provided an ample quantity of potatoes and vegetables for the requirements at the school. They have 51 head of cattle, 5 hogs and a small flock of poultry, they are milking 11 cows and are getting about 40 quarts of milk a day. This provides milk for porridge and tea as well as some to drink. I made enquiry into the food provided the children and it appears to be very satisfactory. For breakfast they have porridge with milk and sugar, bread and jam, tea with milk and sugar in it and milk for the smaller children. For dinner they have meat, two kinds of vegetables, pudding, bread and lard and tea. Their fare for supper is varied, macaroni and tomatoes, potatoes, bread and butter with peanut butter or jam. Their appearance would indicate that they are getting

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

plenty of good wholesome food.

GENERAL:

I was informed that the Church have purchased the four hundred acres of land adjoining the school from the Reverend Doctor McKay, there is a good house on this land which will be used by the Principal as a residence when it becomes available which is expected very soon.

COWESSES BOARDING SCHOOL:

This school is under the auspices of the Roman Catholic Church with the Reverend Father Carriere as Principal. The inside work of the school is managed by six Sisters of Charity, two of whom act as teachers. The Reverend Sister Saint Pierre Chrysologue is in charge of the boys' class room and the Reverend Sister^{Q.} Arsenius in charge of the girls' class room, these Sisters have Quebec model school training. The first mentioned I am told was a teacher at the Normal school in Quebec for eight years. Their methods might not be considered up-to-date by a public school inspector but the progress being made in the class rooms by the pupils appeared very satisfactory to me, the children spoke up clearly and distinctly, were quick in answering questions and the discipline in the school room was excellent. There were 32 boys and 35 girls present on the date of my visit and they presented a clean and tidy appearance. There were seven children sick with measles, these were isolated from the rest of the pupils. The children receive plenty of exercise, games are indulged in as well as regular fire drill.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The school is a large brick building, it is well equipped with the necessary furniture, laundry equipment, etc., it is steam heated and lighted with electricity. As this school has already been described it is unnecessary to go into details again in this report.

The pupils receive an abundance of good wholesome food, they get all the milk they care to drink. They have 26 milch cows and were milking 12 at the time of my visit. I am told that the number of cows milking is never permitted to be less than ten.

FARM AND GARDEN:

The farm stock consists of about 50 head of cattle, 16 horses, 52 pigs and a large flock of poultry. They had 150 acres in wheat which yielded 1500 bushels, 50 acres of oats, yielded 1500 bushels and 35 acres of barley yielded 600 bushels. They had a large garden which yielded over 500 bushels of potatoes and an ample ~~of~~ supply of vegetables for their requirements. This school is well managed, and the pupils are well cared for.

This report is respectfully submitted.

Your obedient servant,

W. Murison

No. 304-9

Regina, Sask., Dec. 11, 1923.

Sir:-

I am enclosing herewith a report on the Crooked Lake Agency which was made by Inspector Murison during the latter part of November.

X X X X
Dealing with the Round Lake School the Inspector draws attention to the recent fire which destroyed the two new class rooms in connection with the school and points out that the classes are now being held under difficulties, without desks or benches. I think probably the Department should consider the matter of furnishing a few desks until such time as it is decided what is to be done in regard to the erection of another class room. my opinion is that when a class room is erected it should be one storey with two rooms, a plain building 28x45 or 46, with an entrance at either end. one for the senior and one for the junior classes. I believe a building such as we require could be erected for about six thousand dollars or maybe less. I mention this in order that an amount may be placed in the estimates if it is our duty to build this. You might advise me in this connection. The Inspector reports that the children are well fed and are getting an ample supply of milk daily, which is a good thing.

BUILDINGS AND PREMISES

Inspectors will please mention the number of buildings, indicate their ownership and comment on their condition.

A new school building of modern type has been erected, with approved arrangements for lighting and heating, and pretty good provision for ventilation.

The rooms are bright and well finished. They are kept clean.

It is suggested that translucent blinds be provided, that a few of the windows be made to lower from the top for ventilation, and that screens be provided to keep out flies.

GENERAL REMARKS

Under this heading the Inspector should report upon the general management of the school and offer any suggestions for improvement he may wish to make.

54 The general management of the school seems satisfactory.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.)... The classrooms are well ventilated and lighted except for window blinds. The present window blinds are not the best possible for the school room; the translucent shades should be obtained, as the glare of the sun during the summer is excluded without taking away the necessary light.

Classroom Register (Is a careful tally made morning and afternoon?)

Yes

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

The pupils especially excel in art work, such as freehand drawing, water painting and raffia.

The writing was on the whole good.

In History the pupils had only a fair knowledge.

In Reading and Literature the identification of the words was satisfactory, but more attention should be given to the pronunciation, expression and the content.

In Arithmetic the pupils were doing satisfactory work, except that there was a tendency to advance too rapidly. Teachers should keep to the Course of Study. More practical problems involving the pupils' own experience, should be given.

Spelling - satisfactory.

COMMISSIONER'S OFFICE,

D

REGINA, SASK., July 10th, 1926

Dear Mr. Graham:-

I beg to submit the following report of a visit which I made to the Round Lake and Cowessess Indian Boarding Schools when making my recent inspection of the Crooked Lakes Agency. The pupils were all absent on their holidays and I will, therefore, confine my remarks to the condition of the buildings and premises.

ROUND LAKE BOARDING SCHOOL

This school is under the auspices of the United Church of Canada, with the Rev. R. J. Ross in charge as Principal. I am pleased to report that I found conditions very greatly improved since my last inspection in June one year ago. The main building has been re-painted outside, and the interior walls re-decorated. An additional pressure tank has been installed in connection with the water supply and the old cistern is now being used as well, for water storage in case of emergency. The Principal informs me that the system has been found quite satisfactory. The furnace boiler was cracked, owing to allowing the water to get too low, and the broken sections have had to be replaced. The repairs are on the ground but have not yet been put in place. The school was clean and tidy

throughout

Indian Commissioner,
Regina, Sask.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

throughout. I was pleased with the appearance of the outside premises; the grounds were tidy and the wood has been sawn and neatly piled. The ground in front of the school has been cultivated and planted with potatoes and vegetables with a view to putting it in good condition for grass seed. There is a large vegetable garden which is being kept clean and free from weeds and presents a nice appearance. The indications are that they will have an ample supply of vegetables for their requirements this year. A new implement shed, poultry house, and ice house were built last fall, too late for the painting to be done. A barn has been authorized to be built this year. This will be a great convenience and will add to the appearance of the premises. Their farm is showing a steady improvement in appearance each year. Mr. Ross is having the small bluffy patches cleaned out and the fields squared up. The crop this year includes 65 acres of wheat, 50 acres oats, 60 acres barley, 25 acres rye, 5 acres sunflowers and 2 acres corn. This crop has made a good growth and promises an excellent yield. The sunflowers and corn are grown for cattle feed. A trench silo is used in this connection.

About 12 cows are kept for milking purposes. Included in these are two pure-bred Holstein cows, and they have 2 two-year-old heifers and 2 Holstein calves. The balance of the cattle are grade Shorthorns. There is an ample supply of milk provided to permit the children to drink all they care to.

I might

- Page 3 -

I might mention that the Principal's residence has not been repainted since it was built, and requires repainting very badly. I also think that the furnace chimney should be rebuilt; it appears to be in poor condition and is only a bracket chimney, necessitating the use of too long a pipe from the furnace for safety from fire.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Suggestions regarding teaching methods.....
is doing pretty efficient work generally.

Mr. Smith's work shows very clearly the need of
professional training. He has very little idea of the best
methods of teaching young children. The work needs
systematizing--it is too haphazard--and the lessons working
out according to some rational plan.

In teaching Reading to beginners there should be
abundant use of simple, interesting sentences on the blackboard.
It is better not to put the Readers into the hands of pupils
for some time. In using the Reader the pupils should be
carefully prepared before being asked to read.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

In good condition and well arranged.

Care of Material.....

The equipment seems pretty well cared for.

If necessary, indicate what additional classroom material, books, etc., should be supplied

Would suggest the addition of an up-to-date map
of Europe. The provision of more books for the library
suitable for the lowest classes is also desirable.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

The rooms were clean, pretty well ventilated and well lighted and heated.

Classroom Register (Is a careful tally made morning and afternoon?).....

The register is well kept in the senior room. In the junior room there is a little laxness.

Enrolment--Senior Room--Mrs. Ross, Grade IV 14, V 9, VI 4, VII 3, VIII 4--total 34.

Junior Room--Mr. Smith, I 12, II 12, III 11--total 35.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.).....

Mr. Smith is struggling earnestly and energetically and no doubt some progress is being made.

The Reading of Grades II and III is fairly fluent, but there is little expression or grasp of the thought.

Grade I Sr. Reading is better. In Arithmetic the bright pupils answer mechanical questions pretty well. The classes need much practice in simple, practical problems. The Handwork and Drawing are commendable.

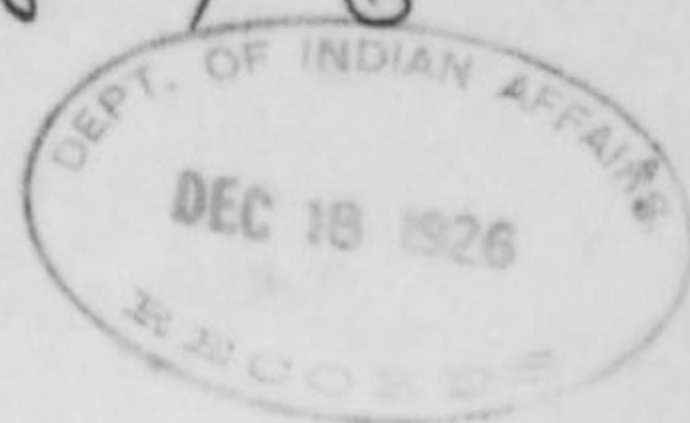

In questioning a class the teacher should stand in front and address his questions to the whole class, not to individuals, and endeavor to secure a response from everyone. Pupils should speak up so that the rest of the class can hear.

Ottawa, December 22, 1926.

Reverend Sir:

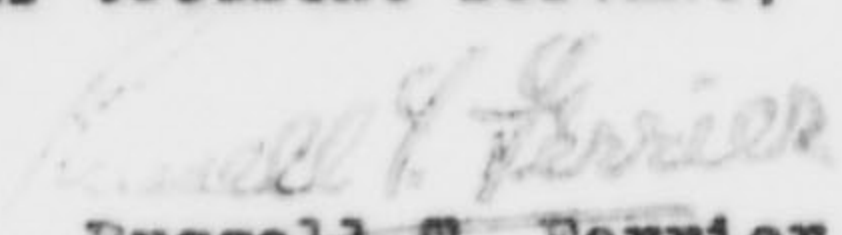

I have examined the recent report of the Public School Inspector and I wish to pass on some helpful suggestions for the guidance of Mr. Smith, one of the class-room teachers. The report reads in part as follows:-

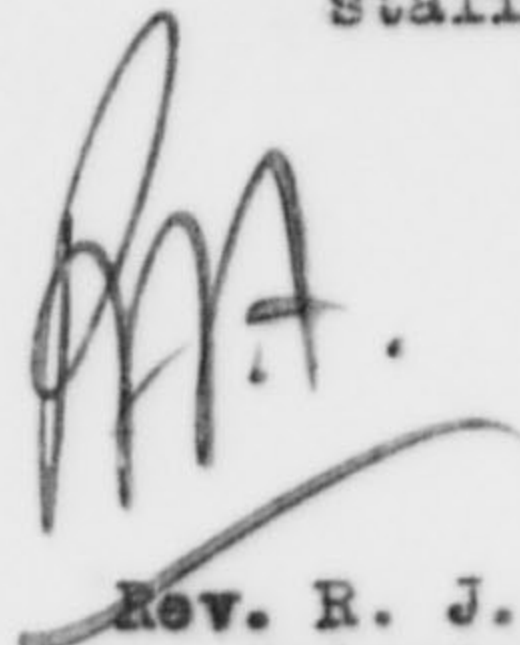

"Mr. Smith is struggling earnestly and energetically and, no doubt, some progress is being made. . . . His work shows very clearly the need of professional training. His efforts need systematizing. . . . In teaching reading to beginners there should be abundant use of simple, interesting sentences on the board. It is better not to put readers into the hands of pupils for some time. In questioning a class, the teacher should stand in front and address his questions to the whole class and not to individuals and endeavour to secure a response to everyone. Pupils should speak up so that the rest of the class can hear."

I am sure that, if you bring this criticism to this teacher's attention, his work in the future will be more effective.

Best wishes for the New Year. I trust that the staff and pupils have enjoyed a most delightful Christmas.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

COMMISSIONER'S OFFICE,

REGINA, SASK., Dec. 19th, 1927.

Sir,

I forward for your information Report by Provincial School Inspector Mr. R.L. Horning of his visit on Dec. 1st to the Round Lake Indian Residential School. While the Inspector speaks highly of the qualifications of Mrs. Ross, his report concerning Mr. Donald Heron, who is only nineteen years of age, is not encouraging and it seems to me that a better qualified teacher ought to be secured. When teachers at our schools have not the desired qualifications, the lack of them offers an opportunity to Indians to complain that their children are not receiving the proper education and many of these complaints have heretofore been made in the past, not of this particular school, but of others where the management and training has been lacking.

Your obedient servant,

W. M. Graham

Suggestions regarding teaching methods. The methods used by Mrs. Ross (wife of the Principal of the school) are such that there is little to suggest by way of improvement. These boys and girls have been taught to be good writers, in which art they take great pride. They are slow readers and speak in a very low tone of voice; the teacher explained that she had tried every means to remedy this but the pupils were so reserved that it seemed impossible. No doubt they were especially timid during inspection. Splendid discipline was maintained in this room and the progress of the boys and the girls was good, for a school of its kind. Regarding the methods used in the junior room, I ^{am unable} to say what they were, but ^{judging} from the exercise books and examination made of the work ~~at least I suspect that there was little method about it.~~ I should at least suspect that there was little method about it.

CLASSROOM FURNITURE

In each room a teacher's desk, a sufficient number of seats, a book cupboard, and a chair; in senior room, in addition an organ and a cupboard for supplies.

Preservation and arrangement of furniture.

The preservation and care of the furniture was good and the arrangement quite consistent with the rules and regulations.

Care of Material. It would appear that the best of care had been taken of all material in the senior room; there was practically no material in the junior room.

If necessary, indicate what additional classroom material, books, etc., should be supplied. For the junior room a good supply of Primary material, such as plasticine, weaving mats, construction paper, sewing cards, a number-frame, number builders and drawing paper.

For the senior room the following text-books are required: Irea I reader, book V; 16 Grammars; 2 Atlases; 5 Geography text-books; 33 Hygienes; 7 British Histories; 14 Canadian Histories; a map of each of the continents, (except North America) and the British Empire.

ARCHIVES PUBLIQUES
CANADA

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.) The classrooms were clean and heated by a hot-air furnace. ~~Everything~~ Everything was satisfactory in this respect, except the heating of the senior room. The temperature there was 35 degrees in the morning at 10 o'clock, and rose to 56 by 12 o'clock. The main reason for this was that there were no storm windows on the seven west windows of the room. There were no toilets, nor water supply in the school - these were in the residence building.

Classroom Register (Is a careful tally made morning and afternoon?)
In the senior room Mrs. Ross had definite knowledge of the attendance of every pupil each ^{day}, but the register had not been marked for four days. In the junior, it had not been marked for two weeks; it was marked up to the day MR. Heron took ill and apparently had been marked regularly up to that time.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement)

The senior ^{room} was operated on a shift system. In the morning a part of the classes attended school while the other was engaged in husbandry and household duties. I was informed by the Principal that this was the plan of conducting the education. All subjects of the curriculum were included in the time-table but in some cases provision was made for subjects only once a week; under the system this was the only thing that could happen in the teaching of five classes. In this department there were four girls and three boys who attended all sessions morning and afternoon, the policy being to give every advantage to those who showed a liking for an education and who were making an exceptionally good showing in their studies.

The Junior room gave evidence of a lack of organized work; a large part of the classes were without exercise books and only a few of those who had them were showing any signs of advancement. This room is making very little progress under the present arrangement and is in my opinion, urgently in need of a fully qualified and experienced teacher.

Ottawa, December 28th, 1927.

Reverend Sir,-

The Department is in receipt of Inspector Horning's report on his visit to the Round Lake Residential School on the first instant.

The Inspector reports very favourably on the work that is being done in the senior room but comments on the junior room, as follows:-

"Regarding the methods used in the junior room, I am unable to say what they were, but, judging from the exercise books and examination made of the work, I should at least suspect that there was little method. The junior room gave evidence of a lack of organized work; a large part of the classes were without exercise books and only a few of those who had them were showing any signs of advancement. This room is making very little progress under the present arrangement and is, in my opinion, urgently in need of a fully qualified and experienced teacher."

The Inspector states that the junior teacher is nineteen years of age, has a Second non-professional and no Normal training.

I feel that you will agree with me that it is most important that there should be a fully qualified teacher in the junior room and I trust that you will take the necessary steps to effect an improvement in this classroom.

The Inspector recommended a supply of primary material, also, certain books and maps. These are being ordered from the Government Stationery Office.

Your obedient servant,

Russell T. Ferrier

Suggestions regarding teaching methods.....

The experience which Mrs. Ross has had in this work, and the qualifications and experience along various lines of teaching of Miss Bennett, leave but little opportunity for suggested improvements. I am very pleased with the work of both of these teachers.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

Primary Room;- 1 teacher's desk, 48 pupils' desks, 1 bookcase, 1 table, 2 chairs.
Senior Room :- 1 teacher's desk, 24 pupils' desks, 2 bookcases, 2 chairs, 1 organ.
Care of Material

In general, the material is well cared for.

If necessary, indicate what additional classroom material, books, etc., should be supplied

I would recommend that the Library be improved by increasing the number of volumes available for the boys and girls to read, especially taking care to add books suitable for the lower grades. Good suggestions are made in this respect in the Program of Study for Public Schools, for Saskatchewan. Supplementary Readers, Books of Literature, Biography, History, Travel, Nature, etc., should be secured.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

The rooms are heated by a basement hot-air furnace.

The lighting is from the left in both rooms.

The ventilation is satisfactorily arranged.

Classroom Register (Is a careful tally made morning and afternoon?).....

The registers are carefully kept. Half-day attendance
is properly noted.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement)

Primary Room, Teacher, Miss Eunice Helena Bennett:--

Work in English, Word recognition, Sentence construction, Reading, Number work, Writing and Drawing, in Grades I, II, and III was observed during the inspection. The management was such that interest was maintained, and every pupil found profitable employment throughout the session.

Senior Room, Teacher, Mrs. Mary Belle Ross :--

The regular work was observed, and lessons in Composition, Spelling, Arithmetic, Reading, History Agriculture and Grammar were conducted during the inspection. The pupils appear to be satisfactorily graded. The general tone of the room compares favorably with corresponding classes that I have visited.

Ottawa, June 15th, 1928.

Reverend Sir,-

The Department is in receipt of Inspector Anderson's report regarding his visit to the Round Lake Residential School on the 28th and 29th ultimo. The Inspector recommends that the library be improved by securing new books and, in choosing these, he suggests that special care be taken to have books suitable for the lower grades.

The Department is prepared to supply a reasonable quantity of books on receipt from you of a requisition stating the names of the books you consider necessary. In forwarding this requisition, the name of the publisher should also be stated. I believe that, in choosing the books, it would be well to be guided by the suggestions made in the programme of studies for public schools issued by the Provincial Department of Education in Saskatchewan.

I am pleased to note from the Inspector's report that a trained teacher has been secured for the junior room. The Inspector is of the opinion that both the teachers are getting good results from their work.

Your obedient servant,

Russell T. Ferrier

REGINA, SASK., 3rd. January, 1928

Report of Inspection on Round Lake Residential School.

Dear Mr. Graham:-

I visited this school on December 17th., last, and made a general inspection of buildings and premises. The school is under the auspices of the United Church, with the Rev. R. J. Ross in charge as Principal. His staff is comprised of Mrs. Heron, Matron, Mrs. Ross and Miss Murray, teachers, Miss Jury, cook, Miss Rowan, seamstress, Miss Ewen, laundress, and David Bushnell, farmer. There are 75 pupils enrolled, 35 boys and 40 girls, which is the limit for which accommodation is provided. I was present at the midday meal, and noted that an ample supply of wholesome food was provided. I visited both classrooms, and found the pupils comfortably clad and presenting a healthy appearance. Mrs. Ross continues to teach in the senior classroom and appears to be a competent teacher. Miss Murray, who has charge of the junior classroom, impresses me as being well qualified for the position, and is the most successful teacher they have had in this room for some time.

Report of Inspection on Round Lake Residential School.

BUILDINGS.

The school building has already been reported on very fully, and there is no change in the main features. The laundry is very cramped for space, and a lack of convenience for drying the clothes still exists. The roots and vegetables are stored in the same place in this building, and although authority was granted to build an outside root house, and the Principal has been urged from time to time to proceed with the work, this root house has not yet been built. The Principal states that he could not get around to it, owing to pressure of work, and the illness of his assistant. During the past summer the facilities for fire protection have been greatly added to. The piping in the pole escapes has been replaced with a larger size, and the windows forming the exits have been equipped with hooks which can be easily opened. Four 5-gallon pump extinguishers have been supplied. A soft water tank in the basement is being utilized for water storage, and the water is pumped to this with a windmill, which appears to be giving excellent service. A 1000-gallon pressure tank has been twinned up with the 500-gallon tank which is part of the old equipment, and this makes it possible to utilize the water system through the standpipe which has also been installed. This equipment is new and in excellent condition. The new portion of the school building has been re-decorated, and the plaster is in good shape. In the old portion the plaster is broken and the floors are old and this part is very hard to heat. I found the school in a cleanly condition throughout. I was better satisfied in this connection than I have been on the occasion of former visits.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Report of Inspection at Round Lake Residential School.

The exteriors of both the class room and the main building require re-painting. Since my last visit a new barn, 32 x 70, has been built. This barn is not large enough for all their young stock, and 16 cattle were running outside. I would suggest that a lean-to shed would provide satisfactory accommodation for the young stock. The old stone stables are still standing, and are being used to accommodate the hogs. These old buildings do not add to the appearance of the place, which would be much improved if they were torn down and a suitable piggery provided. They have a small poultry house, 16 x 16, which provides accommodation for fifty hens. They should have at least three times this number of poultry at a school of this size.

FARM STOCK.

The farm stock consists of 12 horses, 51 cattle and 70 hogs, 13 of which are purebred. They were milking eight cows, only three of which were giving any quantity, and the milk supply is not adequate to provide the children with all they care to drink. The farm stock provides practically all the meat requirements of the institution.

FARM.

Their crop sown comprised 60 acres of wheat, which yielded 1500 bushels, 60 acres of oats, yielding 2500 bushels, 40 acres barley, yielding 1000 bushels, and 38 acres of rye, with a yield of 700 bushels. Their garden provided plenty of carrots and turnips, but the yield of potatoes was very unsatisfactory. They
-only got-

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Report of Inspection at Round Lake Residential School.

They only get 250 bushels from four acres, which is not half enough for their requirements.

The school premises have been cleaned up and were in a more tidy condition than I have ever found them on previous occasions. It appears to me that an improvement has taken place in the staff, and conditions are more satisfactory.

I have the honour to be,

Sir,

Your obedient servant,

W. Murison

COMMISSIONER'S OFFICE,

D REGINA, SASK., 10th. January, 1929.

Dear Mr. Scott:-

I beg to enclose herewith a report on the Round Lake Indian Residential School, in the Crooked Lake Agency, which was inspected on December 17th. last by Mr. Murison.

Conditions at this school seem to be a little bit improved since the last inspection. Some of the buildings here are old, and it is hard to make them look up-to-date. I do not feel like making a recommendation for the expenditure of any money on these buildings. Authority was granted some time early in the year to build a root house, but you will note that nothing has been done in regard to this and, of course, the result will be that the money voted will not be used. The Agent was in my office this week and I told him he should at least buy the material and have it on hand so that the money would be spent before March 31st. I would draw your attention to the Inspector's remarks regarding the barn. My opinion is that this barn is quite large enough for any school, and I am not in favour of putting up a lot of small buildings to accommodate additional cattle. 51 head of cattle is too many to have on hand at a school of this kind. I would judge from the crop yield that the farming is carried on in a satisfactory manner. The yield was much better than on the reserve, which shows that the land was well cultivated.

Yours very truly,

*ack this

Suggestions regarding teaching methods.....

We talked over the work, at some length, but I cannot see that
your teachers' methods can be greatly improved upon. They have
made, and are making, a careful study of their work, and are
adapting their methods to conditions, so as to be most effective.

CLASSROOM FURNITURE

The exterior of school is quite badly in need of paint, and the interior
is beginning to show the same need.

Preservation and arrangement of furniture.....

The furnishings of school seem generally satisfactory, and are in good
condition. If you have any number of visitors to your classrooms, I would
suggest the provision of an extra chair in each room.

Care of material..... All materials and general supplies seem well cared for,
and kept in good order.

If necessary, indicate what additional classroom material, books, etc., should be supplied

Your school Library is very weak, but is gradually being built-up. If
any extra grant could be given for this purpose, it would give a better
"start" and would help the work considerably. Both classrooms lack Pic-
tures, and I would suggest the purchase of at least one good picture for
each room. There should be at least one Fire Extinguisher in this build-
ing, a Hand Bell is needed, and interior flags should be provided for
each room. I would also suggest a railing for each side of the exterior
steps--accidents might easily happen there, as steps are quite steep.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.)..... The lighting of classrooms
is very good. Ventilation also seems satisfactory--there being reg-
ular ventilators in the walls, and then the windows are used as
necessary.

Classroom Register (Is a careful tally made morning and afternoon?).....

..... Classroom registers seem quite well kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

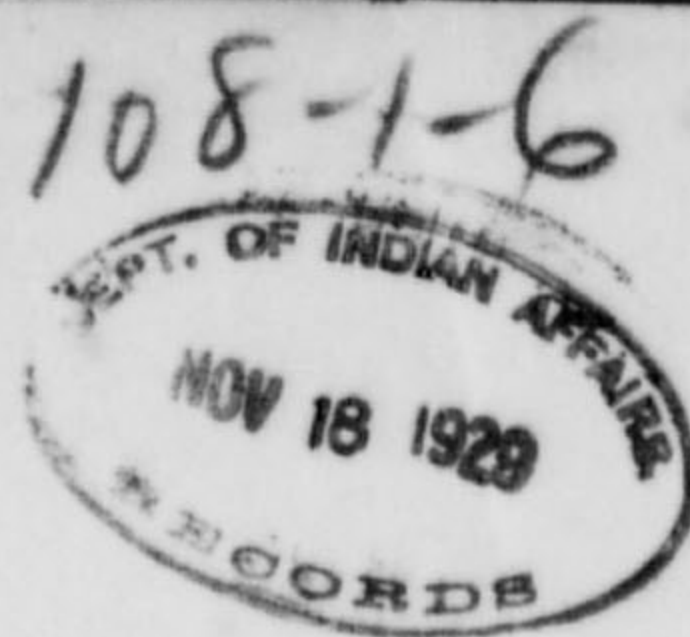

I was very favorably impressed by the work being done in your
classrooms. The organization and general system, the conduct of class
-es
, and the whole attitude of both teachers and pupils, were very
satisfactory. The teaching was good, and from its nature would seem
to be most effective. The children were particularly attentive,
seemed interested, and were working well. The work of classes
observed or tested was entirely creditable, and I am satisfied that
results will be very satisfactory.

Sir:-

I am enclosing herewith a report of an inspection made at the Round Lake Indian Residential School by Provincial School Inspector, Mr. H. L. Winter. You will note that he speaks very favourably of Mrs. Ross and Miss Affleck. I have always been satisfied with the work in the classrooms here, but the rest of the management has always been reported as not being up to standard. Miss Affleck, who is mentioned in the Inspector's report, was in my office yesterday complaining bitterly of certain things in connection with the management. She has left the school, and she wished to tell me a number of things but I asked her to put whatever she wished to say in writing and if there is anything of interest it will be forwarded to you.

Your obedient servant,

[Handwritten signature: W. M. Graham]

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

Both classrooms have been redecorated during present year, and are in excellent condition. Lighting, ventilation, and heating seem very satisfactory.

Outside of school has also been considerably improved by painting

Classroom Register (Is a careful tally made morning and afternoon?).....

Classroom register is carefully kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

The work of your teachers impressed me very favorably; both seeming capable, energetic, and conscientious. The manner of each teacher was bright and pleasant, while their preparation and presentation of lessons were animated, interesting, and effective. They study their pupils and adapt their methods to suit the various needs.

The work observed and the classes tested were of a very satisfactory nature--particularly so, when we consider that classroom^{work} for most of the children consists of only a half-day at a time. Good progress is being made, and I feel assured of creditable results.

Both classrooms are in excellent condition, and have been nicely decorated by your teachers--making them really attractive... Lighting, ventilation, and heating, all seem satisfactory--~~and~~ and classrooms seem well cared-for.

Classroom Register (Is a careful tally made morning and afternoon?).....

Classroom Register is carefully kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

While the work of your school was just getting nicely started after the Summer Vacation, my whole impression of the school activities was of a most favorable nature. Your teachers are interested in the welfare and progress of their pupils, have their work well prepared, and their general conduct of the work is Very Good.

The work of the various classes, as observed, was well up to standard, being rather above the general average... I was pleased to hear of the complete success of your Grade VIII candidates (all passing with Honors)---a very creditable showing for both pupils and teacher. I am glad to see these pupils continuing into the High School work.

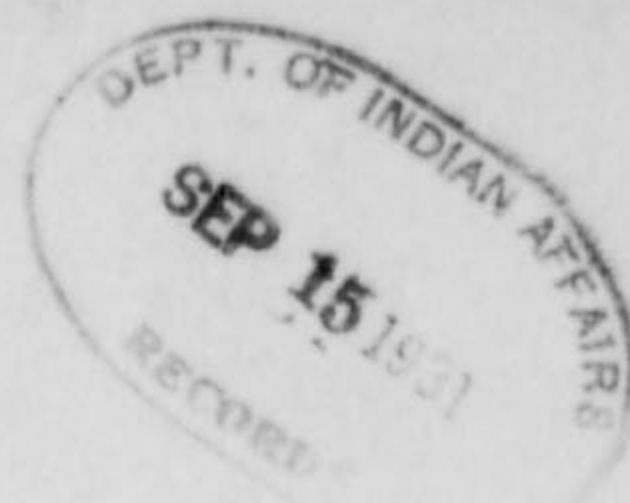

I look forward with confidence to another most successful year's work.

INSPECTOR'S REPORT

ON

Round Lake

INDIAN RESIDENTIAL SCHOOL

Number of pupils in residence { Boys..... 33 } 79.
 { Girls..... 46 }

Number of classrooms and number of desks in each..... Jr. Room 47: Sr. 24.

Number of classes and number of pupils in each class..... Grades I. II. III. IV. V. VI. VII. VIII.
 19. 6. 9. 20. 14. 4. 6. 1. (79)

THE STAFF

Principal's name..... Rev. R.J. Ross.

Classroom Teachers (Name, age and qualifications of each should be separately stated)

Alexander Sparvier. Man. Gr. XI Academic.. Partial Normal Training.. Age 19
 no experience.
 substituting for Mrs. Mary Belle Ross (recovering from operation)

Miss Gertrude Christina Stromgren.. Sask. 2nd Prof. Cert. # 401-24.
 Age 38- 12 yrs. experience.

Remarks relative to the methods employed by teachers.....

Miss Stromgren has continued her generally good work, and her classroom impresses me favorably. The room is nicely decorated, there is a good display of the children's work, lessons are well prepared and the general handling of the work is quite satisfactory. Children are orderly and are doing good work.

Mr. Sparvier is doing his first teaching, and appears to lack confidence in himself. He should improve with experience. He seems quite

capable, but I was not very favorably impressed by his general manner and attitude toward the pupils. His work is not such as to draw out the best efforts of his pupils, or to train them in self dependence.

Form No. 141

Date of Inspection.

Nov. 1/32.

Inspector of Schools.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES
 CANADA

Suggestions regarding teaching methods.....

The work of your regular teachers has been so satisfactory that discussion of methods has been of a very general nature..relating to the newer ideas in education and their application to various classes. Some very good work of a project nature was in evidence, and I urged that this type of activity be extended..aiming at training the children to think and do as much as possible for themselves. We also talked over some of the newer supplementary materials ,intended to make the general work more interesting and effective.

I suggested that Mrs. Ross try to assist the new teacher in his work--until she is able to take her regular place--so as to improve his work, and to make it more profitable for the children.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

The school furniture is in good condition and seems well cared -for.

Care of material is likewise , and good use appears to be made of all material.

If necessary, indicate what additional classroom material, books, etc., should be supplied

General equipment is quite good..I was pleased to note further additions to your Library , and hope to see this good work continued. Good Books , both for reference and general reading , play a very important part in a child's school training.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

CLASSROOM

Condition Classrooms (Ventilation, light, etc.).....

Both classrooms are in good condition and well looked-after.

Decorations are attractive , and heating and ventilation are satisfactory.

I understand there has been some difficulty with the heating ,but that it is now improved. Lighting is good.

Classroom Register (Is a careful tally made morning and afternoon?).....

Classroom Registers are well kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.) .

Your teachers and pupils are again doing very creditable work, and I look for another successful year. Your regular teachers are capable and particularly interested in their work..They make a special study of it in order to do their best for the children. Their methods and general attitude are progressive, and they appear to have the confidence and best efforts of their pupils.

The work of the classes observed was good, and on my written tests, the various classes made a better than average showing.. This is particularly creditable in view of the curtailed classroom life of these children(half-time in Senior Room)
The Grade VIII work was again entirely successful , and I feel every assurance of another successful year.

INSPECTOR'S OFFICE,

W. REGINA, SASK., 16th November, 1932.

Sir:-

I beg to forward herewith Provincial School Inspector, Mr. H. L. Winter's report on the Round Lake Indian Residential School.

The Inspector comments very favorable on the classroom work. I may say that the classroom work for the past few years at this school has been of a very satisfactory nature and good results have been evident. The Inspector also states that he was not very favorably impressed by the general manner and attitude towards the pupils of the substitute teacher Mr. Sparvier. When I visited this school in September Mrs. Ross the Senior Teacher had just returned from hospital where she had undergone a very serious operation and it will be some time before she will be able to devote her whole time to teaching. She appeared to be very proud that they had as a teacher substituting for her an ex-pupil of the school. Now that Mrs. Ross is becoming stronger I am sure she will take an active interest in directing Mr. Sparvier's work and, in view of his being an Indian ex-pupil, I feel that every consideration and help should be extended to him in order that his shortcomings may be overcome and that he may have every opportunity of becoming a useful teacher.

Your obedient servant,

W. Murison,
Inspector,
Saskatchewan Inspectorate

Classroom Teachers (Name, age and qualifications of each should be separately stated)

Miss Gertrude Christina Stromgren..Second Perm.Cert.(Sask)#401-24.
13 year's experience...Age 39 years.

Mr.Clifford Bertram Harrison ...Second Int. Cert.(Sask)# ? -33.
first teaching...Age 19 years.

Remarks relative to the methods employed by teachers The work of Miss Stromgren and her classes seemed a trifle disorganized today due to beginners starting at different times, rather irregular attendance, and preparations for Xmas Entertainment..Teacher and pupils did not appear to be making the best possible use of the school time. However, methods observed were quite good, and classes tested gave an average response. Progressive work is in evidence in this classroom.

My general impression of Mr. Harrison was quite favorable, and I consider him a very promising young teacher. His manner is pleasant and helpful; his work is quiet and systematic; and his general handling of the school activities is quite satisfactory. His teaching is thoughtful and ~~his~~ of quite a "finished" nature. He is inclined to do too much of the talking...a common fault of young teachers..but he can overcome this, and look for successful work.

NOTE:—This form to be used for Indian Residential Schools only.

DEPARTMENT OF INDIAN AFFAIRS
Suggestions regarding teaching methods.....

The work of both teachers is so satisfactory that little could
be added in regard to methods....Discussion in this regard
dealt mostly with the general Course of Study, and new text
and reference books to make the work more interesting and
effective. Both teachers have special ability and originality
in their work, and seem entirely dependable.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

Good.

Care of material.....

Good. Well looked-after.

If necessary, indicate what additional classroom material, books, etc., should be supplied

Text Books, dealing with the new Course of Study, and its
separate subjects, would be helpful in practically all
grades....Reference material for the same purpose is also
needed... I hope the new Readers authorized for the Province
will be supplied....They are a real improvement on the ones
in use prior to the present term.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....Condition of classrooms, in
general, is quite good ...although plaster is getting quite soiled.
Furnace seems to have been smoking rather badly..which would account
for discolored plaster...Ante rooms are in good condition...
Heating is reported as only fairly satisfactory , and furnace
should be checked-up as soon as possible.
Classroom Register (Is a careful tally made morning and afternoon?).....
Classroom Register and Library Records are carefully kept
and are generally satisfactory.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

The work of your classrooms is of a very satisfactory nature.
Work is carefully prepared, teaching is live, interesting, and
thought-provoking; and both teachers are trying to rouse as
much enthusiasm as possible in their pupils...Indian children seem
to lack spontaneity..and their oral response is almost inaudible.
Despite the fact that most children are in the classroom only
half-time, they have covered their work remarkably well, and make
a very creditable showing..In fact, results of testing are well up
to the general average of fulltime schools. I feel fully satis-
fied that your present teachers will bring their classes along well
and that we can look for a thoroughly successful year.

I was particularly pleased to note the success of Musical
Entries in Provincial Festival..and glad to hear that this work
is being continued this yearA good general training for the
children...

Mrs. Mabel V.K. Hayes-Waywell, Sask. First Perm. Cert. #229-29... Age 26.

Remarks relative to the methods employed by teachers.....

The methods followed by these teachers are such as are found most effective in this kind of work.. Both teachers are students of their work, and are trying to give their pupils the best possible training in the time at their disposal .. The greatest difficulty comes in senior room, where pupils attend only half-days. Here, the work has to be condensed, and placed before pupils in a form they can assimilate in least possible time.

NOTE:—This form to be used for Indian Residential Schools only.

Form No. 141

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Suggestions regarding teaching methods..... Teaching methods are very satisfactory except for difficulty mentioned in connection with senior room..That is, children are more or less "spoon-fed" in order to cover the regulation course in time at their disposal.

Both teachers are particularly capable and conscientious in their work, and are giving their pupils a good general training...

Mrs. Waywell is particularly "live" and original in her teaching and general management, and is securing a very creditable response from her pupils...I feel that they are gradually over-coming their difficulty of not speaking-out plainly...work is interesting and effective.

Mrs. Ross is a capable and painstaking teacher, who holds a high standard of work before her class. Her teaching is definite and effective, well-related to the pupils' knowledge and abilities...It is rather remarkable that, with half-attendance, she can bring her classes along so that they average up well with full-time classes in regular schools.

It is a distinct pleasure to visit these class-rooms.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

Good.

Care of material

Good.

If necessary, indicate what additional classroom material, books, etc., should be supplied

Working materials have been very well kept up..
Your teachers will likely suggest needed additions, from time to time.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

Interior of classrooms is rather in need of re-decoration, plaster being quite badly soiled by smoke. (A color tint might hold appearance better).

Lighting, Heating and Ventilation were satisfactory at time of inspection.

Classroom Register (Is a careful tally made morning and afternoon?).....

Registers were quite well keptRegisters do not contain space for present age of pupils...This might be a helpful addition when re-printing.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

In general, I was well satisfied with my general impression of this school.... Results should be very credible ...

I note that children just entering Grade I vary in age from six yrs. to 13 yrs. Are all children not expected to attend school within a set age limit ?? If all entered school..say at the age of seven yrs. the Mission teachers would have a more uniform class to deal with, and pupils would be under their care for an increased period of time.

If a census list of children of school age were available, it would help an inspector to check up on this matter (if desired).

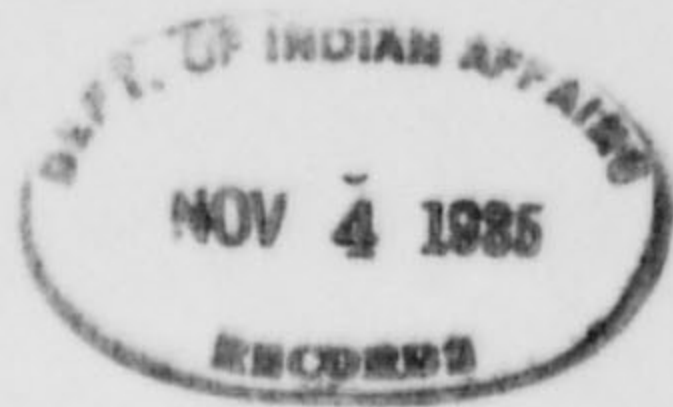

I was pleased to note the success of these Indian children in Musical work, during the year...This is a fine part of their training..as long as it is a supplementary part, and does not interfere with the regular school training.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

Generally quite good, although plaster is very soiled.

Building needs paint, both inside and out (I would suggest
a lighter color for outside..the dark gray seems rather
"drab".)

Windows are loose in frames now, and should be
tightened up..both to stop rattling and draft.

Classroom Register (Is a careful tally made morning and afternoon?).....

School records are well kept.. Neat, and seemingly ac-
curate. Registers, Library and Equipment Records.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and
offer any suggestions for improvement.)

I would suggest the need for more play-ground equipment...

Soft-balls, Foot-balls, even a volley-ball, would be a great

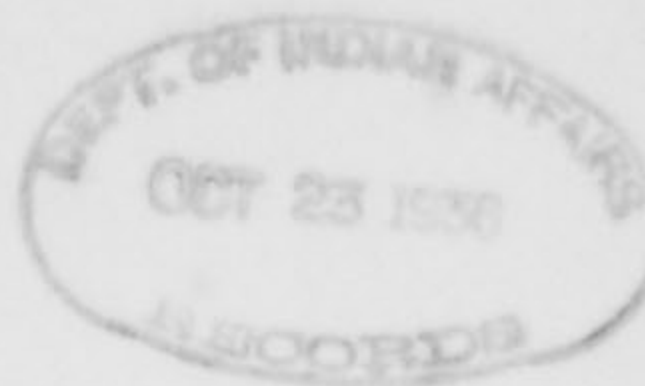

help in this connection. I also mentioned Swings or Teeters.

INSPECTOR'S OFFICE,

REGINA, SASK., 20th October, 1936...

Sir:-

I beg to forward herewith Provincial School Inspector H. L. Winter's report of an inspection of the Round Lake Residential School on the 29th of September.

Re: Condition of Classrooms, etc.
The Inspector reports that the plaster is soiled and the building in need of paint both inside and out. I note that \$450.00 has been inserted in the Estimates for 1937-38 for this work. I am doubtful if this amount is sufficient. I would also ask the Department to refer to their letter No. 112-1-1, dated August 6th, and Inspector W. Murison's reply No. 304-11B, dated September 23rd, regarding accommodation for school children.

Your obedient servant,

C. P. Schmidt
C. P. Schmidt,

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.)..... Ventilation and Light seem O.K.

The interior of both classrooms is badly smoke-soiled, but I am informed that paint is on hand for re-decoration..Good....

I suggested checking of furnace to eliminate unnecessary smoke.

Exterior of school is also in need of paint, and I would urge that some "liver" color be used, to add a touch of bright-

Classroom Register (Is a careful tally made morning and afternoon?)..... ness to bldgs.

Classroom Registers and general Records are nicely kept..neat, and seemingly, accurate.

It is to be noted that many pupils attend class-work only half-time.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

The work of your teachers is of a high standard, and even with most pupils attending only half-days, their response to my regular tests is rather better than the average of full time pupils.

Mrs. Ross is to be commended on her Summer Course in Indian Work..It should not only give a better background for work, but prove helpful in actual teaching and management.

Minor repairs are needed to buildings (front step &c)...and either dustbane or a substitute should be provided for sweeping, or classroom floors should be given a LIGHT oiling.

Playground equipment is still lacking...Permanent equipment such as swings or teeters could be erected at little cost, and would add a great deal to childrens' life training, and enjoyment. Soft balls and bot-balls are also helpful in this regard.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

COMMISSIONER'S OFFICE,

REGINA, SASK., Oct. 27th, 1937

Dear Sir:-

I beg to attach Inspector's report on
Round Lake Residential School

His remarks on a picture projector impress
me as I believe the day will come when a great deal
of school work, particularly in the junior classes,
will be handled in this way.

It might be possible to provide one projector
and suitable educational films on health, agriculture,
etc., and say some National Park scenes which could be
transferred from school to school and thereby tried out
at small expense.

Yours truly,

Thos. Robertson,
Inspector of Indian Agencies,
Saskatchewan.

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

Ventilation and lighting of classrooms seem satisfactory.....
at inspection..but might give more difficulty in colder
weather....Furnace is reported as unsatisfactory, and smoke
soiled plaster would seem evidence of this condition..
I am told paint is on hand for re-decoration..which should
Classroom Register (Is a careful tally made morning and afternoon?)
improve appearances...and general effect...considerably.

Classroom Register and records of materials are well kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

Exterior of school has been painted, and is in very good
condition ... Pleasant surroundings seem to arouse
a much better spirit in any school.

I note outside basement entrance, and would suggest that
some form of porch over this would give much better satis-
faction.

A number of pupils are not yet attending school,
making work more difficult than necessary for all con-
cerned....Could this matter not be checked up more closely?

Inquiry reveals that little is done to keep in direct
touch with children after school age...When possible, some-
thing in the way of "follow-up" work would seem desirable, in
order to preserve and supplement the effect of school training.

ARCHIVES PUBLIQUES
CANADA

Suggestions regarding teaching methods.....

The work in these classrooms seems to run along so smoothly and effectively that little new can be suggested...Both teachers have made a study of their pupils, and have adapted their teaching to suit their needs..Both classrooms have been made attractive and in both are displays of the children's work.

Junior teacher continues her work is trying to get children to speak out well...while Senior teacher concentrates on getting pupils to think and do as much as possible for themselves.

Classes in both rooms have made progress almost equal to that in full time schools.....Very creditable indeed., in addition to the good general training received.

CLASSROOM FURNITURE

Preservation and arrangement of furniture.....

Well arranged and well cared-for...In good condition.

Care of material

If necessary, indicate what additional classroom material, books, etc., should be supplied

Your Libraries are being gradually built-up., and are being well used....In the junior room, while there is a good number of smaller books, some are getting quite worn, and new material should be added to replace them, and to renew interest in reading.

Class-room floors are very dusty..and either the use of oiled dust-bane for sweeping..or slightly oiled floors .. would improve conditions immensely.

More cupboard space or shelving could be used to good advantage.

CLASSROOM

Condition of Classrooms (Ventilation, light, etc.).....

The exterior of school has been re-painted during the year
and is greatly improved in appearance.. The interior is unchanged
but I understand painting is planned-for... Decoration would have
a more lasting effect if furnace were checked over to prevent
smoke leakage.

Classroom Register (Is a careful tally made morning and afternoon?).....

Class-room Register and other records are well kept.

GENERAL

(Under this heading the Inspector should report upon the classroom activity generally and offer any suggestions for improvement.)

The general work of your school continues to be of a high
standard, and well adapted to the nature of your pupils. The
latter excel in hand work of all kinds and are given as much
opportunity as possible for this type of work...

Pupils continue to enter school at irregular times, making
work more difficult for all concerned. Could it not be arranged
for all beginners to enter school, together ??

I understand the matter of some type of "follow-up" work
is still being considered, and I trust some action may be
possible, in order to hold the advantage of school training,
after pupils have returned to the reserve.

MELVILLE, SASK.

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Suggestions regarding teaching methods.....

.....These teachers are both getting along so nicely with their
work, that little in the way of suggestions seems in order....

.....They are both quite "strong" teachers, have adapted their methods
to the needs of their particular pupils, and are bringing them
along very creditably.

.....Miss Marlin tries to get her pupils into the habit of speak-
ing out well, and uses interesting devices to this end. Her drill
work is definite and thorough, and her supplemental work is varied
and interesting. Pupils are orderly and work well, giving a credita-
ble response..and making a good average showing on tests.

.....Mrs. Ross has a more difficult problem, with pupils attending
only half-days, but she is coping with the situation particularly
well, and her classes make a better showing than many full time
classes. Her methods are most effective, encouraging pupil thought
and activity..and pupils give a ready and creditable response. The
CLASSROOM FURNITURE
general attitude is most pleasing, and good work is being done throuh
-out.

Preservation and arrangement of furniture.....

.....Furniture is well arranged...and well cared-for. Seems
in very good condition throughout.

Care of material.....

.....Good.....

If necessary, indicate what additional classroom material, books, etc., should be supplied

.....Working materials are well kept-up, and Libraries have been
built up quite nicely...

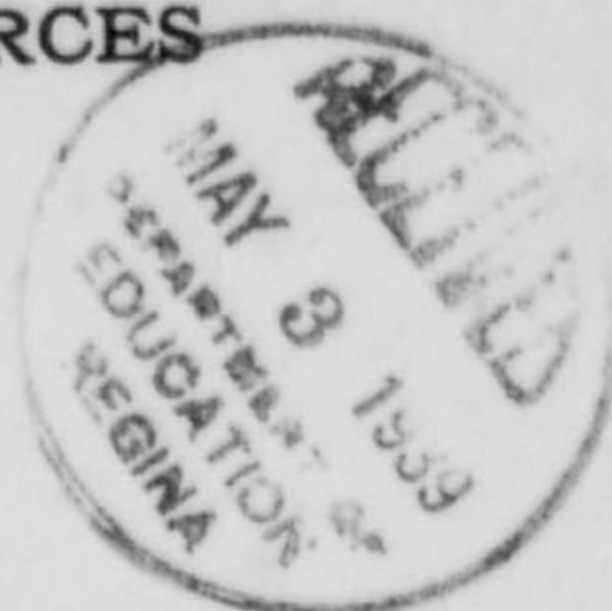

.....A home-made sweeping compound has been used, but supply had
run out ..so sweeping was a very dusty process.. A slight oiling
of floors might help this condition.

General comment:

Mr. Dulmage is a very good type of young teacher,with a pleasing per-sonality and with good ability. He is live and energetic in his work, is carefully prepared,and his teaching is definite and interesting. I suggested that more drill work was necessary..and I wondered if Teach-er would not have to simplify his language for pupils' benefit. Pupils generally are rather slow in responding,although Teacher reports some improvement in this regard . Pupils attend only half-days,using other half for industrial work....On tests of academic work, classes are rather below the average.

General comment:

Miss Walbridge is a pleasing and conscientious type of young teacher.. who is trying to do her very best for her pupils. She varies her work and makes it as interesting as possible...appearing to hold the confidence of her pupils. Both Teacher and Pupils work well..although oral response is somewhat backward and in rather a low voice. Teacher is trying to give pupils a good general training..and should be successful. On my tests, Grade III seemed a little below average standard($\frac{1}{2}$ day pupil

Regina, December 11th, 1941.

Report on Round Lake Indian Residential School

I wish to inform you that I inspected the Round Lake Indian Residential School on December 3rd and am pleased to report that I found this Institution in better shape than ever before.

Buildings

As you know, this Institution has been built up from practically nothing, simply by adding on something here and there. The same applies more or less to the outside buildings. I found everything in good order and all buildings painted, and I was informed that the Department had furnished the material and the Staff had performed the labour. The machinery in the laundry, the boiler, the lighting plant, and the battery were all in first class condition. The only thing I found that required renewing was the eavestroughing. This has been on the building for years and the snow and frost have had the effect that it will have to be renewed next Summer. The tables and the benches in the dining room are also past repairing and the Principal informed me that if he were supplied with material to build new tables and benches the School would perform the labour. The bill of material will be forwarded later on.

Cattle

They have 65 head of Holstein cattle. There were 100 head when Mr. Huston took charge but they are now reduced to 65 and it is his intention to gradually work into a Shorthorn herd and get rid of the Holsteins. He also intends to further reduce the herd to about 40 or 50. I think this is a step in the right direction. They also have 13 horses which I consider that they do not need ~~half of the time~~ because they have a tractor to do the farm work, and the Principal informed me that he would get rid of some of the useless horses he has there.

Gardens

The crop was poor last Summer on account of drouth and the Principal has had to buy potatoes and other vegetables because the amount grown at the School was not sufficient to carry them through the year.

Water

The water used at the School is taken from Round Lake, just adjacent to it, but the water used for drinking, etc. is hauled from a

spring about $1\frac{1}{2}$ miles.....

Indian Affairs. (RG 10, Volume 6333, file 661-6, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

spring about $1\frac{1}{2}$ miles from the School.

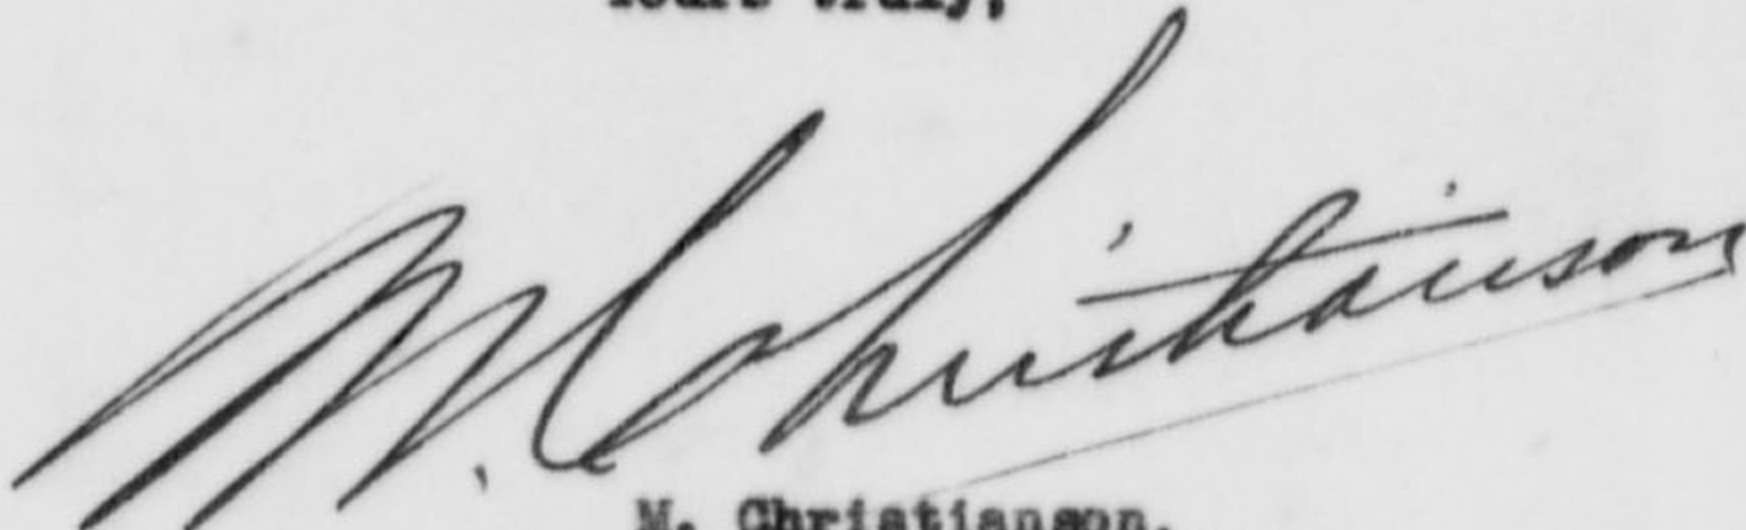

General

I visited the children in the two classrooms and was in the dining room when they were having their supper. I also took down a statement from the Principal and the Matron as to what the children are being fed at the different meals. From what I saw and was told I consider that the children here are exceptionally well fed and they certainly show it. There were 77 children in residence when I was there.

Staff

The Staff consists of Mr. Huston the Principal, two other men, and seven ladies, two of which are teachers. From my observations I would say they have a good competent Staff at the School and good work is being carried on at this Institution.

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

General comment:

Miss Ross is doing very fine work with these children. She has good objectives in view. She is placing emphasis on phases of the work which will most benefit these children. The tone of the room was good.

Miss Ross is also musical, which is an asset. The school is fortunate in having the services of this teacher.

General comment:

Miss Graham is particularly well suited to this type of class-room. This teacher has a very fine classroom manner. She has the liking and respect of the pupils. An improvement has been made in the response of the children since this teacher took charge.

I believe that Miss Graham is doing good work in this classroom.

General comment:

Miss Nicholson is a teacher of very average ability. She is not particularly well trained for primary work. However, she is sincere, and is a good type of person.

Classroom discipline is rather lax. I believe, though, that this teacher will do better in this classroom, when she has adjusted herself to the type of work.

So do I.
care.

A, excellent; B, good; C, fair; D, poor.
The scale of grading may be increased by the use of + and -
(A+, A, A-).

General Comment:

Miss Gormley evidently has had considerable ^{training} and good experience in teaching senior pupils, but she seems to have considerable difficulty in adapting her methods to the needs of young children. It is quite possible that she could do better work teaching senior grades.

The school rooms in this school are in poor repair. Windows are broken, steps are poor, plaster is falling in places, paint is dirty and so dark that the rooms have a dingy appearance etc. Since the physical environment plays an important part in the all-round development of the children, I consider the condition of these classrooms to be unsatisfactory.

According to reports the classrooms are quite cold in winter.

A, excellent: B, good: C, fair: D, poor.
The scale of grading may be increased by the use of + and -
(A+, A, A-).

General Comment:

I found the outside door of the school - the only exit - locked.

The primary teacher was relieved of one grade because of illness. Mr. Bell has these junior pupils not very satisfactorily seated in an alcove of his room. He is interested in and proud of their progress and is giving them as much time as possible.

I saw work in reading, mathematics, language, social studies, literature, health

To have ten pupils in the two senior grades is an indication of the good level to which the work of the school is being raised. Mr. Bell is to be commended for his interest in these pupils. Generally good progress is a direct result of this interest.

A, excellent; B, good; C, fair; D, poor.
The scale of grading may be increased by the use of + and - (A+, A, A-).

General Comment:

I found the outside door of the school - the only exit - locked.

Mrs. Linton expects the standard of this work to be up to the standard in any good public school. To this end she is emphasizing the work in reading, writing and arithmetic. There is a sandtable, as well as a table for display work, a play house. Christmas songs were being practiced.

Typewritten sheets were given pupils in some of the reading assignments. It is suggested that the Guide Books for the readers be made available.

The standard of work is comparatively high. I feel confident that no limitations of subject matter within the curriculum are necessary.

See "Sympathy" in 1949.

Mr. W.J.D. Kerley, Indian Agent,
Broadview, Saskatchewan.

Round Lake Residential School -
Inspector's Report

Mr. Moir visited this school on November 13 and his reports have been received on Mrs. Linton and Mr. Bell, who are teaching at this school. Both reports are entirely satisfactory and both teachers are graded as A. and B. throughout on the teacher grading scale.

The only comment which would seem to indicate action on your part is that Mr. Moir found the outside door of the school, the only exit, locked. In all probability this matter has already been discussed with the Principal of the School, but in view of the fire hazard it should not be permitted to happen again.

Bernard F. Neary,
Supt. of Welfare & Training.

A, excellent; B, good; C, fair; D, poor.
The scale of grading may be increased by the use of + and - (A+, A, A-).

General Comment: *Truancy has reduced enrolment of older pupils.*

The division of pupils as shown above allows Mrs. Linton to devote more time to beginners than would be possible in the junior room. Mrs. Linton has, by the same token, been able to maintain her knowledge of the curriculum and methods throughout the elementary grades.

Her classroom reflects good planning and supervision of the pupils' work.

As the future of this school is in doubt Mrs. Linton might be available for duty in a day school. I think that her performance therein would be better than average.

She would like, when time and funds permit, to attend a course that is specifically intended for teachers in Indian schools.

The scale of grading may be increased by the use of + and - (A+, A, A-).

General Comment:

Miss Russell is to attend summer school next month in order to complete her qualifications for an Interim first class certificate (Saskatchewan).

She has resigned her present appointment and is as yet not committed to another contract. She might consider a convenient Indian Day School.

It should be noted that she is the daughter of a departmental employee of long service, and has, therefore, more than an ordinary acquaintance with Indians.

She has an attractive person and manner and an enthusiasm for her work. Her younger pupils, especially, are making extra good progress. She would continue to do well in the junior room of a two-room school. She is too young to be sent out alone.

I was particularly pleased with the "Reading Nook" which she has set up in her room to encourage the use of school library procedures.

Present	8				5	6	3	2	24

Teacher Mrs. Queen O'Brien Linton
(Name in full)
Licence (or certificate) N.S.
Valid to 19
Taught last term in Round Lake Res. Ind. Sch.
Teaching experience Service in Indian school.
(years) S. Melville, Sept. 1949 (years)
Conventions attended
Trs. Institute at Stockholm, Oct. 1949

Teacher Grading

	A		B
Appearance		Management	
Health	A	Teaching skill	A
Personality	A	Preparations	B
Initiative	A	Language	A
Discipline	A	Community service	Don't know
Relations	C	Pupils' progress	Sat'y

A, excellent; B, good; C, fair; D, poor.
The scale of grading may be increased by the use of + and -
(A+, A, A-).

General Comment:

In neither room of this school does the enrolment seem to have been completed. There has evidently been a request made to the Saskatchewan Department of Education to have correspondence courses given to some pupils on a nearby reserve. Who?

Mrs. Linton is a well-qualified, energetic, interested teacher who is trying to bring these pupils to the same standards that one would find in any public school in the province. It is to be noted that pupils from the school are enrolled in high school classes (e.g. Brandon, Man.).

I do not think she feels sympathetic towards these pupils because they are Indians. If she were to be asked why she would probably ask: Why should I be? Her attitude seems to be that they are as well equipped mentally as other children to carry on with the school work and they should be treated exactly the same and the same results should be expected. Some Indians want this

If an explanation is needed for Mrs. Linton's lack of warm community support, the above is offered. But he "don't know" her community service!

May I add the following.

Mrs. Linton and the children were enjoying one of the evening autumn bonfires that were possible around Hallowe'en this year. She had taught them the one verse of a Hallowe'en song that the song book gave and had made up another. They sang the two and then Mrs. Linton suggested that the children 'make up' one of their own, - the book had one, she had made up one, so that they had examples to follow. One of the girls spoke for the group when she said, "But, Mrs. Linton, yours doesn't sound made up!"

1. There is "disaffection" among some Indians in Mrs. Linton's class.
2. "If" & "sums" - the "evidence" ought to be more conclusive - Not consistent with 1947 report
3. I fail to understand.

I.A. 401
R. 2146

N.B.—ONE FORM TO BE USED FOR EACH CLASSROOM TEACHER

(Use reverse if necessary—This end to be the top)

One of the factors in all this is Mrs. Linton's "general" health which does not "sum" to me "A" case

GENERAL REMARKS.

Aug 10 23 21

Visit class room and find affairs in connection running smoothly. Confer with Principal on several matters, particularly re pupil Mary Gaddie who should be kept under closer observation and away from young men of questionable moral character.

I regret to report the death by drowning of a girl pupil, No. 0102, Maud Tapewaywaypenasick, aged 15. It appears the deceased along with several more girl pupils during the evening of the 20th went to the large lake which is close by the school to bathe and all of them ventured by the method of joining hands too far out in the deep water. As is usual in such unfortunate daring cases the girls became afraid too late, and on the hand chain being broked several were in great danger of being drowned. One of the girls, Ida Sagit, acted in a very heroic manner and by her presence of mind and actions although in great danger herself saved at least two girls. These girl pupils were unaccompanied by any of the staff connected with the school, which is to be regretted. The police and coroner investigated the matter, and afterwards made reports to their respective departments.

Extract
put on
no. 1

Girls clean and fairly well
Dressed. Boys Hair very long and
not too tidy or clean
conditions at this school are not
good. The staff appear to be
pulling against the Principal
I asked Principal why children
were not in school he said he
had told the Parents if they
did not send their children
he would have to close the
school. This does not seem good
enough. It has been a very cold
weather but at least most of
the children could have been
got in with out any hardship

R

May 5 42 18 20

The children appear to be progressing very favorably in their studies. The great drawback is absence. The Principal ~~allows~~ allows the children to go home on almost any excuse. I have brought the matter to his attention on more than one occasion but it seems to do very little good.

GENERAL REMARKS

(Under this heading give your opinion on the condition of the school in regard to management, progress, &c., and any matters of interest regarding the school.)

29th

22 19

I visited this school on the above mentioned date and found Mrs McKay the Principal's wife in full charge with no help only the School Girls but was given to understand they expected a Miss Daniels in a few days to take up the duties of Matron. Miss Blyth the new teacher seems interested in the work but it is hard for me to say just yet how she will succeed. I found 41 children in the school but there is some of these not on the Roll and there was 9 of the enrolled pupils absent.

24	26	32	The school room is too small for the number of pupils in attendance. There is only seating capacity for forty-eight children, and they have to take them in turn. The second floor of the building is unoccupied and could be used for another school room. It would be necessary of course, to get another teacher. They have I think, sufficient furniture to seat this room. When I spoke to the principal, he said the church was afraid of the expense, but I think if they are allowed from 60 to 70 children, they should furnish accommodation for them. Some progress is being made here, but the new principal, Mr. Greer, seems very dissatisfied and I fear will not stay long.

GENERAL REMARKS
(Under this heading give your opinion on the condition of the school in regard to management, progress, etc., and any matters of interest regarding the school.)

March 1 32 30
In connection with this school I beg to draw the Department's attention again to the class room. They have 62 children and at present they take in half in the forenoon and half in the afternoon. This to my mind is not in the best interests of the children as they spend too much time in idleness. The present class room is 24 by 30 ft by 10½ ft high. This will only accommodate 30 children, allowing 250 cubic feet per child.
I would strongly urge that the upstairs flat be put into shape as soon as possible, and another teacher secured.
I understand the present principal, Mr. Greer, is leaving on the 1st of April.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School
For the month of April 1929 (visited 25th March, 1929)

ROUTINE

At the time of my visit there were:—

71 pupils in the classrooms.
Are the classroom registers kept up to date? Yes.
1 pupils in vocational training departments.
1 pupils sick.
4 pupils absent. Reasons at homes helping parents.
77 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils clean and neat and well clothed. Many just recovered from influenza and still showing effects.
Cleanliness of school main buildings and class-rooms both clean and well kept.
Appearance of school grounds rather untidy; wood piled in play-ground; the attention of the Principal was drawn to this and improvement expected.
Care of the sick sick children receive all possible care and attention.
The children's meals the children have plenty of good wholesome food at all meals.
Fire drill, escapes and protection fire-drill held fairly regularly and hose and extinguishers kept in proper places

VOCATIONAL TRAINING

Domestic Instruction from about the age of 11 years.
Instruction in Farming and Gardening from the age of about 12 years
Training in the care of live stock " " 12 years
Manual training a few of the older boys assist at general repair work
Care of agricultural machinery and other equipment the older boys are taught to operate the implements and machinery after the age of about 12 years.

GENERAL

Discipline at the school fairly good
Efficiency of the staff at the present time the staff are quite efficient.
General management good financially.

Suggestions more organized games are needed; this is a feature which has not been given much attention at this school; would suggest that a foot-ball be supplied for the boys and a basket-ball be supplied for the girls, and that the school staff make more effort to encourage the children to take proper exercise at their play-time.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of May, 1929. 19

ROUTINE

At the time of my visit there were:—

41 pupils in the classrooms.

Are the classroom registers kept up to date? yes

29 pupils in vocational training departments.

1 pupils sick.

6 pupils absent. Reasons 1 sick in sanitarium; 6 at home helping parents

77 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No

HEALTH, SANITATION, Etc.

Appearance of pupils mostly healthy and well clothed

Cleanliness of school good

Appearance of school grounds not very good; a large quantity of wood is still scattered about the playground, but is being piled at proper place, rather slowly.

Care of the sick all sick children receive the best of care

The children's meals children's meals good and substantial, in fact they receive practically the same food as the staff.

Fire drill, escapes and protection regular fire drill is held and the escapes and extinguishers are in good shape

VOCATIONAL TRAINING

Domestic Instruction all girls taught sewing and patching; older girls assist in laundry and kitchen

Instruction in Farming and Gardening younger boys assist in garden; older boys assist in farm work and operation of farming implements

Training in the care of live stock all boys assist more or less in care of live stock

Manual training little manual training is taught, mostly repair work

Care of agricultural machinery and other equipment older boys are taught proper handling of farming implements and other equipment

GENERAL

Discipline at the school fairly good

Efficiency of the staff generally good; Farm Instructor lacks experience.

General management very good, but in my opinion, too much of the Principal's time is taken up with work which should be the Farm Instructor's, and the Principal does not have sufficient time

Suggestions to devote to the real work of a Principal.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of June 1929

ROUTINE

At the time of my visit there were:—

70 pupils in the classrooms.
Are the classroom registers kept up to date? yes.
.....pupils in vocational training departments.
0 pupils sick.
7 pupils absent. Reasons 1 sick in sanatorium; 6 at home helping parents
77 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils quite healthy and neat and well clothed.
Cleanliness of school very clean as to floors; some kalsomining needed in places.
Appearance of school grounds improved since my last visit; wood has been piled and play-ground cleaned; still room for improvement.
Care of the sick the sick at this school are given the best of care, but no one sick at the present time.
The children's meals children are given good substantial food at all times, practically the same food as that given the school staff.
Fire drill, escapes and protection regular fire drill is held and the escapes and extinguishers are in good shape.

VOCATIONAL TRAINING

Domestic Instruction all girls are taught sewing and patching; older girls assist in laundry and kitchen.
Instruction in Farming and Gardening younger boys work in garden at times; older boys assist in the operation of farm implements.
Training in the care of live stock all boys assist in care of cattle and hogs, and older boys in the care of the horses being worked.
Manual training some repair work done by the boys, but none of any account.
Care of agricultural machinery and other equipment older boys are taught proper handling of machinery and implements under supervision.

GENERAL

Discipline at the school fairly good.
Efficiency of the staff generally good; Farming Instructor willing and a hard worker, but lacking in experience and rather too young.
General management very good, generally speaking; the farm is handled in a manner which makes it a paying proposition, a good class of dairy cattle are kept, also good hogs and work horses;
Suggestions Farming is under the direct supervision of the Principal.

AGENT'S REPORT

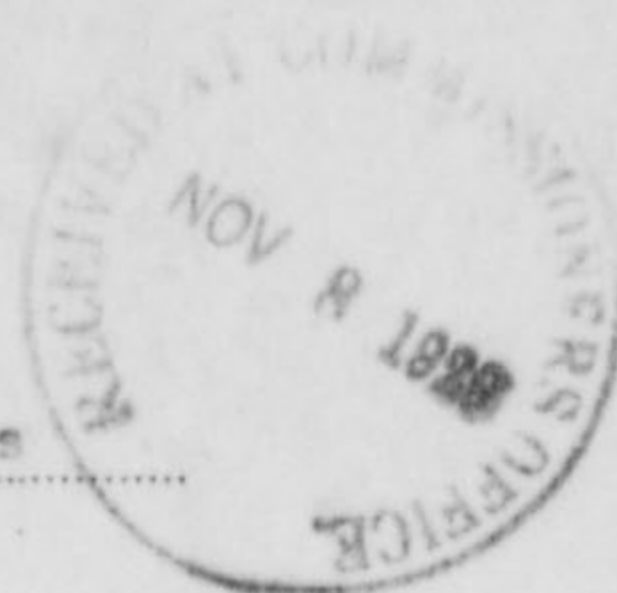

Respecting the Round Lake Indian Residential School

For the month of October, 1929. 19

ROUTINE

At the time of my visit there were:—

77 pupils in the classrooms.
Are the classroom registers kept up to date? Yes
1 pupils in vocational training departments.
3 pupils sick. (1 at hospital and 2 in school)
8 pupils absent. Reasons 7 assisting parents at home; 1 truant.
89 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

Yes (7 pupils; admission forms to be forwarded to Department)

HEALTH, SANITATION, Etc.

Appearance of pupils neat and tidy; a few have coughs, possibly whooping-cough.
Cleanliness of school clean and well kept.
Appearance of school grounds considerable improvement; more improvement needed.
Care of the sick the sick get the best of care; the school is now under quarantine owing to whooping-cough.
The children's meals the children of this school always have good substantial meals.
Fire drill, escapes and protection regular fire drill is held and the escapes and equipment are in fairly good shape.

VOCATIONAL TRAINING

Domestic Instruction all girls taught sewing and patching; older girls assist in laundry and kitchen.
Instruction in Farming and Gardening younger boys assist in gardening and older boys assist with other farm work.
Training in the care of live stock all boys are taught to care for live stock.
Manual training small amount of repair work done by the boys.
Care of agricultural machinery and other equipment older boys are taught proper handling of machinery and equipment.

GENERAL

Discipline at the school fairly good; would be improved by the addition of a suitable matron. There is considerable improvement in the efficiency of the staff with a new class-room teacher and a new farming instructor. The farming instructor's wife is acting as matron, but I am not much impressed with her work.
Efficiency of the staff The Principal has always devoted too much of his time to the duties of farming instructor. The new farming instructor seems very capable and there is great improvement in the handling of the boys when they are working around the barns and at their other duties.
General management

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of November 1929

ROUTINE

At the time of my visit there were:—

66 pupils in the classrooms.

Are the classroom registers kept up to date? In senior room Yes; in junior room No as teacher was sick in bed for about a week before my visit.

13 pupils in vocational training departments.

1 pupils sick. (in hospital)

6 pupils absent. Reasons 3 helping parents; 3 without permission.

86 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils neat and tidy and well clothed and fed.

Cleanliness of school thoroughly clean.

Appearance of school grounds there is general improvement in the appearance of the school grounds. Credit due new Farm Instructor.

Care of the sick the sick at this school always get the best of care.

The children's meals the food is substantial and satisfying and the children show it in their appearance.

Fire drill, escapes and protection regular fire drill is held. The equipment is in fair shape.

VOCATIONAL TRAINING

Domestic Instruction all girls taught sewing and patching; older girls assist in laundry and kitchen.

Instruction in Farming and Gardening at this time of the year there is no instruction along these lines.

Training in the care of live stock boys are taught, more or less, in the care of the live stock.

Manual training small amount of repair work done by the older boys.

Care of agricultural machinery and other equipment older boys are taught proper handling of machinery and equipment.

GENERAL

Discipline at the school fairly good; at present time there is no cook, this work being done by Farm Instructor's wife, who also acts as Matron. I do not think she is suitable for either position. The Principal informs me that he is trying to get a cook, but is having some difficulty. The teacher in the junior room, whom I reported as being suitable, has been dismissed and another engaged; the latter was sick at the time of my visit and I am unable to report anything regarding her. I am rather impressed with the new Farming Instructor, who is doing good work and showing improvement where it was needed.

Form No. 217
Forwarded to the Secretary Dec. 17th, 1929.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of December, 1929, 19

ROUTINE

At the time of my visit there were:—

36 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

 pupils in vocational training departments.

2 pupils sick. (at homes)

45 pupils absent. Reasons 4 assisting parents at homes; 2 truant; remainder had not returned from Xmas holidays owing to extremely severe weather.

83 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and clean, and well nourished.

Cleanliness of school The school building is very clean in every part.

Appearance of school grounds Fairly well kept. Still some improvement needed.

Care of the sick The sick at this school receive the best of care. There is very little sickness at present.

The children's meals The children receive sufficient wholesome food. The Farm Instructor's wife is acting as cook and is doing well.

Fire drill, escapes and protection The children are all familiar with the use of the escapes. Equipment is in fairly good shape.

VOCATIONAL TRAINING

Domestic Instruction All girls taught sewing and patching; older girls taught cooking and general housekeeping.

Instruction in Farming and Gardening None at present time.

Training in the care of live stock All boys assist some in care of cattle, horses and hogs.

Manual training A small amount of repair work is done by the older boys.

Care of agricultural machinery and other equipment Under supervision, older boys assist in the care of machinery and equipment.

GENERAL

Discipline at the school Fairly good. The Principal informs me that he has been unable to get a suitable cook and in the meantime The Farm Instructor's wife is acting. She is certainly a good cook, but not strong enough.
Efficiency of the staff The laundress sprained her ankle and is unable to work and the Principal's wife is acting in this capacity as well as in the capacity General management of matron. The New Farm Instructor seems quite capable and has a good influence over the boys.

Suggestions A suitable Matron is really needed at this school.

Forwarded to the Secretary January 15th, 1930.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of January, 1930 19

ROUTINE

At the time of my visit there were:—

75 pupils in the classrooms.

Are the classroom registers kept up to date? Yes

 pupils in vocational training departments.

1 pupils sick.

6 pupils absent. Reasons 1 assisting parents; 3 truant; 2 in quarantine at homes.

82 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and clean and well clothed; mostly in good health, but a few cases of "pink-eye".

Cleanliness of school Dormitories and class-rooms very clean and well-kept, also dining-room and kitchen; furnace and engine-room not very good.

Appearance of school grounds Fairly good; deep snow everywhere.

Care of the sick A number of the children have had pink-eye and are given good attention. Noticed some others with poor sight.

The children's meals The children receive a sufficient quantity of good whole-some food. At present time fire protection is not good

Fire drill, escapes and protection owing to the fact that both engines are out of order. The Principal informed me that he had purchased a new engine and expected to receive it in a day or so.

VOCATIONAL TRAINING

Domestic Instruction All girls taught sewing and patching; older girls taught cooking and general house-keeping.

Instruction in Farming and Gardening None at present time.

Training in the care of live stock All boys assist in the care of cattle, horses and hogs.

Manual training A small amount of repair work is done by the older boys.

Care of agricultural machinery and other equipment Under supervision, older boys assist in care of machinery and equipment.

GENERAL

Discipline at the school Fairly good; since my last report a cook has joined the staff and she is apparently the right kind. The staff is

Efficiency of the staff now complete with the exception of a Matron. The Farm Instructor's wife is acting in this capacity, but has not the strength of will or body for the position.

General management Through poor crops, (almost total failure) the school had very little feed of any kind and it has been necessary to

Suggestions purchase hay, oats and barley for feed for cattle, horses and hogs. The Principal has secured sufficient feed and no stock will suffer, but it has been hard on the school finances.

For the month of February, 1930. 19

R

ROUTINE

At the time of my visit there were:—

73 pupils in the classrooms.
Are the classroom registers kept up to date? Yes.
pupils in vocational training departments.
pupils sick.
3 pupils absent. Reasons 1 truant; 2 quarantined at homes with whooping-cough.
81 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and clean and well clothed; all pupils look to be in good health and well nourished.
Cleanliness of school The school was thoroughly clean throughout.
Appearance of school grounds Fairly good; deep snow now melting and hogs running at large about the school grounds spoils appearance some.
Care of the sick The sick children at this school receive the best of care.
The children's meals The children are given a sufficient quantity of good nourishing food, properly prepared.
Fire drill, escapes and protection Fire drill held while I was there and children were out of the building in good order; some of hose connections loose and not in good order, one fire extinguisher empty, another out of order.

VOCATIONAL TRAINING

Domestic Instruction All girls taught sewing and patching; older girls taught cooking and general housekeeping.
Instruction in Farming and Gardening Older boys taught farming; all boys taught gardening in season.
Training in the care of live stock All boys assist in the care of cattle, horses, and hogs.
Manual training A small amount of repair work done by older boys.
Care of agricultural machinery and other equipment Under supervision, older boys assist in handling of machinery and implements.

GENERAL

Discipline at the school Fairly good; sewing-room teacher recently discharged and not yet replaced at time of my visit; no other change in staff.
Efficiency of the staff All members of the staff are fairly efficient in their duties, but a good Matron badly needed.
General management Through poor crops it has been necessary to purchase a large quantity of feed for the stock, but they have all wintered well with no losses. Financing has been difficult on account of unusually heavy expenses with the stock and no grain to sell.
Suggestions

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of March, 1930. 19

ROUTINE

At the time of my visit there were:—

76 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

.....pupils in vocational training departments.

.....pupils sick.

5 pupils absent. Reasons 1 truant; 4 sick at homes.

81 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and clean and healthy.

Cleanliness of school The school was thoroughly clean.

Appearance of school grounds Fair; too much wood is piled in the play grounds; this is a usual thing at this school and it spoils the appearance, also takes up space which should be used by the boys in their games.

Care of the sick The sick are well cared for.

The children's meals The children receive an ample quantity of good food.

Fire drill, escapes and protection Fire drill is regularly held. At time of my visit the hose connections had not been tightened, but the Principal assured me that it would be done at once.

VOCATIONAL TRAINING

Domestic Instruction All girls taught sewing and patching; older girls taught cooking and general housekeeping.

Instruction in Farming and Gardening Older boys taught farming; younger boys taught gardening in season.

Training in the care of live stock All boys assist, more or less in care of stock.

Manual training A small amount of repair work done by the boys.

Care of agricultural machinery and other equipment Under supervision, older boys assist in care of machinery and implements.

GENERAL

Discipline at the school Fairly good; there is now a complete staff at the school with the exception of a suitable matron. The

Efficiency of the staff Farming Instructor's wife is acting, but is not suitable

General management The general management is fairly good.

Suggestions There is now a better staff at this school than there has been at any time since I have been visiting the school and, generally speaking, they are all capable to discharge their duties, with the exception of the Matron.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School
For the month of April 1930

R

ROUTINE

At the time of my visit there were:—

51 pupils in the classrooms.
Are the classroom registers kept up to date? Yes.
27 pupils in vocational training departments.
.....pupils sick.
4 pupils absent. Reasons 1 truant, 1 quarantined at home, 2 assisting parents at home.
82 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and well clothed and clean.
Cleanliness of school Very clean throughout.
Appearance of school grounds Wood has been piled all over the boys' playground and is now being cleared away. There is plenty of room elsewhere and it is not necessary to use playground for this purpose; otherwise the grounds are not bad.
Care of the sick The sick at this school receive the best of care.
The children's meals The children's meals are of good substantial food and in sufficient quantity. Plenty of milk is being used.
Fire drill, escapes and protection Regular fire drill is being held and the equipment at the time of my visit was being given better care than at time of previous visit. Hose connections have been tightened, but are still not right. I tried one of the hose lines and had it running for five minutes, which reduced the pressure 10 lbs. without the engine running. There should be a reserve supply tank in use and the water in this tank never touched except in case of fire, as, on wash days, the pressure is usually too low to be of any use in case of fire.
Domestic Instruction All girls receive some domestic instruction.
Instruction in Farming and Gardening All boys assist, more or less, in gardening; older boys are taught other farm work.
Training in the care of live stock All boys assist some in the care of the cattle, horses and hogs.
Manual training A small amount of repair work is done by the boys, but nothing of any account.
Care of agricultural machinery and other equipment Older boys assist in the care of agricultural machinery and equipment.

VOCATIONAL TRAINING

GENERAL

Discipline at the school The discipline at this school is fairly good.
Efficiency of the staff With the exception of a Matron the staff at this school are all efficient in their duties. The Principal's wife, who also teaches one class-room, does most of the Matron's work. The Farm Instructor's wife is Matron in name only.
General management The general management of this school is fair.
Suggestions The Principal's residence has not been used for some time. The Principal and his wife live in the office. I have again spoken to the Principal re this and he informed me that he would move into the residence at once.

Forwarded to the Secretary May 15/30.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of June, 1930. 19

ROUTINE

At the time of my visit there were:—

76 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

 pupils in vocational training departments.

2 pupils sick. at homes
2 " " in school

2 pupils absent. Reasons at homes helping parents

82 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils Neat and clean and well clothed.

Cleanliness of school The school was quite clean everywhere with the exception of the root cellar which was not very clean and there was a bad odour issuing from it.

Appearance of school grounds The grounds were tidy and gave the appearance of being well kept. There is great improvement in this respect.

Care of the sick The sick children receive the best of attention.

The children's meals The children are given a sufficient quantity of good food and the cooking is good.

Fire drill, escapes and protection Regular fire drill is held and the protection was in fair shape. The water pressure is never sufficient to be of any use in case of fire.

VOCATIONAL TRAINING

Domestic Instruction All girls receive some instruction in sewing, mending, cooking and housekeeping.

Instruction in Farming and Gardening All boys receive some instruction in gardening and the older boys assist some in the farming operations.

Training in the care of live stock All boys assist, under supervision, in caring for the cattle, horses and hogs.

Manual training Very little manual training is taught.

Care of agricultural machinery and other equipment Under supervision, older boys assist in looking after the farm machinery and other equipment.

GENERAL

Discipline at the school The discipline is fairly good, but a suitable matron is required.

Efficiency of the staff Generally, the staff are efficient in their duties, but the farm instructor's wife, who is acting as Matron is not suitable for the position.

General management The general management is fairly good, but improvement is needed in some respects. There is now a good farming instructor and mechanic, but the Principal uses them more as labourers and does the farm instructing to a great extent himself.

COMMISSIONER'S OFFICE.

D REGINA, SASK., July 15th, 1930.

Sir:-

I am enclosing herewith Agent Ostrander's reports on the Cowessess and Round Lake Indian Residential Schools in the Crooked Lake Agency.

The report on Cowessess is most satisfactory. They have a good Farming Instructor and Mechanic here.

The report on the Round Lake School shows that good progress is being made in some branches of the work. It seems to me that the Agent has not touched on all the matters at this school that require attention, as you will note in Inspector Hamilton's report, forwarded under cover of my letter of the 11th. instant, that the toilets were described as being very unsanitary.

Just go
You will note that the Agent again points out that a suitable matron is required. It seems to me this should receive the attention of the Department, and I may add that no competent matron will stay there until Mrs. Ross moves into her own residence.

Your obedient servant,

[Signature]
A. J. Graham,
Indian Commissioner.

AGENT'S REPORT

Respecting the Rouna Lake Indian Residential School

For the month of September, 1950. 19

ROUTINE

At the time of my visit there were:—

08 pupils in the classrooms.
Are the classroom registers kept up to date? Yes

 pupils in vocational training departments.

 pupils sick.

14 pupils absent. Reasons 2 truant; 1 assisting parents; 11 being transferred to Brandon School.

82 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils... The pupils of this school are generally well clothed and kept clean.
Cleanliness of school... The building is always kept clean and tidy.
Appearance of school grounds... The grounds of this school are not kept very good; fences have the appearance of neglect; improvement needed. The sick receive good care; all are in good health at present time.
Care of the sick...
The children's meals... The children receive a sufficient quantity of good nourishing food.
Fire drill, escapes and protection... occasional fire drill is held and the equipment is in fair shape. Waterworks now in good repair, but I noted there was only 10 lbs. of water pressure which is not sufficient to raise water to second floor in case of fire.

VOCATIONAL TRAINING

Domestic Instruction... All girls receive some instruction in sewing, mending, cooking and housekeeping.
Instruction in Farming and Gardening... In season, all boys receive some instruction in gardening and older boys some in other farming work.
Training in the care of live stock... All boys receive some instruction in care of live stock.
Manual training... Very little manual training is taught.
Care of agricultural machinery and other equipment... Under supervision, older boys assist in care of farm machinery and equipment.

GENERAL

Discipline at the school... The discipline is fairly good, but a suitable matron has not yet been found.
Efficiency of the staff... The staff are fairly efficient in their duties, but they change so often that the efficiency is impaired thereby.
General management... The general management is fairly good, but improvement is needed.
Suggestions... There is an old outside toilet in the girls' playground and it is always filthy and in a bad state of repair. Files, no doubt, go direct from this to the kitchen. The toilets in the main building are now in repair and this should be disposed of and not used any more.

108-1-7 AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of December, 1930. 19

ROUTINE

At the time of my visit there were:—

74 pupils in the classrooms. Yes.
Are the classroom registers kept up to date?
pupils in vocational training departments.
1 pupils sick. in hospital
1 pupils absent. Reasons. Attending day school at Assinaboine Reserve.
70 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
Yes; 2 for whom applications are being forwarded to Department.

HEALTH, SANITATION, Etc.

Appearance of pupils. Neat and clean and well clothed and fed.
Cleanliness of school. The school building was thoroughly clean.
Appearance of school grounds. The school grounds are kept in fair shape at the present time, but some improvement is needed.
Care of the sick. The sick children receive the best of care.
The children's meals. The children receive a sufficient quantity of good wholesome food, properly prepared.
Fire drill, escapes and protection. Regular fire drill is held and the escapes and protection are in fair shape. A fire-alarm system has been recently installed and is very effective.

VOCATIONAL TRAINING

Domestic Instruction. All girls receive some instruction in sewing, mending, cooking and housekeeping.
Instruction in Farming and Gardening. In season, all boys receive some instruction in farming and gardening and the older boys assist with the heavier work on the land.
Training in the care of live stock. All boys assist some in the care of the school live stock and milk the cows.
Manual training. Very little manual training is taught at this school.
Care of agricultural machinery and other equipment. Under supervision, older boys are taught the use of the implements and other machinery in use at the school.

GENERAL

Discipline at the school. The discipline at this school is fairly good, but the Matron is not very firm. Some improvement could be made by her asserting herself more.
Efficiency of the staff. The staff are now quite efficient in their duties.
General management. The general management of this school is only fair.
Suggestions. I have several times pointed out the necessity for some organized games at this school, to teach the boys self-reliance, manliness, fair-play and all the other qualities which prepare a boy for man-hood, but only a feeble effort has been made in this connection and I think a real effort is needed. There are now male members on this school staff who are well able to teach the Indian Agent games if they had the equipment and were given the time to do so.

Indian Agent.

Forwarded to the Secretary.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of January, 1931. 19

ROUTINE

At the time of my visit there were:—

74 pupils in the classrooms.

Are the classroom registers kept up to date? yes.

 pupils in vocational training departments.

1 pupils sick. in hospital

1 pupils absent. Reasons attending day school at Assinaboine Reserve.

70 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils ✓ Neat and clean and well clothed and fed.

Cleanliness of school ✓ The main building and the class-room building were thoroughly clean.

Appearance of school grounds The school grounds were fairly well kept, but this is one point on which this school is never good.

Care of the sick ✓ The sick children receive the best of care.

The children's meals The children receive a sufficient quantity of good wholesome food.

Fire drill, escapes and protection Regular fire drill is held and the equipment is in fair shape. I would like to see a better arrangement of fire escapes.

VOCATIONAL TRAINING

Domestic Instruction ✓ All girls receive some instruction in sewing, mending, cooking and housekeeping.

Instruction in Farming and Gardening ✓ In season, all boys receive some instruction in farming and gardening and the older boys assist with the heavier work on the land.

Training in the care of live stock ✓ All boys receive some instruction in the care of live stock.

Manual training ✓ Very little manual training is taught.

Care of agricultural machinery and other equipment ✓ Under supervision, older boys assist in the handling of the farming implements and other machinery.

GENERAL

Discipline at the school ✓ The discipline at this school is fairly good but I would like to see the Matron assert herself more.

Efficiency of the staff ✓ The staff at this school are now quite efficient and there has been no change in the personnel for several weeks, which is both advantageous and unusual.

General management ✓ The general management of this school is fairly good.

Suggestions ✓ Proper organization during recreation is needed badly at this school.

Forwarded to the Secretary, W. M. Graham

RECORDS

AGENT'S REPORT

Respecting the Round Lake Indian Residential School
For the month of February, 1931. 19

ROUTINE

At the time of my visit there were:—

74 pupils in the classrooms.
Are the classroom registers kept up to date? Yes.
pupils in vocational training departments.
1 pupils sick. (In hospital)
1 pupils absent. Reasons attending day school at Assinaboine Reserve.
70 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
No.

HEALTH, SANITATION, Etc.

Appearance of pupils. The pupils were neat and clean in appearance and all looked healthy and well fed.
Cleanliness of school. The main building and the class room building were both clean and tidy in appearance.
Appearance of school grounds. The school grounds were in fair shape, but would stand some improvement.
Care of the sick. The sick children receive the best of care.
The children's meals. The children receive a fair quantity of wholesome food and all the milk they will use.
Fire drill, escapes and protection. Regular fire drill is held and the equipment is in fair shape. I do not like the arrangement of the escapes.

VOCATIONAL TRAINING

Domestic Instruction. All girls receive instruction in sewing, mending, cooking and general housekeeping.
Inspector Murison, now visiting the Crooked Lake Agency, will report on the fire escapes.
Instruction in Farming and Gardening. In season, all boys assist some in the gardens and the older boys in the heavier farm work.
Training in the care of live stock. All boys receive some instruction in the care of cattle, horses and hogs.
Manual training. Very little manual training is taught.
Care of agricultural machinery and other equipment. Under supervision, the older boys assist in the handling of the farming implements and other machinery.

GENERAL

Discipline at the school. The discipline of this school is fairly good.
Efficiency of the staff. The staff of this school are now quite efficient in their duties and there has been no change in the staff for some weeks.
General management. The general management of this school is fairly good. There is not sufficient attention given to the recreation of the children. Organized games, with someone in charge to see that every child takes exercise in some form would be beneficial.
Suggestions.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of April, 1931. 19

ROUTINE

At the time of my visit there were:—

74 pupils in the classrooms.

Are the classroom registers kept up to date? Yes

 pupils in vocational training departments.

1 pupils sick. (in hospital)

1 pupils absent. Reasons attending day school at Assinaboine Reserve.

70 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?
NO.

HEALTH, SANITATION, Etc.

Appearance of pupils The pupils are neat and clean in appearance and appear to be well clothed and fed.

Cleanliness of school The school was thoroughly clean throughout.

Appearance of school grounds The school grounds are somewhat improved in appearance and a better effort is now being made in this connection.

Care of the sick The sick children receive the best of care.

The children's meals The children receive a sufficient quantity of good wholesome food and as much milk as they will drink.

Fire drill, escapes and protection The children receive regular fire drill and the fire fighting equipment is in fair shape. Escapes are fair.

VOCATIONAL TRAINING

Domestic Instruction All girls receive instruction in sewing, mending, cooking and general housekeeping.

Instruction in Farming and Gardening In season, all boys assist some in the gardens and the older boys assist in the heavier farm work.

Training in the care of live stock All boys receive some instruction in the care of cattle, horses and hogs.

Manual training Very little manual training is taught.

Care of agricultural machinery and other equipment Under supervision, some of the older boys assist in the care of the farming implements and other school machinery.

GENERAL

Discipline at the school The discipline at this school is fairly good.

Efficiency of the staff There has been some more changes in the staff: Mr. Young, the gardener, died; the kitchen matron and the sewing-room teacher have been replaced; the matron is being replaced.

General management The general management of this school is fairly good.

Suggestions Forwarded to the Secretary,

Regina, Sask.,
14th May, 1931.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of May, 1931. 19

ROUTINE

At the time of my visit there were:—

74 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

.....pupils in vocational training departments.

1 pupils sick. (in hospital)

1 pupils absent. Reasons attending day school at Assinaboine Reserve.

76 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils. The pupils were neat and clean in appearance and have the appearance of being well nourished.

Cleanliness of school. The school was thoroughly clean throughout.

Appearance of school grounds. The school grounds are gradually improving in appearance and more effort is being made along these lines.

Care of the sick. The sick children receive the best of care at all times.

The children's meals. The children receive a sufficient quantity of good nourishing food.

Fire drill, escapes and protection. Regular fire drill is held and the escapes and protection are in fair shape.

VOCATIONAL TRAINING

Domestic Instruction. All girls receive some instruction in sewing, mending, cooking and general housekeeping and have learned to milk.

Instruction in Farming and Gardening. In season, all boys assist some in the gardens and the older boys assist in the heavier farm work.

Training in the care of live stock. All boys assist some in the care of the live stock. A fine herd of Holstein cattle is kept at this school.

Manual training. Very little manual training is taught.

Care of agricultural machinery and other equipment. Under supervision, the older boys assist in the care of the farming implements and the other school machinery.

GENERAL

Discipline at the school. The discipline at this school is fairly good.

Efficiency of the staff. Mr. Young, whose death was reported last month, has not been replaced, but the other positions have been filled. The new kitchen matron is particularly good. The position

General management. of Matron has been filled temporarily by Mr. Rosa's mother-in-law who is quite old and not very strong.

Suggestions. The general management of this school is fairly good.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of 30th September, 1931.

ROUTINE

At the time of my visit there were:—

69 pupils in the classrooms.

Are the classroom registers kept up to date? Yes

 pupils in vocational training departments.

1 pupils sick. at home.

3 pupils absent. Reasons 1 helping at home; 2 quarantined at home.

73 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

4 for whom applications are being forwarded.

HEALTH, SANITATION, Etc.

Appearance of pupils The pupils appeared well nourished and clean; their clothing was clean but mostly well worn.

Cleanliness of school The school was thoroughly clean.

Appearance of school grounds The grounds at this school are not very well kept, but there is some improvement shown from time to time.

Care of the sick The sick children receive good care.

The children's meals The children receive an ample quantity of good wholesome food, properly prepared.

Fire drill, escapes and protection The fire escapes are fairly good; regular fire drill is held; the fire prevention equipment is good.

VOCATIONAL TRAINING

Domestic Instruction The older girls receive instruction in sewing, mending, knitting, baking and washing.

Instruction in Farming and Gardening The older boys are taught farming and gardening.

Training in the care of live stock All boys assist some in the care of the cattle, horses and hogs.

Manual training Very little manual training is taught.

Care of agricultural machinery and other equipment The older boys assist in the care of agricultural machinery and equipment.

GENERAL

Discipline at the school The discipline at this school is fairly good.

Efficiency of the staff The staff are efficient in their duties for the most part, but a new Matron has just started and I would not say at

General management present whether she will be suitable or not.

Suggestions The general management of this school is fairly good.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of 30th November, 1931

ROUTINE

At the time of my visit there were:—

71 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

 pupils in vocational training departments.

 pupils sick.

3 pupils absent. Reasons 2 at home helping parents; 1 at home attending day school.

74 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

Yes, one regarding whom there is a dispute between the United Church and the Roman Catholic Church and application has not yet been forwarded to the Department.

HEALTH, SANITATION, Etc.

Appearance of pupils The pupils give the appearance of being well clothed and fed and they are kept clean in person.

Cleanliness of school The school is thoroughly clean throughout.

Appearance of school grounds The school grounds are fairly well kept, but some improvement is needed.

Care of the sick Sick children receive good care at all times.

The children's meals The children receive a sufficient quantity of good nourishing food and all the milk they will drink.

Fire drill, escapes and protection Regular fire drill is held and with the recent addition of new extinguishers the equipment is in fairly good shape.

VOCATIONAL TRAINING

Domestic Instruction The older girls are taught sewing, knitting, mending, cooking and general housework, also milking.

Instruction in Farming and Gardening The older boys assist in the heavier farm work and all boys assist in the gardens in season.

Training in the care of live stock All boys assist some in the care of the live stock.

Manual training Very little manual training is taught.

Care of agricultural machinery and other equipment Under supervision, the older boys assist in the care of agricultural machinery and other school machinery.

GENERAL

Discipline at the school The discipline at this school has improved some in recent months through the addition of a good Matron.

Efficiency of the staff The staff are all fairly efficient in their duties.

General management The general management of this school is fairly good.

Suggestions forwarded to the Secretary.

AGENT'S REPORT

Respecting the Round Lake Indian Residential School

For the month of May, 1932. 19

ROUTINE

At the time of my visit there were:—

62 pupils in the classrooms.

Are the classroom registers kept up to date? Yes.

12 pupils in vocational training departments.

.....pupils sick.

5 pupils absent. Reasons 1 attending day school; 4 helping parents.

79 Total number on roll.

Are there any pupils in residence whose admission has not been approved by the Department?

No.

HEALTH, SANITATION, Etc.

Appearance of pupils The pupils appear well nourished and clean and bright and cheerful.

Cleanliness of school The school building is clean throughout. Class-rooms are well kept.

Appearance of school grounds The school grounds are fairly well kept, but some improvement would not be unwelcome.

Care of the sick Sick children receive the best of care by the school staff.

The children's meals Children receive a sufficient quantity of wholesome food, well prepared. There is an excellent cook at this school.

Fire drill, escapes and protection The fire escapes are now in fairly good shape and the equipment is good. Regular fire drill is held.

VOCATIONAL TRAINING

Domestic Instruction The older girls are taught sewing, knitting, mending, cooking and general housekeeping as well as milking.

Instruction in Farming and Gardening The older boys are taught the heavier farm work, while all boys assist with the gardening.

Training in the care of live stock All boys assist in the care of the cattle, horses, chickens and hogs.

Manual training Very little manual training is taught.

Care of agricultural machinery and other equipment Under supervision, the older boys assist in handling farm machinery and other school machines.

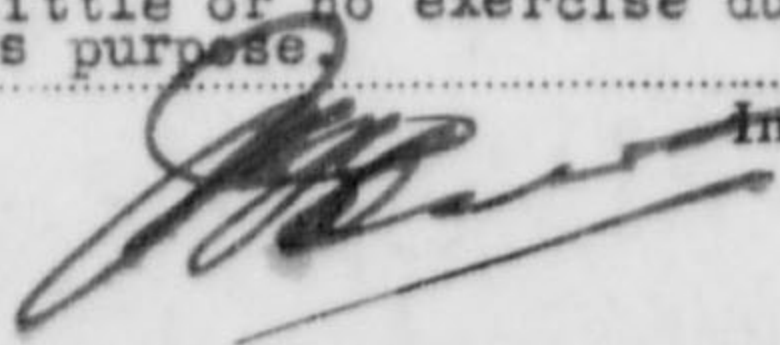

GENERAL

Discipline at the school The discipline of this school is fairly good.

Efficiency of the staff The staff are all efficient in their duties.

General management The general management of the school is fairly good.

Suggestions Organized games are needed at this school during recess time to see that all children exercise. I notice many taking very little or no exercise during the period set aside for this purpose.

Return

Round Lake Indian School
Broadview P.O. Assa

April 23^d 1888

Sir

My object in writing
is to ask if you can do any
thing for us in the way of pro-
curing a piece of land for the
benefit of our school.

There is the S. $\frac{1}{2}$ of Sec 23 Township 18
R. 3. This would be valuable to us
or failing in this, the S. $\frac{1}{2}$ of the same
23rd Sec. or Sec. 13. in the same town-
ship. As those lands are still un-
occupied & without improvement.

L. Vankoughnet

Deputy Sup. & General of Indian Affairs

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I spoke to the Hon Governor about this matter last summer His reply was that the land had already been taken up. It is still however unoccupied & if it can be procured our school will be thereby much strengthened.

I have also been encouraged by our Agent Col. McDonald & by Mr. Deane Inspector of Indian Schools to make application to the department for a school room. My application will likely appear in due time.

I have been reading your proposed improvements in Indian Schools.

Might I suggest that instead of erecting & keeping up 4 schools on Crooked Lakes Reserve. our present school at Round Lake be strengthened so as to accommodate the children of school age on the four Reserves.

We value the school buildings already here at \$5000.00 which together with barn, stables, cattle &c will amount to

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

\$6000.00 We have sufficient room to accommodate all the girls on those reserves (75). Now if we had suitable buildings for the boys we would be ready for the work. Then in regard to the support of the school. the Church is prepared to give \$1800.00 per an. in support of those in charge of the work and also clothe the children. So the expense resting upon the Government would not be much more than it would be in keeping up 4 common schools. In following this plan we would have a better opportunity of accomplishing the work at which we aim viz the Civilization & Christianising of the poor Indian

- 1st the children are taken away from the pernicious influences of the pagan wigwam & constantly under our care
- 2nd we have regular attendance.
- 3 Opportunity of teaching economy & self support.

The girls find employment in knitting sewing & all kinds of housework and the boys in the gardens, on the farms or taking care of cattle.

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

6334
To try to give each child who enters
the school an opportunity of rising
first, at the table, he may work for a
better position. Then for better clothing
& better sleeping departments, and for
higher positions in the society of our
home. If a child has any ambition he
will rise until he wishes to become self
supporting. If he has none he will soon
become weary of our home go back &
spend his life in pauperism & die in
the wigwam

Sir I trust you will pardon me for writ-
ing. but I feel for the poor Indian. I
am ashamed to think of how little our
church has done for this poor people. but I
trust that the day is not far distant when
by the united effort of Church & government
all the Indian children of the N.W.T. will
be gathered in from paganism & made
useful citizens

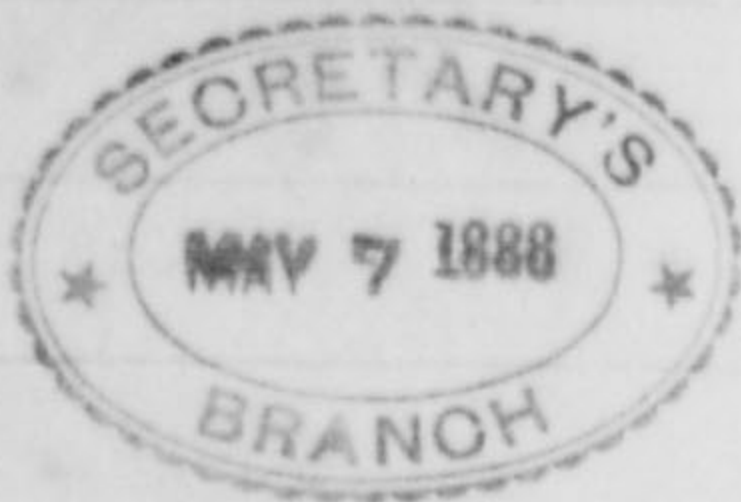

I have the honour to be

Your humble servant. H. M. Kay.

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

3 A 003

A. M. Burgess, Esq.
Of Minister
of the Interior,
Ottawa.

May 9- 88

Sir/

I enclose herewith
an extract from a
letter from the
Rev. H. McHenry
of Round Lake
Indian school,
Broadview P. O.,
Assa., applying for
a grant of the
N^o 2 of section 23
Tp. 18, Range 3, to
be used in connection
with an Industrial
school for Indians
which has been
established under
the auspices of the
Presbyterian

AD

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Presbyterian Body
at the above
point and of
which the Rev.
Mr. ~~Mc~~ Kay is
Principal.

I have
pleasure in stating
that the school
over which that
gentleman presides
is conducted in
a most efficient
manner, and
if your Dept.
could see its
way to make a
grant of the
land applied
for, I consider
that it would
be made good
use of in the
interests of the
institution.

I have, &c,

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

Rev. H. Mackay,
Principal of the
Round Lake Indian School,
Woodwin P. O.,
Assn.

May AD.

Rev. Sir,

I beg to
ack the recd. of
your letter of the
23^d Ult.; and with
reference to the
piece of land for
which you make
appln. to be
used in connection
with your Industrial
school at Round
Lake, I have to
state that I
have communicated
with the Dept. of
the Interior and
recommended

AD

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

recommended your
appl. to favorable
consideration.

As regards
the enlargement
of your boarding
school instead
of establishing
four schools
on the Crooked
Lake Reserve
which the number
of children would
appear to have
justified and
which is referred
to as desirable
in my report
on the Indian
school question,
I beg to state
that I am
altogether in
accord with your
view

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

view that where
it is possible to
accommodate at
a boarding school
the children upon a
Reserve or Reserves
and to obtain the
consent of their
parents to their
being kept ~~there~~
that method
is far preferable
to the day school
system.

I note
your statement
that the Presbyterian
Church is prepared
to contribute at
the rate of \$1000
per annum ~~in~~
towards the support of those
in charge of the
school, and also
to clothe the
children,

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

children, and I have
to inform you that
I have inserted an
item in the
Estimates to be
submitted to
Parliament doubling
the ~~amount~~ grant
now made by
this Dept towards
the ~~your~~ Institution,
by making the contribution
~~of~~ \$100 instead of
\$30 per capita.

I have, &c

Rev. H. M. Kay.
Principal of the Round Lake
Ind. school.

Broadview, P. O.

Assa:

May June 1 1888.

Rev. Sir,

In further reference
to your letter of the 23rd Sept.,
I have the honor to inform
you that I am advised by
the Dept. of the Interior that the
Act of Sec 23, Sp 18, R 3,
was of the 2nd March, which
you are desirous of having
granted for the purposes
of the Industrial Ind.
school which has
been established under
the auspices of the
Presbyterian Church at
Round Lake, is the property
of the Canadian Pacific
Railway Co.; but that section

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

Copy.

49672

Montreal, 25th June, 1888.

17/6 506

A. M. Burgess, Esq.,
Deputy of the
Minister of the Interior,
Ottawa.

Sir,

With reference to your letter
of the 21st inst, Reference
No. 176506, applying on behalf of
the Indian Department for a
grant of the S. 1/2 Sec. 23, Tp. 18, Range
3 West 2nd, in connection with
an Industrial School at Round
Lake, I beg to say that there is
no objection to the surrender
of the land in question in ex-
change for a half section of
equal value.

Before this is carried into
effect, however, I desire to re-
mind you of the application
by this Company for the S.W. 1/4
3, 17, 6, W. 2nd, required for
Oakshela

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

ARCHIVES PUBLIQUES
CANADA

Oakshela Station grounds.
 The Indian Department has
 not hitherto been willing
 to make an exchange of
 this $\frac{1}{4}$ section for other land
 on the ground, I think, that
 Indian lands can only be
sold for the benefit of the
 Indians. Perhaps, there-
 fore, a favorable opportunity
 presents itself for settling
 the matter.

The $\frac{1}{4}$ section required
 for Oakshela is valued at the
 present time at about \$4.00
 per acre. Let the Indian de-
 partment sell it to the Com-
 pany at this price as a set-
 off for the S. 2. $\frac{1}{4}$ 9, 17, 6, W. 2nd, at
 the same figure. This land
 is required with several
 other odd sections for Chief
 O'Leary's Reserve (see Secretary's
 letter of 31st August last - letter
no 158526, Reference no 49408).

Ans

As to the remainder of the
seven sections referred to
in this last communication,
an examination is now be-
ing made with the view of
selecting other lands of
equal value in accordance
with the arrangement made

I have the honour to be,
Sir,

Your obedient servant,
(Sgd) C. Drinkwater.
Secretary.

ARCHIVES PUBLIQUES
CANADA

Land owned by his
Co. to be added
to the Res. of
Chief O'Soup of
Crooked Lakes, #
that the S.W. 1/4
Sec. 3. Tp 17, R. 6
west of ^{the} 2nd meridian,
which forms part
of Chief Cowessis'
Res., & which Mr
Ormkwater states
he had previously
applied for for
the Oakshela
Station grounds,
be given to the
Co. in lieu of
S.E. 1/4, Sec 9 Tp 17
R. 6 W of the 2nd M
being part of the land required for Chief O'Soup's Reserve,
In connection
there with you state
you wd. be glad to
receive a favorable
reply on the subject.
I beg to inform

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

You will ref. to the
 foregoing that ^{the} one
 matter wd. appear
 to have nothing
 to do with the
 other. The quarter
 sec. of land
 applied for for the
 Round Lake School
 is in no way
 connected with
 the land applied
 for for the addition
 to Chief O'Simpson's
 Res. But apart
 altogether from this
 I think Mr
 Drinkwater is
 under a ^{misapprehension} ~~misapprehension~~
 when he states
 that he previously
 applied for the
 SW $\frac{1}{4}$ Sec 3, Tp 17, R 6
 W. 2nd M. at least
 there ^{appears to be} ~~is~~ nothing
 in record in this

Dept to show that
an application for
that land had
reached it from
the C.P.R. Ry Co;
but there is no
record in this Dept
correspondence with
you Dept relative
to an application
from the above Ry Co
for Sec. 4 in the
aforesaid Tp. & Range,
& I have to refer
you for information
respecting this
latter piece of land
to my letter to
you of the 31st Aug '85,
which informed
you that ~~that~~
~~that~~ that piece
of land was not
included in an
Ind. Res & consequently
this Dept had

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

nothing to do with it. You will also observe, in ref. to the correspondence about the latter section, that it was said to be required for Pakshela Station.

As regards the S.W. $\frac{1}{4}$ of Sec. 3 in above Tp. 7 R.

it is within ~~an~~ the Int. Res., as ~~above~~^{before} stated, of Chief Commissions, & such being the case it certainly cannot be exchanged for another piece of land so far distant from that Res. as the quarter sec. applied for at Round Lake, as that quarter section

wd. be of no
benefit whatever
to Chief Councillors,
to whom the Res.,
in which Sec 3
above described is
situated, belongs,
& the exchange of
the former land for
the latter would
not therefore be
regarded by Councillors
as of ^{equivalent or any} ~~any~~ value
to him.

You are doubtless
aware that lands
forming part of an
Ind. Res. stand in a
peculiar position.
They are the property
of the Indian Band
to which they have
been allotted, & this
Dept. cannot
exchange any of
such lands for

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

other ^{lands} unless the
 lands ^{taken in exchange} to be given
 are so situated as
 to be of equal
 value to the
 Indians concerned
 as those to be
 given up by them.

as far as a
 practicable however
 this Dept will
 always be most
 happy to endeavor
 to meet the views
 of the C. P. Riv. Coy
 in regard to land
 or other matters,
 as it has reason
 to be grateful
 to that Coy for its
 repeated acts of
 courtesy in ref. to
 matters in which
 the Dept has had
 negotiations with
 the Coy

Draft.

File

Ottawa, June 25th, 1890.

Sir,

AD
In the Spring of 1888 the Rev. Hugh McKay, Principal of the Indian Industrial School at Round Lake, N.W.T., applied to this Department for a piece of land adjacent to the institution, for school purposes. He stated that the S 1/2 of Section 23, Tp. 18, R. 3, would suit him, or failing in this the E 1/2 of the same section, or the N 1/2 of section 13, in the same Township. The Department favored the application, and at once communicated with the Department of the Interior relative to the S 1/2 of Sec. 23, which, after some correspondence with your Company, resulted in the failure of coming to a satisfactory arrangement, owing, I understand, to the

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the refusal of this Department to give your Company a portion of O'Soup's Reserve at Oak Shela Station in exchange.

The Rev. Mr. McKay has renewed his application for a piece of land near his school, and I should be glad if your Company would agree to an exchange for land elsewhere than that included within O'Soup's Reserve, as the Department is powerless to deal with the land referred to, owing to the refusal of the Indians to surrender it. Looking at it from their point of view, they see no benefit to be derived from the exchange, as the property which the Department would receive in lieu of that given up at Oak Shela would be given to the Industrial School at Round Lake.

I learn from the Department of the Interior that some 10 acres of the Reserve at Oak Shela were appropriated by the Company for right of way. This, I am

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

am further informed, does not include Station ground.

If the Company's Oak Shola Station is situated on the S.W. 1/4 of Sec. 3, Tp. 17, R. 6, W of the 2nd P.M., as I am told it is, some arrangement will have to be made with the Indians to surrender whatever land is absolutely necessary for Station grounds, and the Indians compensated for same. If the Station is not situated on the S.W. 1/4 of Sec. 3, but on another portion of the Crooked Lake Reserve, the same arrangement will have to be made with the Indians in order to secure to your Company a proper title.

I should like to hear favorably from you in regard to the land required for the School, and also as to the Station grounds at Oak Shola.

I have the honor to be,

Sir,

Your obedient servant,

C. Drinkwater, Esq.,

Round Lake
 Whitewood P.O. and
 April 27th 1892.

Sir

In the summer of '88
 I had some communica-
 tion with you asking for
 the Sth of Sec. 23 T^p 18 R. 3
 west of the 2^d meridian for
 the purposes of the Industrial
 Indian school which has
 been established under the
 auspices of the Presbyterian
 church at Round Lake.

In your reply dated Ottawa
 June 1st 1882 No 38003
 you informed me that the
 land in question belonged
 to the C. P. R. Company.

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
 ARCHIVES PUBLIQUES

Dear Mr. VanKougenet

I have your letter of the 6th respecting land required for the Indian Boarding School at Round Lake. Your previous application was referred to our Land Commissioner at Winnipeg and I do not know what he has done about it. I am writing him today and will let you have a definite answer as soon as possible

Yours very truly

A. W. M. M. M.

Secretary.

Sir,

In the Spring of 1888 the Rev. Hugh McKay, Principal of the Indian Industrial School at Round Lake, N.W.T., applied to this Department for a piece of land adjacent to the institution, for school purposes. He stated that the S 1/2 of Section 23, Tp. 18, R. 3, would suit him, or failing in this the E 1/2 of the same section, or the N 1/2 of section 13, in the same Township. The Department favored the application, and at once communicated with the Department of the Interior relative to the S 1/2 of Sec. 23, which, after some correspondence with your Company, resulted in the failure of coming to a satisfactory arrangement, owing, I understand, to the

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the refusal of this Department to give your Company a portion of O'Soup's Reserve at Oak Shela Station in exchange.

The Rev. Mr. McKay has renewed his application for a piece of land near his school, and I should be glad if your Company would agree to an exchange for land elsewhere than that included within O'Soup's Reserve, as the Department is powerless to deal with the land referred to, owing to the refusal of the Indians to surrender it. Looking at it from their point of view, they see no benefit to be derived from the exchange, as the property which the Department would receive in lieu of that given up at Oak Shela would be given to the Industrial School at Round Lake.

I learn from the Department of the Interior that some 10 acres of the Reserve at Oak Shela were appropriated by the Company for right of way. This, I am

am further informed, does not include Station ground.

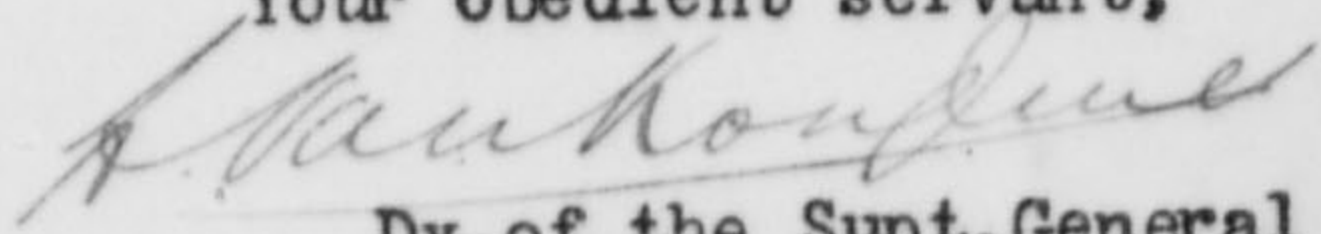

If the Company's Oak Shela Station is situated on the S.W. 1/4 of Sec. 3, Tp. 17, R. 6, W of the 2nd P.M., as I am told it is, some arrangement will have to be made with the Indians to surrender whatever land is absolutely necessary for Station grounds, and the Indians compensated for same. If the Station is not situated on the S.W. 1/4 of Sec. 3, but on another portion of the Crooked Lake Reserve, the same arrangement will have to be made with the Indians in order to secure to your Company a proper title.

I should like to hear favorably from you in regard to the land required for the School, and also as to the Station grounds at Oak Shela.

I have the honor to be,

Ottawa, 6th May,

Dear Mr. Drinkwater:-

I wrote you on the 25th June 1890, in respect to the desire of the Department to obtain from your Company the S. $\frac{1}{2}$ of Section 23, Township 18, Range 3, or, failing in obtaining this land, the East half of the same Section, or the N. $\frac{1}{2}$ of Section 13 in the same Township, said land being required in connection with the Indian Boarding School at Round Lake, N.W.T.

I have no reply to that letter, and the authorities of the school have again written to the Department requesting that the land be, if possible, secured for the Institution, as it is much in need of it.

C. Drinkwater, Esq.
Secretary,
Montreal,

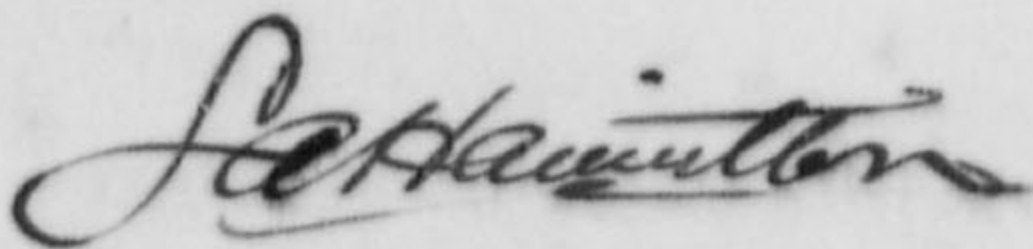

Dear Sir,

In connection with an enquiry for the purchase of a part of section 23, 18, 3 W 2nd. I find that the correspondence with the Indian Department, forwarded to me with your letter of the 7th. May 92, and on the 26th. June 90, which I return herewith, does not appear to have been dealt with.

If the Indian Department still require the land applied for I think it would be advisable that the Company should surrender their claim to the East half of the section for the purposes of the Indian Department, accepting in lieu a portion of an even numbered section to be hereafter selected.

It would not be well to agree to the surrender of the South half of the section as we would thereby be shut off from access to the lake, as you will see by the accompanying sketch.

Yours truly,

Enc's

And
Special Notice
26-6-95. Sir,
THIS LETTER HAS BEEN SENT

Ottawa, April 5th, 1895.

I have the honour to inform you that there has been correspondence off and on on the subject of an application made by the Reverend Principal of the Round Lake Boarding School in April 1888, to have either the south or east half of Section 23, or failing that the north half of Section 13, all in Tp 18, R. 3, W 2nd, given to the School for farming purposes.

It seems that the lands wanted belong to the C. P. Ry Co., and efforts have been made to effect an exchange, but the matter has never been settled.

The Secretary of the company now enquires whether the land is still wanted, and if so whether the east of Section 23 referred to will answer the purpose.

In order to enable the department to arrive at a decision I will be glad to have a report from you as to the necessity for reserving farm land for the school, and whether the school has ever before received land from the government, and if so how much.

Your obedient servant,

H. M. Keefe

Winnipeg, 17th. Novr. 1897.

Dear Sir,

The Round Lake Indian Boarding School, which has been carried on for the past ten years under the principalship of the Rev. Hugh McKay, finds itself crippled for want of a sufficient amount of farming land, and I am instructed by our Committee to ask you to use your influence to have an additional quantity of land set apart for the purpose of the school. The present school site is the N W $\frac{1}{4}$ of 14, Township 18, Range 3. The greater part of this quarter section is cut off by Round Lake and the Qu'Appelle River and there are only about 62 acres of arable land on it. The whole of this is enclosed and under cultivation. We now ask for the adjoining North half of 13, Township 18, Range 3. There is only a part of this half section in the valley. A part of it lies in the steep hill which bounds the valley and a portion of it lies up on the high prairie level. The enclosed sketch, which is made by Mr. McKay, will give you an idea of how it is situated.

where is sketch

For the purpose of showing that an additional amount of land is needed, I need only say that the Mission owns about seventy head of cattle, two teams of farm horses and a team of ponies. A quantity of stock of approximately this size is needed

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

needed to afford training for the boys in the care of domestic animals. The amount of arable land available has for several years been quite too small for use and a year ago the Mission had eighty acres beyond the limits of its homestead rented and under cultivation.

By assisting us in securing a grant of this additional half Section you will considerably increase the efficiency of the school and you will greatly oblige,

Your obedient servant,

(Sgd) Andrew B. Baird.

Enc.

Sir,

I have the honour to acknowledge receipt of your letter of the 17th.ultimo, No. 117080, in regard to securing additional land for the Round Lake Boarding School in the Crooked Lakes Agency, and to enclose in this connection a rough sketch of the land it is proposed to secure, viz: N $\frac{1}{2}$ of 13, Tp. 18 R 3, adjacent to the present school site, and to add that land of average quality in the neighborhood sells for \$2.50 an acre. It will however be noticed by the sketch enclosed that the high hill flanking the Qu'Appelle River runs diagonally through the half section asked for, thus impairing its selling value. Hardly one third of the land is capable of cultivation judging from the plan. Probably, therefore, if the land were sold at the same rate as other unimproved farms in the neighborhood, it would not bring more than somewhere between \$300. or \$400., or about \$1.00 an acre.

Your obedient servant,

Arthur Meagher
Commissioner.

IN YOUR REPLY REFER TO

117,080

ALSO TO DATE OF THIS LETTER

ADDRESS REPLY TO THE
SECRETARY DEPT OF INDIAN AFFAIRS
OTTAWA.

Ottawa, 4th March, 1898.

THE SECRETARY.

On the 13th December last the Indian Commissioner forwarded to the Department a copy of a letter from the Rev. Dr. Baird, Convenor of the Foreign Missions Committee of the Presbyterian Church, urging the necessity for securing additional land for the Round Lake Boarding School in the Crooked Lake Agency. The Indian Commissioner stated that he had ascertained of the Dominion Lands Office that the half section asked for was vacant, and he recommended that steps be taken to secure it for the school.

In reply to this letter the Department reminded the Commissioner that neither in his letter nor in that from Dr. Baird was any mention made of the probable cost of the piece of land in question. He was, therefore, asked to furnish this information, and to enclose a sketch of the land which had been inadvertently omitted from his previous letter.

The Department has now received this sketch and the information that the land would probably cost between \$300 and \$400, or about \$1.00 an acre.

From Dr. Baird's letter there would seem to be great reason why this land should be obtained if possible, but the cost would probably have to be provided for in the Estimates.

As

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

As Dr. Baird makes the remark in the conclusion of his letter "by assisting us in securing a grant of this additional half-section you will considerably increase the efficiency of the school", it may be that he does not expect the Government to do more than contribute half the cost of the purchase, which would probably not be more than \$200.

H.C. Ross

Addendum.

11th March 1898.

I might add to the above Memo: that correspondence about providing the Round Lake school with additional land has been going on for some years. The land required belongs to the C.P.R.Co. At one time the Department hoped to make an exchange with that Company by giving a piece of land on O'Soup's Reserve, which the company was willing to accept, as it was wanted for a station, ^{but} ~~xx~~ the Indians refused to give up land to make an exchange which would be of no personal benefit to them. As this arrangement could not be carried out, the Presbyterian Church urges the Department to assist in purchasing the necessary land, and the Indian Commissioner recommends the purchase.

A perusal of the Rev. Dr Baird's letter shows the great necessity for this additional land.

H.C. Ross

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, 11th March, 1898.

Sir :

82/57

With reference to your letter of the 27th ultimo, enclosing a sketch of the land recommended to be obtained for the use of the Round Lake Boarding School, I beg to say that on looking further into the matter it is observed that some years ago, when an application of this nature was first made by Rev. Mr. McKay, the Department was willing to provide the land required by the school if it could do so without an outlay of money, and it was at that time thought that this could be done by making an exchange with the C. P. R. Co., giving the latter a piece of land on O'Scup's Reserve to be used as a station in exchange for the land wanted by the school.

The Indians, however, refused to agree to an exchange which would be of no personal benefit to them, and in consequence the proposed arrangement could not be carried out.

The proposition that the Department should assist in purchasing the land required by the school is altogether a new one, and in view of the fact that both the building and the property connected with the school belong entirely to the Presbyterian Church the Department is not disposed to expend money ---even to the extent of, say, \$200, half the probable cost---in the

A. E. Forget, Esq.,
Indian Commissioner,

171074

Presbyterian Church in Canada.

Winnipeg 12th. May 1898.

Sir,

I beg to refer to previous correspondence on the subject of obtaining an additional half section of land for the Round Lake boarding school (No. 82/57), in which the Indian Department expresses its unwillingness to expend money for the land asked for because the property now in use belongs entirely to the Presbyterian Church. The land for which we ask, the N. $\frac{1}{2}$ of 13-18-3, belongs to the Canada North West Land Company and I am informed by Mr. L. A. Hamilton, Land Commissioner, Winnipeg, who has charge of these lands, that in case the Government is willing to exchange another piece of land for this half section, his Company would be willing to accede to the request. Our request for the land therefore would not involve the expenditure of any money whatever.

It is quite true that all the buildings and the property now in use for the Round Lake Boarding School belong exclusively to the Presbyterian Church; but I venture to express the hope that, since the work done in this school is of the same character as that for which the Government provides land

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

land and buildings in the case of other Churches, this generosity of the Presbyterian Church need not stand in the way of its securing the assistance of the Government in acquiring the land necessary to carry on its work. It is not at all necessary that the land asked for should be owned by the Presbyterian Church; in fact, in view of possible taxation in the future, we would prefer that it should not be owned by us. All that we ask is that the school should have the use of the land as long as such land is required for purposes of instruction and maintenance under the care of the Indian Department.

We beg therefore to renew our request to the Government that by negotiation with the Canada North West Land Company this half section be secured and be made available for the purposes of the Round Lake boarding School, and I have the honour to be

*For this
Sanction*
THE SECRETARY.

Department of Indian Affairs,
6th June, 1898.

In his letter hereunder the Indian Commissioner again brings up the question of providing the Presbyterian Boarding school at Round Lake, Qu'Appelle District, with an additional half-section of land required for agricultural purposes.

The Department recently declined to grant this request on the ground of expense. It is stated, however, in the letter from the Rev. Dr. Baird, forwarded by the Commissioner, that the half section in question belongs to the Canada North West Land Co. (not to the C. P. R. Co. as stated in a previous letter from the Commissioner) and that that Company is willing to exchange the piece of land in question for another.

As the necessity for more land for the Round Lake Boarding School was admitted by the Department as far back as 1890, when ^{an} effort was made to exchange a piece of land belonging to O'Soup's Reserve for the same half-section that is now applied for, it might be well for this Department to communicate with the Department of the Interior and ascertain whether that Department could give a half-section of Dominion land in the neighbourhood of Round Lake in exchange for the land required by the school.

Ottawa, 16th June, 1896.

Sir :

The Presbyterian Church is very desirous that the Indian Boarding School under its auspices at Round Lake, Qu'Appelle District, should be provided with an additional half section of land for agricultural purposes, the need of such land having been felt for years. The piece of land in question is the North half of Section 13, Tp. 18, R. 3, and is the property of the Canada North West Land Company.

This Department has been informed that the Company referred to is willing to make ~~an~~ exchange for the land required by the school.

I have to request that you will be so kind as to inform me whether the Department of the Interior owns a half section of land anywhere in the neighbourhood of the Round Lake Indian Boarding School, so that the question of an exchange may be considered.

Sir,

With further reference to your letter of the 16th June last in the matter of the application made by the Presbyterian Church for an additional half section of land for agricultural purposes in connection with the Indian Industrial School under its auspices at Round Lake, in which you suggest that the N. $\frac{1}{2}$ 13. 18. 3 W. 2nd M., the property of the Canada North West Land Company, be exchanged for other land the property of the Dominion for the purposes mentioned, I beg to say that Mr. L. A. Hamilton, the Land Commissioner of the said Corporation, was written to, and reports that, as the Canadian Pacific Railway Company has already given up for the purposes of the Indian Industrial School the S. $\frac{1}{2}$ of section 23 in the same Township, he does not think it should be asked for this additional half-section.

I am, Sir,

Your obedient servant,

J. D. McLean, Esq.,

Secretary,

REV. PROF. HART, B. D.

REV. PROF. BARD, B. D.

JOINT CONVENERS

Winnipeg,

28th November, 1898

Dear Sir,-

Between the years 1886 and 1892, application was made to you with a view to securing the S.½ of Section 23, Township 18 Range 3 West of the 2nd Meridian, for the use of the Indian boarding school at Round Lake. The land belongs to the Canadian Pacific Railway and for some reason or other, the grant was not secured. See File in your office No 38003. Land was very much needed, however, by this Indian school, and last Summer application was made through the Indian Commissioner in Winnipeg for the grant of the N.½ of 13-18-3. In the course of negotiations for this piece of land, which belongs to the Canada North West Land Company, it was found that the half section for which we originally applied may now be had, and we therefore abandon our request for the N.½ of Section 13 and renew our first request for the South half of section 23. I was present in the office of the Land Commissioner of the Canadian Pacific Railway a few days ago when he dictated a letter to the Secretary of the Department of the Interior, offering to relinquish this half section in lieu of land of equal value elsewhere, in order that it may be granted for the use of the Indian school at Round Lake. Will you be so kind as to assist us in securing the grant, the reasons for which were stated at length in my application for the N.½ of 13-8-3.

The Sec/Dept of Indian Affairs,

I have the honor to be

Your obedient servant *Andrew D. Baird*

THE SECRETARY.

For Mr. Baird that
write it is impossible to arrange for a purchase of the land at present
possible for a purchase of the land at present
can not be effected
for a purchase of the land at present

With reference to the letter of the 28th ultimo from the Rev. Professor Baird urging the Department to assist the Presbyterian Church in securing a grant of the South 1-2 of Section 23, Tp. 18, R. 3, west of the second meridian, for the use of the Round Lake Industrial School as pasture land, I beg to say that, as stated by Professor Baird, it is some years since an application for a half section was first made to the Department. The original application was ~~recommended by~~ the late Indian Commissioner. The land at present held by the school is only a quarter section, and a great part of this is cut off by Round Lake and the Qu'Appelle River, and the whole of the remainder is under cultivation.

When application was first made for the half section now applied for, it was found that the land belonged to the C.P.R.Co., and no arrangement could be made ~~to exchange~~ to exchange for a similar quantity of Dominion land; and after some time the matter was dropped.

Later on an application was made for the North 1-2 of Section 13, Tp. 18, R. 3; but on communicating with the Canada North West Land Co., to whom the land belonged, it was found that an exchange for Dominion land could not be effected.

The Rev. Prof. Baird now states that the C.P.R.Co.

is

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

Indian Office,

117080 - 1
181546

Birtle, Man., Feb. 28th 1899

Sir,

I beg to acknowledge receipt of your favour of the 18th inst. No 117080.

The Rev. Dr. M. Kay, Principal of Round Lake School did not mention the matter of an increase in land when I was there in November last, and as it is generally when snow is on the ground when I had not had an opportunity of seeing the land which is principally on the bench, and the school is in the valley, but I had been under the impression that only a portion of it was fit for cultivation, & the rest good enough for pasturage.

Mr. M. Kay usually raises enough of wheat to keep the house supplied with flour and most crops are generally good, and the herd of cattle supplies all the beef required as well as a supply of milk for use and to make butter.

The wheat crop last year was a failure.

If hay land had been asked for, I could understand the reason for.

The Secretary
Dept. Indian Affairs
Ottawa.

181546

for, when I was there, forty heads
of cattle were sent to the Sheep
Reserve at the upper end of the agency,
to be maintained at a cost of five
dollars per head, no hay being on
the school lands.

I do not see that more cattle
are required than to supply the beef
mill etc, and I should think 320
acres would be sufficient for pasture
as well as for grain and roots.

I know it is a hobby of Mr. McKays
to have the school self supporting,
and he thinks the Government should
not be called upon to pay any of
the expenses of maintenance.

If crops could be depended upon
every year this object might, ~~be~~
~~attained~~ ~~when~~ with a large herd
of cattle, be attained.

The cattle on hand and the
property of the Mission; if they
were private, I would object
to so many as this, I think, there
are more than the requirements
warrant. I will visit during
the coming summer, and will be
better able to report on the situation;
in the meantime I see no reason
for the increase in land asked for.

I am,
Yours obt servant

} JOINT CONVENERS

Winnipeg, 6th April, 1899

SCHOOLS 182883
APR 12 1899

The Secretary,
Department of Indian Affairs,
Ottawa, ONT.

Dear Sir,-

In reply to your letter of the 18th of February (No 117080), in which you say that 320 acres of land for pasture is considered to be a somewhat larger area than is necessary for an ordinary school, I beg to say -

(1st) The land is not asked for for pasturage exclusively. A portion of it is wooded land, which of course is useless for pasturage, but it will supply a part of the fuel required for the school; a part of it is arable land and will be used for that purpose. The need of arable land at the school is so great that for several years a neighboring farm from which the proprietor had moved away has been rented and cultivated chiefly by the labor of the boys who are pupils in the school.

(2nd) The land in question lies partly in the valley of the Qu'Appelle River and partly on the high prairie level above the valley. The hill which bounds the valley and which is about 200 feet high, runs through the land for which we ask and renders a considerable part of

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

this area almost useless for agricultural purposes.

(3rd) The Indian Department I am sure will agree with our Committee that it is very desirable to have the Indian boys instructed in the care of cattle, a kind of industry to which they take much more kindly than to the growing of crops. With that in view, and for the purpose also of supplying part of the rations required by the school pupils, the Principal of the school has devoted a considerable degree of attention to securing a herd of cattle, and we venture to think that all the available pasture land in the half section asked for will be utilized for the purposes of the school.

We hope therefore that the request which we have made, which has been recommended by the Commissioner in Winnipeg and in respect of which we have secured the kind cooperation of the Land Department of the Canadian Pacific Railway in offering to exchange this land for another half section, will secure the assent of the Indian Department.

I have the honor to be,

Dear Sir,

Your obedient servant

Andrew B. Baird

Department of Indian Affairs,
OTTAWA, 12th April, 1899

The Secretary:-

in further reference to the application made by the Rev. Dr Baird to the Department to assist the Presbyterian Church in securing a grant of the South $\frac{1}{2}$ of Section 23, Twp. 18, Range 3, West of the 2nd Meridian for the use of the Round Lake Boarding school, I beg to say that on the 18th February last, Dr Baird was informed that our Inspector had been requested to report fully in regard to this matter. Mr Inspector McGibbon's report has since been received, and I must confess that I find it difficult to understand on what grounds he bases his last statement that he sees no reason for the increase of land asked for in view of what he says in the body of his report, to which I refer you (28th February 1899)

Provision is being made in the estimates for an increase of 10 pupils at this school, which will bring the authorized number up to 50, and Rev. Dr Baird in his letter of the 6th instant, herewith, explains fully why this land is required.

I beg to quote a paragraph from Mr Inspector McGibbon's report which also shows why the Principal wishes to have more land.

"I know it is a hobby of Mr McKay's to have the "school self-supporting and he thinks the Government "should not be called upon to pay any of the expense "of maintenance."

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

(Copy, Original ent'd in Schedule of Surrenders
867. under No. 1294.)

At the Government House at Ottawa,
Monday the 1st day of May, 1899.

Present,

His Excellency

In Council:

C. S. Whereas application has been made by the Rev.
Professor A. B. Baird of Winnipeg, on behalf of the
Presbyterian Church in Canada, for a grant of the frac-
tional south half of Section 23, Township 18, Range 3,
west of the 2nd Meridian, which is required for Agricul-
tural purposes in connection with the Indian boarding
School under the auspices of the said church at Round
Lake; and

Whereas the Canadian Pacific Railway Company
by whom the said land was accepted as part of its land
subsidy, has waived its right thereto in order that the
same may be granted to the said applicant, and has
accepted in lieu thereof the West half of Section 16,
Township 7, Range 29, west of the 1st Meridian, for which
a patent was issued in favour of the said Company on the
15th February, 1899.

Therefore His Excellency, by and with the advice
of the Queen's Privy Council for Canada is pleased to order
and it is hereby ordered accordingly that the said frac-
tional south half of Section 23, Township 18, Range 3,
West of the 2nd Meridian, shall be and the same is hereby
vested in the Department of Indian Affairs for the purposes
of the Indian boarding school at Round Lake.

H. G. LaMothe,

Asst. Clerk of the Privy Council.

To the Honourable
The Superintendent General of Indian Affairs.

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Department of Indian Affairs.

OTTAWA, 4th May, 1899

The Secretary:-

On Order-in-Council has just been received vesting ^{the South half of} Section 23, Twp. 18, Rge. 3, West of the 2nd Meridian in the Department for the use of the Round Lake Boarding school in lieu of the West $\frac{1}{2}$ of Section 16, Twp. 7, Rge. 29, West of the 1st Meridian, which was the property of the Canadian Pacific Railway Company.

The lot first mentioned was applied for by the Rev. Dr Baird of the Presbyterian Church for grazing and agricultural purposes in connection with the Round Lake school, and the Deputy Minister, to whom Dr Baird's application was submitted, directed that the matter should be held over until Mr Inspector McGibbon had reported thereon and a letter has been received from the Inspector in which he states that he expects to be at the Round Lake school in a short time, when he will report on the question.

In view of the passage of the Order in question above referred to I do not think it necessary to obtain a report from Mr McGibbon, Dr Baird should, however, be advised that the lot he applied for has been set apart for school purposes.

Department of the Interior,

Ottawa, Ont.

Dear Mr. Scott: re Round Lake Mission

In connection with the Church's Indian Mission at Round Lake there has been used for many years the south half of section 23, Township 18, Range 3, west of the second meridian. It was supposed that this half section belonged to the Church but when I looked into the matter with a view of seeing that the title was in proper shape I found that the half section "was vested by Order-in-Council of the 1st May, 1899, in the Department of Indian Affairs for the purpose of the Indian boarding school at Round Lake" and that the Department of the Interior could not dispose of the half section. This information was conveyed by a letter received by my firm from the Department of the Interior, dated 10th October, 1910. - file No. 176506.

While the Church would prefer to own the lot still it is required only for the purpose of the Indian School and so long as it is in the hands of the Department of the Interior for that purpose doubtless there will be no interference with the Church's use of the property.

Recently a report has spread at the School that this half

D.C. Scott, Esq.

section is being taken up by somebody and our Committee at Winnipeg has become anxious. Can you tell me if there is any truth in this report or if it is possible that the Department would in any way deal with the half section without giving the Church the opportunity of protecting itself?

I shall be glad to hear from you at your early convenience.

Yours truly,

William Cassels

Ottawa, June 5, 1911.

Sir,

I have to acknowledge the receipt of your letter of the 31st ultimo in reference to occupation of the south half of Section 23, Township 18, Range 3, west of the second meridian, which was reserved by the Department of the Interior for school purposes.

In reply I beg to say that this Department has had no intimation that this lot was to be thrown open for settlement. The Department of the Interior will be at once communicated with and you will be further advised.

Your obedient servant,

Asst. Deputy and Secretary.

Ottawa, June 5, 1911.

Sir,

By Order in Council of May 1st, 1899, the south half of section 23, Township 18, Range 3, west of the second meridian was vested in the Department of Indian Affairs for the purposes of the Indian boarding school at Round Lake. A communication has recently been received from Mr. Hamilton Cassels, K.C., Toronto, in which he states that a report is current in the school that this half section has been taken up by somebody.

John

OFFICE OF
THE COMMISSIONER OF DOMINION LANDS

332334
Ottawa, 26th July, 1911.

Dear Sir,

It appears that the S. $\frac{1}{2}$ of 23 -
16 - 3, W.2nd.M., was transferred to your Department
by Order in Council of the 1st of May 1899, for the
purpose of an Indian Boarding School, which was to
be operated by the Presbyterian Church.

Can you say from your records if the land
has been occupied since that date by the Presbyterian
Church, and what use they are making of it.

Yours sincerely,

J. A. Greenway
Commissioner.

Frank Pedley, Esq.,

Deputy Superintendent General
of Indian Affairs,
Ottawa.

Ottawa, July 29, 1911.

Sir,

In reply to the inquiry contained in your letter of the 26th instant I beg to say that the South half of 23 - 16 - 3, west of the 2nd Meridian, which was set apart by Order in Council of the 1st of May, 1899, for agricultural purposes in connection with the Round Lake Boarding School, has been occupied since that date by the school and is still used and required for pasturage and agricultural purposes and the wooded portion of this half section furnishes the fuel required for the school. This lot is still needed in connection with the school.

In this connection I beg to refer to the Department's letter of the 5th ultimo.

Your obedient servant,

J. D. MOLEAN

Asst. Deputy and Secretary.

Ottawa, April 20, 1923.

Dear Dr. Edmison:

I have your letter of the 16th instant, enclosing a copy of a telegram from Judge Farrell, of Regina, relative to Dr. McKay's farm, near the Round Lake Indian Boarding School.

In reply I wish to state I am hopeful that funds will be provided during the present session of Parliament for the purchase of this property. I believe it to be in the interests of our work to operate the McKay farm this coming season, for the benefit of the school. You may inform your Western representative and Dr. McKay that it is the Department's intention to purchase the farm and house for the sum of \$17,000, provided that an independent and competent valuator assures us that the property is worth at least this figure, and provided, of course, that Dr. McKay can give us clear title.

Until such time as Parliament has allowed the item, could we not arrange to operate the farm for the benefit of the school, on a rental or shares basis? My suggestion for an interim arrangement is that Dr. McKay vacate the property, that the school supply all the labour and seed and take for their own purposes two thirds of the crop harvested. However, I consider that, if a transfer is completed before the crop is taken off, the school authorities should reap the entire benefit of their farming activity on the land in question.

I shall be pleased to learn if this arrangement is satisfactory to your office and to the Rev. Dr. McKay.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

MEMO FOR FILE:

The ROUND LAKE BOARDING SCHOOL was built by the Presbyterian Church, on fractional N. E. quarter of Section 14, Tp. 18, Rge. 3, West 2nd. Some ~~22~~ acres had been acquired by them.

As early as 1892 church authorities, in conjunction with this Department, endeavoured, through the Department of the Interior, to secure the S. $\frac{1}{4}$ of fractional section 23 from the C. P. R. for school purposes. This effort was abortive for some years, and correspondence was initiated with a view to securing the N. $\frac{1}{4}$ of 13 which was held in 1898 by the Canada North West Land Company. In the course of the latter negotiations, it was found that the S. $\frac{1}{4}$ of 23 was available, and as this was the property that was originally requested, correspondence was continued until 1899 when, by P.C. 867, dated the first of May, the property was vested in the Department of Indian Affairs for the purposes of the Round Lake Indian Boarding School.

It is proposed, at this time, to purchase the church property at this institution and, further, to secure the house and farm of the Rev. Dr. McKay, for many years the Principal of the school. A description of Dr. McKay's property is not on file. ~~It is my opinion that he has title to the N. $\frac{1}{4}$ of Section 13, plus some additional 80 acres.~~ Dr. Edmison, in a communication dated November 23rd, last, states that "Judge Farrell advises us that Dr. McKay's farm and house are worth \$17,000," and he further suggests that the Department reimburse the Church for their building equity and land on which it stands to the extent of about \$10,000. Judge Farrell, on behalf of Dr. McKay, in a communication to Dr. Edmison dated the 26th ultimo, states that the Doctor will not likely accept \$12,000 for his 406 acres. Rev. Peter Strang, also of Regina, advised Dr. Edmison, under cover of the 25th ultimo, that the 406 acres is worth \$15,620.

In the Estimates, 1923-24, there is an item of \$27,000 for the purpose of purchasing the church and the McKay property at the Round Lake School. It is proposed by Dr. Edmison, representing the Presbyterian Church, that \$10,000 be given to the Church for their equity in the buildings and for their property - roughly ~~22~~ acres in the N. E. quarter of Section 14. \$17,000 was included as the purchase price for the McKay property.

It is proposed to negotiate with Dr. Edmison, of the Presbyterian Church, with a view to getting a proper description of the church and McKay properties and to arrange with him to get the titles in order. Dr. McKay, or his Regina representative (Judge Farrell or Rev. Strang) should state whether or not \$17,000 will be accepted for the entire McKay property (house and 406 acres). The Minister's office should be approached for the purpose of securing the name of a competent valuator in Regina. This valuator should give us a valuation of both properties, and, provided the McKay property is worth at least \$17,000 and the Church's property - less the Department's expenditures for plant - at least \$10,000, this Department should make arrangements for the purchase. The Department of Justice will give us the name of their agent who will search the titles and who will act for us in the matter of the transfers.

*Dr McKay has title to 40 a in NE $\frac{1}{4}$ Sec 14, surrounding the church's 22 a on which is the school.
Two " " " 366 a, comprising SW $\frac{1}{4}$ Sec 24 & NW $\frac{1}{4}$ Sec 13.

COPY/JM

Stockholm, Saskatchewan.
June 2, 1924.

The Minister,
Dept. of Interior,
Regina, Saskatchewan.

Dear Sir,-

Would you kindly let me know if anyone living along a lake shore has the right to run a fence down into the water. If not, how far back should it be?

To be more specific; I live on the shore of Round Lake and it saves me more than a mile each way to and from school to ride down the lake shore, but the way is blocked by Mr. Ross, the Superintendent of the Indian Boarding School, having run the fence of his stable yard out into the water. It is not convenient to travel across another man's land but surely the lake shore, or at least enough for a saddle pony to cross should be free to anyone. I have been told that in the case of the Mission the fence should not be further than highwater mark. In some cases 35 feet must be allowed, but I am writing you to be perfectly sure. If I am correct in supposing that he has no legal right to fence into the water, should he refuse to move his fence, as he is not a particularly obliging man from accounts, would I have any authority to cut his fence close enough to the water to let me through along the edge?

Thanking you for the desired information and trusting to hear from you soon, I remain

Yours truly,

(Miss) F.D. Grier.

P.S. If this doesn't come under your department would you kindly give it to the correct person or let me know to whom to write.

Eid

Ottawa, 29th July 1924

Rev. Sir, -

A communication has been received from Miss F.D. Grier who resides on the S.E. $\frac{1}{4}$ Sec. 22-18-3-W.2.M., and whose post office address is Stockholm, Sask., in which she states that she would like to ride along the lake shore through sections 23 and 14 on her way to and from school but that she is prevented from doing so on account of fences on the boarding school property which extend out into the water. She states that by being compelled to follow the surveyed road it increases the distance by one mile on each trip.

From the position of this surveyed road on the enclosed township plan, it appears that the extra distance would be a negligible amount. However, it may be that this roadway is now situate farther North in section 23 than the position indicated on the plan. Please inform the Department as to all the circumstances in connection with this matter. If the surveyed road is not in the position shown on the township plan, I should like you to indicate its approximate present position on this plan which I would request that you return with your report. Possibly if you would discuss this matter personally with Miss Grier, you might arrive at some mutually satisfactory arrangement.

Survey

R

Dear Sir,

Your communication re the request of Miss Green reached us this evening. She is approximately correct when she says that by following the surveyed road the distance is increased by one mile each trip.

Miss Green requested the privilege of passing through the boarding school property. We did not grant her request for the reason that we have eighty acres of crop there. Last year we had considerable trouble keeping out horses and cattle. We fence into the lake to protect our crops. There is no fence between the property and the lake.

I might state here that the surveyed road passes through the east end of this property, and goes between the school and the barn. Two years ago we requested the municipal council to close this road on the ground that it interfered with the discipline of the school. Our request was granted and now the public use the road between the school property and the McKay property which was acquired by the Department last winter. Having had this road closed, we do not wish another opened.

Miss Green, I suppose, desired that the lake shore be left open. In that case the only solution would be a fence built ^{on} ^{or is it 35} feet back from the water's edge. This fence would be nearly a mile long...

I wish here to call the Department's attention to the fact that we have to go out of our way three miles every time we go to town with the wagon and five miles every time we go with the car. The school is situated in the LaPepelle Valley directly south from Stockholm ten miles. Last year the local council built three miles of graded road bringing it to within a half-mile of the school property at the top of the hill. ^{up the hill} An old disused road could be put in repair for about a thousand dollars. This road passes through the Department's property. At the top of the hill on the McKay property, there are ninety acres of land that could be cultivated if we had any way of getting up the hill to it. We go to town about twice a week and when we were tending for the new school, our four teams were in every day.

Yours sincerely,

Round Lake Indian Boarding School

PER *R. J. Ross*

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, 12th August 1924

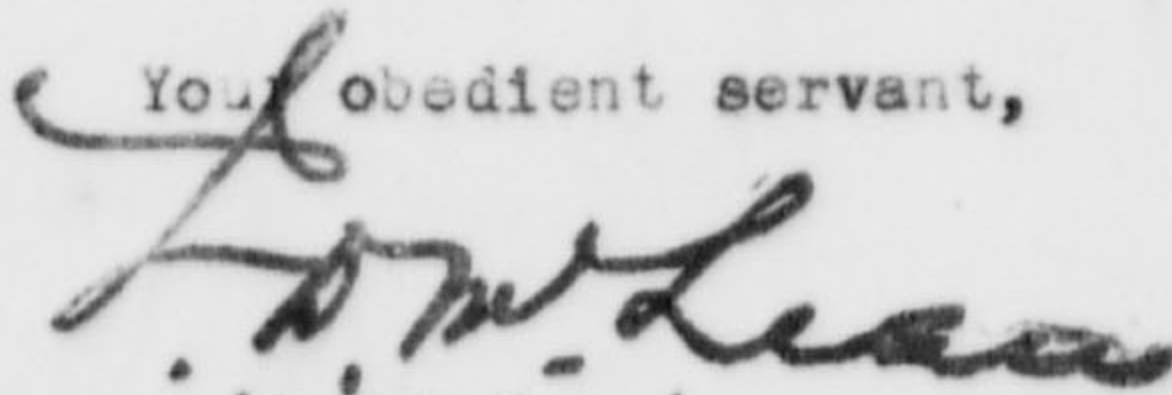

Madam, -

With further reference to your request that the fences of the Round Lake Indian boarding school property be so constructed at the lake shore as to permit of your riding along the shore, I desire to bring to your attention the fact that the school property extends to the actual shore of the lake and that there is no legal thoroughfare along the shore of this lake and also that the title to the property adjoining the lake carries with it all the riparian rights.

If your request were to be acceded to and the fences of the school property changed you would no doubt realize that it would involve the necessity of nearly a mile of fences being constructed along the water front in order to protect the crops, and the Department does not feel disposed to undertake this expenditure.

There are numberless cases throughout the West of individuals being forced to travel an extra mileage when, as the result of the country becoming settled, fences are constructed and the people are forced to use the regulation road allowances and surveyed roads instead of the old trails and bridle paths which they have been previously accustomed to use. I feel sure when you take into account all the circumstances that you will not consider the Department's attitude unreasonable.

Your obedient servant,

(J.D. McLean)

Assistant Deputy and Secretary.

Dear Sir:-

your letter received and contents noted. you evidently misunderstood my request.

as you stated in your reply, the school property should extend to the lake shore which it does. However Mr Ross has ~~then~~ build the fence several rods out into the lake it being rather shallow at this point.

Since this land is not on the Indian reserve should it not conform to Government laws also. It does not require the building of any fence the water being sufficient protection, and is what every one else uses.

I believe you have stated the case more clearly trusting it heard from you promptly I remain

Russell J. Ferris,
Ottawa Canada

Dear Mr Ferris

We wish to build a fence on the school property along the lake front. We cannot find out what distance it should be from the water. Can you tell us?

We threshed our wheat, 40 acres, and have 923 bushels. Fifty acres of barley and oats averaged 26 bushels. We have some flax, barley and oats still to thresh. We built two new granaries, 12x14, this fall. The sunflowers were cut to-day and will be put in the silo to-morrow. We bought a binder, wagon, ~~selby~~ gang plow and 16 in. scrub breaker this summer.

Our valley is beautiful just now.

We have 61 pupils in residence. Four from Selkirk have not yet returned. They have some eye trouble and the Doctor will not allow them to travel.

Yours sincerely,
Round Lake Indian Boarding School

Dear Sir,

I have your letter suggesting that a gate be made in the fence to allow Miss Grier to come through. The Department's building inspector camped on the school property and made an opening in the wire fence, through which he drove his car. This opening is just near the Grier home and a few feet from the lake. We left the wires so that it could be opened at any time, with the result that every time we went to that part of the farm, we found the Grier's horses tethered in our field. I had a boy remove them once, but they were in again the next time we came along.

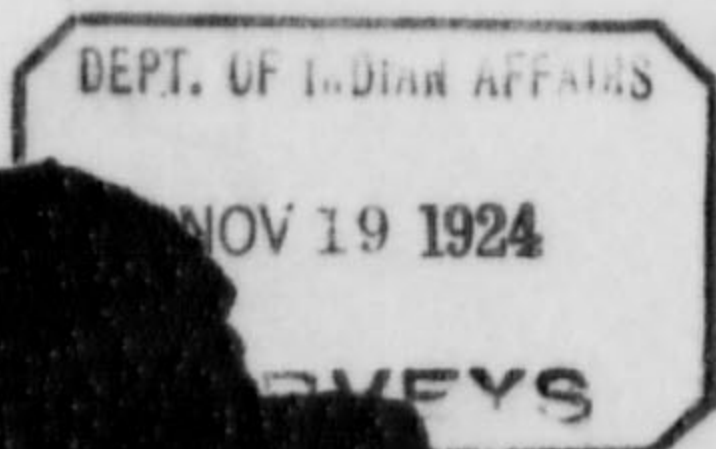

As a matter of protection to our own crops, I see no other way than to close that fence permanently and keep it closed.

During the winter the road is on the lake. During the summer Miss Grier drives a car.

Yours very sincerely,

Round Lake Indian Boarding School

Dear Sir:

The United Church have a churchyard and an old church about in the centre of the Kahkewistahaw Reserve. This land, I believe, was granted to the Presbyterian Church by the Kahkewistahaw Indians many years ago. An old log church stands on the site and the bodies of all the Protestant Christian Indians have been buried in the church yard for many years.

Rev. R. J. Ross, the present Missionary, has a sum of money which was to be used to renovate this old church building. He now states that he thinks it would be better to erect a new church on the Round Lake Residential School grounds, than to renovate the old building. He has spoken to me regarding the matter, making enquiry as to the attitude of the Department regarding the erection of a church building on the grounds of the school. This property belongs to the Federal Government, of course, and I have told him to take no action with regard to the erection of the church building until he receives further instructions, as this matter is no doubt one which should be settled between the church and the Department before anything is done in the erection of the building.

I would be glad to receive further instructions with regard to this matter at an early date.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

Sir:

I have your S.7 of the 29th ultimo, with reference to the proposal of the Reverend R. J. Ross, to erect a United Church on the property of the Round Lake Indian Residential School. This matter should receive careful consideration, and I have to request that you will have Mr. Ross make application to the Board of Home Missions, asking them to correspond with the Department in the matter.

In the meantime, I should like to have a report from you, concerning the most central site for a place of worship for the Protestant Indians of the reserve. You should state if the school land would be suitable or if you believe it advisable to continue using the site that was granted by the Indian Band years ago.

Your obedient servant,

A. F. MacKenzie

Dear Sir:

Referring to your letter of the 10th instant, No. 108-1-9, in connection with the proposed erection of a church building for the United Church, I beg to say that the school premises is not the most central site for the Protestant Indians of this Agency, and it would be impossible to find a more central site than that of the old church building on the Kankewistanaw Reserve.

There are many arguments, pro and con, in connection with the site for the new church building, but I think the strongest argument in favour of a site near the school is the fact that it is impossible at times for the Missionary to get to the Kankewistanaw Reserve for church service as a result of bad weather, bad roads, and the many other occurrences which come unexpectedly and make it inconvenient for the Principal or a residential school to be absent from his school for several hours. I might observe, however, that it has never appeared to me that the appointments of Principal of the Residential School and Missionary to a large number of Indians on the near reserves should be combined as either one or the other suffers. Some Principals look upon the school work as the more important and allow the missionary work to suffer; others look upon the missionary work as the more important and allow the school affairs to suffer. I believe that, in this case, there would certainly be a more regular church service if the church building were near the school. It would not be as convenient for a number of the Indians, but I think it is better for the minister to go to church and find a small congregation than for a large congregation to go to church and find no minister.

As instructed in your letter referred to, I have asked Mr. Ross to communicate with the board of Home Missions asking them to correspond with the Department in the matter.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

Dear Sir: RE: SITE FOR NEW CHURCH ON ROUND LAKE MISSION

Referring to the matter which I discussed with Mr. Ferrier when in Ottawa, relative to the proposed erection of a church on the Round Lake Mission, I may say that the subject was carefully discussed at the recent meeting of the Home Mission Board and it was decided to favour this project, with the understanding that the Indians assume the entire cost of such a building. It is therefore the wish of the Board of Home Missions that the desire of the missionary and the Indians be granted, namely, that a site on the School property be set apart for the building of the new Church.

Yours very sincerely,

[Handwritten signature: Kenneth J. Beaton]

MEMORANDUM RE LANDS OF ROUND LAKE INDIAN
RESIDENTIAL SCHOOL.

Approximately 711 acres: parcel 1 having been granted by P.C. 867, dated May first, 1899 ("vested in the Dept. of I.A. for the purposes of the Indian Boarding School at Round Lake"); parcels 2, 3, 4 and 5 having been purchased from the Presbyterian Church and Rev. and Mrs. McKay in 1923 and 1924.

Full description of the last four parcels may be found in Certificates of Title entered under Nos. 911, 912, 913 and 919.

May be briefly described as:

1. All that portion of the S. $\frac{1}{2}$ Sec. 23, T. 18, R. 3, W. 2nd, containing 261 acres more or less, which is not covered by the waters of Round Lake.
2. All that portion of the N.E. $\frac{1}{4}$ of Sec. 14, T. 18, R. 3, W. 2nd, containing 62 a. more or less, which lies to the north of Round Lake and the Qu'Appelle River, excepting thereout L.S. 15 and the W. $\frac{1}{2}$ of the W. $\frac{1}{2}$ of L.S. 16 of the said section. (This exception was also purchased - See Parcel 5).
3. All that portion of the W. $\frac{1}{2}$ of Sec. 13, T. 18, R. 3, W. 2nd, containing 206 acres more or less, which lies to the north of the Qu'Appelle river, with exception.
4. S.W. $\frac{1}{4}$ Sec. 24, T. 18, R. 3, W. 2nd, containing 160 acres more or less.
5. All of L.S. 15 not covered by the waters of Round Lake and the W. $\frac{1}{2}$ of the W. $\frac{1}{2}$ of L.S. 16 in Sec. 14, T. 18, R. 3, W. 2nd, 22 acres more or less, except roadway.

The school buildings are situated on this parcel.

Ottawa, May 11, 1931.

Reverend Sir:

I have your letter of the 27th ultimo, with reference to a site for the proposed new church for the United Church Indians, near Round Lake, Sask. On second thoughts, the Department believes this question is closely related to the future of the Round Lake Indian Residential School. If the educational institution is to be continued indefinitely, I can see no objection to a site on the school property. On the other hand, if the school were closed, there would remain but the evangelical work in which your Society would be interested. In that event, you might find it better to have your missionary living on a site more central to the Indians to be served.

I believe this question should be carefully considered when you are next interviewing the Superintendent of Indian Education.

Your obedient servant,

A. F. MacKenzie,
Secretary.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Stockholm, Sask., May 27th., 1932

Mr. J. P. B. Ostrander,
Indian Agent,
Broadview, Sask.

Dear Mr. Ostrander, -

As you know, we had no crop whatever last year. We had no straw for bedding except two old stacks on top of the hill. We repaired an old road in order to get this straw down. But we had to pass through the corner of a quarter-section owned by the Canadian Pacific Railway, to get from this old road into our own field.

We found after repairing the road that we could use it in travelling to and from Stockholm and thus reduce the length of the return trip by 10 miles. But we required another portion of the C.P.R. quarter-section for a road.

We asked the Land Department of the C.P.R. if they would sell the two portions of this quarter-section we required for our purpose. In their reply, they intimated that they would dispose of the quarter in its entirety to the first satisfactory applicant. We offered \$750 and bought it.

We were influenced by the fact that on this quarter-section there is a small spring and we have a pasture of approximately 400 acres adjoining it, on which there is no water supply.

65 acres of this land is in the hills and has not much value. 35 acres can be broken and is good land. 40 acres of this has been cropped.

There are two small buildings, a house and a barn. The barn

Indian Affairs. (RG 10, Volume 6334, file 661-9, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

will accommodate eight horses. Both buildings seem in good repair.

When the C.P.R. inspector was here two weeks ago, he informed us that the adjoining quarter-section had also gone back to the company and could be purchased for a reasonable figure. There is on this quarter a 26 acre field adjoining our property in the valley. The rest of the quarter is in the hills. We are negotiating for the purchase of this quarter also.

Heretofore, we have been dependent on the reserve for much of our summer pasture. Now our herd is accredited and we cannot let them mingle with other cattle. We think these two quarters would supply our needs so far as pasture is concerned, especially if there is considerable rain during the summer.

We ask for the privilege of having the transfer of the North-east quarter of 23-18-3 West 2nd. made to the Department of Indian Affairs, and we hope that, when times become normal, the Department will consider with favor a request for the repayment of the amount we paid for this property.

If we get the North-west quarter of the same section, for which we are prepared to offer \$500, we ask for the same privilege regarding this quarter.

Yours Faithfully,

R. J. Ross

OFFICE OF
INDIAN AGENT

Broadview, Sask.,
31st, May, 1932.

S.7/

Dear Sir:

I beg to forward herewith letter received from Rev. R.J. Ross, Principal of the Round Lake Residential School, in connection with the north-east quarter of section 23, township 18, range 3, W 2nd, which he has purchased for the school, also the north-west quarter of the same section which he contemplates purchasing if the Canadian Pacific Railway Company accept his offer.

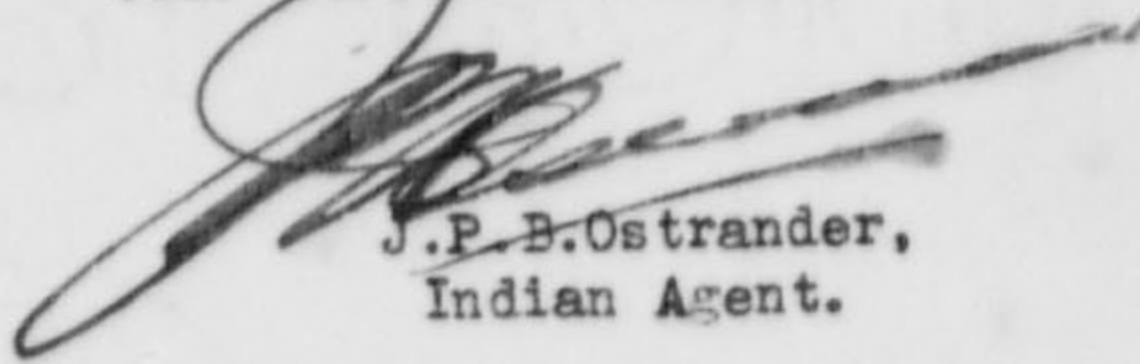

I may say that the matter of taxes on this land, rather than the purchase price, is Mr. Ross' concern at the present time. As mentioned in his letter, he hopes that the Department will reimburse the school for the cost of this land, at a later and more convenient date, but he is particularly desiring that the Department take over the land nominally at once in order that taxes will not have to be paid thereon.

No doubt the land will prove of great benefit to the school, on account of the pasture and spring which it contains and the fact that the distance to Stockholm, by road, will be considerably reduced by crossing this land. The arable land contained therein will be of some use to the school for grain-growing as it is particularly good land.

If it is possible to have the transfer of this land made as requested I would recommend that it be done. I have not had a case of this kind to deal with and I am not aware that it is possible to make the transfer, but I informed Mr. Ross that I would submit the case to the Department for consideration.

The Secretary,
Department of Indian Affairs,
Ottawa.

Mr. A.S. Williams
Acting Deputy Superintendent General,
Department of Indian Affairs,
Ottawa, Canada.

Dear Sir,-

I have your letter of the 29th. ult. re
N.W. 1/4 Sec. 23, Tp. 18, R. 3, W. 2 N.

In a personal letter dated June 7th., 1932, Mr. Russell T. Ferrier informed me that title to the north half of the above Section should be made out in the name of "His Majesty the King as represented by the Superintendent General of Indian Affairs" if school funds were being used in the purchase. I accordingly sent to the Department the application to purchase the N.W. quarter. We have already paid the purchase money. All we wish is the signature.

See under
102

This personal letter was in reply to a letter I had written to Mr. J.P.B. Ostrander, Indian Agent, Broadview, Sask., setting forth our reasons for the purchase of this property and asking that the Department re-imburse the school when times became normal again.

The C.P.R. had leased the N.W. quarter and could not sell until the lease had expired. Therefore we did not buy both quarters at the same time.

Yours Truly,

R.J. Ross,

Principal Round Lake Indian Residential School.

43-100

Sir:-

I beg to ask you if it would be possible for you to sanction the admission of two children belonging to Charles Rider Jr. of Assiniboine Agency to the Roundlake Residential School.

Charles Rider had the misfortune to lose his wife last December leaving him with a new born son as well as 8 other children, 3 of these children, Rosabel 13 years old, Peter 9 years old and Nellie 8 years old are already attending this school.

George Rider 15 years old and James Rider 11 years old are out of school on account of very poor health.

Edith Rider 2 years old and the baby are being looked after by their grand parents.

The 2 children he is asking admission for are Edward 6 years old and Mary 5 years old. They are both healthy children. Rev. R. J. Ross, Principal of the Roundlake school has expressed his willingness to accept them at once providing you grant their admission.

As Charles Rider is farming on a fairly large scale he is unable to look after these children properly besides working his farm as it should be done.

It would be a benefit to all concerned if the admittance of these children could be granted at once.

Your obedient servant,

Frank Booth

Ottawa, December 4th, 1929.

Sir,-

In reply to your letter of the 29th ultimo, I beg to say that the admission of the following children to the Round Lake Indian Residential School is approved:-

Elizabeth Hiwanhi
Agnes Hiwanhi

Herman Hotomani
Edwin Rider

Please inform the Principal.

With reference to the application for Violet Wasna, it is noted that the father is stated to be a Roman Catholic but the mother is a member of the United Church of Canada. In cases of this kind, great care has to be exercised and I would point out for your future information that you should not secure declarations from parents unless the same is specifically requested by the Department. Please let me know if there are any other children of this family attending a residential school and, if so, you should state the name of the school. You should, also, advise what church, if any, Violet Wasna has attended. You should let me have, also, any other information available regarding the reasons for the father apparently desiring his child educated in a school conducted under different religious auspices from his own. The application will receive further consideration when your reply is received.

In view of circular letter of November 12th, 1926, a copy of which is enclosed, this girl should not be placed in the Round Lake School until the Department's decision regarding the application is given.

Your obedient servant,

Russell T. Ferrier

Stockholm, Sask., Nov. 27th., 1929.

Mr. J. P. B. Ostrander,
Broadview, Sask.

Dear Mr. Ostrander, -

Please certify the enclosed account
for the Department at Ottawa.

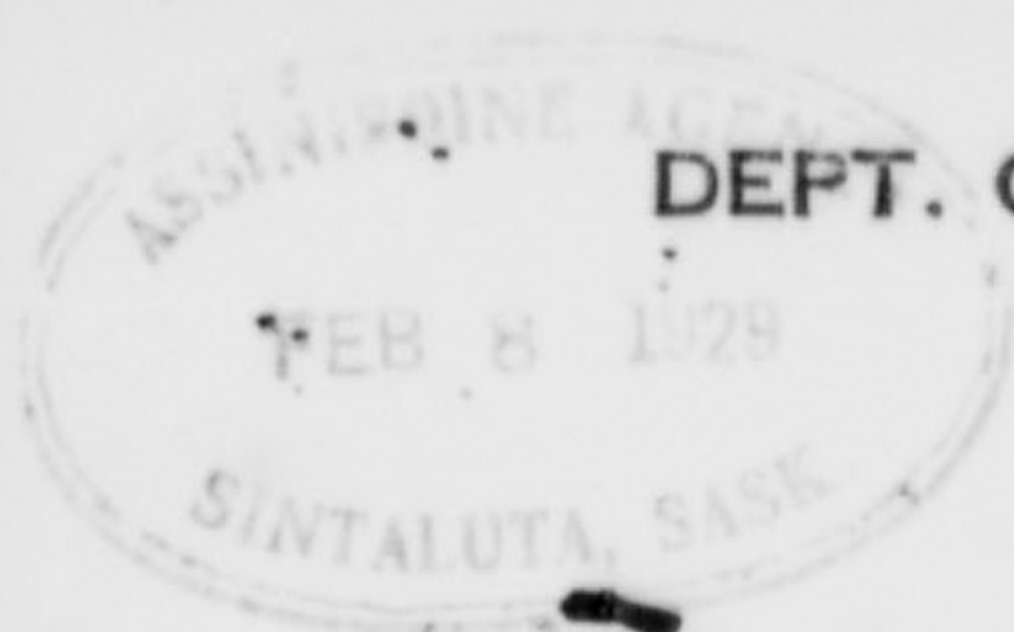

They asked me to send receipts for the hire of the
car and truck. It was the School car that went to
Wawota and Kennedy and the School truck that went to
Sintaluta. If we had not sent the car for them, the
children from Carlyle would require to come by way
of Wolseley or Regina and spend a night on the way.
It was somewhat cheaper to bring the Sintaluta
children by truck than by the railway.

Yours Sincerely,

R. J. Ross.

42/

Dear Sir:

I beg to forward herewith voucher number 4832 - \$53.10 in favour of Rev. R. J. Ross, Principal of the Round Lake Indian Residential School, for transportation of school children from their homes to the school and from the school to their homes for the summer holidays of 1928 and 1929. I am also enclosing a letter of the Reverend Principal in explanation of the charges referred to. I note that he states that he was instructed by the Department to send receipts for the hire of the car and truck. The transportation used was the car and truck which is the property of the school and in most cases Mr. Ross drove the car or truck.

I think he is correct in saying that in most cases it was more economical for the children to be transported in this way and certainly more convenient for Mr. Ross. I do not know if it customary for the Department to pay for the transportation in this way, but I am submitting the voucher for consideration.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

Dear Sir:-

With reference to your letter No. 108-I-10 of the 4th instant I beg to submit the following information-
I took the matter up with Mr. and Mrs. Denis Wasna regarding sending their eldest daughter Violet to Round Lake Mission and they were very anxious that Violet should attend that school for although Denis Wasna is an adherent to the Roman Catholic Faith, this family since they were married have practically been a Protestant family. This couple was married by the Presbyterian Church in Sintaluta and all their children were baptized by the same church and whenever they went to church it was always Protestant. Violet Wasna attended the Day School on this reserve before going to Round Lake, and has been brought up to the Protestant Faith.

Sir,-

In reply to your letter of the 8th instant, enclosing the December quarter return of the Round Lake Indian Residential School, I beg to say that the discharge of the following pupils is approved:-

No. 0140 - Margaret Bear
 " 0148 - Florence McKay
 " 127 - Allan Taypotat
 " 130 - Angus Alex
 " 145 - Paul Louison
 " 159 - Daniel Wasacase

Please inform the Principal.

I desire to refer you to official letter of October 28th, last, with reference to the non-receipt of applications and certificates of health for certain pupils. I find that the Department has not yet received the usual forms for R. Watson - No. 0199, and F. Tapotat - No. 0205. Please forward the necessary forms for these girls as soon as possible.

Dear Sir:

Referring to your letter of the 23rd ultimo, No. 108-2-10, in connection with the return of the Round Lake Residential School for the quarter ended 31st March, 1930, I beg to say that the boy Allan McKay was discharged from that school on authority of Department letter of the 15th July, 1920, No. 108-1-10, and the Principal was advised of the fact in my letter to him dated 26th July, 1929.

For some reason the name was still carried on the return, but I presume no grant was made for him as he was not in attendance during the period following this.

Ottawa, September 25th, 1931.

Sir,-

The Department is in receipt of a letter from the Principal of the Brandon Indian Residential School in which he states that the following children have been recently transferred from the Round Lake Residential School to the Brandon Residential School in order that they may pursue their studies in Grade IX.,-

Jessie Pretty Shields
Edith Pretty Shields
Rosabelle Ryder
Mary Belle Watson
Maurice Grey
Martha Kay
Adeline Kay

0156-
0154-
0149-
The Department does not appear to have received any previous communication with reference to the transfer of these children and I would point out that children should not be transferred from one residential school to another without first receiving the Department's approval.

On reviewing the June quarter return of the Round Lake School, I have been unable to locate the names of Martha and Adeline Kay. Possibly, the pupils referred to are Nos. 0156 and 0149, respectively. Please let me have definite information in this regard.

Your obedient servant,

J.P.B. Ostrander, Esq.,
Indian Agent,
Broadview, Sask.

S.7/

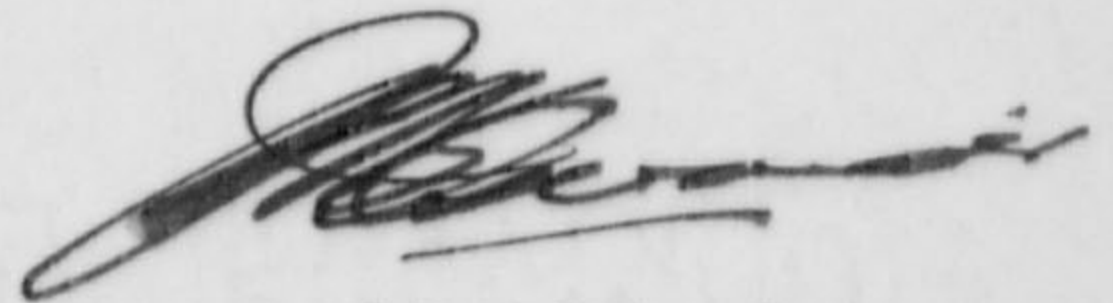

Dear Sir:

In reply to your letter of the 25th instant, No. 108-1-10, in connection with the transfer of certain children from the Round Lake Indian Residential School to the Brandon Indian Residential School, I beg to say that I was not aware that proper arrangements had not been made for these transfers.

Reverend Mr. Ross telephoned me one day and informed me that he had arranged to transfer these children to the Brandon school and asked me to send transportation for them. I concluded that he meant that he had made arrangements through the Department, but I have since found that the only arrangements made were between himself and the Reverend Principal of the Brandon School. I may say that, had the matter been referred to me for recommendation in the first instance, I would not have recommended the transfer as all the children sent to Brandon school for higher education have proved a failure in the past and I cannot see any reason why these children will prove any better than the others.

With regard to the last paragraph of your letter the pupils referred to as Martha and Adeline Kay are numbers 0156 and 0159 respectively.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

S.7/

Dear Sir:

I beg to inform you that there was a child adopted by Vincent Pepeeck of the Sakimay Band in 1930. The parents of this child were John Pepeeck and wife of ticket No. 126, Sakimay Band. After the death of the father the child was given by the mother to Vincent Pepeeck, the child's uncle. This child has been on Vincent's ticket since 1930 and was recently placed in the Round Lake Residential School by Vincent.

Rev. Father Carriere, Principal of the Cowessess Residential School, has protested against this child being admitted to the Protestant school as he states that John Pepeeck and wife were Roman Catholics and the child was Baptised in the Catholic faith. I have no doubt that Father Carriere can produce proof of this fact, but it would appear to me that the Guardian may still place the child in the school he wishes as he has assumed responsibility for its welfare as the request of the widowed mother.

I have the application for admission signed by Vincent Pepeeck for this child, but I shall await a ruling from the Department before forwarding this application as I have never had a case exactly like this to deal with before.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

Ottawa, November 7th, 1931.

Sir,-

I beg to acknowledge the receipt of your S.7/ of the 28th ultimo, with reference to the request that you have received for the admission of Vincent Pepeeck to the Round Lake Indian Residential School.

Extreme care has to be exercised in cases such as this and, before a decision can be made, the Department requires some additional information.

Please make inquiries and advise if the father of this boy, John Pepeeck, was recognized as a Roman Catholic. You should, also, let me know the religion of his mother and where she is residing at the present time. Were any other children of John Pepeeck placed in a residential school and, if so, you should state the name of the school. The Department, also, wishes to know the religion of the child's uncle, Vincent Pepeeck.

You do not state in your letter when the child was given to Vincent Pepeeck by the mother. Do you consider that it was a bona fide adoption by the uncle?

Your obedient servant,

Russell T. Ferrier

Dear Sir:

I beg to inform you that Jessie Jane Bear, Pupil No. 0172 of Round Lake Indian Residential School, recently had a severe hemorrhage of the lungs and the Medical Attendant of the school informs me that she has a well advanced case of pulmonary tuberculosis and she is a menace to the health of the other children with whom she comes in contact.

I made arrangements yesterday with the Indian Agent at Selkirk, the girl being a member of the Peguis Band of that Agency, to send an escort to the school to take the girl home at once. She must be sent with an escort as she is too weak to travel alone.

I beg to request authority for the discharge of this girl from the school.

Your obedient servant,

S.7/

Dear Sir:

Referring to your letter of the 7th ultimo, No. 108-1-10, in connection with the admission of adopted child of Vincent Pepeeck to the Round Lake Residential School, I beg to say that I have investigated this case thoroughly and, while I am not satisfied with statements received from Vincent Pepeeck and Mrs. John Pepeeck in this connection, I can see that there is not sufficient grounds for keeping the child in the Round Lake School. The adoption paper, which Vincent Pepeeck said had been signed before a Notary Public in Yorkton, is now said to have been lost and there was no copy of it filed with the Notary Public who has no recollection on the transaction in his memory. Mrs. John Pepeeck says there was never a paper signed and that she allowed Vincent to keep the child temporarily, and that she does not wish the child to be educated in the Round Lake School and gives as her reason that she has been talking to Rev. Father Leonard, Principal of the Qu'Appelle School, and the Reverend Father informed her that boys receive a better training in his school as they learn a trade, while they receive only class-room education at the Round Lake School.

I have taken no action with regard to having the child removed to the Roman Catholic school, but it would appear that no other action can be taken under the circumstances and I shall await the instructions of the Department. I might say that Reverend R.J. Ross, Principal of the Round Lake School, informed me, in conversation some time ago, that he will not let the child go without "putting up a fight for him", but I cannot see that he has any grounds on which to argue the case as there is no proof that any adoption actually took place and the mother, who is a Catholic, says she wishes to have the child continue in the Catholic faith. If there are any Indians who know anything about this adoption they are careful now to give no information to me.

The Secretary,
Department of Indian Affairs,
Ottawa.

I desire to acknowledge the receipt of your S 6/ of the 8th instant, enclosing the December quarter return of the Round Lake Indian Residential School. No applications or certificates of health have yet been received for the following:-

No.	183 ✓	G. Poncappo
"	184 ✓	George Alec
"	0211 ✓	Lena Bob
"	0212 ✓	Sheila Watcheston
"	0213 ✓	Pearl Henry
"	0214 ✓	Edna Isaac

The necessary forms for the above should be forwarded as soon as possible.

I desire, also, to refer you to official letter of October 14th, last, and should appreciate if you would forward an application form for W. Haywabe - No. 182.

It is presumed that M. Pepeeck - No. 181, mentioned in official letter of October 14th, is the boy about whom you have been corresponding. If so, it will not be necessary to forward an application form for him until the Department decides where he is to be sent. If this is the same boy, you should point out to the Principal that he should be returned to his guardian until the Department's decision is given - reference circular letter of November 12, 1926, a copy of which is enclosed.

Your obedient servant,

J.P.B. Ostrander, Esq.,
Indian Agent,
Broadview, Sask.

Russell T. Ferrier.
Supt. of Indian Education.

OFFICE OF
INDIAN AGENT

Broadview, Sask.,
8th January, 1932.

S.7/

Dear Sir:

In reply to your letter of the 4th instant, No. 108-1-10, I beg to say that John Pepeeck was recognized as a Catholic, but he had no other children attending a residential school as the child in question was the oldest child. Vincent Pepeeck was baptised a Catholic and was at the Qu'Appelle Residential School for a very short time. He recently married the daughter of Arthur Wasecase of the Kshkewistahaw Band, and as she is a member of the United Church, he is inclining that way at the present time.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

The Secretary,
Department of Indian Affairs,
Ottawa.

Indian Affairs. (RG 10, Volume 6334, file 661-10, part 1)

CANADA

Ottawa, January 23rd, 1932.

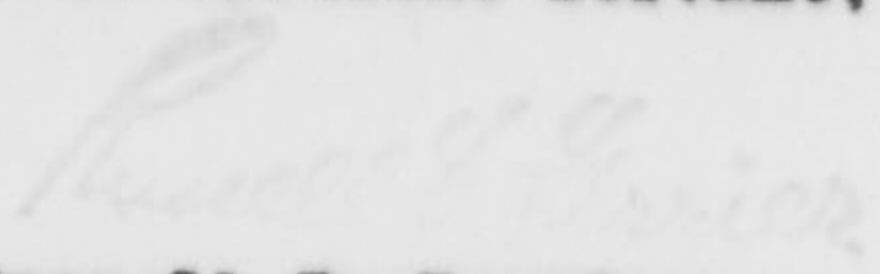

Sir,-

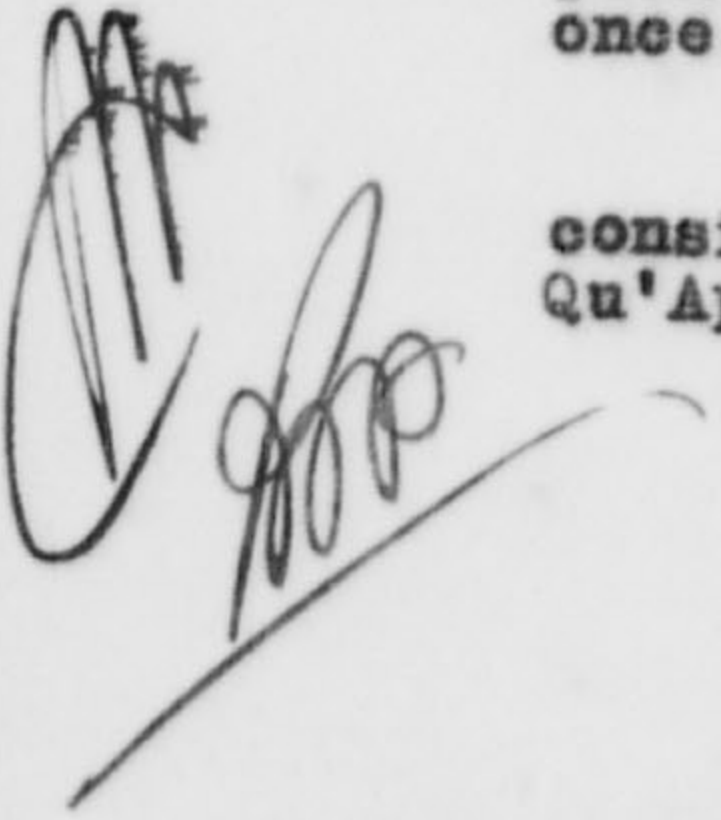

I beg to acknowledge the receipt of your S.7/ of the 8th instant, with further reference to the request for the admission of a son of the late John Pepeeck to the Round Lake Indian Residential School.

The information contained in your letters of the 29th ultimo and 8th instant has been carefully considered and it has been decided that this boy is not eligible for admission to the Round Lake School. You should so inform the Principal and, if he is at present in the school, he should be discharged at once.

The Department is prepared to favourably consider an application for his admission to the Qu'Appelle Indian Residential School.

Your obedient servant,

Russell T. Ferrier.
Supt. of Indian Education.

J.P.B. Ostrander, Esq.,
Indian Agent,

APPLICATION FOR ADMISSION

To the
Deputy Superintendent General
of Indian Affairs,
Ottawa, Canada.

January 4th 1932.

Sir,—

I hereby make application for admission of the undermentioned child into the Round Lake Residential School; to remain therein under the guardianship of the Principal for such term as the Department of Indian Affairs may deem proper:

Indian name of child.....
English name Arthur George 186
Age 14 years
Name of Band Ochapawase
No. of ticket under which child's annuity is paid 101
Father's full name and No. George 101
Mother's full name and No. Jennie Ke-te-He-na-gons 101
Parents living or dead mother living father dead
State of child's health Fair
Religion United Church of Canada
Does applicant speak English? a little
Previously attended..... school for..... years.

M^{rs} George her mark
(Signature of ~~Father~~)
Mother

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

* J. H. Sherrin
(Signature of Missionary or other Witness)

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

[Signature]
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

S 7/

Dear Sir:

I enclose herewith Application and Certificate of Health of Arthur George, for admission to the Round Lake Indian Residential School.

In connection with this application I beg to state that owing to delicate health this boy was never admitted to school. He is now 17 years of age and can neither read or write and has expressed a wish to attend school for a year or two in order that he may obtain some knowledge of these subjects. The doctor states his health is now good enough to attend school and I would recommend that he be admitted to the school.

Yours obedient servant,

J.P.B. Ostrander,
Indian Agent.

May 25th, 1932.

Mr. R. T. Ferrier, M.A.,
Department of Indian Affairs,
Ottawa, Ontario.

Dear Mr. Ferrier:

It has been customary for some years in connection with the Round Lake School to have the girls who belong to the C.G.I.T. groups attend the summer camp which is held at Round Lake by the Religious Education Association. Hitherto it has been possible to finance this matter locally but in this year of financial difficulty Rev. R. J. Ross, the Principal, informs us that the work cannot be carried without assistance. They have nineteen girls belonging to this group attending the school and there are six girls who also belong to the group will soon return from Brandon Residential School for their holidays. Mr. Ross would like to include these as members of the camp if possible.

To board these girls during the period of the camp would cost \$4.50 per head or a total of \$112.50. Will it be possible for the Department to make a grant of this amount to assist in this very helpful work? The camp is conducted under the very finest of leadership and I feel sure that the girls will receive great benefit therefrom.

Awaiting your kind reply and with kindest regards,

I remain,

Very sincerely yours,

AB:NEF

Dear Dr. Cochrane:

I have your letter of the 25th instant, with reference to a special grant to finance the trip of the C. G. I. T. groups of the Round Lake Indian Residential School to a camp held by the Religious Education Association. I regret that it is not the usual practice to accept responsibility for expenditure of this nature; but, in view of all the circumstances, the Department will allow a special grant of \$50, this year, towards holiday expenses. Will you please so inform the Reverend Principal and ask him to apply for a cheque in due course.

Yours very truly,

Russell T. Ferrier,
Supt. of Indian Education.

May 26th,
1932.

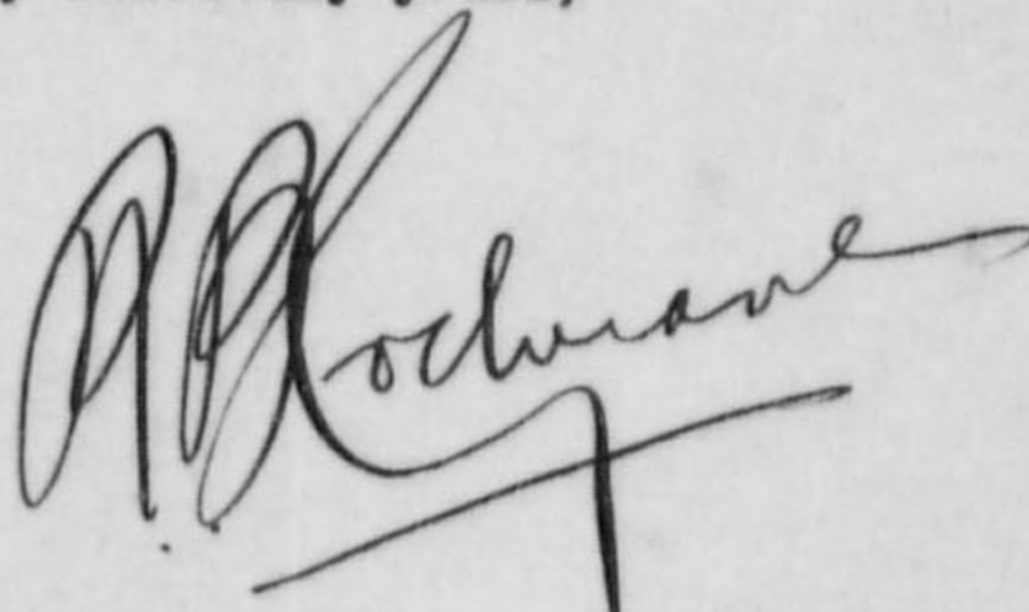

My dear Mr. Ferrier:

I am grateful for your letter of May 26th, advising us that the Department has decided to make a special grant of \$50.00 towards the expenses of the girls from the Round Lake School who expect to attend the C.G.I.T. camp this summer. I am sending a copy of your letter to Rev. R. J. Ross, Principal of the Round Lake School, who I am sure will appreciate the response which the Department of Indian Affairs has made to his request.

Believe me

Very sincerely yours,

Dear Mr. Ferrier,-

Nineteen of our Indian girls belong to the C.G.I.T. and will attend the Camp to be held here the first week in July. Five of our girls who are at present attending school at Brandon are coming for the Camp. We are asked to pay the board of these 24 girls, which amounts to \$108. Rev. R. B. Cochrane, D.D. of Toronto has informed me that you are willing to make a grant of \$50 for this purpose. I shall be glad to receive this amount whenever it is convenient to you to send it.

Yours Truly,

R. J. Ross,

108-1-10
Crooked Lake Agency
Broadview Sask.

December 14th. 1932

S.7.

Sir:-

I beg to acknowledge receipt of your letter 108-1-10 of the 10th. instant and have to advise that I understand it is the intention of the Department when convenient to transfer children of the Moose Mountain and Assinaboine Agencies from Round Lake School to Brandon School, with a view to making room for the children of this Agency who have been kept out of school as a result of the Round Lake School being overcrowded.

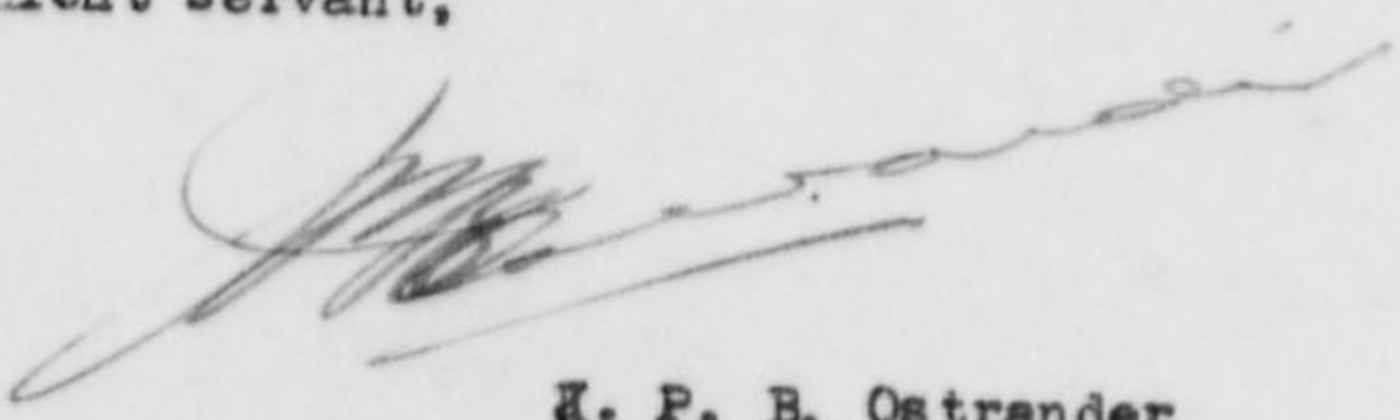

The Round Lake School is practically a school for the Protestant Indian Children of the Agency and naturally it has always been somewhat of a grievance amongst the Protestant Indians of this Agency that they would be told that there was no room for their children whilst there were some 15 to 20 children from other Agencies attending the school.

The children of both the Moose Mountain and Assinaboine Agencies have to travel by train to school in any case and it is practically the same to them whether they go to the Round Lake or Brandon School.

With regard to the children mentioned in your letter whilst there was no authority for these transfers the Revd. Mr. Ross had actually sent them to Brandon before I had time to ask for the authority and as there are more than enough children available from this Agency to fill the school without going outside I respectfully ask that these transfers be approved and authorised.

The Department have set the limit for the number of pupils at this school at 75 which with these transfers and with other children available leaves the school full.

Your obedient servant,

E. P. B. Ostrander
Indian Agent.

Ottawa, March 14th, 1933.

Sir,-

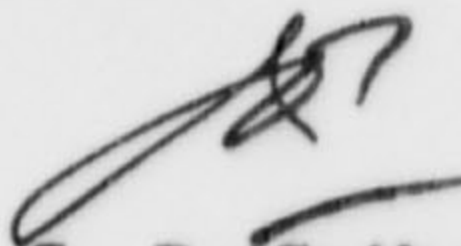

The Department is in receipt of your letter of the 8th instant, enclosing affidavit by Alec Belanger, requesting the admission of his two children to the Round Lake Indian Residential School.

It is noted that this declaration was signed on January 27th, last. Please advise why it was not forwarded to the Department sooner. I may, also, add that declarations such as this should not be prepared unless they are specifically requested by the Department.

Please let me know what religion Alec Belanger is recognized as professing. You should, also, state if this man has placed any other children in a residential school and, if so, give the name of the school. Any other information that you can obtain regarding the reasons for Belanger wishing his children placed in the Round Lake School should also be supplied for the Department's guidance.

In accordance with the instructions contained in circular letter of November 12th, 1926, these children should not be placed in any Indian residential school until the Department's decision has been given.

Your obedient servant,

J. D. Sutherland.

For Supt. of Indian Education.

CANADA

Ottawa, March 27th, 1933.

Sir,-

I beg to acknowledge the receipt of your letter of the 20th instant, with further reference to the children of Alec Belanger.

From the information given in your letter, the Department feels that these children should be considered Catholics. It is felt that it is in the best interests of all parties concerned to conform as closely as possible with the intention of the Indian Act, viz., that Catholic children should be assigned to schools conducted under Catholic auspices and Protestant children to schools conducted under Protestant auspices. Under these circumstances, the Department is not prepared to approve of the admission of the two children of Alec Belanger to the Round Lake Indian Residential School.

If it is necessary that these children receive institutional care at the present time, you should arrange to have them placed in the Cowessess Indian Residential School.

Your obedient servant,

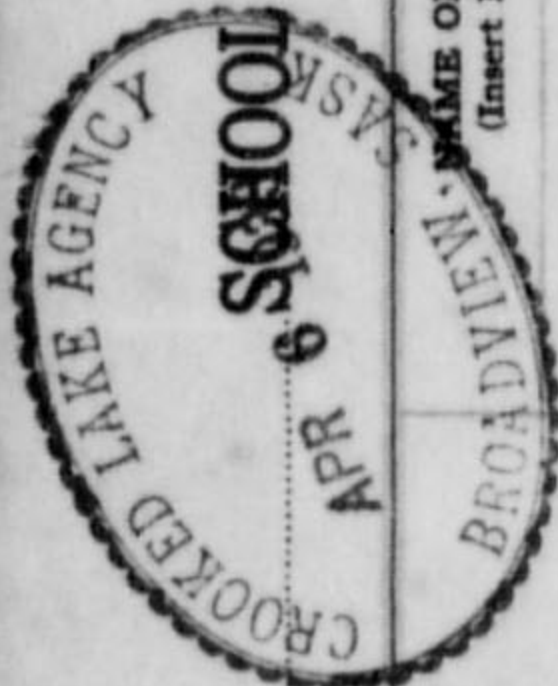

A. F. MacKenzie.
Secretary.

Dear Dr. McGill:

It has not been my custom since I became associated with the Board of Home Missions of The United Church of Canada to take any part in the communications between the Principals of our Residential Schools and the Department of Indian Affairs concerning the admission of children. I am, however, in receipt of a letter from Rev. R. J. Ross, the Principal of the School at Round Lake, containing certain information which it seems to me should be in the hands of the Department. I am therefore sending it on to you so that you will know that Mr. Ross has provided us with these details concerning the case of the Belanger children.

Yours very sincerely,

Rev. K. J. Beaton, B.A.,
Toronto,
Ontario.

Dear Mr. Beaton:

It is more than a year ago that Mr. Alex Belanger asked me if he could put his children in Round Lake School. As Mr. Belanger is a Catholic, I referred him to the Indian Agent. The Agent later informed me he had received the request, that he had informed Mr. Belanger that he would require to sign an affidavit agreeing to have his children brought up in the Protestant faith and that he was giving him a good long time to consider the matter before giving him the opportunity even of taking that step.

At some time during the winter the affidavit was signed and forwarded to Ottawa for approval. The oldest child was sent to us by the mother about a month ago and has been here since. A recent letter from the Agent informs me that the Department has ordered that these children must attend a Catholic school.

A number of Indians gathered on Friday near the school to be with their children during the holiday and to take part in the communion service which was held here yesterday. With these Protestant Indians came Mrs. Belanger and she requested that I baptise her three months old child.

I asked as to her past. She informed me that she was born at Hamsack and had been baptised in her infancy by Rev. Mr. Mawhinney. She had received her education at File Hills school. She had joined the Catholic church when she married and had had her four children baptised by the priest. ~~But~~ But as neither she nor her husband wished to have their children trained in a Catholic school, she had decided to come back to her own church.

When I told her what the Department ordered, she asked if she could have all her children baptised. So we baptised all five last night.

Her husband is at present serving a term in jail charged with non-support of his family.

On no occasion have I ever used any influence to induce these people to change their religion.

Yours sincerely,

(sgd.) R.J. Ross.

Ottawa, May 9th, 1933.

Reverend Sir,-

I am directed to acknowledge the receipt of your letter of the 29th ultimo, with reference to the letter you received from Rev. R. J. Ross, Principal of the Round Lake Indian Residential School.

The information contained in Rev. Mr. Ross' letter was conveyed to the Department by Mr. Agent Ostrander in a letter dated March 20th, last. This latter letter was very carefully considered and the conclusion was reached that the Belanger children should be considered Catholics. I feel that you will agree with me that it is in the best interests of all parties concerned to conform as closely as possible with the intention of the Indian Act, viz., that Catholic children should be assigned to schools conducted under Catholic auspices and Protestant children to schools conducted under Protestant auspices. Under these circumstances, Mr. Ostrander was informed that the Department was not prepared to approve of the admission of the Belanger children to the Round Lake Indian Residential School. He was further advised that, if institutional care was absolutely necessary for these children, he should arrange to have them placed in the Cowessess Indian Residential School.

Your obedient servant,

A. F. MacKenzie.
Secretary.

My dear Mr. MacKenzie: Re: Belanger Children.

A copy of your communication of May 9th in the above matter, addressed to Mr. Beaton, who is now in British Columbia, has been sent to Rev. R. J. Ross, Principal of the Round Lake Residential School.

I note that the Department, after careful consideration of the matter, is not prepared to approve of the admission of these children to the Round Lake School and has instructed the Indian Agent to make the necessary arrangements for their removal and provision for their institutional care elsewhere, if necessary.

Believe me

Very sincerely yours,

MEE.

May 9th. 1933

Sir:-

The Principal of the Round Lake Indian Residential School has requested the transfer of the undernoted pupils from his school to the Brandon School :-

#0193 Julia Ironstar of Carry the Kettle Band

#0204 Violet Wasna of No. 175 Carry the Kettle Band

both of Sintaluta Agency.

The Revd. Mr. Ross informs me that he has received the permission of the parents for this transfer and that Dr. Doyle has accommodation at Brandon for these two pupils and he wishes to make room for children of this Agency. Cases similar to this was dealt with in your letter 108-1-10 of Decr. 21st. 1912 therefore beg to recommend that this application be granted.

Your obedient servant,

J. P. B. Ostrander

Mr. A. F. MacKenzie,
Secretary,
Department of Indian Affairs,
Ottawa, Ontario.

My dear Mr. MacKenzie: Re: C.G.I.T. Camp, Round
Lake, Sask.

Last year, the Department of Indian Affairs was good enough to make a grant of \$50.00 towards the expenses of girls from the Round Lake Indian Residential School who attended the C.G.I.T. Camp held at Round Lake under the auspices of the Saskatchewan Religious Education Council. Rev. R. J. Ross, Principal of the Round Lake School, has asked us to request the Department for a similar grant this year. Twenty Indian girls from his School are planning to attend the Camp, which is to be held the first week in July.

I trust that the Department will find it possible to accede to this request.

Thanking you in anticipation of a favorable
reply,

Believe me

Very sincerely yours,

MLT.

Mr. J. D. Sutherland,
Department of Indian Affairs,
O t t a w a, Ontario.

Dear Mr. Sutherland: Re: Belanger Children, Round
 Lake Residential School.

Enclosed please find a declaration which has been forwarded by Mr. Alex. Belanger of Round Lake, who has been asking through the Indian Agent and the Principal of the School, Rev. R. J. Ross, that his children be permitted to receive their education in the school there.

I understand that the local Indian Agent has written you, supporting the desire of the father to have his children placed in our school. The application forms for admission have all been prepared and will go forward to you with the returns from the school.

Neither one of these children has ever attended either a Roman Catholic Day School or Residential School. It would appear, therefore, as if this is a case where the Department should acquiesce in the desire of the father and the recommendation of the Indian Agent on the ground.

I hope that you enjoyed your visit to Western Canada and shall look forward with great pleasure to seeing you in the near future.

Yours very sincerely,

[Handwritten signature: Kenneth J. Beaton]

OFFICE OF
INDIAN AGENT

Broadview, Sask.,
10th October, 1933.

Dear Sir:

In reply to your letter of the 6th instant, No. 108-1-10, in connection with the children of Alex. Belanger, I beg to say that the Reverend Principal of the Round Lake Residential School has been keeping the two oldest of these children in his school since the holidays, although instructed by me, in my letter of the 4th April, to return them to their homes. On my next visit to the school, after these instructions were issued, I found the children still at the school and when I enquired into the matter the Principal informed me that his church authorities were making arrangements about them.

The Principal now informs me that he has had a communication from his church authorities to the effect that if the father joins the United Church it will be in order for the children to be sent to the Round Lake School. Belanger has not yet joined the United Church but has signed some kind of an acknowledgement which the Reverend Principal has forwarded to the Church authorities for further action. I have not seen this document.

I may say that Belanger is now out of gaol, having recently completed his sentence, has been working for a white farmer near the reserve and assisting his family as far as possible from wages earned, but I am having some difficulty keeping the husband and wife from separating as the wife has now become stubborn and refuses to live with the husband any longer. They are still both determined to have the children admitted to the Round Lake School, if any.

Your obedient servant,

J.P.B. Ostrander,
Indian Agent.

Stockholm, Sask.,
Nov. 26th, 1933.

Rev. Kenneth J. Beaton, B.A.,
Toronto,
Ontario.

Dear Mr. Beaton:

I understand that the Principal of the Roman Catholic School called at the home of Mr. Alex. Belanger on at least two occasions to persuade Mr. Belanger to send his children to Crooked Lake School. Mr. Belanger refused on both occasions. He recently moved to a house within a quarter of a mile of Round Lake School. Last evening he was baptised and received into the membership of the United Church of Canada.

Some months ago the Department ruled that Mr. Belanger could not put his children in Round Lake School until he himself became a Protestant. He has now become an out and out Protestant. I do not see how they can refuse any longer to accede to the wishes of this Indian.

Yours truly,

(sgd.) R. J. Ross,

COPIED - JGA.

My dear Mr. Sutherland:

Re: Belanger Children

Enclosed please find copy of a letter which has come to hand from Rev. R. J. Ross, Principal of the Round Lake Indian Residential School, dealing with the request of Mr. Alex. Belanger that his children be received as pupils in that School.

I understood from your last communication that you had asked the Indian Agent for a special report on this case and have no doubt that he will corroborate the information herewith forwarded.

With very kind regards,

I am

Yours sincerely,

Ottawa, December 11th, 1933.

Sir,-

I beg to refer you to your letter of October 10th and official reply of October 16th, with regard to the Belanger children.

The Department is now in receipt of a letter which reads, in part, as follows:-

"I understand that the Principal of the Roman Catholic School called at the home of Mr. Alex. Belanger on at least two occasions to persuade Mr. Belanger to send his children to Crooked Lake School. Mr. Belanger refused on both occasions. He recently moved to a house within a quarter of a mile of Round Lake School. Last evening, he was baptised and received into the membership of the United Church of Canada."

As you will remember, when Mr. Murison and yourself discussed this case with me, it was decided that, as the father was a Roman Catholic, the children should be placed in the Cowessess Indian Residential School. In view of the above letter, I would appreciate receiving another report from you with regard to these children.

December 20th. 1933

Sir:-

I am in receipt of your letter 108-1-10 of the 11th. instant and have to advise that on October 25th. last I advised Revd. Mr. Ross Principal of Round Lake School that I had received your letter of the 16th. instant 108-1-10 October 16th. 1933 and instructed him that your instructions were to be carried out, and that the boys were to be sent home, and not kept in Round Lake School.

Since then it is true that Alec has joined the United Church but, in my opinion, simply to get his boys in the Round Lake School as I do not think that any church in existence would affect him in any way whatever and he personally would not be any credit to any church.

I have instructed Fr. Chatelaine the Principal of the Cowessess I. R. School to take these children in to his school and Fr. Chatelaine is quite anxious to get them as he feels that they are rightly his wards.

I should be pleased to receive your further instructions in the matter now in view of the recent developments.

Your obedient servant,

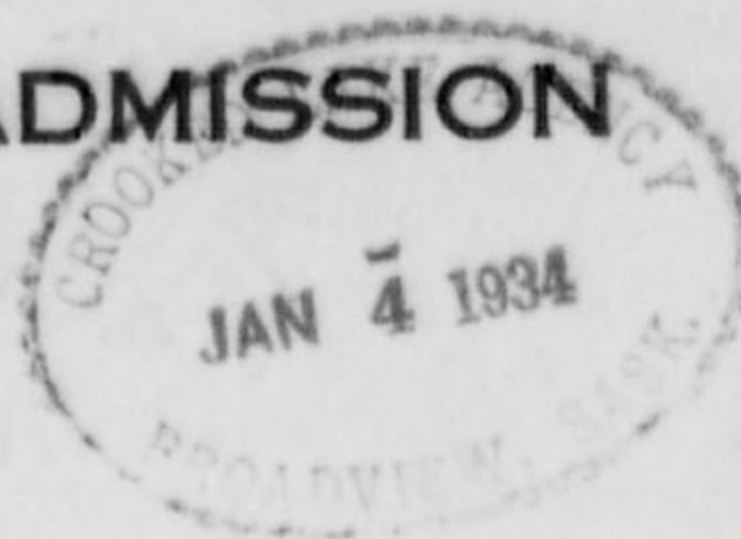

J. P. B. Ostrander
Indian Agent.

The Secretary

Mr. J. D. Sutherland,
Acting Superintendent of Indian Education,
Ottawa, Ont.

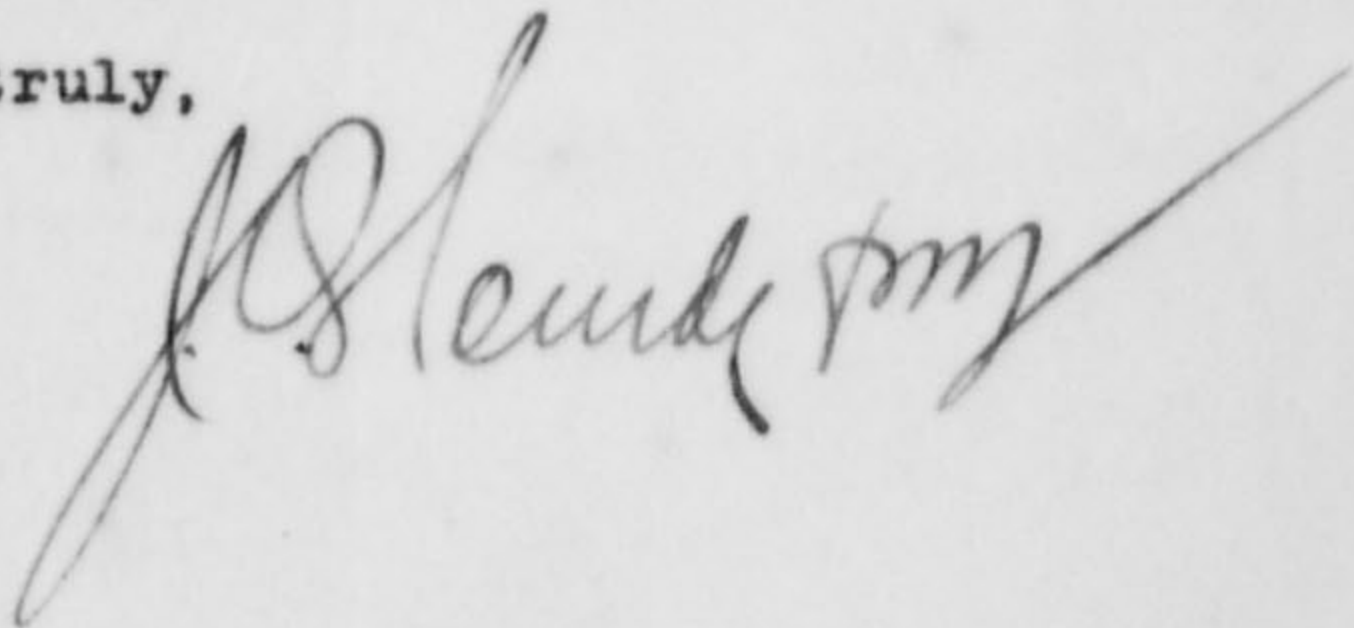

My dear Mr. Sutherland:

I am in receipt of a letter from Reverend Father Chatelain, of Marieval, Sask., in which he states that the children of Mr. Bélanger are still in the Round Lake School, although, according to your letter of October 25, these same children should have been transferred to the Cowessess School.

As this matter has no doubt escaped your attention I hope you will write immediately to your Agent to have the children transferred as promised in yours of October 25.

We are giving the matter of the Lebret School a good deal of attention, and I hope to see you soon regarding it.

Yours truly,

Indian Affairs. (RG 10, Volume 6334, file 661-10, part 1)

C o p y.

Stockholm Sask. February 14th. 1934

Mr. J. P. B. Ostrander
Broadview Sask.

Dear Mr. Ostrander:-

Mr. Alex Belanger returned last night and recounted a conversation he had with the Priest at Cowessess School. He told the Priest that he and his family were Protestant and that his children would be Protestant when they left school if they were forced into his school. He asked that his children be not taught the Catholic Religion. In comparing the educational advantages of the two institutions he said you had only to see the children together to decide which was giving the better education. He instanced the case of a little girl named Tanner aged 13 years and whose father asked him to find out from her the time of day. She could not tell the time of day although she had been 6 years in school. When the priest hinted that influence had been brought to bear upon him to become Protestant, Mr. Belanger at once corrected him, and told him that since his boy was two years old he had been planning to have him educated at Round Lake.

Mr. Belanger says he intends to fight the case. He seems to have the sympathy of the Indians, even of the Catholic Indians. If the case goes to court, he will have the sympathy of the public. My own opinion is that he is right in his contention and that he will likely win out in the long run. I therefore strongly advise the Department to drop the case at this stage.

The case of the other Indians to whom you referred yesterday is entirely different. In fact, they have no case. My chief interest is in seeing that this Indian gets fair play.

Yours truly,

Signed. R. J. Ross.

February 16th. 1934

Sir:-

With further reference to your letter 108-1-10 of the 27th. ult., and my letter of the 6th. instant in the matter of admission of children of Alec Belanger to Cowessess School.

no 1
I beg to say that Belanger has agreed to place his oldest child in the Cowessess School at once, but is to take up the matter through a lawyer. It is my intention to prosecute if he does not comply at once.

I have today received a letter from Revd. R. J. Ross, Principal of Round Lake School, a copy of which I am enclosing for consideration.

I would be better able to understand Mr. Ross' attitude in the matter if he was having difficulty in keeping his pupilage up to the maximum of 75 allowed by the Department, but as a matter of fact there are a number of Protestant children in this Agency who are of school age for whom there is no room in Round Lake School.

Your obedient servant

J. P. B. Ostrander

February 17th. 1934

Sir:-

With further reference to your letter 108-1-10 of the 27th. ult and my reply of yesterday's date I have to advise that this morning G.C.Neff Esq. K. C. of Grenfell phoned me on the matter on behalf of Alec Belanger who had consulted him. He informed me that he had advised Belanger to take his child to Round Lake School.

Shortly after this phone message the Revd. Mr. Ross, Principal of Round Lake School phoned me on the matter to ask if it would be permissable for him to take the child in his school. I told him not to do so as he had received very definite instructions from the Department vide your letter 108-1-10 March 14th. 1933 that these children were not to be taken in to school pending the Department's decision and also your letter 108-1-10 of the 27th. ult which definitely instructed these children to be placed in the Cowessess I.R.School.

I may say that although tomorrow is the last day of grace for Belanger to place his child in the Cowessess I. R. School as instructed under penalty of prosecution, I have decided to delay any proceedings until I receive further instructions from the Department.

*Right to
parents*

Ottawa, March 16th, 1934.

Sir,-

The Department is in receipt of your letters of the 16th and 17th ultimo, with reference to the Belanger children.

You will remember that, when Mr. Sutherland was in the West last fall, this case was fully discussed with him by Mr. Murison and yourself. It was decided at that time that the children should be placed in the Cowessess Indian Residential School and, consequently, instructions were later issued to you to that effect.

The Department is not prepared to approve of the admission of these children to the Round Lake Residential School. At the same time, we do not wish the compulsory clause of the Indian Act to be invoked in order to compel their entrance to the Cowessess School.

You should again direct the attention of the Principals of the residential schools in your agency to the instructions contained in circular letter of November 12th, 1926, copies of which are enclosed.

J. P. B. Ostrander

Your obedient servant,

April 5th. 1934

Sir:-

I am enclosing herewith copy of a letter received from the Revd. R. J. Ross, Principal of the Round Lake I. R. School with reference to the admission of a son of Louis Crowe of Kahkewistahaw Band to his school.

This case is very similar to that of the Alec Belanger children regarding which there has been a great deal of correspondence between the Department and this office and to which a definite ruling has been given that the children must not be admitted to the Round Lake School.

Since receiving this letter I have had a talk with Louis Crowe and he has furnished me with the following particulars.

He and his wife were both baptised as Catholics when babies. For some reason Louis was admitted to the Round Lake School where he received his education. His wife was educated at the Qu'Appelle I. R. School at Lebret. The child now in question was baptised as a Catholic at Lebret (the father states that this was against his wishes but that is beside the point). In conversation with Louis Crowe today he expressed a willingness to place the child in ~~any~~ the Qu'Appelle I. R. School or any other R.C. School but he strongly objects to placing him in the Cowessess I. R. School.

At the present time there seems to be a strong feeling amongst the Indians against the Revd Fr. Chatelaine, Principal at that school and I think his refusal to allow the boy to be placed there is because of the feeling at the present time.

The boy is only 7 years old and I do not think that there is any need for him to be placed in school immediately but if the Revd. Fr. Leonard of the Qu'Appelle School is looking for recruits the boy could be sent there if the Department so desires.

Kindly instruct me in the matter.

Your obedient servant

The Secretary
Department of Indian Affairs
Ottawa.

J.P.B. Ostrander
Indian Agent.

COPY.

Stockholm Sask.
March 31st. 1934

Dear Mr. Ostrander:-

Mrs. Louis Crowe is in the office just now. She tells me her boy is 7 years of age and that she and her husband wish to put him in this school. As you know she is Catholic and Louis is Protestant. Without her husband knowing it, she had the boy baptised by the Priest. Please ask the Department for permission to admit this boy after the summer holidays. Mr. Louis Crowe was a pupil of this school for many years. He is not here himself or else I would have asked him to sign an application form.

Yours truly,

SCHOOLS BRANCH
MAY 2 1934

The Department of Indian Affairs,
Ottawa, Ont.

Dear Sirs:-

Re Alex Belanger, Crooked Lake Agency, Sask.

The above party has consulted the writer in reference to the school situation relative to his children. Through correspondence with Mr. Ostrander, the Indian Agent, it appears that at the moment the children in question are not attending school, and of course this is unsatisfactory for all parties concerned.

As you are aware this man and his family are no longer Roman Catholic, in fact the wife never has been; they are all members of the United Church and have applied to have these children admitted to Round Lake School, but permission has been refused.

There appears to be some regulation to the effect that children shall go to the school of the church in which they are first baptized. This is hard to understand, and appears to be a direct contravention of the Indian Act, for under the provisions of such a Protestant child cannot be forced to attend a Roman Catholic school. The result in this case appears to be that the children are refused attendance at the school of their religion, and now are barred from an education.

From a legal angle it would appear as it would be possible to take the necessary action through the courts to force admission to Round Lake school, but surely there is some way whereby the matter can be arranged without going to this extremity. I may say however, that my client advises me that he positively refuses to have his children attend the Roman Catholic institution.

I shall be glad to hear from you at an early date.

Yours truly,

G. G. Neff

Ottawa, May 10, 1934.

Sir:

I beg to acknowledge receipt of your letter of the 25th ultimo, with reference to the children of Alex Belanger, of the Crooked Lake Agency.

When this man first endeavoured, about a year ago, to have his children placed in the Round Lake Indian Residential School, the information received by the Department indicated that he had been recognized as a Roman Catholic, and, consequently, the Department refused to admit his children to the Round Lake School.

From subsequent information, it appears that Belanger is now recognized as a member of the United Church of Canada. The Department is not, however, prepared to approve the admission of his children to the Round Lake School at the present time. This school has the full number of pupils for which a per capita allowance is provided, and, therefore, there is no accommodation in it for the Belanger children.

Your obedient servant,

A. F. MacKenzie

The Secretary,
Department of Indian Affairs,
Ottawa, Ont.

R

Dear Sirs,- Re Alex. Belanger, #770- your 108-1-10.

I have your letter of the 10th instant in this matter, and note what you say. My client takes the position that his child has the right to an education as a matter of right, both under the original treaty, and under the Indian Act, and cannot understand why you cannot make provision for same.

At the moment the father is liable to prosecution under the truancy provisions of the Indian Act, although he is ready and willing to have his child go to the school of his choice. The fact that the Round Lake School is now up to the number for which a grant is paid, does not assist my client, and he contends it does not relieve the department of its responsibility of furnishing an education. As it now stands the child is deprived of the beginning of an education, for which no one is responsible other than your department. It is neither right, nor fair that the matter should rest as it is; therefore I shall be glad to hear from you definitely whether the department refuses to arrange a proper school for the child in question.

Yours truly,

[Handwritten signature: G. G. Neff]

Broadview, Sask.,
8th June, 1934.

Dear Sir:

I regret to inform you that Joseph Louison, a pupil of the Round Lake Residential School, was accidentally drowned in Round Lake on the 30th ultimo.

The Coroner was called to enquire into the accident and I was present at the enquiry. It was decided that the death was purely accidental and that no inquest was necessary. The facts were as follows:

The school is on the north side of the lake. On the 29th, the day before the accident, there was a high wind from the south, which carried a boat, belonging to Charles Assinaboine, Indian of Ochapowace Reserve, from the south to the north shore, near the school. That evening some of the school boys were seen playing with the boat and were ordered to stay away from it and they were again warned the morning of the 30th by the Reverend Principal. When the children were let out for recess at 3:00 P.M. three of them went down to the lake, unknown by any of the school staff. They commenced playing with the boat and the deceased boy was in the boat. There was a high wind from the north, which carried the boat away from shore with the boy in it. The other two boys tried to catch the boat, but it drifted out into deep water and they were unable to reach it. It continued to drift out and when it was about 200 feet from shore the boy became very frightened and jumped out of it into about eight feet of water. The boy could swim a little, but as the waves were high, he soon sank. The other two boys immediately ran to the school and informed the Reverend Principal and every effort was made to locate the body, but it took two hours and there was no life in the body when it was found.

The Secretary,
Department of Indian Affairs,

The Secretary,
Department of Indian Affairs,
Ottawa, Canada.

Dear Sir,-

I have your letter of the 18th. inst. and also the
Deputy Superintendent's circular of the 15th. ultimo.

On receipt of the circular I investigated the ages of the older
pupils and found that some of them were reported one or two years
older than they really were. I had taken the ages the parents gave me
when the children entered school. In the second quarterly report,
the revised list of ages is given.

Jean Thomas, age 16, wishes to take her Grade VIII examination
next year.

Selina Ironstar, age 18, has been transferred to the Brandon School.

Albert Wasacase, age 17, is expected to leave school on August 16th.
and we intend to ask for his discharge at that time.

Leonard Stevenson, age 16, wishes to attend the Technical School
at Brandon and we have already applied for his transfer to the
Brandon Indian Residential School. He passed his Grade VIII
Examination.

Arthur Geprge, age 18, was not able to attend school when he was
of school age owing to the condition of his health. He also had
trachoma in an advanced stage. He has not had the advantages in
school that the ordinary Indian child has and we recommend that he
be allowed to return if he so wishes. He has been in school only

CANADA**

Ottawa, July 27, 1934.

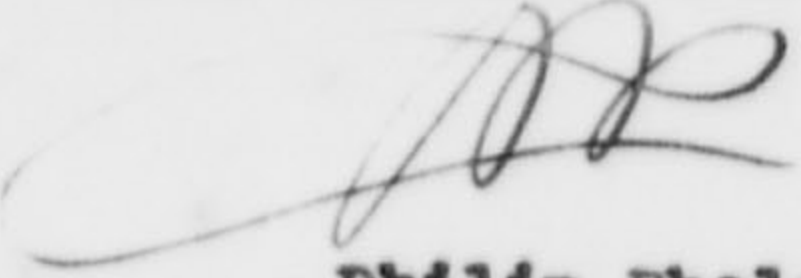

Reverend Sir:

With reference to your letter of the 21st instant, I beg to say that, in view of your recommendation, Jean Thomas may remain in the Round Lake Residential School for another year. If Arthur George wishes to return he may also remain for another year, but, in view of his age, the Department considers that it would be inadvisable to keep him in the school for any longer period.

Mr. Agent Ostrander has been advised that the Department is not prepared to transfer Leonard Stevenson to the Brandon School.

In order to carry out the instructions contained in the Deputy Superintendent General's circular of the 15th ultimo, you should, at the end of each academic year, in future, forward to the Department, through the office of your local Indian Agent, a list, giving the names and register numbers of the children in the Round Lake School who are 16 years of age and over. In the case of those who, you consider, should remain for a further period, such permission should be requested.

Your obedient servant,

Philip Phelan,
for Supt. of Indian Education.

OFFICE OF
INDIAN AGENT

Crooked Lake Agency
Broadview Sask.

September 24th. 1934

Sir:-

With reference to your letter 108-1-10 of the 13th.
and beg to enclose herewith application form for :-

Norman Belanger and Reynold Belanger
for admission to the Round Lake I.R.School.

✓ I have to add that I have personally seen both Alec
Belanger and his wife who with their children have joined
the United Church and have had their children baptised in to
this church.

I am afraid that the action of the Department in this case
will establish a dangerous precedent as there will be other
Indians with the same view as Alec Belanger who may come to the
conclusion that if they join the United Church and engage the
services of a lawyer they will be able to place their children
in Round Lake School which at the present time is a more popular
school than the Cowessess Roman Catholic School.

Your obedient servant,

J. P. B. Ostrander
Indian Agent.

sch

Ottawa, October 11th, 1934.

Sir,-

I beg to acknowledge the receipt of your letter of the 24th ultimo, enclosing applications and certificates of health for the admission of Norman and Reynold Belanger to the Round Lake Indian Residential School.

It is over a year since the Department first received a request for the admission of these children to the Round Lake School. Information received in the meantime indicates that the parents are now recognized as members of the United Church. Under these circumstances, the Department has no alternative but to allow the education of the children under Protestant auspices and the admission of Norman and Reynold Belanger to the Round Lake Indian Residential School is approved. The Department does not consider that this case should form a precedent as only those children can be admitted to the Round Lake School whose parents are recognized as Protestants.

The Principals of both schools in your agency should be urged to confine their recruiting activities to families who are recognized as members of their respective churches.

Your obedient servant,

Dear Sir:

I am in receipt of a letter from the Rev. Principal of the Brandon Indian Residential School, stating that the Department is requesting admission forms and Certificates of Health of Georgina Haywahe and Julia Ironstar, for admission to the Brandon school.

I understand that these children were transferred from the Round Lake Indian Residential school under authority of Department letter #108-1-10, dated July 26th, 1934.

Will new application for admission forms be necessary in these cases?

Schools

Crooked Lake Agency
Broadview Sask.

October 25th. 1935

Sir:-

Herbert Sparvier of the Kahkewistahaw Band has a daughter in the Round Lake I. R. School .

He has a son named Lloyd aged 5 years which boy wishes to go to school with his sister.

I understand that Mr. Ross the principal will take this boy in the school if the Department approves although he is on the young side.

Herbert himself is a very fair Indian, quite intelligent and I feel that probably the early attendance of the child to school may be in this case of considerable advantage to the boy as he may develop into a really intelligent pupil.

If the Department would consider his application I would be pleased to be so advised in which case I would complete and submit form of application etc.

Your obedient servant

Eben. A. W. R. McKenzie
Indian Agent.

Ottawa, November 1st, 1935.

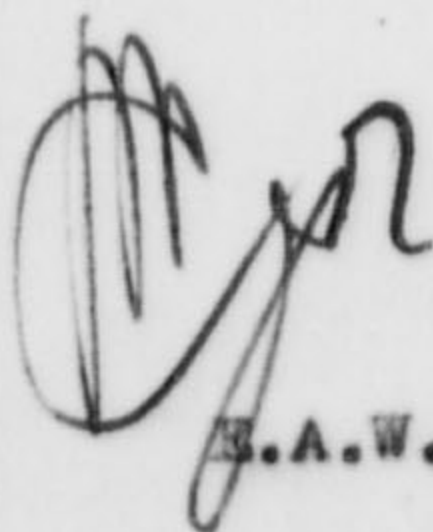

Sir,-

With reference to your letter of the 25th ultimo, please let me know if Herbert Sparvier is able to provide for his son. The Department considers that the boy is too young to be placed in a residential school. He should wait a year or so, at least, as you know the regular age for admission to residential schools is seven years.

Your obedient servant,

J. D. Sutherland.
Acting Supt. of Indian Education.

January 2., 1936

Sir/-

I beg to inclose application for admission to Round Lake I. R. School together with certificate of health of Ella Louison of Kahkewistahaw Band.

It will be noted that this child is only 6 years of age and in view of the fact that the father is dead and the mother is travelling around all over the place, badly neglecting this child, I would recommend her admission to school.

I have taken this matter up with the Revd. Principal and he informs me that he will have room for this child if the department approves and I would recommend the same.

Your obedient servant,

Eben A.W.R. McKenzie,

April 21st. 1936

Sir:-

The Reverend Principal of the Round Lake I. R. School has requested the discharge of the undernoted pupils for the reasons given:-

John Francis No. 170

This lad is over 16 years of age and has a brother farming on the Kahkewistahaw Reserve. He is going to farm with his brother for a year or two before starting out on his own.

Fred McKey No. 172

This lad will be 16 years of age on the 27th. of June next. His father has a fairly large farm and several head of stock and badly needs his help. His father is now and has been for some time sick and unable to do much work himself.

I beg to recommend that these discharges be approved.

Your obedient servant,

Eben. A. W. R. McKenzie
Indian Agent.

The Secretary
Department of Indian Affairs
Ottawa.

DEPARTMENT OF INDIAN AFFAIRS
CANADAOFFICE OF
INDIAN AGENT

Broadview, Sask.

15th. June, 1936.

Sir,-

I beg to advise that there is an indian girl at the Round Lake Indian Residential School, Mary Taypotat by name, who has an opportunity of going to Vancouver to take her Grade 9 and continue in her studies there until permitted to take up her duties in training for a nurse. She is an exception girl and the matron of the school has a married son in Vancouver who wants Mary to stay there with them during the time she is at school where she will have a home and proper supervision during the time she is attending classes. Mrs. Therian the Matron of Round Lake School, who has been granted furlough for ~~three~~ months, proposes going to Vancouver and would take Mary along with her, provided arrangements can be made with the Department to permit Mary to go there and attend school as cited above. Dr. Therian and his wife have offered her a home and the church authorities have taken up the question of her admittance in training for a nurse with the Hospital authorities in Vancouver and received definite assurance that when she secures the required certificates, she will be admitted.

As there is considerable expense as to her books & clothes in attending a school in Vancouver, the school authorities here ask if she could be continued on their roll as a pupil of Round Lake School, when they would attend to her tuition and board themselves from here.

Mary has about \$ 15. here at the office which would do for pin money en route, to Vancouver and asks that her treaty and interest be kept for her to draw upon while at school for her other requirements. Her parents have agreed to let her go, Mrs. Therian the matron's son, Dr. Therian and wife, have agreed to give her a home with them while attending school, and now seek Departments permission with the continued grant to Round Lake school for Mary to send her there where she has an opportunity to make good. She has attained the age for leaving school and wants to go to Vancouver to finish and go into training for a nurse.

Indian Affairs. (RG 10, Volume 6334, file 661-10, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

(2)

May I have Department permission to authorize this and if so as Mrs. Therian is leaving for Vancouver on June 29th. would I be authorized to issue her a free transportation requisition from Broadview to Vancouver.

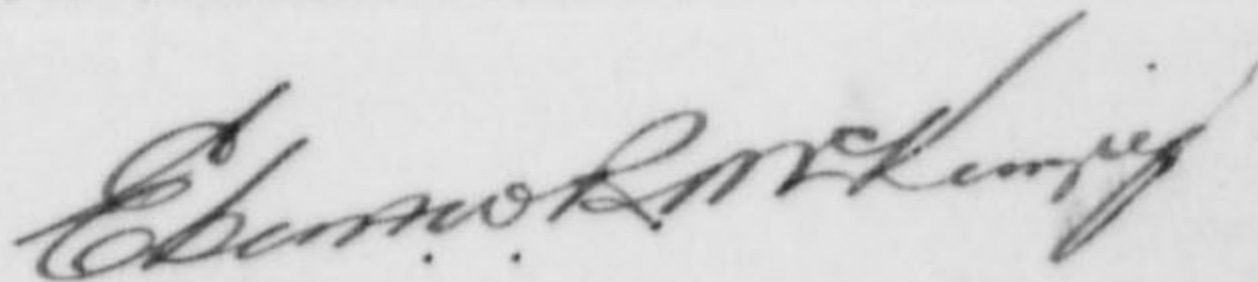

For the extra clothing she would need in attending an outside school, Mrs. Therian states that the church are prepared to look after that and she herself personally will look after Mary's purchases.

As there is not very much time between now and the end of the month could I have this authority by wire so that Mary can get ready in time to go with Mrs. Therian.

All arrangements have been made by the church authorities for her tuition and board, the whole thing hinges on securing Department authority to permit the Round Lake School to continue her on their roll as a grant earning pupil, from which her tuition, books and board will be attended to.

She is an exceptional girl for an Indian and believe she warrants this opportunity of furthering her studies being granted.

Your obedient servant,

Eben A.W.R. McKenzie.
Indian Agent.

The Secretary,
The Department of Indian Affairs,

Schools

Ottawa, June 20th, 1936.

Dear Sir,-

The Department is in receipt of your letter of the 15th instant, with regard to Mary Taypotat, a pupil of the Round Lake Indian Residential School.

So many difficulties might occur in the plan outlined in your letter if the girl went to Vancouver and did not prove satisfactory in two or three months and there would be considerable trouble in having her returned. I might say that this occurred at another residential school where a proposal similar to yours was approved by the Department.

Taking everything into consideration, the Department cannot approve the recommendation made by you.

Yours truly,

E.A.W.R. McKenzie

Ottawa, October 24, 1936.

Dear Sir:

With reference to your letter of the 17th instant, enclosing the September quarter return of the Round Lake Residential School, you may inform the Principal that the discharge of John Francis, No. 170, is approved.

You may also inform him that the Department approves the admission of the following children:

Jean Bunnie
Rosa Poncappo
Thos. Lloyd Sparvier
Geo. Kaysaywaysemat.

The usual application forms and certificates of health should be submitted for No. 0239, Lena Crowe, and No. 217, Verry Watson.

Yours truly,

J. D. Sutherland,
Acting Supt. of Indian Education.

Original on..... 504178.

Ottawa, November 6, 1936.

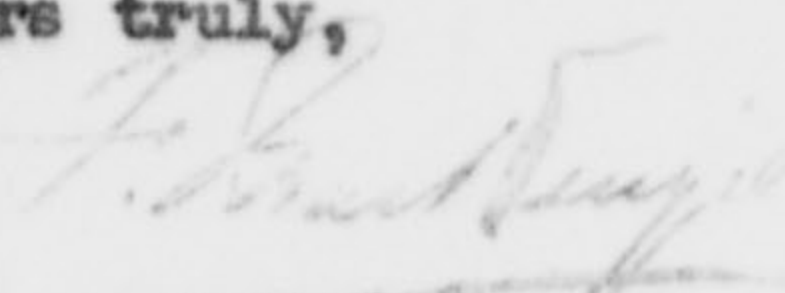

Dear Sir:

Dr. Thomas Robertson, who recently visited your agency, has written with respect to an Indian girl - Mary Taypotat, who wishes to take a course in training as a nurse. He states she has a Grade 11 standing.

In this connection I would refer you to your letter dated June 15th, last, in which you stated that she wished to go to Vancouver, to take her Grade 9 and continue in her studies.

The Department understands Mary Taypotat is 17 years of age and is still a pupil at the Round Lake Indian Residential School. Has she sufficient educational standing to enter a hospital for a course in training? If so, you should communicate with the Department, after consultation with the Principal of the Round Lake School, and state the name of the hospital which this girl wishes to enter for her training. I would point out, however, that if any assistance is granted towards her expenses, uniforms, etc., the Department could accept no responsibility in arranging for her employment after she would complete her hospital training. I shall be pleased to hear from you at your early convenience, regarding the matter.

Yours truly,

A. F. MacKenzie,
Secretary.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

OFFICE OF
INDIAN AGENT

Broadview, Sask.

27th. April, 1937.

Sir,-

Alex Belanger No. 158 Ochapowace Band has approached me with a view of having two other of his children admitted to the Round Lake Indian Residential School both of whom are under school age. He has two there at present.

W. A. P. M.
His wife has been sick for some time and has just yesterday returned from hospital and has two other younger children to attend to at home, added to the fact that all are very poorly clad and have the appearance of being more or less undernourished. The two children in question are ages 4 and 5.

The Principal of the Round Lake School states that he would take these two children if the Department approve. He has room for them as there are some pupils for which he is making application for discharge.

In view of the circumstances of this family, may I have authority to submit application forms of admission for these two children?

Your obedient servant,

Eben A. W. R. McKenzie.
Indian Agent.

Dear Sir,-

The Department is in receipt of your letter of the 27th ultimo, with reference to two children of Alex Belanger. It is noted that they are only four and five years of age respectively and, at the present time, we are not prepared to approve their admission to the Round Lake Indian Residential School.

Yours truly,

Philip Phelan
Philip Phelan.
Chief, Training Division.

Ottawa, May 13th, 1937.

Dear Sir,-

With reference to your letter of the 26th ultimo, the Department approves the temporary admission of David Gaddie to the Round Lake Indian Residential School. He should be given every possible medical care and his physical condition should be carefully watched. If his health becomes a menace to the other children in the school, application should be made immediately for his discharge.

Yours truly,

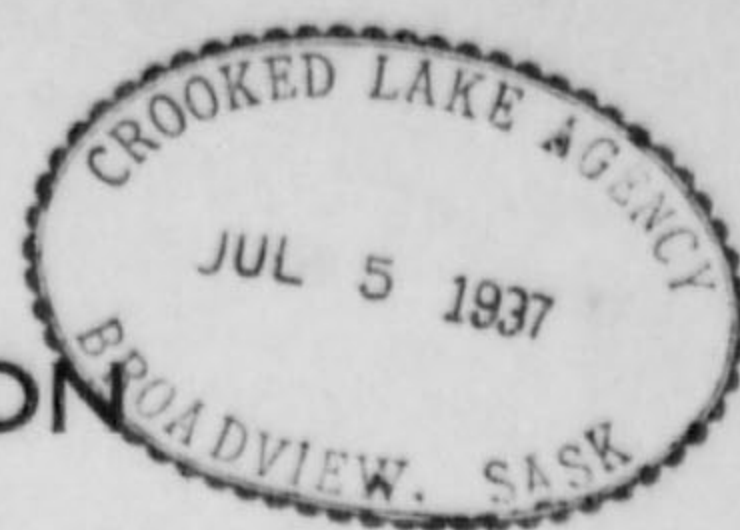

Philip Phelan

Dear Sir:

With reference to your letter of the 10th instant, the admission of Leita Pearl Thomas, age five years, to the Round Lake Indian Residential School is approved. Before sending this girl to the school, you should have her examined by a doctor and forward to the Department the usual application and certificate of health form.

The admission of this girl is not to form a precedent for the admission of other children under school age.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

Ottawa, July 12, 1938.

Dear Sir:

With reference to your letter of the 5th instant, regarding the Round Lake Indian Residential School, the Department approves the transfer of the following children to the Brandon Residential School:-

No. 0195 - Selma Francis,
0198 - Irene Gaddie.

You may inform the Principal that the discharge of the following pupils is approved:-

No. 0192 - Myrtle Francis,
0215 - Rosalie Assinaboine.

Application form and certificate of health should be submitted for No. 0246 - Alice Ponnecappo.

It is noted that Lawrence Wasacase, whose discharge was approved by official letter of December 27, 1937, has been re-admitted to the school and given a new number. Presumably this boy is in good health and, with this understanding, his re-admission is approved. On future returns he should be given his former number, viz.: 223.

Yours truly,

Philip Phelan,
Chief, Training Division.

108-1-10
Crooked Lake Agency,
Broadview, Sask.,
Jan. 24., 1938..

Sir:-

Authority was granted in letter 108-1-10 on the 17th. of August last for the admission of Leita Pearl Thomas to the Round Lake I. R. School. At this time the mother was a widow running all over the place and had no facilities for looking after this child. Now she has remarried and is asking for the child to be returned to her until she becomes of school age. The Revd. Principal of Round Lake School says the child is too young to gain any advantage from class room work but I personally feel that now the child is in school it might be as well to let her remain there. I would be glad to receive instructions from the Department in the matter.

Your obedient servant,

Dear Sir:

With reference to your letter of the 24th instant it is rather difficult for us to decide whether or not Leita Pearl Thomas should be returned to the mother.

If the mother now has a suitable home I am inclined to feel that the child should be returned to her. Such action would have the tendency of making the mother realize that she is at least partly responsible for the child's maintenance. However, if the home conditions are not suitable it would appear preferable to leave the girl in the Round Lake School. Whatever action you decide to take will meet with our approval.

Yours truly,

Philip Phelan,
Chief, Training Division.

Division File No. 40R 1274/4-7 F. 237		
ROYAL CANADIAN MOUNTED POLICE		
Division	Sub-Division	Detachment
"F"	Regina	Broadview 6-103
Province		Date
Saskatchewan		Oct 25th, 1940
File References	Re: Earl KEMUANQUAWAY-Runaway Indian Boy-Crooked Lake School Crooked Lake District, Sask. (Assistance to Dept Mines & Resources-Indian Affairs) (Broadview Detachment Case)	
Headquarters	23-10-40 1. In reference to the above, I beg to report that on the p.m. of this date, a telephone message was received from Father De'Verennes, Principal of the Indian School at Crooked Lake, to the effect that the above mentioned had that afternoon run-away from the school, and would probably be at the home of Joe Still, Ochapawace Reserve, as the above mentioned had stated previously, that Still would take him home to Moose Mountain, White Bear Reserve if he wanted to go.	
Sub-Division	2. A patrol per Police Car was made to the home of Joe Still on Ochapawace Reserve, and on being questioned stated that he had only met the above mentioned on one occasion, when he was at the Mission about two weeks ago, and that he had not seen him since that time.	
Detachment	3. A further patrol was also made to the Farm Instructors residence and Mr Russell advised with respect to the above, and owing to the lateness the patrol returned to Broadview, all Indians being in bed and no information at this time could be gained.	
B'view 2-69	24-10-40 4. On the p.m. of this date, a further patrol was made to the home of William Smoker, Kahkewistihaw Reserve, this Indian being a Grandfather of the above mentioned, and it was thought that he might be there, but from enquiries made of Smoker he stated that he had not seen the boy for over a month, when he was at the Mission, and it was also thought by Smoker, that the boy would not go to him if he ran away, as he would return him to school.	
P. C. R. B'view 1st Report	5. Later while patrolling the Qu'appelle valley on Cowessess Reserve, the above mentioned was met with and returned to the School.	
A. R. V. No.	HANDED OVER Expense shown on F. 93 Oct 16-31, 40.

Sir:-

Bert Francis No.135 of Kahkewistahaw Band has asked that his children as noted below be transferred from the Round Lake I.R.School to the Brandon I.R.School. I have taken the matter up with both principals and the Principal of the Round Lake School advised me that he is quite agreeable for this transfer and Dr. Doyle Principal of Brandon School has expressed his willingness to take them in.

No.188	Ross Francis	Age 13
No.0220	Florence Francis	Age 10
No.215	Lloyd Francis	Age 9
No.226	Hugh Francis	Age 7

The father is anxious for these children to be trained for a definite occupation in life and feels that they would have a much better chance at the Brandon School and I beg to recommend that this authority be granted.

Your obedient servant,

Eben A.W.R. McKenzie,
Indian Agent.

Sir:-

The Revd. Principal of the Round
Lake I. R. School requests the transfer
of Victor Stevenson No.206 from the
Round Lake School to the Brandon I. R.
School.

This lad is a source of bad influence
to the boys of the school and living near
at home is very hard to control. His
parents feel that if he is away at Brandon
it will be much better for all concerned.

Your obedient servant,

Eben A.W.R. McKenzie

Sir:-

The Revd. Principal of the Round Lake I.R. School has had three of his pupils aged 16 years request to spend another year at his school and the parents have also expressed this wish.

They are:-

William Wasacase No.180 - a very good lad, only in Grade 5 and would like to go further in his studies.

Flora Gaddie No.0189 - are very good girls, and energetic and ambitious and Janet Alexson wants to have some more instructions in housekeeping cooking etc., and the parents have specially requested that they be given this opportunity.

I would be glad to hear as soon as possible if this is allowed so that the Principal will know whether he will have these vacancies to fill or not.

Your obedient servant,

Stockholm, Sask.

Sept. 16th./39.

The Department of Indian Affairs,
Ottawa, Canada.

Dear Sirs;

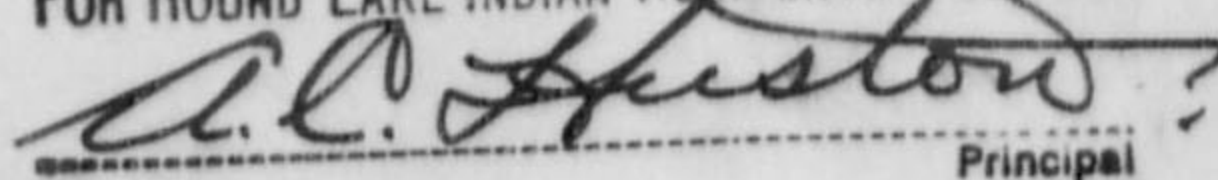

The Indians on Sakimay Reserve, Crooked Lake Agency in Saskatchewan request that their children be released at Christmas time from Round Lake Indian Residential School for the purpose of spending the Christmas vacation at home on the Reserve. I informed them this was a matter that rested with the Department and that likely there would be a ruling to govern their action toward all Residential schools, in this matter.

It would clear the air considerably with reference to this problem if you would for the benefit of all state what stand the department take toward permitting children to go home for the holiday at Christmas. Restriction in this regard seemingly is something new to this group of Indians, so much so that I fear they lay the blame for the exercise of discipline in this matter on what may be termed the enthusiasms of a New Principal.

Trusting we may receive from you at your earliest convenience the information that will result in making the above matter clear and satisfactory to all. I remain,

Yours sincerely,

FOR ROUND LAKE INDIAN RESIDENTIAL SCHOOL

Principal

Ottawa,
September 29, 1939.

Dear Sir:

The Department is in receipt of a letter from the Principal of the Round Lake residential school in which he requests a definite ruling regarding the allowance of Christmas holidays to the pupils.

For the information of the Principals of the Indian residential schools in your Agency and yourself I enclose copies of the regulations covering the granting of holidays in Indian residential schools. For reasons that will readily suggest themselves to you the Department has always taken the position that the allowing of holidays during the winter season is neither in the best interests of the pupils themselves nor conducive to the progress of the residential schools. We would have no objection to the children going home for Christmas day only provided that they would return to the school the same evening. As a matter of fact it would be preferable for the schools to arrange some special celebration on either Christmas day or one of the days of Christmas week and have the parents come to the school and spend the day with their children.

Please advise the Principal of the Round Lake residential school and the Principal of the Cowessess residential school regarding our wishes in the above matter.

Yours truly,

E.A.W.R. McKenzie, Esq.,
Indian Agent,
Broadview, Sask.

Cowessas Res.
March 20th

Mr McKenzie

Dear sir I would like to Transfare
my children to the cowessas school.

And there going to change there Religion
my wife being a Roman Catholic she
would like her children to follow up her religion
we've been having quarrels over Religion
in order to get a long better I've decided
to let them turn catholic for my part

Religion is nothing to me so if
you can have them Transfared soon its
all the better.

I remain

John A. Stevenson

2/11/35

Sir:- John A. Stevenson, #226 Cowessess Band
re- Robert Stevenson No. 213 ✓ Round Lake School
Hazel Stevenson No. 0242 ✓ do

I beg to enclose herewith letter of John A. Stevenson requesting the transfer of his two children from the Round Lake I.R. School to the Cowessess I.R. School.

This Indian has had some difference of opinion with the new Principal at Round Lake School and has taken his children out and I have advised him that he is to return them or else I would be forced to take proceedings under the Indian Act.

I understand that the Revd. Principal of the Cowessess School would admit these children if the Department authorised the same but feel that the Revd. Principal of the Round Lake I.R. School would take strong objection to this transfer.

May I have the Department's instructions in the matter please?

Your obedient servant,

Eben A.W.R. McKenzie,
Indian Agent.

The Secretary,
Indian Affairs Branch,
Department of Mines & Resources,

Ottawa,
December 29, 1939.

Dear Sir:

I am in receipt of your letter of the 22nd instant with reference to Robert and Hazel Stevenson.

The Department presumes that the information given at the time these children were admitted to the Round Lake residential school was correct and under these circumstances they were eligible for admission to that school. We are not prepared to approve their admission to any other school at the present time.

You should arrange with the father to have them returned to the Round Lake school immediately. It is difficult to understand why the Principal allowed the father to take the children from the school. As you are aware when children are regularly admitted they should not be discharged without our approval.

Yours truly,

E.A.W.R. McKenzie, Esq.,
Indian Agent,
Broadview, Sask.

Philip Phelan,
Chief, Training Division.

The discharge of the following pupils is also approved:

No. 0189 Flora Gaddie
" 0205 Florence Taypotat
" 180 William Wasacase
" 195 William Francis
" 218 Thomas Sparvier

No. 0199 Ruth Watson
" 0209 Edna McKay
" 0210 Connie Gaddie
" 0223 Muriel Sparvier

An application form and certificate of health is required for Bertha Assiniboine, No. 0253.

In the case of 9 pupils who are shown on the return to have entered the school for the first time on September 1, 1939, grant is requested for 92 days for each of them. In such cases grant should only have been requested from the date of their admission to the end of the quarter; namely, for a period of 30 days. The return has been amended accordingly.

Yours truly,

Mr. W.J.B. Ball,
Indian Office,
Broadview, Sask.

Philip Phelan,
Chief, Training Division.

Round Lake Indian Residential School,

Stockholm, Sask.

Aug. 7th, 1940.

Office of Indian Agent,
Broadview, Sask.

Dear Sir:

It is the wish of the parents Mr. and Mrs. Roderick Henry on the Ochapowace Reserve that their daughter Pearl be permitted to continue at the Round Lake School for one more year that she may obtain her grade eight standing. Pearl will be sixteen years of age by the time school re-opens.

This is the only request of this type we expect to make of the Department this year. You no doubt know there is nothing for the girl on the Reserve and that she needs supervision and training for at least another year.

Trusting you will do what you can to have this request granted, I remain,

Yours truly,

(Signed) A. J. Huston

FILE 57

Crooked Lake Agency,
Broadview, Sask.,
Sept. 29th, 1941.

Dear Sir:

Re File No. 108-1-10, July 21st, 1941.

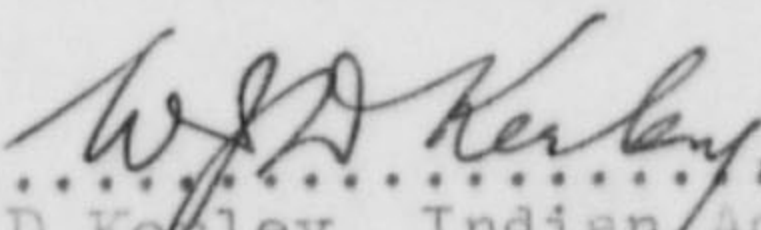

Replying to your letter of the above date with further reference to the Applications for Admission to the Round Lake School for Doreen and Kenneth Mequahquay. Though I have made several inquiries I can add very little to what I mentioned in my letter of July 14th.

Mequahquay is at present in the army. I interviewed Mrs. Mequahquay and while she admitted signing the declaration mentioned in our previous letter (copy of which is enclosed herewith) she stated that she had done so because Round Lake School was full at the time and as her husband was away she was unable to support her children. She signed the statement that she and her husband were Roman Catholics as this was the only way she could have them admitted to Cowessess School.

I am enclosing a copy of a letter from Mequahquay forwarded to me today by Mr. Huston. From this and from Mrs. Mequahquay's present attitude it would appear that it is the parents wishes that the children should be sent to Round Lake School.

I may add that I asked Mequahquay for a written statement but he evidently forwarded it to Mr. Huston instead of myself. I regret the delay in answering your letter but I was awaiting this statement.

Your obedient servant,

.....

Sir,—

I hereby make application for admission of the undermentioned child into the Round Lake Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child.....
English name Nettie Vera Alice Bear
Age 7
Name of Band Ochapowace
No. of ticket under which child's annuity is paid 175
Father's full name and No. Hughie Bear 175
Mother's full name and No. Hilda McKay 175
Parents living or dead living
State of child's health fair
Religion Protestant
Does applicant speak English?.....
Previously attended..... school for..... years

Hughie Bear
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

* Robert Bear
Signature of Missionary or other Witness

W. J. D. Kerley
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Sept. 21, 1941.

Dear Sir-

My wife writes that the children have not been yet admitted to the school on account of Religion. I myself as a child was first admitted to the Crooked Lake School, but was transferred to the Round Lake school and I have never had any intention to let any of my own children enter into the Catholic School and it was certainly a big mistake that my wife made in letting my two little ones go there, of course she never had anything to do with Catholic religion or was never in their church or knew about their beliefs, so that I do not blame her for putting them there. When Rev. Ross told her that the Round Lake School was full, I was out working at the time and she must have run short of food, and I understand that Mr. Ostrander the Indian Agent would not help her at the time. She thought that one Industrial School was just the same as another, I had the experience of being in both schools so that I will go to any means in getting my little ones educated in the Round Lake school or any other but a Catholic school. My wife and I are both strong believers in the religion that Mr. H. McKay taught us and I am sure that Rev. Huston, you will do all you can to have my little ones educated in the school I attended.

Now that I am older and have the responsibility of looking after a family, I am sorry that I did not try to learn more when I had the chance so that I wish to give my children all the chance of learning that I can,

Respectfully yours,

Pte. Archie Mequakquay.

Dear Sir:

With reference to your letter of the 3rd instant the Department is prepared to approve the transfer of Henry Bear from the Round Lake Residential School to the Brandon Residential School. I note that this boy is past Grade 8 and presumably the mother wishes him to attend high school. It should be distinctly understood that in transferring him to Brandon the Department will only pay his per capita grant at that school. Any extra expenses that may be incurred in sending him to high school will have to be paid by the mother. These extra expenses will probably amount to \$100.00 or more each academic year. I am so advising the Principal of the Brandon Residential School.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Mr. Huston:

I have your letter of the 1st instant,
with reference to Bella McKay.

Our funds are so limited this year that it is found impossible to favourably consider allowing tuition grants for pupils who wish to attend high school for the first time. As you are probably aware, if this girl was transferred to the Brandon School in order to permit her to take high school work, there would be considerable additional expense, over and above your per capita allowance. This amount would increase as her education advanced. There is the additional fact that, even though Indian girls are given higher education, our experience shows that it is extremely difficult for them to obtain positions as a result of their educational qualifications. I regret that favourable consideration cannot be given to your application regarding Bella McKay, but I feel you will realize that she has been treated in the same manner as many other applicants throughout the Dominion.

Mrs. Ross has decided to teach in our Walpole Island Day School during the coming academic year. She was very successful at Moraviantown, and I feel certain that she will meet with equal success in her new school.

Yours very truly,

Philip Phelan,
Chief, Training Division.

Mr. Philip Phelan,
Chief, Training Division,
Department of Mines and Resources,
Ottawa, Can.

Dear Mr. Phelan;

Your letter of August the twenty second was handed to me along with an accumulated amount of mail when I returned from my holidays last night. That will I trust explain my delay in reply.

Regarding your enquiry concerning Bella McKay #0217, we had hoped that she might be permitted to go to Brandon. She is the only one among all our graduates for whom we are making this request. We hope the Department will see fit to grant this favor. The only expence to the Department would be the amount of grant allowed the Indian Residential School at Brandon for each pupil in attendance. This girl I had hoped would be able to begin her studies when school opens to-morrow but due to my absence there has been considerable delay. Would you kindly give this matter your immediate attention. Our new address is Whitewood, Saskatchewan.

Mrs. R. J. Ross often spoke of you. Mr. Ross who retired three years ago died about two months ago. We hope sometime to have Mrs. Ross back on our staff. There are few teachers could compare with her when it came to transforming Indians. Trusting you too have had a good vacation. I remain,

Yours truly,

A. C. Huston

REV. A. C. HUSTON,
Principal

~~STOCKHOLM~~ Whitewood, Sask.
Saskatchewan Aug. 12th./41.

Sub
Dept. of Indian Affairs,
Ottawa, Can.

Dear Sir;

Six children from the above named school tried their grade eight, (entrance into high school) examinations in June and five passed. This represents the first failure in years.

Word was received yesterday that the department no longer intends to finance the courses of first year high school pupils. One can quite readily see their point of view with the situation now confronting them.

It is a hard ruling that makes no exception. I have in mind one child among the five who passed the examination. A girl of fourteen. She is Indian but looks white and acts white. She is in my opinion worthy of your special consideration.

Age 14
where mentioned
Bella Mc. Kay #0217 on the quarterly returns of the Round Lake Indian School, Crooked Lake Agency is the child just described. Trusting her case may meet your approval. I remain,

Yours sincerely,

A. C. Huston

[Handwritten signature]
Crooked Lake Agency,
Broadview, Sask.,
July 14th, 1941.

Dear Sir:

I beg to forward herewith Applications for the Admission of Doreen Mequahquay and Kenneth Mequahquay to the Round Lake Residential School.

I have not signed these Applications as there appears to be doubt as to the religious status of these children.

[Handwritten: Return to parents]
The oldest boy, Arthur, was admitted to the Cowessess Residential School on October 14th, 1934. At that time Mrs. Mequahquay signed a declaration that her husband was an ex-pupil of Cowessess Residential School and she herself was baptised a Roman Catholic, and that she wished her children to be baptised in the Catholic Church. The three children were accordingly baptised in the Catholic Church.

Mequahquay has been living in Alberta and has kept Arthur with him for the past year. When they visited this Agency the latter part of April of this year, they took Doreen and Kenneth to the Round Lake Residential School and signed Applications for their Admission, stating that they were Protestants.

I am submitting this information for the Department's decision.

Your obedient servant,

8 - 7

Ottawa, July 21, 1941.

Dear Sir:

I desire to acknowledge receipt of your letter of the 14th instant, with reference to the application that has been made for the admission of Doreen Mequahquay and Kenneth Mequahquay to the Round Lake Indian Residential School.

In view of the information contained in your letter, the Department is not prepared to approve the admission of these children at the present time. Principals of residential schools have been repeatedly advised that children whose religious status is doubtful should not be accepted until all facts have been laid before the Department and our decision has been given. These two children should therefore be returned to their parents immediately. When this is done you should investigate the case fully and report to the Department.

In checking the June quarter return it is found that no application or certificate of health has been submitted for Ketha Francis, No. 0259. The necessary form for this girl should be submitted as soon as possible.

Yours truly,

Philip Phelan,
Chief, Training Division.

Dear Sir:

I wish to bring to your attention that last week, while at Broadview, an Indian woman by the name of Mrs. Archie Mequakay came to see me in connection with her two children, whom she wished to place in the Round Lake School. Her husband is in the Army and stationed at Saskatoon at the present time.

This morning I am in receipt of a letter from the Reverend A.C. Huston in connection with these children. They are Doreen, aged 8, and Kenneth, aged 9. I know that you have had correspondence in connection with these two children and I would be very glad if you would let me know what steps you have decided upon as to their future school attendance.

The mother has this to say:

"I have never been in a Catholic School or Church."

Yours truly,

M. Christianson,
General Superintendent of Indian Agencies.

Dear Sir:

I desire to refer to your letter of September 29 and previous correspondence with reference to the applications for the admission of Doreen and Kenneth Mequahquay to the Round Lake Indian Residential School. Very careful consideration has been given to the applications for the admission of these children but at the present time the Department is not prepared to approve their admission to any Indian residential school.

As the father is a soldier the wife is no doubt drawing assigned pay and separation allowance and consequently she should be in a position to look after her own children. If the children are in the Round Lake School at the present time they should be returned to the mother immediately.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Dear Sir:

I have your letter of the 24th ultimo with reference to the children of Mrs. Archie Mequahquay.

We have had very complete reports from the Indian Agent regarding the circumstances in this case. After giving careful consideration to the whole matter Indian Agent Kerley has been advised that the Department is not prepared to approve the admission of these children at the present time to any Indian residential school.

With regard to the statement that Mrs. Mequahquay made to you it is interesting to note that on October 14, 1934, she forwarded the following statement to the Department:

"This is to certify that I, Mary Mequahquay, wish my children to be entered into the Catholic school. My husband was a pupil in this school and I myself was baptised in the Catholic Church. Father Carriere baptised Verna and I wish my other children to be baptised also."

Yours truly,

Dear Sir:

With reference to your letters of the 29th ultimo and 13th instant, you may inform the Principal of the Round Lake Residential School that the admission of the following children is approved:

Ernest Whitequill
Eileen Watcheston
Arnold Douglas Isaac

Lorne Sparvier
Beatrice Sparvier

The discharge of pupil No. 189 is also approved.

From the information contained on the return, Grace Assiniboine, No. 0218, must be 17 years of age and Fernie Thomas, No. 198, is over 16. You are aware of the regulation which provides that when a pupil reaches 16 application should be made for discharge, or a request for permission to keep such pupil for a longer period should be forwarded. In the latter event, a definite reason should be given for desiring such action. Please consult the Principal regarding these two pupils and let me have a recommendation from you at the earliest possible date.

Yours truly,

Philip Phelan,
Chief, Training Division.

Aug. 19th, 1942.

Dear Sir:

Rev. A.C. Huston, Principal of the Round Lake Residential has requested the transfer of the following pupils to the Brandon Residential School.

- 0228 Hilda Shesheep, this girl has special aptitude for studies. Her home life is not ideal as her mother is dead and her father is somewhat irresponsible as far as the girl's welfare is concerned.
- 0221 Barbara Gaddie - exceptionally clever and should have an opportunity to continue her studies.
- 197 Harry Kaysaywaysemat - Good student, would like to qualify for the Youth training plan.

The above pupils are only 15 years of age and would greatly benefit by another year at school. Mr. Huston advises that the Principal of the Brandon Residential School is willing to accept these pupils if the Department approves of their transfer.

I would recommend his request for your consideration.

Your obedient servant,

W. J. D. Kerley

Regina, Saskatchewan.
September 9, 1942.

Dear Sir:

I wish to inform you that Bert Francis of the Ochapowace Reserve, Crooked Lake Agency, who was in the Canadian Army, has moved to Regina and is discharged from the Army. He has taken a house in Regina where he intends to reside in future, having secured a position with the Imperial Oil Company.

A short time ago his daughter, Kathleen, was admitted to the Round Lake school. Bert now wants her discharged and to attend a day school in Regina. Personally, I see no objection to this, however, I shall await your decision in the matter.

Yours truly,

M. Christiansen,
General Superintendent of Indian Agencies.

Dear Sir:-

In reply to your letter No. 108-1-10 of the 23rd ultimo regarding Harry Penipakesick, No. 219 of the Round Lake Residential School, I beg to report that this boy was 15 last June and as his father was sick, the Principal allowed him to remain at home to assist him haying etc.

He is still needed at home and as the school is full and a few children cannot obtain admission I would recommend that he be discharged.

Your obedient servant,

W. J. D. Kerley

Qu'Appelle Indian Hospital
Fort Qu'Appelle, Sask.
January 19, 1943

Re: Hazel Kequahtooway, Age 6,
#154 Sakimay Res. Crooked Lake Agcy.

Enclosed please find application for admission to the Round Lake Indian Residential School, for the above named Indian Child. This admission form has been forwarded to me by Indian Agent, W.J.D. Kerley, requesting that I complete the Medical examination and forward the original copy direct to Ottawa.

This Indian child was admitted to the Qu'Appelle Indian Hospital on December 21, 1941 with a minimum Pulmonary Lesion.

This little girl was living with her Grandparents at the time of her admission to hospital. Her Mother is dead and her Father has not remarried. Both the Grandparents are chronic spreaders. To return this child to that home is only going to expose her to mass re-infection. According to the information received from Mr. Kerley, there is accommodation at the Round Lake School. They already have their allotted number, therefore, no grant is available at present for this child.

This child will not benefit further from hospital care, she has reached the age when she will benefit by attending school. It would be folly to return her to her Grandparents home, which is just a hot bed for Tuberculous infection.

For the above reasons, I beg to recommend that the annual grant be paid to Round Lake School for this child, so that she may be admitted, thereby freeing a bed in the hospital, which is needed for other cases requiring immediate treatment.

Your obedient servant,

A. B. Lewis M.D.
Medical Superintendent
Qu'Appelle Indian Health Unit

Mr. W.J.D. Kerley, Indian Agent, Broadview, Sask.

I am in receipt of application form and certificate of health for the admission of Hazel Kequahtooway to the Round Lake Residential School, also a letter dated the 19th instant from Dr. Simes regarding this girl.

Her admission to the Round Lake School is approved and you may inform the Principal that, if necessary, the Department will allow supernumerary grant for her for the March and June quarters of the current calendar year. At the end of June she should be absorbed among the regular grant-earning pupils as there will likely be several discharged at that time.

Philip Phelan,
Chief, Training Division.

APPLICATION FOR ADMISSION

To the

Director of Indian Affairs,
Ottawa, Canada

Sept 5-

1943

Sir,—

I hereby make application for admission of the undermentioned child into the ~~CROOKED LAKE INDIAN RESIDENTIAL SCHOOL~~ ^{WHITEWOOD, SASK.} Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child.....
English name Muriel Alice Watchson
Age seven
Name of Band Ochapowace
No. of ticket under which child's annuity is paid 181
Father's full name and No. Hughie Watchson 181
Mother's full name and No. Hortens Red Dog 181
Parents living or dead living
State of child's health fair
Religion protestant
Does applicant speak English? yes
Previously attended no school for no years

Hughie Watchson
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Arthur Kelly
Signature of Missionary or other Witness

W. J. D. Kerley
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

Ottawa,
October 14, 1943.

Mr. W.J.D. Kerley, Indian Agent, Broadview, Sask.

I enclose a letter just received from Mr. G.C. Neff, B.A., Grenfell, Sask. The Department would like to have a complete report on this boy's standing and the length of time he has been in the school. You should discuss his case with the Principal before answering this letter. You should also let me know if the statement made in the second paragraph of the letter is correct. When replying the letter should be returned.

R.A. Hoey,
Supt. of Welfare & Training.

The Commissioner,
Indian Affairs,
Ottawa, Ont.

Dear Sir:-

Re: King Acoose, Sakimay
Band, Broadview Agency, Sask.

The above Indian has asked me to write you in regard to his son who has been attending the Mission School for the past 6 years and is only now in Grade 6. He wants permission, if such be necessary, to remove his children from the Mission School and send them to the Public School at Grenfell, Sask.

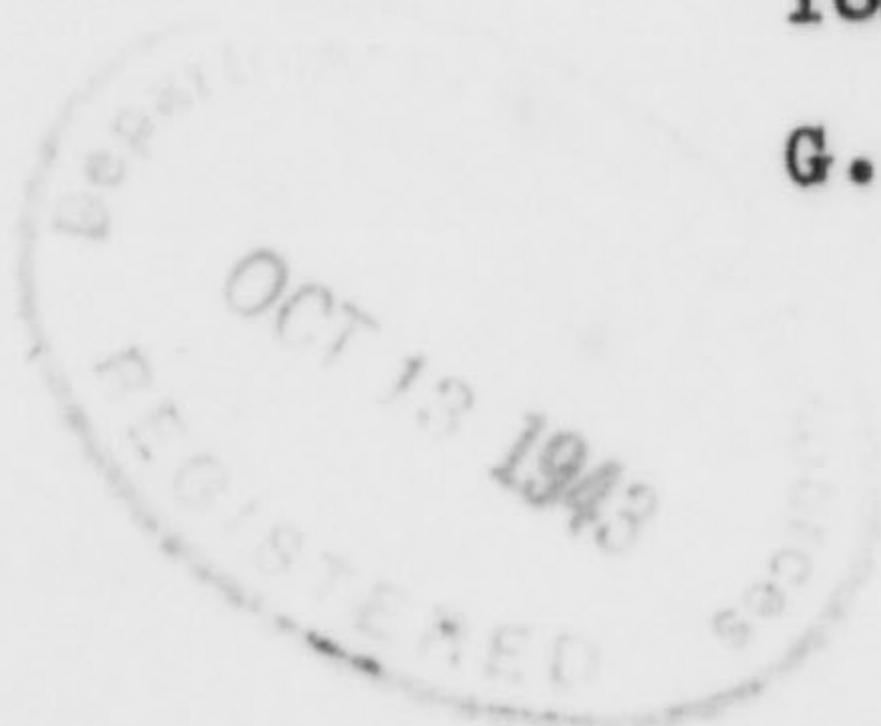

This man Acoose is blind in one eye, has an injured arm, and requires this lad at home for two or three weeks to assist him with the haying. He has 35 cattle and 15 horses, and so it can be seen that he requires to put up very considerable hay. As I understand him, permission has been refused for this boy to leave school for this purpose.

Will you please let me hear from you at once in regard to the matters discussed above.

N.

Yours truly,

G. C. Neff

Oct. 28, 1943

Mr Kerley
Indian Agent
Broadview.

Dear Sir.

In reference to our conversation of Oct 26 re. King Moose and his son Earnest who is attending Bowessess School.

I understand that King Moose has been to J. B. Hoff of Grenfell to get him to write a letter to the Department about the boy being taken back to school in threshing time.

Mrs King came to me and asked me to phone the Agent about getting her boy Earnest out of school to help with the threshing as his father was unable to work on the threshing gang due to boils on his elbow. I phoned to the Agency and I could not contact the Agent, so I told Mr. Blanch the clerk what she wanted and he said he would tell the Agent as soon as he saw him.

The next day the boy was home on the reserve and he did not show up at the threshing outfit.

I had to go to Grenfell to get some welding done for the threshing

machine several days after he was home and he was in town with his father and mother on a load of wood. I met the Agent while in town and he asked me where Raymond Acoose and Earnest Acoose were as they both had to be returned to school. Raymond Acoose ~~Acoose~~ had come to town with me so I told the Agent that both boys were in town so he said he would take them both back to school. The Agent said I want to see King Acoose about it so I went with him and found King Acoose and the Agent explained to him that the boy had to return to school.

King Acoose told the Agent that he needed the boy home to help him put up his hay. The Agent told him that his hay should have been up long before this.

King Acoose has about three or four loads of hay up, he has all the horse power he needs and more his mower is in good repair and there is no reason for him not having his hay up in July.

In the month of July he had his boy home from school and his two grown up sons also and there was no reason why he could not have had all his hay cut and stacked then. The trouble was he bought

a car and they were too busy running around
in it.

I got King enough clover seed in
the Spring of 1942 to sow ten acres and
it turned out to be a good crop. After
Regina Fair I got him to cut it and told
him he could stack it after it had laid
for a day, so he raked it and that is
as far as he got, there was two lovely weeks
of laying weather at the time, but it just laid
there in coils and up to two weeks ago it
was still laying out there. I have not seen it
lately as I have been busy with road work.

He has two big hay flats with about
forty loads of hay in that he has not touched
and I asked him if he would let another
Indian put it up on shares but he refused.

He has his married son George home
helping him manage the farm and there is
no reason with the equipment they have
that they could not be right up to date
with their work.

Yours truly
H. C. Oliver

108-1-10
OCT 9 1943
Crooked Lake Agency,
Broadview, Sask.,
Nov. 4th, 1943.

Indian Affairs Branch, Department of Mines & Resources,
Ottawa.

Re File 108-1-10, Oct. 14th, 1943.

Replying to your above letter I beg to say that the statements contained in the second paragraph of Mr. Neff's letter are not correct. King Acoose has eight horses and twenty head of cattle.

The boy Ernest has been in school seven years and is now in Grade 7. He is a fairly good pupil. I discussed this matter with the Reverend Principal of Cowessess School and we both feel that this boy is not essential at home as King Acoose has a married son living on the farm. If we gave premission to this boy we would have many similiar requests on the same grounds.

He had the boy home during the two months of holidays and instead of putting up hay was driving around in their car. He has only a small stack of hay up but has plenty of straw and there is an abundance of hay on the reserve which can be purchased from the proceeds of his crop.

I am returning Mr. Neff's letter herewith and also a letter on the above matter from Mr. Ainger, Farm Instructor on the Sakimay Reserve.

W.J.D. Kerley, Indian Agent.

Indian Affairs. (RG 10, Volume 6334, file 661-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa,
November 10, 1943.

Dear Sir:

I desire to refer to your letter of October 8, with reference to the son of King Acoose of the Sakimay Band. For your information I may say that the statement Acoose made to you, namely, that he has 35 cattle and 15 horses, is incorrect, as this Indian only has 20 head of cattle and 8 horses.

We have carefully investigated Acoose's request to have his son discharged from the Round Lake Residential School. It appears that the boy is making reasonable progress at the school mentioned, as he has completed one grade each year, which is the average for any child. Reports that we have received indicate that Acoose does not need his son to help him, as an older, married son is now living at home. Taking everything into consideration the Department feels that it is in the best interests of Earnest Acoose to remain at the Round Lake Residential School and we are not prepared to grant his discharge at the present time.

Yours truly,

R.A. Hoey,
Supt. of Welfare & Training.

Bruce Gaddie, son of Mrs. Geo. Gaddie, # 210 Cowessess Band, has been attending Round Lake School and has completed his Grade 8. As he will be 16 years old next month he is of age for discharge but he is anxious to continue his studies and take up High School work at Brandon Residential School. His mother, who is a widow, is also anxious that he be given an opportunity to continue his studies, as the boy is not very robust and unfit for hard manual labour. He has been a good pupil and has shown aptitude for studies and I would recommend that he be allowed to attend the Brandon Residential School to continue his studies.

26-9-44.

This date, at request of Indian Agent, defendant herein was warned
his son Richard, being between the ages of 7 & 16 years, to the
Round Lake Mission school, which school he had attended up until the
vacation.

1-11-44.

The above order had not as yet been complied with, Rev. Huston,
the School, laid the following Information & Complaint:
parent of an Indian Child between the ages of 7 and 16
Richard Wasecase, fail to cause such child to attend sch-
ool. Having received three (3) days notice to do so by a truant
agent to the provisions of Sec. 10 of the Indian Act, being
the Indian Statutes of Canada and amendments thereto."

4-11-44.

Defendant voluntarily this date, and dealt with as above.
that the boy's mother did not like the Principal of
the school, therefore kept boy away. Warned by His Worship that
if boy not in school at once, otherwise sterner measures would
be taken.

May 2nd, 1945.

Indian Affairs Branch, Department of Mines & Resources,
Ottawa.

Four boys, Byearl Gopher, Charley Stevenson, Sam Bear, and Clarence Taypotat, pupils of the Round Lake Residential School, have been misbehaving in several ways the most serious offence being going into the girls' dormitory. I visited the Round Lake school with the R.C.M.P. and after investigating the matter I considered the best solution would be to transfer the four boys to the Brandon Residential School. I phoned the Principal of the Brandon School and he agreed to take them so they were sent there under R.C.M.P. escort.

Rev. W. McWhinney has left the School owing to ill health and until the new Principal arrives he has left the school in charge of the Matron and Farm Instructor.

The Principal of Brandon School requests that their transfer be approved. I trust my action meets with your approval.

Dear Sirs.

Please accept my enquiry
I want to transfer my boy Ernest
White Quill from Round Lake Indian
Residential School to Day Star Indian
day school. I am now married &
^{living} with an ex soldier who got discharged
from the active forces. served in
both Canada and England. and
I have difficulty to go back and forward
to see my boy at the Round Lake School
it is about 200 miles away from here
and see that his family allowance
be changed to me. The clerk of the
Touchwood agency said we could apply
an enquiry for this transfer of this boy
I was ^{Re} Mrs Bertha White Quill of the
Ochapowace Reserve. Broadview
Sask and I am now Mrs
Arthur Moosemary

Indian Affairs Branch, Dept. of Mines & Resources,
Ottawa, Ont.

In reply to your letter file #108-1-10 of November 20th 1945 regarding the transfer of Ernest Whitequill from the Round Lake Residential School to the Day Star Day School, I beg to report that to the best of my knowledge the Day Star School is not open owing to the lack of a teacher, however there is room for this boy at the Gordons Indian Residential School and Mr. R. S. Davis the local Indian Agent has so informed Mrs. Moosemay. I may add that the Principal of Round Lake Residential has no objection to this transfer as it would allow him to take another boy from here.

I would recommend that this boy be transferred to the Gordon Indian Residential School. Mrs. Moosemay's letter returned herewith.

W. J. D. Kerley,
Indian Agent.

1. In reference to the above please be advised that on the 27th. Inst. W.J. Kerley, Indian Agent of Broadview detachment phoned the writer advising that the above named Treaty Indian of the Little Bone Indian Res. south of Yorkton had refused or was neglecting to send his children to school contrary to the provisions of the Indian Act and he requested that he be warned in accordance with the provisions of Sub-Sec. 4 of Sec. 10 of the Act.

2. A.M. of the 28th. Inst., Const. Fitzgerald and the writer patrolled per Pol. car Code # 3818 to the Little Bone Ind. Res. on this and other duties. Patrol called at the home of Joe KINISTINO where we were met by his wife who informed us that Joe was not at home. Mrs. Kinistino stated that Joe had gone to a neighbour for the purpose of obtaining a car to convey their children to the Crooked Lake Indian School.

3. Mrs. Kinistino was then advised of the purpose of our visit, which she apparently anticipated and she was warned in accordance with the provisions of the Act, she stated that their school age children, Wm. age 13 years, Steven age 9 years and Agnes age 7 years, would be conveyed to the Crooked Lake Indian School, either this same date or the following day.

4. The Indian Agent has been advised regarding the above and will contact us again if the warning is not complied with.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, January 25, 1946.

Reverend Sir:

The Department finds it necessary to return your December Quarterly Return. It is very important that your school have this Return properly prepared as the Per Capita Allowance is paid on the average attendance which is paid from the number of days pupils are in residence during the Quarter.

In reviewing your Return, we find that in some cases you have not requested as many days grant as you should have. I believe, that you have not carefully noted circular letter of December 29th, 1944, nor the notes on the preparation of the Return shown on the back page of the form.

I wish to direct your attention to the following specific cases:

1. No. 250 is stated to have been transferred to the Gordon's School. No grant is requested for this pupil nor is the date of transfer given. If she was transferred to the Gordon's School on October 1st, this is correct not to request grant but if she was in the school for any period during the December Quarter grant should be requested.
2. Pupil No. 258. Grant is requested for seventy days but there is no explanation in the column for remarks stating why she was not present during the full Quarter.
3. Pupil No. 265. If this boy was not in residence at all during the Quarter the Return is correct. If he was in residence for any period, grant should be requested for that period.

Indian Affairs. (RG 10, Volume 6334, file 661-10, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

4. Pupil No. 273. Grant is requested for twenty-four days as he is stated to have been out of school for five weeks. If you refer to circular letter of December 29th, 1944, you will note that the Department allows grant for thirty days sick leave. Consequently, in this case if the boy was ~~in~~ in residence for twenty four days the school is entitled for grant of fifty-four days.

5. No. 0244. The name of this pupil was shown on the September Return and grant requested for her. The statement is made "Not in attendance". What is meant by this? Was she absent for the full Quarter?.

6. No. 0248. What is stated above regarding pupil No. 250 also applies in this case.

7. No. 0255. What has been stated regarding pupil No. 273 also applies in this case.

8. No. 0259. The same case as No. 0255.

9. No. 0266. The Return states that she was in the classroom for twenty-one days and no grant is requested for her. Under the heading "Total number of days pupil in residence during the Quarter" is marked nil.

10. No. 0270. What has been stated regarding No. 0266 also applies in this case.

11. No. 0282. What has been stated regarding No. 0285 also applies in this case.

It is possible that you are entitled to grant for the full Quarter if the pupil was in attendance at the school for sixty-two days or more. You are entitled to ninety-two days grant when you take into consideration the thirty days grant allowed for sick leave.

Yours truly,

Philip Phelan,
Chief, Training Division.

ROUND LAKE RESIDENTIAL SCHOOL

Whitewood, February 5th, 1946
Saskatchewan

Selby
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

Attention, -Mr. Philip Phelan.

Dear Sir:

Herewith an amended Quarterly Return for quarter ended December 31st, 1945 and may I thank you for your letter of instruction covering specific cases.

I note that I made one careless mistake in dividing the "Aggregate number of days pupils in residence during quarter" by the "Total number of pupils in residence" instead of the "Total number of days in quarter".

Apart from that I should like to say that, at the time I came to this school the Principalship had been vacant two weeks and there was no one to guide me in the work. What I have learned has been mostly by experience.

May I say too, that I have not found a copy of the circular letter of December 29th, 1944. If one is now available I should like to have a copy. *Sent 11 Feb 1946*

However, the instruction you have given me in regard to specific cases has been informative and helpful.

I am sending a revised quarterly return to Mr. Kerley for his signature and asking that he forward it to you..

Yours truly

FOR ROUND LAKE INDIAN RESIDENTIAL SCHOOL

Ottawa, 20th February, 1946.

Reverend Sir:

With reference to your letter of the 5th instant, the December quarterly Return has been passed for payment.

It is noted that Form 411 for the December Quarter has not been received and you are requested to forward a completed Form 411 without delay.

To assist you in completing the above 411, the names of all children entering the Round Lake Res School during the December Quarter, should be shown under the heading Admission with particular care given to the Date of Admission column in which the date of entering the School should be shown and not the date the Department approved the admission. Under the Heading Discharge, all pupils who have left the School during the December quarter and are not expected to return, should be shown, including Pupils transferred to another School.

Yours truly,

Philip Phelan,
Chief, Training Division.

ROUND LAKE RESIDENTIAL SCHOOL

Whitewood, March, 5th, 1946
Saskatchewan

Indian Affairs Branch,
Dept Mines & Resources,
Ottawa, Ont.

Attention Mr. Philip Phelan:

Dear Sir:

Am sorry that you have not yet received copy of Form 411 for the December quarter. Looking in my file I find that I had a copy of such report. It may be that I sent both copies to the Agent at Broadview in error. At any rate he has not as yet notified me of any such omission.

~~At any rate~~, I have made new copies on which I have placed two more names. One of them, Verna Baer is helping at home and has no apparent intention of returning to school. In any case we have a full roll at present. The other pupil, Evelyn Baer, is at the school in Brandon.

We have three other pupils not in attendance at present through sickness and injuries and these will show on the January--March Report. These three will return when the Doctor so advises.

Thanking you for the direction you have given in the matter of the Quarterly Returns.

yours truly,

FOR ROUND LAKE INDIAN RESIDENTIAL SCHOOL

With reference to your letter of the 16th inst,
File # 108-1-10 (WT 1), I wish to inform you that in
this case the parents are not living together and
Mrs Hotomani is cohabiting with another Indian from
Crooked Lake Agency, while Herman Hotomani, the father,
is living wherever he can stay.

I strongly recommend that this child be allowed
to continue to reside in a residential school.

Frank Booth

AIRMAIL

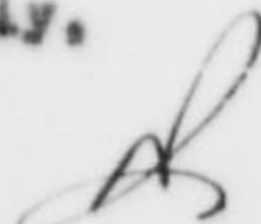

Ottawa, November 24, 1947.

Dear Mr. Card:

You will recall the correspondence we had in late August with regard to the complaints made concerning the Round Lake Residential School.

We have had some correspondence with Premier Douglas concerning this and other matters. His most recent representation is that Allen Taypotat be re-admitted to your school. You will recall that in your letter of August 26 you stated that if this boy would return to school and remain to attend classes regularly, you would accept him again. Before giving the final decision in this case, the Department would appreciate hearing from you as to any further local developments which might have caused you to change your mind in this regard.

Yours sincerely,

Bernard F. Neary,
Supt. of Welfare & Training.

Reverend James A. Card,
Principal,
Round Lake Indian Residential School,
Whitewood, Saskatchewan.

Round Lake - 10

119-108 (WT)

Ottawa, December 8, 1947.

Mr. W.J.D. Kerley, Indian Agent,
Broadview, Saskatchewan.

Allen Taypotat - former pupil,
Round Lake Residential School.

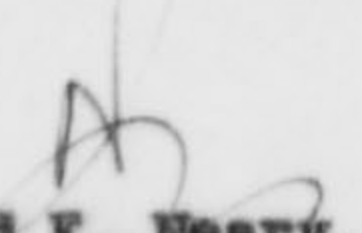

We have had some correspondence with Premier Douglas concerning the re-admission of the above pupil to the Round Lake Residential School. The Reverend Mr. J. A. Card, Principal of the above Residential School, has now informed the Department as follows:

"Regarding the proposed re-admission of Allen Taypotat to this school I have consulted the Matron of the school and the day school teacher.

"My stand remains as stated in my letter of August. If Allen Taypotat will attend classes regularly and be amenable to discipline, we shall accept him again as a pupil. At the same time we dare not countenance breaches of discipline that prejudice the good conduct of the whole school.

"Since the pupils will be in their homes for Christmas and New Years holidays he should not re-enter school until January 4th."

In view of the above information, the Department approves the re-admission of Allen Taypotat to the Round Lake Residential School on January 4th.

Bernard F. Neary,
Supt. of Welfare & Training.

APPLICATION FOR ADMISSION

To the

Director of Indian Affairs,
Ottawa, Canada

September 6 1948

Sir,—

I hereby make application for admission of the undermentioned child into the Round Lake Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child.....
English name..... Verna Bobb
Age..... 8
Name of Band..... Kakewistahaw
No. of ticket under which child's annuity is paid..... 131
Father's full name and No..... Jack Bobb 131
Mother's full name and No..... Liza Bunny 131
Parents living or dead..... living
State of child's health..... good
Religion..... Prot.
Does applicant speak English?..... yes
Previously attended..... no school for..... years

Jack Bobb.
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

* Queen Linton
Signature of Missionary or other Witness

W. J. Kerley,
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

AIR MAIL

19th April, 1949.

Rev. J.A. Card,
Principal,
Round Lake Indian Residential School,
Stockholm, Saskatchewan.

Dear Mr. Card:

We have received your telegram of April 16th, but as stated in my wire the information was too indefinite to make any decision. When we hear from Mr. Ostrender the matter will receive further consideration.

It is difficult for us to understand why there should be any disagreement in connection with Easter holidays. It has never been our practice to authorize Easter holidays at residential schools. It has always been understood that the pupils should remain in residential schools during the Easter season.

The only authorized holidays are the months of July and August and the Christmas holiday leave about which you are advised each year.

Yours truly,

Philip Phelan,
Chief, Education Division

FILE 977-304-11 A.U.

661-10
14530

Regina, April 27th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

With reference to the telegram which the Department received from Reverend J.A. Card, Principal of the Round Lake Indian Residential School, and Army Message, File 661-10 (E.1), dated April 19th, 1949, to me in connection with truancy of the children in the Round Lake School, and Mr. Card's recommendation that they be expelled, I have discussed the matter with Indian Superintendent W.J.D. Kerley, and certainly the expulsion of two boys will not correct our troubles at this school.

The story seems to be that an Indian of the Cowessess Band, John Stevenson, received permission from Mr. Card for his daughter to go home to the Cowessess Reserve for Easter. Upon hearing this, Herbert Sparvier, an Indian of the Kahkewistahaw Band, who had a boy, Crawford, 12 years old, and a younger boy, in the Round Lake School, made the request that he be permitted to take them home for Easter, and was refused. Crawford Sparvier has been truant several times, and, fairly recently, was one of several boys who broke into the pantry at the school and stole extracts, which is the reason for Mr. Card refusing to permit him to go home for Easter. Sparvier then took Crawford and his younger brother away from the school without permission of the Principal, following which Mr. Card apparently wired the Department, as he says, "to see where I stood".

Mr. Card does not have proper control in his school, as is quite evident by the fact that some of the boys were able to break into the pantry and steal extracts. He makes little attempt to keep control most of the time, and on the rare occasions when he does attempt control, he is not very successful. I am certainly not in favour of expulsion of the Sparvier boys, and I am also not in favour of transferring them to the Brandon School, which has been suggested by Mr. Kerley.

I have heard rumours that Mr. Card is slated for the Principalship of another Indian residential school when the Round Lake School folds up.. I hope the Department will not permit this,

ROUND LAKE INDIAN RESIDENTIAL SCHOOL

The Woman's Missionary Society
United Church of Canada

Rev. J.A. Card,
Principal

Whitewood,
Saskatchewan.

Dear Sir:

It is my duty to inform you that a number of our school boys ages 12 to 16 have been crossing into the reserve without leave.

It is apparent that more than one has had access to spirituous liquor while away. Some of these boys were among those who broke into the pantry some weeks ago and took four bottles of extract, 16 oz. size. One boy was in very bad condition and had to be carried up to the dormitory.

Our punishment does not seem to deter these lads from going across into the reserve where the supply of liquor seems to be.

Some action must be taken to remove this menace and if not successful a strict ban must be put against all visiting on the reserve.

Sgd. J.A. Card,
Principal,
Round Lake Indian Residential
School.

United Church of Canada

Rev. J.A. Card,
Principal

Whitewood,
Saskatchewan.

Mr. J.P.B. Ostrander,
Supt. Indian Affairs,
Regina, Sask.

Dear Sir:

Further to my other letter.

After the Christmas Holidays we had a number of run-a-ways which brought about an investigation by Mr. Kerley with a member of the R.C.M.P. here in the school.

Among the run-a-ways were two boys of one Herbert Sparvier. This parent brought charges against the teacher who had administered punishment in a perfectful proper manner. The children were given the support of the parents and directed to run away if punished.

This day I had good reason to punish the older boy and again he left the school and I suppose headed for home.

He has been somewhat of an agitator. He took part in breaking into our school pantry and taking four 16 oz. bottles of extracts. One of the group was blank out and had to be carried in to bed.

At Easter the parents were encouraged to come down to the school and visit the children, but not to take the pupils back home. The visiting hours were 11 a.m. to 7 p.m. and this for 4 days.

In spite of this privilege the mother took her school children home for the four days against my warning. Had I been sure of my authority in this matter I should have requested that they be barred from this school.

Now I shall refuse to accept this boy back again. His school will have to continue somewhere so far as I am concerned.

On one occasion when this boy had skipped out I went in bob sleigh to bring him back. The father threatened my life at that time. These people are thinking and agitating for day school which they are not ready for.

If you can give us any advice or direction in handling these situations, and especially the liquor problem, we should be grateful.

I am,
Respectfully yours,

Sgd. J.A. Card,
Principal,
Round Lake Indian Residential
School.

FILE 1107-2-31-7
-108

Regina, May 12th, 1949.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

I am enclosing herewith copies of two letters received from Reverend J.A. Card, Principal of the Round Lake Indian Residential School in connection with the truancy and misconduct of certain boys in his school, and referred to in Department Army Message to me dated April 19th, 1949.

I have no comment to make in connection with this other than that it is a rather clear indication that Mr. Card has little control over the children in his school. It is to be hoped that if this school is to continue in operation for the next term a more capable Principal will be placed in charge.

JPBO/ed
Encl.

J.P.B. Ostrander,
Regional Supervisor of Indian Agencies,
Saskatchewan.

Mr. Philan:

1. Indian schools should use the non-alcoholic flavourings.
2. Principals should not pursue pupils outside the school premises. Some other official should take over.
3. A register of punishments, corporal and other, should be maintained in all schools. It is useless to talk about punishments that were not recorded.
4. The Easter season should be spent in school with due regard for religious observances.

APPLICATION FOR ADMISSION

To the

Director of Indian Affairs,
Ottawa, Canada

Sept 10th

194 9

Sir,—

I hereby make application for admission of the undermentioned child into the Round Lake Residential School; to remain therein under the guardianship of the Principal for such term as the Minister of Mines and Resources may deem proper:

Indian name of child
English name Mildred Belanger
Age 13
Name of Band Ochapowace
No. of ticket under which child's annuity is paid 158
Father's full name and No. Alex Belanger # 158
Mother's full name and No. Agnes Charlotte Belanger
Parents living or dead father alive mother dead
State of child's health Good
Religion United Church
Does applicant speak English? yes
Previously attended Brandon school for 6 years

Alex Belanger
(Signature of father)

NOTE—If mother or guardian signs, agent must forward full explanatory note.

I hereby certify that the above application for admission has been read over and interpreted to the parent or guardian and that the contents were understood by him or her and that I witnessed his or her signature to this document.

I recommend the admission of the above child, who is of good moral character and is eligible to be admitted as a grant-earning pupil.

Rejia V. Lounis
Signature of Missionary or other Witness

W. J. Kerley
Agent

*Principal or other official of the school must not sign as witness.

NOTE—All the above particulars must be fully given, especially the "Name of Band," "No. of ticket under which child's annuity is paid" and "Religion." The minimum age for admission is seven (7) years, except in the case of an orphan, destitute or neglected child. When application is made for the admission of such cases, full particulars should accompany the application.

July, August, September, 1949

661-10

DISCHARGE OF PUPILS

NOTE:—One or more of these forms should be forwarded with each quarterly return and full particulars should be given regarding all pupils either admitted or discharged during the quarter.

661-10 (E6)

, January 24, 1950.

Rev. J.A. Card,
Round Lake Indian Res., School,
Stockholm, Sask.,

Your December 1949 Quarterly Return
has been received and checked.

It is noted that a number of names
appearing on the September return have been omitted
on the December return and are not shown on the
Admission and Discharge Form I.A. 411.

This practice is most irregular,
as no name can be omitted from the return unless the
name is included on the Admission and Discharge Form.
Similarly no new names can be added to the return
unless they are shown on the Admission and Discharge
Form under the proper heading. It is admitted that
sometimes the Principal cannot have the application
for admission completed when the return is due to be
completed. However, the pupil may be included on the
return and shown on the Admission and Discharge Form
and grant will be paid. When the application for admission
has been completed it should be forwarded to Ottawa at once.

Please bear this information in mind
when completing future returns.

Bernard F. Neary,
Supt. of Indian Education.

Re: Your File 661-10 (E6)

I have for acknowledgement your letter of February 15, 1950, also application forms for the three Whitehawk children.

The forms were forwarded to the Round Lake School for completion and we now find that the Principal of the school has returned the copy instead the original.

The three applications are returned herewith and we trust that the copies will be acceptable.

REV. J. A. CARD,
Principal

WHITEWOOD,
Saskatchewan

June 28, 1950.

Mr. W. J. D. Kerley,
Crooked Lake Agency,
Broadview, Sask.

Dear Mr. Kerley:

The following is the list of pupils we don't expect
will return in September:

Russell Rabbitskin,	16 years.
Jean Sparvier	16 years.
Keitha Francis	16 years.

Walter Bob	13 years.
Olive Keequahtoway	14 years.
Hazel Keequahtoway	12 years.
Joseph Louison	14 years.
Merle Sparvier	10 years.
Jimmie Sparvier	12 years.
Eileen Watcheston	15 years.

On our list of those planning to return from this
Agency, we have sixty pupils.

We also have a list of twenty pupils who wish to come
to us from namsack. There is a waiting list from God's Lake, as well.

Yours truly,

J. A. Card, Princ.

We, the undersigned, Indians of the Sakimay Band, in a private meeting with our Chief and Councillors, are taking a new step, wished long ago by many of us: to take the Roman Catholic Religion as ours. Therefore we strongly ask to have our children, admitted to Round Lake Indian School, to be discharged from that school, and to be admitted to Cowessess Indian School, which is Catholic, because we firmly wish to have our children brought so.

Signed: Tony Bunnie # 158
Oliver Sparvier # 153
Edward Rabb(it)skin # 135
(on treaty list name is Wahpoosewyan)
Gordon Kequtuway #108
(on band list name is Kequahtooway, #154)

Approved by:

Chief: X Baptiste McCloud (#125)
Councillors: Felix Panipekeesick (#122)
Paul Acoose (#114)

Witnesses:

Peter George (#124)
Noel Joe Williams (#141)

(In pencil is added) Please wire reply.

Comments re the above

Material in brackets is added here.

#158 has 8 children, 4 of school age.
#153 has 4 children all of school age.
#135 has 7 children, 4 of school age.
#154 is a widower with 2 girls, 13 and 11.

Re Round Lake Indian Residential School
(United) - Saskatchewan

Sir:-

I beg to submit herewith a report of an examination made of the books and records at the above school on June 12th, 1936.

The examination covers a period of one fiscal year dating from 1/4/35 to 31/3/36.

Bank Reconciliation - Statement #1

There are two bank accounts kept at this school, one being a Trust Account and the other the Savings. The two pass books from the Imperial Bank, Broadview, were on hand and written up to the end of March.

The Trust Account balance was \$37.97 and the Savings \$273.65. The outstanding cheques amounted to \$310.93, leaving a net balance of 69 cents, which agrees with cash book.

Revenue in the Dr. cash book was compared to pass book entries and all cancelled cheques to the Cr. entries. Vouchers were attached to the cancelled cheques and these were compared to synoptic entries.

There has evidently been an improvement in analysing the vouchers as they all appeared to be in the correct column in synoptic.

A bank adjustment is made every month and the balance carried forward.

Receipts & Expenditures - Statement #3

This statement was prepared from an analysis of the monthly synoptic totals and shows the total receipts to be \$13,283.27 for the year.

The revenue from farm \$1742.52 is somewhat lower than last year owing to the poor crop, but the sale of six purebred cattle helped materially.

The revenue from other sources includes the night watchman, \$280.00, prize money \$583.25, and sale of candies etc. \$127.60.

The expenditures were \$13,282.58 and it will be seen that they are \$3,000.00 over the per capita grant.

N. C. Allen, Esq.,
Representative of the Treasury,
Dept. of Indian Affairs,
OTTAWA.

The salaries

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Receipts & Expenditures (Cont'd.)

Contrary to intention of P.S. 86 head cattle 75 pupils

The salaries show a reduction from last year and also the food and fuel. The fuel is exceptionally low for a school of this size, but the wood was secured from the school land. The farm expenses have always been very high at this school owing to the Principal concentrating so much time and money on his herd of purebred cattle. While the prize money won at the several fairs is fairly large, it is a question whether it will pay the expenses in freight, hired help, etc., which is necessary for the purpose.

The cost per day shows a decrease of \$10.00, but the estimated revenue from farm was included in this amount. The cost of food this year shows a reduction of \$42.00, but here again the cost "in kind" was included.

Owing to the Principal being away all week, I was not able to get all the information required, but the farm instructor advised that 12 cattle and 6 pigs were killed for use in the school.

The livestock consists of 86 cattle, with 24 milking, 19 pigs and 19 horses.

The crop last year produced 900 bus. Wheat, 1500 bus. Oats and 100 bus. Flax.

The farming operations consist of 350 acres under cultivation and with present prospects, the returns should be real good this year.

The books and records appear to be kept in very good condition at present, which is evidently an improvement over previous years.

more cattle than pupils

The Principal has always concentrated his efforts to maintaining a large herd of purebred cattle and, in a school of this kind, it is very questionable whether this is a good policy.

As stated above, I was unable to discuss the several matters with the Principal, but the cash book and cheques were made available by Mrs. Ross.

The following statements accompany this report:

- 1 - Bank Reconciliation, Receipts & Expenditures
- 2 - Cost of Operation & Salaries

Your obedient servant,

T. G. Willis
T. G. Willis
Auditor.

Department of Indian Affairs.

Auditor General's Office,

Ottawa, July 21, 1936. ~~192~~...

Dear Mr. Sutherland:

I am returning through you the Auditor's Report on the Round Lake Residential School in order to draw to your attention particularly that paragraph of the report which deals with the Principal "concentrating much time and money on his herd of pure bred cattle". You may recall that after my return from Kenora we discussed the same thing happening at the Cecilia Jeffrey School. I know that you entertain strong opinions on this matter and I only wish to bring it to your attention.

Yours truly,

H. G. Crowley

Re: Round Lake Residential School.
(United Church) - Saskatchewan.

Dear Sir :

B

I beg to submit my report on an examination made of the books and records at the above School on March 27th., 1938.

The examination covered a period of twenty-one (21) months, dating from the last audit, March 21st., 1936, to December 31st., 1937. Although the entries for January and February had been made in the Cash Book, there were no totals and the Pass Book and paid cheques were only available to December 31st., 1937.

The Pass Book balance at that date was \$1,032.51, with outstanding cheques of \$597.52, and no cash on hand. The net balance of \$434.99 agreed with Cash Book.

All receipts are deposited and were compared to pass book credits. All cheques were examined and compared to Cash Book entries and all vouchers are attached to the paid cheques. These were compared by test to Synoptic entries and appeared to be posted correctly.

Previous to March, 1937, there were two Bank accounts maintained but since that time the savings account has been discontinued and only the Current account remains. The banking is done in the Imperial Bank, Broadview, thirty-five miles away.

A bank adjustment is made every month and the balance carried forward.

Receipts and Expenditures.

This statement was prepared from a recapitulation of the monthly totals from Synoptic. The total receipts for this period amounted to \$30,646.27, with the per capita grant being \$22,940.95. The farm revenue was \$6,156.92 and is made up as follows : Sale of 1936 grain \$1,540.00; prizes at fairs \$2,154.50; sale of cattle and hides \$1,640.00; and sundry revenue \$822.42. The revenue from other sources of \$1,547.71 includes refund gas tax \$237.00; store sales \$742.00; watchman's grant \$400.00; and sundry receipts \$168.71. The Store Sales are sales made to Indians of clothing donated by the Church and candies, etc., kept at the School for that purpose in return for wood, fruit and some cash supplied by the Indians.

The expenditures amounted to \$30,211.28, which is \$9,270.33 above the per capita grant. The clothing costs of \$3,134.77 is an increase of 11.58 per child, or nearly 100%, but should not be criticized. The food costs of \$4,583.62 at 34.92 per pupil does not include the beef, milk and butter

L. W. McCutcheon, Esq.,
Chief Treasury Officer,
Indian Affairs Branch,
Department of Mines & Resources,
Ottawa, Ontario.

supplied from

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

supplied from the farm. The repairs and equipment of \$1,278.92, is low for an old school of this size for a twenty-one month period and the sewing room and dormitories are in need of urgent repairs and equipment.

The transportation costs of \$1,449.59 include a new car, \$550.00; gas and oil \$360.00; freight \$260.00; and train fares \$126.50. The miscellaneous of \$577.80 could be reduced by a more accurate budgeting of petty cash expenses into the correct columns of Synoptic.

The farm expense of \$6,947.80 is still very high, and includes expenses re fairs \$1,150.00; feed \$2,792.22; seed \$361.74; combine \$321.00; gas and oil \$456.00; hardware and repairs \$742.00; purchase of bull \$400.00; and threshing \$380.00. While the farm expense is very high this year, owing to the lack of feed, the Principal relies on the revenue from the farm to help finance the School, and has always shown a profit in the prize money at the Summer fairs. He reduced his herd by twenty-five last Fall and butchers an average of twenty-five head a year for the School's needs.

The farming operations consist of 350 acres under cultivation and 480 acres in pasture. This year 40 acres will be sown to wheat and the rest to oats and barley for feed. The livestock include 75 pure bred cattle; 15 horses; 6 hogs; and 75 poultry. A tractor is also used in the farming operations and Indians are employed for extra labour during the Summer.

75/4-10
The operation cost of \$230.18 per child is very high, but is offset by the revenue from the farm and Store Sales as this cost was based on the actual expenditures as shown in Cash Book.

The books and records were found to be in very good condition and overdraft charges were only \$1.42 during the period. With prospects being excellent for a good crop and pasturage, the Principal should have no difficulty in showing a profit this year, but in continual dry years a large herd of cattle becomes a definite liability.

I wish to acknowledge the co-operation given by Mr. Ross during my audit and all records were made available.

The following statements accompany this report:

1. Reconciliation - Receipts - Expenditures.
2. Operation costs - Staff.

Yours faithfully,

T. G. Willis
T. G. Willis,
Auditor.

Ottawa,
May 17, 1939.

Dear Doctor Dorey:

The following is a quotation from a report of the travelling auditor, Mr. T.G. Willis, with reference to his examination of the books and records of the Round Lake Indian residential school for the period January 1, 1938, to March 31, 1939:

"The expenditures amounted to \$18,200.27, and are shown in detail on Statement 2. All expenditures appear to be about normal, with the expenses of exhibiting the cattle at the several fairs being \$732.22. Under Farm and Garden, I have shown a refund to Church in the amount of \$264.88, which the Principal calculates as ten percent of the actual farm revenue. I submit that there does not appear to be any valid reason why this refund should be made, and I advised the new Principal, Mr. Huston, who is to take over in June, to discontinue this procedure, and to retain the total farm revenue for the benefit of the School."

Handwritten: J. Dorey

You will note his reference to a refund of \$264.88. I have not noticed any mention of similar payments in previous reports. However, there may be some very simple explanation of the matter and I should appreciate hearing from you.

I might add that the financial statement shows payment from the Church to the school of \$599.25. I think you will agree that the best way to handle such details is to reduce the payment direct by the Church to the school and this will avoid the school making refunds to the Church.

Yours truly,

Re: Round Lake Residential School.
United Church - Saskatchewan.

Dear Sir :

I beg to submit a report of an examination made of the books and records at the above School on April 28th., 1939. The examination covered a period of fifteen (15) months, dating from January 1st., 1938, to March 31st., 1939.

Bank Reconciliation.

The balance in pass book, as at March 31st., 1939, was shown as \$1,420.23. The outstanding cheques amounted to \$1,363.08, and the net balance of \$57.15 agreed with the cash book. All revenue shown in cash book was deposited and all expenditures are made by cheque. All cheques were examined and compared to cash book entries. Supporting vouchers for expenditures are attached to the paid cheques, and these were compared to synoptic entries. A bank reconciliation is made every month, and balance carried forward.

Revenue and Expenditure.

The total revenue for this period is shown as \$17,822.43, of which the per capita grant was \$14,168.40. The revenue from the farm shows \$1,013.53 received from the sale of cattle and horses and \$1,096.83 from exhibition prizes at the several fairs. A few stores, such as candy, tobacco, etc., are kept for sale, and \$416.80 was received from this source.

The expenditures amounted to \$18,200.27, and are shown in detail on Statement 2. All expenditures appear to be about normal, with the expenses of exhibiting the cattle at the several fairs being \$732.22. Under Farm and Garden, I have shown a refund to Church in the amount of \$264.88, which the Principal calculates as ten percent. of the actual farm revenue. I submit that there does not appear to be any valid reason why this refund should be made, and I advised the new Principal, Mr. Huston, who is to take over in June, to discontinue this procedure, and to retain the total farm revenue for the benefit of the School. Transportation costs show the purchase of a new truck, in the

amount of

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

amount of \$700.00, and \$489.48 was spent for extra labour.

The operation costs show the cost per child to be \$194.12, compared to \$230.18 last period. The cost of clothing and food per pupil is about normal at \$25.09 and \$34.87 respectively. The average number of pupils in attendance was 75.

The farming operations include 350 acres under cultivation, and the crop out-turn last Fall was 400 bushels of wheat and 9000 bushels of oats. The livestock consists of 85 head of cattle, 11 horses, 3 pigs and 30 poultry. The Principal has sold about twenty head of cattle, and, with the present prices of milch cows being very good, he intends to dispose of about twenty-five head this Summer.

The books and records were found to be in very good condition and up-to-date.

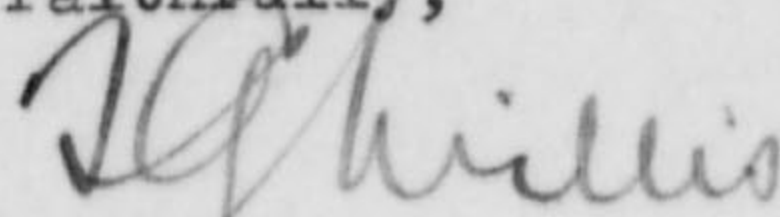

With very little help from the Church, this School has been able to finance itself on its earnings, and, with close supervision of the farming operations and curtailment of the cattle herd to about fifty (50) head, there should be no difficulty in continuing in this manner.

All questions relating to the financial administration of the School were discussed with Mr. Huston, who is to assume the duties of Principal in June.

I wish to acknowledge the co-operation of Mr. Ross during my examination, and the following statements accompany this report -

1. Reconciliation - Revenue and Expenditure.
2. Analysis of Expenditures.
3. Operation Costs and Staff.

Yours faithfully,

T. G. Willis.
Auditor.

[Handwritten signature]
Mr. R. A. Hoey,
Supt. of Welfare and Training,
Indian Affairs Branch,
Department of Mines and Resources,
Ottawa, Ontario.

Dear Mr. Hoey:

I have your letter of May 17th, in which you give a quotation from the Report of the travelling auditor relative to Round Lake Indian Residential School. I should like to raise the question of the relation of the auditors to the schools which are operated by the United Church, and I should like to know by what authority any auditor gives instructions to any principal as to how he is to manage the affairs of the school.

Of course, you and I have come into relation to this work quite recently, and it may be that I have not the situation quite clearly in mind. As I see it, we are operating these schools under an agreement entered into between the various Churches and the Department of Indian Affairs in 1910. I have before me a copy of the agreement - in blank of course, and I find that it was to be in effect from April 1st, 1911, for a term of five years. I cannot find in the office any information about its renewal or otherwise. You can, however, advise me what changes have taken place in this agreement.

I find that the Church entered into an agreement with the Superintendent General to do certain things which, in the main, can be stated as to support, maintain and educate in a manner satisfactory to the Superintendent a certain number of pupils. The agreement goes on to state the regulations that govern the admission of the pupils. It says that the school shall be conducted under such regulations as may from time to time be approved by the Superintendent General. The Church agrees to provide such sufficient number of teachers as may in the opinion of the Superintendent General be necessary for its satisfactory conduct. It agrees to provide teachers and officers qualified to give the pupils religious instruction; to instruct in care of stock, farming, and a whole lot of other things that are laid down in paragraph 9.

The Church is also to supply the pupils of said school to the satisfaction of the Superintendent General with sufficient clothing, subsistence, etc. The Church undertakes to keep the pupils clean and free from vermin, and to keep and maintain the school buildings in a sanitary condition; also to make certain reports on the school as may from time to time be required.

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The Church is to permit the Superintendent General, or any person or persons named by him, to inspect the said school buildings and premises.

That is practically the whole of the agreement from the side of the Church.

The Superintendent General agrees to pay a certain rate per annum per pupil; the number of pupils so to be paid for not to exceed a certain number. The Superintendent General also agrees to provide the pupils of the said school with medicine, school books, etc.

Now the position which we take is this: That the United Church having made a contract to educate a certain number of children at Round Lake Residential School, for which the Government pays a certain sum, we are under no obligation to render to the Department of Indian Affairs an account of how the money is spent, and we are practically coming to the place where we must ask the Department to confine the attention of its inspectors to their proper sphere - which is to discover whether the Church is living up to the agreement made to provide certain facilities for the education, moral and intellectual, of the children placed in its care. We are quite prepared to admit that the Department has the right to send in as many inspectors as it likes to see that the purpose for which the money is spent is realized; but the details of the method in which this is to be done, we cannot agree are subject to inspection or audit by the auditors of the Department.

I think that, if you will look into it, you will realize that the position which we are taking has very much to support it. I think the alternative would be that, if we are to be subject to audit, etc., then we shall have to take it that the agreement which has been made is null and void. The Department pays us a certain per capita allowance, and we are responsible for providing for the education of the children within that amount of money. If that is not enough, we have to supplement it. If the position which seems to be implied in the auditor's actions and orders were carried to its logical conclusion, then I think the Department would be responsible for any deficit in the operation of these schools. I do not think you can have it both ways.

I wish you would look into this whole matter rather carefully. Some time ago I think a representation was made and the Minister was to give a ruling. I do not know whether this has been done. I may say that if a ruling is given that the auditor has a right to give orders to the school principal, then we shall reserve to ourselves all the rights of protesting against this ruling, and at the same time of drawing the attention of the Minister to the fact that a regulation which is made to apply to one or more institutions must, of necessity, apply to all the institutions of all

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Mr. R. A. Hoey-

- 3 -

the Churches that are operating these schools. I think I am quite within the mark in saying that, at the present time, there are schools in connection with some of the Churches where the principal refuses to allow the auditor to have anything to do with his books.

If you like to take time to think this over and see under what agreement we operate, I shall be glad if you will let me know, because there is no particular hurry; and it may be that during the summer months, when the Department perhaps is not as busy as it is at some other times, there would be opportunity to make this study, and then you and I can discuss it some time in August.

With best regards,

Yours sincerely,

Ho. Doney

Re: Government audit of Indian residential schools

Dear Doctor Dorey:

I have for acknowledgment your letter of the 26th ultimo in which you discuss very fully the attitude of the Board of Home Missions in respect to the Government audit of the Indian residential schools administered by the Board.

You are no doubt aware that the present audit system was in force when I entered the Department about three years ago. No change whatever in the procedure followed has taken place in the interval. I shall be glad, however, to go into the matter rather carefully just as soon as the time at my disposal enables me to do so.

The Treasury officials inform me that about two years ago the Minister assured Parliament that in view of the substantial grants paid by the Government to residential schools a careful audit of these institutions would be made by the Department from year to year. This does not mean, of course, that the auditor has the right to give instructions to any particular Principal with respect to the conduct of a school and I am inclined to agree with you that the Treasury auditors have not the right to issue such instructions.

I feel sure you are in error when you state that there are Principals who refuse to allow the auditor to

have anything to do with their books. All the residential schools in Canada, with the exception of one or two in the Northwest Territories, are regularly audited. There is no discrimination whatever in so far as the auditing of these institutions is concerned.

You might bring this matter to my attention during your next visit to Ottawa.

Yours truly,

R. A. Hoey,
Supt. of Welfare & Training.

REGINA, Saskatchewan,
October 27th. 1942.

Re: Round Lake Residential School.
(United Church) - Saskatchewan.

Dear Sir :

I beg to submit a report of an audit made at the above School on October 20~~th~~th and 22~~nd~~nd, 1942. The audit covered the period of forty-two (42) months, dating from April 1, 1939, to September 30, 1942. Because of the Principal's absence, this school was not audited during Mr. Willis' last visit.

Bank Reconciliation.

The pass book from the Bank of Montreal, Whitewood, Saskatchewan, showed a deficit of \$325.83, as at September 30, 1942, and there were outstanding cheques amounting to \$182.07. Cash on hand totalled \$15.25, and the net debit balance of \$492.65 agreed with the Cash Book.

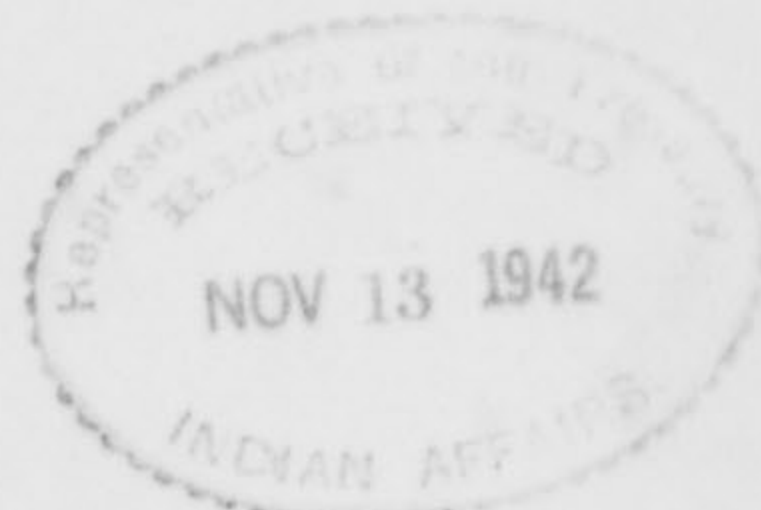

All paid cheques were examined and compared to Cash Book entries. There were vouchers on file for the expenditures, and these were compared to the synoptic entries. Several changes were necessitated in the synoptic, as little attempt had been made to apportion such costs as gasoline and oil, or hardware. All revenue was deposited and small cheques drawn for petty cash purchases. A careful petty cash book is kept, and balanced each month, and all expenditures are shown in the synoptic. Although there appeared to be vouchers for these cash payments, the method of filing made it almost impossible to check to individual expenditures. This matter was discussed with the Principal, and he promised to keep each month's petty cash vouchers together and filed in sequence.

The total revenue for the period amounted to \$54,830.25, including per capita grant and bonus of \$42,965.81. Church grants amounted to \$3,133.34, and farm revenue totalled \$6,742.14, chiefly from the sale of cattle. The present Principal has discontinued the practice of exhibiting cattle at fairs, and this source of revenue shows a great decrease. However, the records show that most of the prize money obtained in former years was eaten up in expenses.

Revenue from other sources amounted to \$1,988.96, of which \$1,000.00 was in night-watchman's grants.

The item

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The item 'Staff-Board' is refunded by certain members of the Staff in payment of their board.

The expenditures totalled \$55,380.05, and are shown in detail in Statement #2. National Defence Tax is shown separately from salaries and starting with September, 1942, the income tax payments are shown.

The cost of operation per day was \$43.29, an increase of \$3.29 per day, while the cost per child per year was \$217.34, an increase of \$23.22. Fuel and light costs were up by about \$7.00 per month, while Buildings and Repairs show an increase of about \$18.00 per month, but this item was almost negligible in the last period. The cost of house equipment shows an increase of about fifty (50%) percent. per month, and the Farm and Garden shows an increase of about \$7.00 per month. Several newpieces of farm equipment were purchased, including a new tractor, binder, cultivator and set of harrows. The School car and the old tractor were traded in on the tractor, and, as a result, the tractor cost only \$385.83 in cash. No School car is now operated. Transportation costs show an increase of about \$13.00 per month. During this period two trucks and a car were purchased.

Extra labour costs are down by about \$10.00 per month, and Miscellaneous is up by about \$8.00. The bank charges totalled \$105.76, and include exchange on Toronto cheques from the Church authorities and interest on overdrafts.

The cost of clothing per pupil per year was \$15.64, which is lower by \$9.45, while food costs at \$37.50 show an increase of \$2.63.

The average attendance was 72.8, a decrease of 2.2.

Because of the extreme length of the period, I have prepared Statement #1-A. to show the revenue and expenditures for each of the fiscal years of 1939-40, 1940-41 and 1941-42, as well as for the first six months of the 1942-43 year. The greatest fluctuations in revenue are noted in Church Grants and farm. The large sale of cattle in 1939-40 makes that year's revenue about three times as great as in the other years. The expenditures are about normal throughout the several years, with the transportation costs of 1939-40 being rather high.

Statement #3-A. was prepared to make comparison of the operation costs for the various years included in this period. The highest cost per day was during 1939-40, with the cost during the first half of the current fiscal year coming next. The highest cost per pupil per year was also 1939-40. This was the year in which a change of Principals was made, and part of the increase was likely due to the inexperience of the new Principal, and also to the necessity for repairs and improvements to the buildings.

The costs of clothing and food are about the same during the various years, except that the food costs are higher during the current year.

I was informed that the farm consists of about 2,000 acres, of which about 300 acres are cultivated. No grain is grown for

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

is grown for the market, but is all fed on the farm, and made into flour. The livestock consists of about 70 head of cattle, of which all but two are registered Holsteins. There are two purebred Shorthorn heifers, and the Principal intends to gradually build up this breed, while cutting down on the Holsteins. There are also 10 horses, 30 hogs, and 130 hens and turkeys. The farm supplies all the milk and butter and vegetables, as well as a large part of the meat.

The Principal advised that the liabilities, other than the overdraft at the Bank, amounted to about \$650.00, all of which are currentbills. The sum of \$500.00 was received on October 1st., from the Church authorities, in payment of the per capita grant, and a Church grant of \$500.00 is to come shortly. There are also a number of hogs nearly ready for market. The Principal expects to operate without undue difficulty.

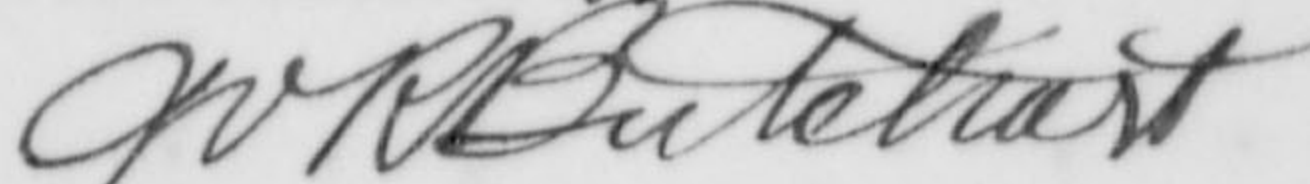

The books were in very good condition, with the exceptions noted above.

I wish to acknowledge the co-operation of Mr. Huston during the audit.

Winnipeg, August 2nd, 1943.

Re: Round Lake Residential School
United Church - Saskatchewan

L.W. McCutcheon, Esq.,
Chief Treasury Officer,
Indian Affairs Branch,
Department of Mines and Resources,
OTTAWA, Ontario.

I beg to submit a report of an audit made at the above school on July 15th, 1943, covering the period of 9 months dating from October 1, 1942 to June 30, 1943.

Bank Reconciliation (Statement #1)

The pass book from the Bank of Montreal, Whitewood, gave a balance of \$77.71 as at June 30, 1943. The outstanding cheques totalled \$22.00, and there was \$4.96 in cash on hand. The net balance of \$60.67 agreed with the cash book.

All paid cheques were examined and checked to the cash book entries. Vouchers were on file to cover the expenditures and these were compared with the synoptic entries. The allocation to synoptic was very good, with the exception of soaps and cleaners which were under "Miscellaneous". I transferred these to "House Equipment". All revenue is deposited and the principal pays small accounts from his petty cash fund, which is re-imbursed monthly by cheque. A petty cash book is kept and the items transferred to the cash book each month.

Revenue and Expenditure (Statements #1 and #2)

The revenue for the period amounted to \$11,760.93, of which \$8,599.05 was from the per capita grant as received from the Women's Missionary Society in Toronto, and \$2,000.00 from Church grants.

Farm revenue totalled \$876.88, of which \$451.88 was from the sale of hogs, and \$415.00 from the sale of cattle.

The nightwatchman grant amounted to \$280.00 and there was also a \$5.00 refund.

The expenditures for the period amounted to \$11,207.61, at an average cost of \$41.05 per day, which is \$2.24 lower than for the previous period. The cost of operation per pupil per year works out at \$196.62 which is \$20.72 lower.

The cost of clothing was \$10.93 per year - a decrease of \$4.71 per pupil. However, a good part of the year's clothing was purchased during the latter part of the previous audit period.

The food costs were \$37.59 per pupil per year - an increase of 9 cents.

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The average attendance of pupils was 76 - an increase of 3.2 - a fact which aided in keeping the average costs down.

Fuel and light costs were at about double the monthly rate of the previous 42 month period, but are only slightly higher than for the fiscal year 1941-42.

Buildings and Repair at \$296.59 were quite low, while House Equipment at \$388.62 shows a considerable reduction.

Farm costs totalled \$1,166.70, and are down for the whole, and also any portion of the preceding period. It will be noted that no feed was purchased during the period. A milking-strain Shorthorn bull and heifer (with calf) were purchased for \$400.00 during the period, as well as a team of driving horses for \$150.00. The remaining \$104.04 of the livestock purchases were for hogs, poultry and bees.

Transportation costs at \$411.75 show a large decrease. No school car is operated, but the school pays for the operation of the principal's private car.

Extra labor at \$168.42 was also down.

Miscellaneous was kept quite low, and includes bank operating charges and interest on an overdraft.

General

The principal advised that the total acreage of the farm is about 2,000 acres, with about 300 being cultivated. No grain was sold during the period, but is fed to livestock. The livestock consists of approximately 75 head of cattle, of which about 14 are milking. The above are all purebred Holsteins with the exception of 5 Shorthorns. There are also 11 horses, about 60 hogs and 175 poultry.

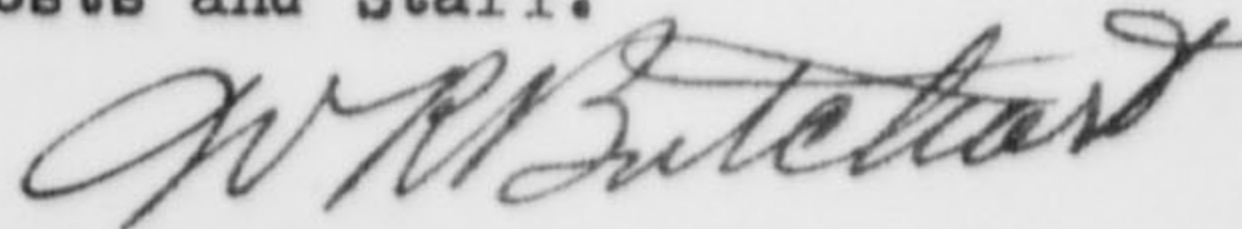

The farm supplies the school with milk and butter, and most of the meat. The 1942 vegetable crop was very good, but because of inadequate storage facilities considerable losses were sustained. A new root cellar is under construction this summer.

The principal also advised that there were no liabilities at June 30th except for about \$120.00 incurred during June.

The books and records were in good condition and up to date, and are audited annually for the Church authorities. Mr. Huston co-operated fully during the audit.

The following statements accompany this report:-

1. Bank Reconciliation -
Revenue and Expenditure
2. Analysis of Expenditure
3. Operation Costs and Staff.

Re: Round Lake Residential School.
(United Church - Saskatchewan)

L.W. McEntcheon, Esq., Chief Treasury Officer, Indian Affairs Branch,
Department of Mines & Resources, OTTAWA.

I beg to submit the report of an audit made at the above school on August 15, 1944, covering the period of 12 months dating from July 1, 1943 to June 30, 1944.

The principal was absent at the time of my visit, as he had to undergo an operation. However his daughter was kind enough to put the books at my disposal. All vouchers were available, but the paid cheques for the first six months of the period could not be located.

Bank Reconciliation

The pass book from the Bank of Montreal, Whitewood, showed a balance of \$673.09 as at June 30, 1944. Several outstanding cheques totalled \$185.05 and cash on hand amounted to \$1.42, leaving a net balance of \$489.46 which agreed with the cash book.

All cheques available were checked to the cash book, and the cash book entries for the period for which there were no cheques, were checked to the pass book. Vouchers were on file to cover the expenditures, and these were compared with the synoptic entries. Allocation to the synoptic was good. All revenue was deposited and petty cash reimbursed by cheques drawn on the bank account. Cash expenditures were not large.

Revenue & Expenditure

A total revenue of \$16,680.31^{was} received during the year, of which \$11,614.50 was received from the Women's Missionary Society on account of the per capita grant. Church grants totalled \$2,000.00, and the night watchman grant \$280.00. Farm revenue amounted to \$2,645.27, mostly from the sale of cattle. Revenue from other sources amounted to \$140.54.

The expenditures totalled \$16,251.52 and are shown in greater detail in Statement #2. The following table shows the approximate yearly increase or decrease per each synoptic heading, as compared with the last period:

	Increase	Decrease	Per Cent
Salaries & Tax	205.00		3.0
Clothing	260.52		31.0
Food	222.70		7.5
Phone, Light, Fuel		241.24	16.5
Buildings & Repair	516.17		130.5
House Equipment	459.52		88.5
Farm & Garden		444.04	28.5
Transportation	298.16		34.0
Extra Labor		12.26	5.5
Miscellaneous	43.51		22.5
	2005.58	697.54	
Total yearly increase	2005.58	1308.04	9.0
	2005.58	2005.58	

It will be noted that, in 7 out of the 10 headings, increases occur, with building costs and house equipment showing the largest increases. Farm costs were considerably lower, due chiefly to the lower livestock purchases. The Bank charges shown under "Miscellaneous" were for exchange on the Women's Missionary Society cheques, and two or three small overdraft charges.

The cost of clothing was 31 per cent higher, and the per pupil cost of \$14.57 was up by \$3.64. Food costs were up by 7.5 per cent, with the per pupil cost of \$41.14 showing an increase of \$3.55.

The total yearly cost was higher by 9 per cent, and the cost of

operation per pupil.....

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

operation per pupil per year at \$216.98 shows an increase of \$20.36. The pupilage shows a decrease of 1.1 pupils.

General

The books and records were in good condition and up to date to July 31st. However, as the July cheques could not be located, the cut-off was made as at June 30th.

The farmer, Mr. Osborne, gave me the following information regarding farming operations:

The farm consists of approximately 2,000 acres of which about 300 are cultivated. The 1943 crop yielded about 700 bus. of wheat averaging 35 bus. per acre; 7000 bus. of oats averaging 85 bus. per acre; and 750 bus. of barley averaging 40 bus. per acre. The 1944 crop is also good with harvest operations under way at the time of the audit.

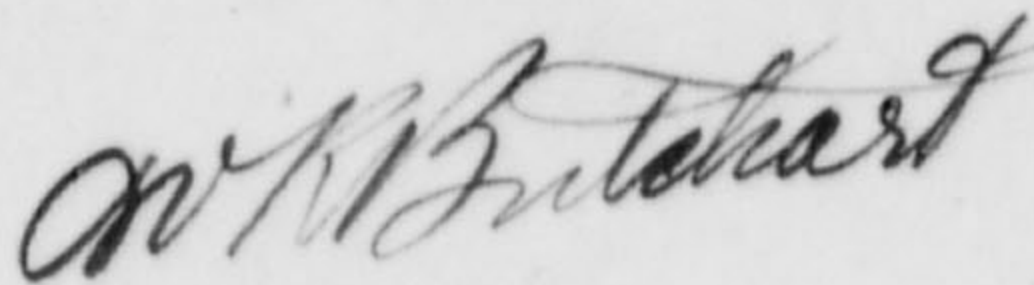

The livestock consists of approximately 70 head of cattle of which 20 are milch cows; 7 sows, and 24 pigs; 10 horses; and 200 poultry.

I was unable to obtain a list of staff members for the coming year. I was given to understand that the principal is being transferred to the Portage la Prairie Residential School. There were apparently several vacancies, including the principalship, but the total number of staff members will be about as shown on the last statement.

I wish to acknowledge the co-operation of staff members during the audit.

Following are the statements which accompany this report:

1. Bank Reconciliation - Revenue & Expenditure;
2. Analysis of Expenditure;
3. Cost of operation.

Re: Round Lake Residential School
(United Church - Saskatchewan)

L.W. McCutcheon, Esq.,
Chief Treasury Officer,
Indian Affairs Branch,
Dept. of Mines & Resources,
Ottawa, Ontario.

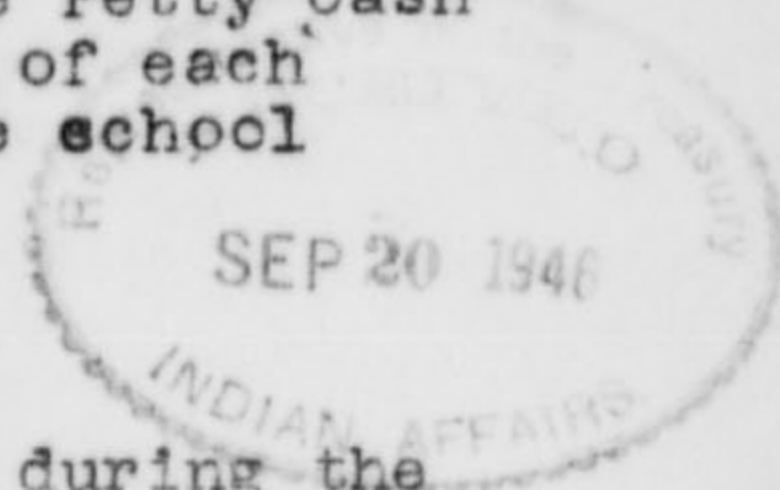

I submit herewith the report of an audit made at the above school on July 15, 1946, covering the period of 24 months ending June 30, 1946.

The school has been under 3 principals during the period, and because of the changes, some difficulty was encountered in making a balance over the period. The fact that cheques and vouchers were not filed in sequence also caused some difficulty.

Bank Reconciliation

The Pass Book from the Bank of Montreal, White-wood showed a balance of \$554.89 as at close of business June 30, 1946. The outstanding Cheques totalled \$283.04 and cash on hand amounted to \$57.25, leaving a balance of \$329.10 which agreed with the cash book.

All paid cheques were examined and checked to the cash book. Vouchers were on file according to months, but there appeared to be no particular sequence. They were fairly complete. Most revenue was deposited in the bank, but some was used to reimburse Petty Cash. A separate Petty Cash book is kept and a recapitulation made at the end of each month. All cash payments are also recorded in the school cash book.

Revenue and Expenditure

A total of \$37,741.86 was received during the period, of which \$24,058.62 from the Women's Missionary Society appeared to be in payment of the per capita grant. A further \$1,900.00 from the same source, would appear to be a church grant. The night watchman grant amounted to \$400.00 and \$95.68 was received from the Department as a refund for the purchase of a water heater.

Farm revenue was quite high at \$10,401.11, largely from the sale of cattle and grain. \$886.27 was received from other sources.

The expenditures amounted to \$37,902.22 and are listed in greater detail in Statement #2. The following table shows the respective increase or decrease per year per each synoptic heading as compared with the preceding period.

	Increase	Decrease	Per cent
Salaries	1071.92		16.5
Clothing	315.78		29.0
Food		213.03	69.0
Phone, Light, Fuel	607.87		49.0
Buildings & Repair		381.45	42.0
House Equipment		149.30	15.5
Farm & Garden		200.66	18.0
Transportation	816.41		96.5
Extra Labor	654.74		308.5
Miscellaneous	177.31		75.0
	3644.03	944.44	
Total Yearly Increase	3644.03	2699.59	
	3644.03	3644.03	

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Transportation costs were very high during the period due largely to very heavy bills for repairing the school truck.

The cost of clothing per pupil per year was \$19.143, an increase of \$4.573, and the cost of food at \$39.024 per pupil per year was down by \$2.116.

The cost of operation per pupil per year was \$251.809 an increase of \$34.829 with the average attendance showing a drop of 1.4 pupils.

General

The books and records were in fairly good condition and up to date. The principal advised that the liabilities as at June 30th amounted to approximately \$540.00

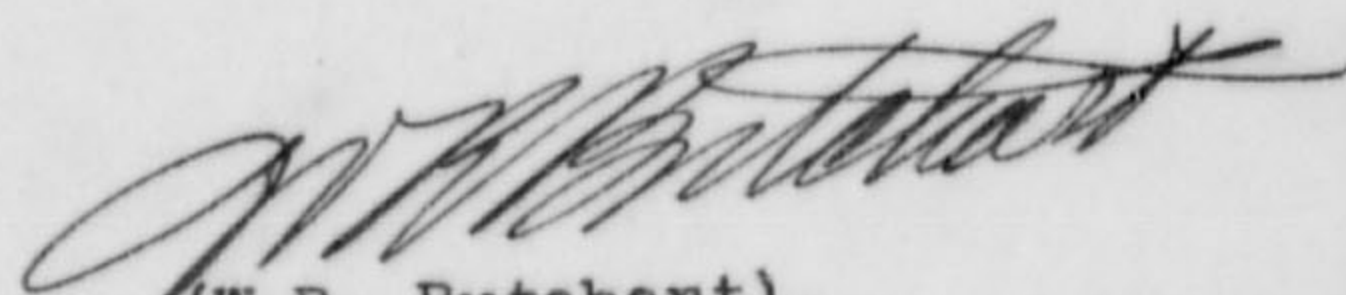

I was further informed that the farm consisted of 875 acres of which 340 acres is under cultivation. The livestock consisted of 26 dairy cattle, 17 beef cattle, 1 bull, 6 horses, 27 swine, 74 hens and 160 chicks, 41 turkeys, 4 geese.

I wish to acknowledge the co-operation of Mr. Card during the audit.

The following statements accompany this report:

1. Bank Reconciliation - Revenue and Expenditure.
2. Analysis of Expenditure.
3. Operating Costs and Staff.

Mr. W. Lauchlan,
Chief Treasury Officer,
Indian Affairs Branch,
Dept. of Mines & Resources,
O T T A W A.

Dear Sir:

Indian Residential School
Round Lake --- Saskatchewan

I have examined the accounts and records of the above school for the nine month period ending March 31, 1947, and hereunder is a report of the audit.

BANK RECONCILIATION

The certificate from the Bank of Montreal, Whitewood, Saskatchewan, showed a balance of \$1,447.12 at the close of business March 31, 1947. Outstanding cheques amounted to \$295.94, cash on hand \$87.02, leaving a net balance of \$1,238.20.

In the second reconciliation for December 31, 1947, the balance per certificate was \$1,767.90, outstanding cheques accounted for \$706.45 and cash on hand \$221.66, leaving a net balance of \$1,283.11. Both balances agreed with Cash Book.

Cash received and not deposited amounted to \$61.46 and \$22.51 respectively.

All paid cheques were examined for endorsements and checked to relating entries in Cash Book, and vouchers on file (in cheque sequence) received similar attention. In addition, the latter were checked for their admissibility.

Cheques #5 and #12 for \$9.90 and \$7.90 respectively, issued March 1945, are still outstanding, and I would suggest the Principal be instructed as to disposal of same.

RECEIPTS AND PAYMENTS

A statement of these items for the period under review is attached to this report and, for the purpose of comparison, a condensed summary showing monthly costs, is shown below.

	<u>July 1/44 to June 30/46</u>		<u>July 1/46 to March 31/47</u>

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The increase in the per capita costs for the period under review is primarily due to increases in salaries, and a general rise in prices for food stuffs and other supplies.

GENERAL

The Principal provided me with the following information regarding farming operations:

There is a total of 875 acres belonging to the school, of which 340 acres are under cultivation.

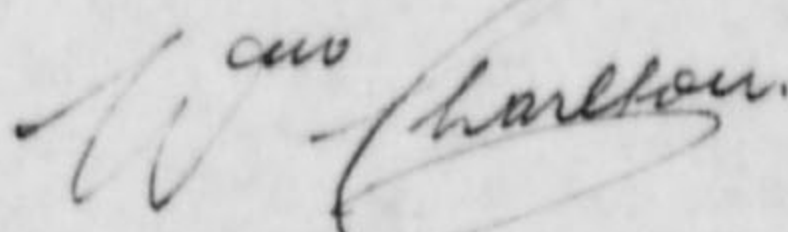

Livestock consists of: 22 Dairy Cattle, 1 Bull, 2 Steers, 17 Yearlings, 6 Calves, 2 Sows, 15 Pigs, 6 Horses, 186 Hens, 11 Turkeys, 8 Geese.

No records were available to show the number and value of farm and school assets at the beginning of the period under review.

The accounts and records are maintained in accordance with departmental requirements, and were in good condition.

In conclusion, I would like to express my appreciation for the co-operation received from the Rev. J. A. Card during the course of the audit.

Yours truly,

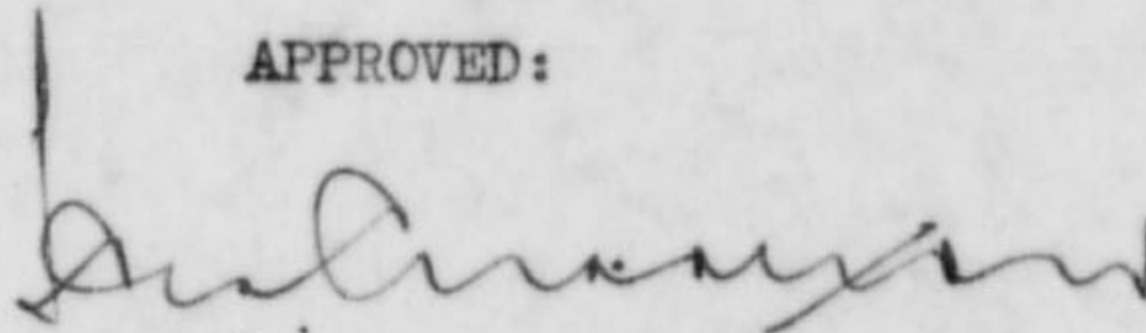

Wm. Charlton,
Treasury Auditor.

Re: Indian Residential School
Round Lake - Saskatchewan

An audit of the records of above School has recently been completed for the period April 1, 1947 to October 31, 1948 and hereunder is report on same. (No entries in Cash Book Nov. 1 - Nov. 4)

Receipts and Disbursements

STATEMENTS No. 1 & 2

(a) Bank Reconciliation

The certificate from the Bank of Montreal, Whitewood, Sask. certified to a balance of \$47.69 to the credit of Round Lake Indian Residential School, at the close of business November 4th, 1948.

Outstanding cheques (12) amounted to \$544.62, cash on hand \$211.60, the net adverse balance \$282.58 being in accord with Cash Book.

Deposits have been made at frequent intervals and without undue delay.

(b) Receipts

Receipts were checked from deposit slips through to Bank Pass Book and Cash Synoptic, and no irregularities were noted.

(c) Disbursements

All paid cheques were examined for endorsements, etc., checked to relating entries in Synoptic, and audit stamped.

Expenditure vouchers were checked approximately 50% to Synoptic, whilst vouchers concerning buildings and repairs were checked 100%.

The Principal has not as yet received instructions as to the disposal of outstanding cheques 5 and 12 for \$9.90 and \$7.90 respectively, commented upon in previous audit report.

Farm Activities

STATEMENT NO. 3

The Principal provided me with the information contained in above statement.

A large portion of both farm and dairy produce is consumed at the school. The revenue derived from these activities show a decided increase.

No records were available to show the value of farm equipment or other assets at the date of audit.

..... 2

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Operational Costs

STATEMENT NO. 4

In analysing these costs a decided increase in per capita costs is noted, although the services of Assistant Farmer and Dietician was dispensed with, an increase of \$300.00 per annum in the Matron's salary partially offset this saving.

A general upward trend in the prices for food, clothing, and supplies is the primary reason for the increase.

General

The Principal has opened a deferred account (\$500.00) at the T. Eaton Company Ltd., with the object of taking advantage of discounts allowed on these accounts. No purchases had been made against this account at the date of audit, and the Principal was advised to head same as "Deferred Expense", and debit the classification concerned, as and when purchases were made, and credit the "Deferred Expense".

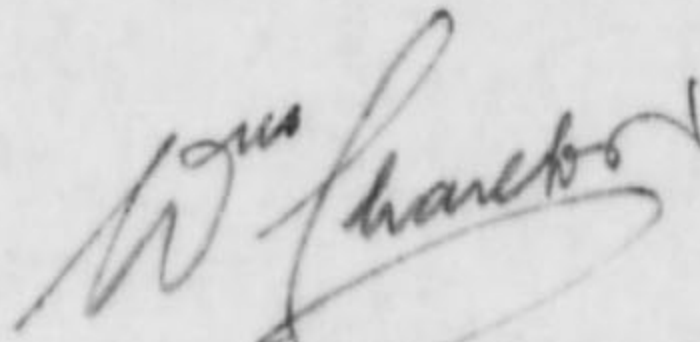

Accounts and records are maintained in accordance with departmental requirements.

Buildings inspected were in a good state of repair, clean and tidy, and the cooperation received during the course of the audit from the Rev. J. A. Card, was all that could be desired.

Certificate

I hereby certify that I have examined the books and records of the Indian Residential School, Round Lake, Saskatchewan, and with the exceptions noted above, the attached statements reflect the transactions of the School, according to the records and explanations given me.

Audit Report -
Round Lake Indian Residential School, Sask.

The Field Auditor's report on the above-noted school, dated November 22, 1948, is referred herewith for your information and for such administrative action as the conditions reported by the auditor may warrant.

The duplicate copy is furnished in order that it may be forwarded to the Regional Supervisor of Indian Agencies, Saskatchewan, together with any comments which may be considered advisable.

When you have finished with the report would you kindly initial the route slip in order that the file may be passed to the next official indicated thereon.

/Chief Treasury Officer.

Memorandum:MAJOR CLARK.Round Lake Indian Residential School.

I am rather perturbed by the latest Audit Statement from this school. You will note that the cost of operation per pupil per year is now \$379.69. It would seem that we will have to review the audit rather carefully to ascertain from it and previous audits the reason for this very large increase in operating costs. Could you please give this matter your consideration.

Bernard F. Neary,
Superintendent of Education.

BPN/EM

// Colonel Neary:

I have analyzed this on a monthly basis.
We need more information about probable future costs for:

fuel
food
"House equipment"
"extra labour"
"Farm & Garden" costs.

	Deposit with Eatons	71.43		+ 71		
2106.69		2190.79		459	373	
		84.10		+ 86.		

Colonel Nerry:

One audit is for 12 months; the later one is for 7 months
 It is not clear what the next five months will
 entail in (a) Food - have they a lot on hand?
 (b) House equipment - what will they buy?
 (c) Farm & Garden - why does this cost rise?
 (d) Extra labour - what is it for?

The \$500 deposit with Eatons is an artificial
 inflation. It could become "cash on hand".
 We might enquire about (a) (b) (c) (d)

Memorandum:CHIEF TREASURY OFFICERRound Lake Indian Residential School.

As you will note from the memoranda hereunder, we have given considerable attention to the recent audit report on this school.

This would seem a perfect illustration as to the necessity of a meeting being held between your officials and our own to discuss the exact information which we will require about certain of the expenditures indicated. I would suggest that we plan this meeting for next Monday, February 14th at 9 A. M., in either your office or my office. If this is not suitable, I would be glad to hear from you as to another suggested time.

Bernard F. Neary,
Superintendent of Education.

Re: Indian Residential School
Round Lake - Saskatchewan

An audit of the records of above School has recently been completed for the period November 1, 1948 to August 8, 1949.

Receipts and Disbursements

STATEMENTS No. 1 & 2

(a) Bank Reconciliation

The certificate from the Bank of Montreal, Whitewood, Sask. certified to a balance of \$3,171.38 to the credit of the Round Lake Indian Residential School account, as at the close of business August 8, 1949.

Outstanding cheques (6) amounted to \$162.48, cash on hand \$100.30, the net credit balance of \$3,109.20 being in accord with Cash Book.

Deposits have been made as occasions demanded and without undue delay.

(b) Receipts

All deposits were checked through from deposit slips to bank pass and cash books and no irregularities were noted.

(c) Disbursements

Paid cheques were examined for endorsements, admissibility, etc., checked to relating entries in Cash Book and audit stamped.

Vouchers were checked approximately 60% to cash book, those relating to Building and Repairs were checked 100%.

Receipts for petty cash disbursements for the months of July and August were not in evidence in numerous instances. However, a memo account of same was kept. A number of the major items were verified by visiting local vendors and checking the source of origin. This occurred during the absence of the Principal on vacation, and whilst he was in hospital.

Farming Activities

STATEMENT No.3

The figures as shown in the above statement, as relating to acreage and livestock, were supplied by the "Farm Manager" and can be assumed as reasonably correct.

.....2

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

A large proportion of both farm and dairy produce is consumed at the School kitchen.

Taking into consideration the livestock, etc., on hand and sales included in "Receipts" there appears to have been little change in the assets in this respect since last audit.

No records are available to show the value of farm equipment or other assets at the date of audit.

Operating Costs and Staff

STATEMENT No. 4

In analysing these costs a slight decrease in per capita cost is noted. This is no doubt due to the increase in number of pupils attending school.

Changes in staff since last audit have taken place in the teacher and gardener positions, and a cook and assistant farmer have been added to the staff.

General

The deferred account with the T.Eaton Company Ltd., commented upon in the last report has now been absorbed in the costs and it is not proposed to renew same.

Owing to the absence of the Principal through illness, a few minor questions remain unanswered and at the request of Mr. Ostrander, the Regional Supervisor, Indian Affairs, Saskatchewan, it is proposed to conduct another audit in about two months time, when the principal will no doubt have resumed his duties, or another principal will have been appointed.

Buildings inspected need extensive repairs and decorations, this applies particularly to the main school building.

Certificate

I hereby certify that I have examined the books and records of the Indian Residential School, Round Lake, Saskatchewan, and with the exceptions noted above, the attached statements reflect the transactions of the School, according to the records and explanations given me.

TREASURY OFFICE

Ottawa, October 26, 1949.

MEMO.: OFFICIALS as per Route Slip,-

Audit Report
Indian Residential School, Round Lake, Sask.

The Field Auditor's report on the above-noted School, dated August 13, 1949, is referred herewith for your information and for such administrative action as the conditions reported by the auditor may warrant.

The duplicate copy is furnished in order that it may be forwarded to the Regional Supervisor of Indian Agencies concerned, together with any comments which may be considered advisable.

When you have finished with the report would you kindly initial the route slip in order that the file may be passed to the next official indicated thereon.

RE: Round Lake Indian Residential School
Round Lake Sask.

An audit of the records of the above school has recently been completed for the period 9 Aug. 49 to 31 Mar. 50.

RECEIPTS & DISBURSEMENTS

STATEMENTS 1 & 2

(a) Bank Reconciliation

A certificate of the Bank of Montreal, Whitewood, Sask. was obtained and the cash balance as shown in the school synoptic was reconciled with this certificate as shown in Statement No. 1. Cash on hand was not counted but the Principal stated that he had on hand the balance as shown in the statement.

(b) Receipts

All receipts as shown in the cash synoptic were checked to the bank book. It was found that some receipts had been used to make payments without being deposited in the bank. The principal was shown how an imprest petty cash account should be maintained to take care of such payments. The amounts listed in receipts under "Bazaar Receipts" is apparently derived from the sales of second hand clothing which has been donated to the School by the Women's Missionary Society.

(c) Disbursements

All paid cheques were examined as to signature and endorsement and checked to the Cash synoptic. Two cheques numbered 5 and 9 in the amounts of \$9.90 and \$7.90 respectively which were issued prior to 1945 are still outstanding. Also cheque No. 64 in the amount of \$5.58 is still outstanding. It was suggested to the Principal that he should immediately contact the payee in these instances in an endeavour to trace the missing cheques.

Cheque No. 64 of 1950 in the amount of \$358.30 was not seen at the time of audit although it had been cashed. It has presumably been misfiled and the invoices regarding it were audited.

It has been the practice here to issue unnumbered cheques of varying amounts for use as petty cash and not enter them in the cash synoptic but in a separate "Petty Cash Book". This has had the effect of confusing the cash synoptic and as has been previously stated the proper method of operating a petty cash advance has been explained to the Principal.

Indian Affairs. (RG 10, Volume 6334, file 661-24, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

It was also noted that the sum of \$25.00 is being paid yearly to the local Postmaster for a quarterly audit of the school books. This is unusual and would not appear to be necessary.

FARM ACTIVITIES

STATEMENT NO. 3

The information regarding farm activities is very meager due to the fact that the roads were impassable and it was impossible to contact the farm manager. This is explained further under the "General heading.

21 cattle died and a John Deere Tractor was burned as the result of a fire caused by the tractor back-firing while in the barn. This is a very serious loss as the cows supplied a great deal of milk for the school. It is understood that a new tractor is being purchased. The fire damage to the barn is reported by the Principal as not extensive.

OPERATIONAL COSTS

STATEMENT NO. 4

Statement No. 4 shows the comparison of operational costs for the last two fiscal years. The enormous increase in over all cost of operation per pupil would appear to be due to the rapid decrease in attendance and an increase in expenses. The addition of an engineer to the staff at a salary of \$125.00 per month for the 10-month school period increases the salaries paid. This was explained by the Principal as necessary due to the poor condition of the heating and plumbing system in the school.

LIABILITIES

It was stated by the Principal that there are no outstanding liabilities in excess of the current monthly accounts, salaries, etc. There would appear to be sufficient funds on hand for these.

GENERAL

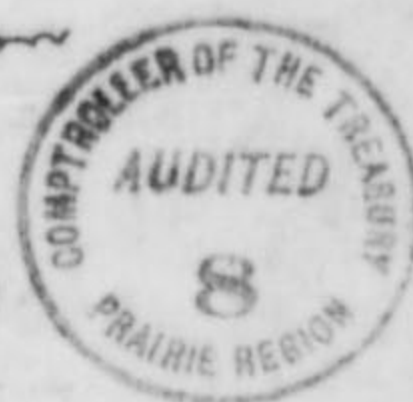

Due to the seasonal condition of the roads the audit was carried out in Whitewood. Mr. Card, the Principal, was not familiar with the various crop acreages and yields. Mr. Card reports that the school buildings are in very poor condition and a very definite fire hazard.

Owing to his physical condition Mr. Card has resigned, such resignation to take effect at the end of the school term. He has requested that another audit be made immediately prior to his leaving. The continued illness of the Principal would account for the errors and omissions found in the accounting system.

CERTIFICATE

I hereby certify that I have examined the accounts and records of the Round Lake Indian Residential School, Round Lake, Saskatchewan, for the period 9 Aug. 49 to 31 Mar. 50, and with any exceptions noted above, the attached statements reflect the transactions of the School, according to the records and the explanations given me.

W. E. Jackson

SUBJECT:

File : 431-157

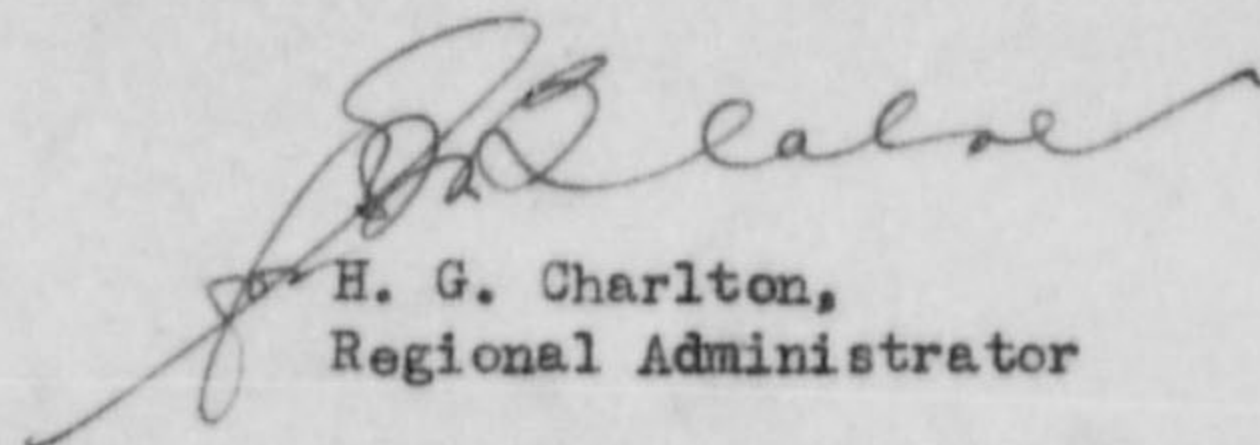

Round Lake Indian Residential School,
Round Lake, Saskatchewan.

Enclosed, in triplicate, is audit report for
the above School for the period August 9, 1949 to March 31,
1950.

You will note that a fee of \$25.00 is being paid
for a quarterly audit which appears to be an unusual arrange-
ment for an Indian Residential School.

There has been a sharp increase in cost of operation
per pupil from \$378.92 in 1948-49 to \$574.45 in 1949-50.

Le 2 Mai 1898

Sir Wilfred Laurier
Premier.

Bien cher Monsieur

Permettez-moi la liberté que
je prends de vous écrire; mais, comme on le
dit entre nous, quand on ne peut rien obtenir des
Saints il faut s'adresser directement à Dieu.

Je viens vous demander la faveur de
savoir bien vous servir de votre influence
et de votre autorité pour nous laisser avoir la
permission de bâtir une maison d'école, destinée
à être une maison d'École Pensionnat, à la
Rivière de Keesseekange, Fort Pelly.

Puis nous avons déjà là une École de jour. Daily School.
Nous avons des enfants de cette nation
familiales à l'école.

Je pourrais moi-même faire la première église.
C'est à dire bâtir et mettre la maison en état
recevoir les enfants. Le Gouvernement ne ferait aucun
difficulté de nous accorder l'assistance qu'il donne
aux écoles de ce genre. Sur ce, j'ai fait appel à
des amis, j'ai recueillis des fonds et ai commencé
à me mettre à l'œuvre. Puis, par l'intermédiaire
de Monseigneur l'Archevêque de St-Boniface,
j'ai fait encore demander au Gouvernement la
permission de bâtir. ... Même désolant
refus, sans prétexte que nous demandions la permission
de bâtir, serait virtuellement nous promettre
l'établissement d'une nouvelle École Pensionnat.

Notre demande avait pourtant la
commandation de l'Agent et du
Commissaire des Sauvages.

Je ne puis comprendre ce refus. Nous demandons
un privilège, les Protestants ont une École
à quinze miles d'ici, à la Rivière
du Nord pas non plus, et

Fort Pelly, Cote P.O.,
24 May, 1899.

Sir Wilfrid Laurier
Premier

My dear Sir, -

Pardon the liberty that I take in writing to you; but, as the saying is among us, "when we cannot get what we want from the Saints, we must address the Almighty himself."

I beg to ask that you will be so kind as to use your influence and authority in order that we may receive permission to build a school house, with the intention of making it a boarding school, on Keesekoose's Reserve, Fort Pelly.

We already have a day school there, but it cannot afford the children of this reserve - owing to various circumstances - the instruction that they need. Only five or six children receive the benefit: most

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

of them can not, either because they are too far away from the school or because their relatives, who are hunters, having no place where they can leave them, are obliged to take them with them when they are hunting. To provide instruction for the children of this reserve it is absolutely necessary that we should have a boarding school.

I have shown the necessity and on several occasions made request of the Department of Indian Affairs. For one reason or another I have never received anything but a discouraging refusal.

At last I conceived the idea that if I should be able myself to meet the first expenses, that is to say to build and put a house in a condition to receive the children, the Government would not find any difficulty in granting us the assistance that it gives to schools of this class. Thereupon

I appealed to some friends, I collected funds and set myself to work. Then, through the mediation of His Grace the Archbishop of St. Boniface, Sagami asked the Government for permission to build. The same refusal, under the pretext that to grant us permission to build would be virtually to promise to establish a new boarding school for us. Our request had, however, the recommendation of the Indian Agent and of the Indian Commissioner.

I do not understand this refusal. We are not asking for a privilege: the Protestants have a boarding school fifteen miles from here, on Cote's Reserve. Neither do we ask for an increase in the expenditure that the Government is disposed to make for the education of the Indians. If we wanted to send our children to Cote's school, the Government would pay for them; or if we want

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to send them to an industrial school, the Government would still pay for them, and much more than it would have to pay for their maintenance at a school here. Why then this refusal?

Again I do not understand it; but what is easy to understand is that we are not treated in the same way as others: we and our Indians here are deprived of a great benefit that others enjoy.

It is in order to remedy this disadvantage from which we suffer with the Indians of this reserve on account of the lack of a boarding school that I take the liberty of addressing you today and of praying you to be so kind as to intervene in our favour.

The Indians of Keeseekoose's Reserve charge me to entreat you in their name and to tell you that they love their Premier Chief and that they trust to his sense of justice and sympathy for them.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

As for myself, I am sure that you will do whatever is possible to be done for us, and I pray you to accept my gratitude and devotion.

J. Decorby, P. O. M. S.,
Missionary to the Indians.

P.S. I have been a missionary in Manitoba and the North-west for thirty-two years. Besides the Indians of the District of Fort Pelly I have to give the services of my ministry to a great number of whites of different languages and different nationalities, — English, French, Germans, Belgians, Poles, and others, sometimes grouped together in small parishes, sometimes scattered and mixed in the midst of this strange medley which is the characteristic of the population of the North-west Territories.

J. D.

For file

Department of Indian Affairs

OTTAWA, 12th May, 1899

The Secretary:-

Re Father DeCorby's communication addressed to Sir Wilfrid Laurier, asking for permission to build a boarding school on the Keeseekouse Reserve.

Similar applications have been received from time to time since 1894, and in reply to the last request made in February ~~xx~~ through the Indian Commissioner, that officer was informed that if authority were given to put up a new building on Keeseekouse Reserve, it would, judging by past experience, entail expense in the near future, either for the maintenance of pupils or the erection of buildings and would virtually be opening the door for the establishment of a new boarding school on the same lines as those already in operation. This answer was sent to the Commissioner in view of the Minister's decision not to increase the present expenditure schools of that class.

See Fyle 98150

I find, on referring to the census return of the Keeseekouse Band, that the total number given is ¹² 165 souls, ~~comprising~~ belonging to the Church of England, 15 Presbyterians, 66 Roman Catholics and 62 pagans, with 29 children between the ages of 6 and 15 in the entire band. Nine pupils from this reserve are

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

enrolled at the Qu'Appelle Industrial school (R.C.). Out of the entire school population of 29, not more than 14 are presumably of the Roman Catholic faith, 9 of whom are at Qu'Appelle, which would leave only about 5 to be educated on the reserve, where there is a day school now in operation. I have no doubt that the Roman Catholics lay claim to the pagan Indians as members of their Church, and that a number of their children are enrolled in the day school, which has 17 pupils on the register, with an average attendance of 3 for the year.

It does not appear to me that a boarding school is necessary at this point as it would establish a precedent for opening boarding schools on nearly every reserve in the Territories.

I am inclined to think that the children on these reserves should attend the Industrial School. There are 4 within a reasonable distance of the reserve. In view of the fact that it is not possible to push the education of the natives, I am of the opinion that the Industrial School should be authorized. The natives should be encouraged to attend the Industrial School. The natives should be encouraged to attend the Industrial School. The natives should be encouraged to attend the Industrial School.

Keesseckons Reserve - St-Pelly
Le 15 Juin 1899

Sir Wilfrid Laurier

Bien Cher Monsieur

Je n'aime pas à ajouter aux
importunités dont vous devez sûrement être obsédé;
mais je dois vous écrire encore pour vous remercier de
votre bonne lettre et de la recommandation que vous
avez bien voulu donner à notre demande pour la
permission de bâtir ^{à nos frais} une maison d'Ecole Pensionnat
pour les enfants catholiques de la Réserve Keesseckons.

La réponse du Département des Sauvages a été
qu'on ne pouvait faire droit à notre requête parce
nos arriérés à notre disposition les Ecoles Industrielles.

Je dois à cette réponse quelques observations.

Je ne sais comment Monseigneur l'Archevêque
de St-Boniface a présenté la requête; mais un des
considérants était qu'on ne pouvait plus envoyer d'ici
des enfants aux Ecoles Industrielles. On en a envoyé
déjà un bon nombre; l'unique on ait eu soin de
n'envoyer que ceux qui offraient les meilleures garanties
de santé, tous sont morts, à l'exception d'une fille.

Et ceci n'est pas une surprise pour qui a eu l'occasion
d'observer les conditions sanitaires des Sauvages.
Sans être docteur en médecine je crois pouvoir
dire que quatre-vingt-quinze sur cent enfants

Sauvages sont atteints plus au moins du scrofule.

On peut en attendre, malgré les nouveaux systèmes de ventilation, sinon bien des décès au milieu de ces pauvres enfants, portant presque tous des germes de la maladie et plusieurs l'ayant déjà à un degré bien avancé, enfermés ensemble, durant de longues heures du jour et de la nuit aux salles d'étude ou aux dortoirs ?...

J'ai pensé attirer votre attention sur ce fait dans ma lettre; mais je me l'ai posé fait de peur de la rendre trop longue.

Maintenant ce que le milieu où ces pauvres enfants sont obligés de vivre commencent, l'enfer, provenant de l'éloignement de la famille et de la séquestration lorsque la maladie avance, l'achève.

Un beau jour les parents apprennent que leur enfant à l'École est mort; or le sauvage qui a l'amour de sa progéniture aussi bien que le Blanc ne peut se faire à l'idée de voir mourir son enfant sans avoir la consolation de lui faire les derniers adieux.

Mme Ecole Pensionnat aux Pêches, en caoutant moins cher, ^{propres} l'abri à ces indigents; Les enfants n'y sont qu'un petit nombre; aux premiers symptômes de la maladie, ils s'en retirent de la maison au vu de la famille, la liberté

(3)

185958

Le plein air et les soins maternels les ramènent souvent à la vie

Il ne faudrait envoyer aux Ecoles Industrielles que des enfants ayant un certain âge et un certificat de bonne santé

Un nouvel événement rend encore plus nécessaire l'établissement d'une Ecole Pensionnaire à la Réserve de Keesseckense. Le Gouvernement a résolu pour les Danchkabor des terroirs où les sauvages de cette réserve avaient depuis longtemps le privilège de prendre du foin et en ceci vont être obligés de s'éloigner pour aller brouter leurs animaux aux Montagnes.

Vous avez été assez bon pour me pardonner ma première lettre de l'affaire passée, en la recommandant à l'Honorable Ministre chargé des Affaires Indiennes; j'espère que vous voudrez ^{bien} accorder la même faveur à celle-ci.

Vous ferez une bien bonne chose pour nos pauvres sauvages que le refus de la part du Département de leur donner une ^{école} à bien attristés et vous aurez un nouveau titre à la profonde reconnaissance

de votre humble et dévoué serviteur

Translation.

Keeseekouse Reserve, St. Pelly.

15th June, 1899.

Sir Wilfrid Laurier,

Dear Sir:-

I do not like to add to the im-
portunities with which you are assuredly besieged, but I
must write again to thank you for your kind letter and
the recommendation that you were good enough to give to
our request for permission to build at our expense a
house for a boarding-school for the Roman Catholic child-
ren of Keeseekouse Reserve.

The reply from the Department of Indian Affairs
was that our request could not be complied with because
we had the industrial schools at our disposal.

I have to make some observations on this reply.
I do not know in what manner His Lordship the Archbishop
of St. Boniface presented the request, but one of the
considerations was that children could no longer be sent
from here to industrial schools. Already a good number
have been sent. Although care was taken to send only
those who gave the best assurances of health, all are dead
with the exception of one girl.

And this is not a surprise to those who have
had the opportunity of observing the sanitary conditions
of the Indians. Although not a physician myself, I be-
lieve that I can say that 95 out of every hundred Indian
children are tainted more or less with scrofula. What
can we expect, in spite of the new systems of ventilation,
but death in the midst of these poor children, nearly all
of whom bear germs of disease, and many of them in a very
advanced degree, shut up together during long hours of
day

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

day and of night in the school-rooms and dormitories?

I thought of calling your attention to this fact in my letter, but I did not do so for fear of making it too long. Now, that which begins while these children are obliged to live assembled together, homesickness, the result of their being so far from their families, and of their isolation when the disease appears, completes. Some day the parents learn that their child at the school is dead, then the Indians, who have the same love for their children as white people, cannot bear the idea of their children dying far away without the consolation of saying their last farewell to them.

Boarding-schools on the reserves, while costing less, would not have these objections; the number of children at them would be small, on the first symptoms of the disease appearing they would be sent home, where the sight of their families, the freedom and fresh air and maternal care would often restore them to health.

We can only send to the industrial schools children of a certain age and having a certificate of good health.

A new circumstance renders still more necessary the establishment of a boarding-school on Keeseekouse Reserve; the Government has reserved for the Dhourkabours lands where the Indians of this Reserve have for a long time had the privilege of taking hay, and the latter will now be obliged to go a long way in order to winter their cattle in the mountains.

You were good enough to pardon my first letter, and to recommend it to the Honourable the Minister charged with Indian affairs. I beg you will be so kind as to grant the same favour ~~me~~ to this one. You will be doing

a

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

pupils on the register and an average attendance of 3 for the year.

I think you will agree with me that the above figures do not show that a boarding school is necessary at this point, more especially as other locations with stronger claims have had to be refused in the endeavor to carry out the policy of the Department not to increase the present expenditure for schools of this class.

Believe me, dear Sir Wilfrid,

Very faithfully yours,

Sir A. Smart

DIOCESE OF ST. BONIFACE.

No.

DISTRICT.

September 29 1901

To the Honourable Clifford Sifton

Indian Commissioner.

Honourable & Dear Sir,

Allow me to call your kind attention to the following facts:

Whereas, there are thirty seven boys and thirty four girls on Keeseekouse Reserve, where, there is a Catholic Mission;

Whereas, the Catholics do not enjoy, as the Presbyterians do on Cote's Reserve, the advantage of a Boarding School, so that their work among Indians is far from being satisfactory;

Whereas, the Day-School on Keeseekouse Reserve is almost useless;

Whereas, the Indians ask for a Boarding School;

Whereas, Rev. Father Decorby, who labored with zeal among Indians for 33 years, has built at his own expense, and at the urgent request of the said Indians, a large building that can accommodate forty children.

We beg leave to ask:

1st., That, besides the (\$300) Three Hundred dollars already granted by the Department, an additional sum of \$720 Seven Hundred and twenty dollars be allowed for ten boarders, making a total allowance of \$1,020 One Thousand and twenty dollars. Nothing will be asked for the new building.

2d. That Rev. Father Decorby be appointed Principal of the new Boarding -School.

Hoping to receive a favorable answer,

I have the honour to remain,

Honourable & Dear Sir,

Yours very truly.

Department of Indian Affairs,
OTTAWA, 9th October, 1901.

The Secretary:

With reference to the application from His Grace the Archbishop of St Boniface for the usual grant for ten pupils for a new boarding school which is being put up by Father DeCorby, missionary on the Keeseekouse reserve, in addition to the \$300.00 already provided for the day school teacher's salary, I beg to say that this boarding school has been undertaken without the sanction of the Department. In fact Father DeCorby was informed on the 15th May '99 that it did not consider that it would be justified, in view of the opportunity the children of this reserve have of attending industrial schools, in authorizing the expenditure his application for a boarding school would involve. Letter turned out.

A similar application was shortly afterwards addressed to the Premier and the reply of the Deputy Minister hereunder shows that the Department did not consider a boarding school necessary at this point. Letter also turned out.

In this connection I beg to refer to a memorandum prepared by me on the 12th May '99 in which I took figures from the census to show that there very few children of school age on the reserve. In fact the last return from the day school shows an enrollment of only 8 pupils with an average attendance of only 4.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

This building has been put up at his own expense by Father DeCorby just outside the Reserve but with the expectation of receiving a grant for the maintenance of pupils and being recouped for the outlay in connection with the building in the near future.

I may add that the industrial schools in Manitoba and the Territories are experiencing difficulty in obtaining the maximum ^{number} of pupils they can accommodate owing largely to the increased number of boarding schools on the reserves, and Rev. Father Lacombe whom I saw in Ottawa a short time ago, assured me that this is a fact.

All the religious denominations carrying on missions work among the Indians are anxious for the establishment of boarding schools as the Government grant is a great help to their work and many of the missions would have to be discontinued if it were not for this assistance. It has not been proved, however as was once expected that these mission boarding schools would act as feeders to the industrial schools and Indian children educated at boarding schools are Indians ~~whenever~~ first last and all the time.

Should the Department consider the Archbishop's application favorably the day school grant would have to be dropped

Roman Catholic faith. It may be further pointed out that according to the last returns from the day school on this Reserve it would appear that there is an enrollment of only eight pupils, with an average attendance of four. Under the circumstances, it ^{is} not felt that a boarding school is necessary at this point, more especially as other similar applications had to be refused in the endeavour to carry out the policy of the Department not to increase the present expenditure for schools of this class. I regret, therefore, that there does not appear to be any way in which the request of Father Decorby can be entertained.

Believe me,

Yours truly,

Jas. Howard

Indian Missions.

DIocese of St. Boniface.

DISTRICT.

Archbishop's palace of St. Boniface, 6th. March. 1902

To the Honourable Clifford Sifton,

225263

Superintendent General of Indian Affairs.

Honourable & Dear Sir,

Your deputy minister, the Hon. M. Smart, has answered our petition for a "Boarding School" on Keesickouse Reserve by stating that there were not enough Catholic children.

I beg leave to say that according to the census taken lately by Rev. Father Jules Decorbie (February 6th. ult.) there are (26) twenty six catholic children of age to go to school, and the Pagans who wish to unite with the Catholics for the school, are willing to send eleven (II) children, so that there is a total of (37) thirty seven children of school age ready to be sent to a "Boarding School".

At present, only six catholic children attend the Day-School and three others (catholic) are boarders in the "Presbyterian school" on Cote Reserve. The eleven (II) Pagan children and (I) nineteen catholic children go to no school.

So that if the Department are anxious to help towards the instruction of (25) twenty five children going to no school whatever they have an excellent reason to establish a "Boarding School". The Presbyterians keep a Boarding School on ~~the~~ on Cote Reserve for several years, and I fail to see why we are not granted the same advantage?

Consequently, I beg leave to express the sentiments of the parents of 37 children, (26 catholics, II Pagans) (I understand that ~~the~~ ^{they} are preparing now joint a petition) and also our own wishes by asking that a "Boarding School", for Indian children, with (25) twenty five boarders, at \$72 per head, be granted to the Reserve of "Keesickouse" Swan River Agency; I beg also as a favor Rev. Father Decorbie be appointed Principal of the said school. A large school with accomodation for 35 or 40 children has already been built by the Rev. Father, at the expense of the Mission, but it is not furnished yet.

Trusting, Honourable & Dear Sir, in your sense justice and fair play, I have the Honor to be yours very truly.

MAR 26 1902

Department of Indian Affairs
OTTAWA, 18th March, 1902

The Secretary:-

Re application for grant for Roman Catholic Boarding school near Keeseekoose reserve.

In this connection I beg to refer to my memorandum of yesterday's date on file I20078 in reply to an enquiry made by the Deputy Minister as to what authority the Roman Catholic Church has received from the Department for the building of a mission and day school on that Reserve.

Since preparing the memorandum referred to a letter of the 6th instant from His Grace, the Archbishop of St Boniface has been received renewing a former application made for the recognition of this school and it seems to me that the reasons which prompted the Minister to refuse this request still hold good.

In the letter of the 12th October last to His Grace the Deputy Minister pointed out that it was not considered that a boarding school was necessary at this point, more especially as other similar applications had to be refused in the endeavor to carry out the policy of the Department not to increase the present expenditure for schools of this class.

The Secretary:

The church was no doubt put up by the Roman Catholics under the general authority which allowed any denomination which desired to do so, to erect a church on a reserve for mission purposes, provided the Indians gave their consent.

In February 1899, His Grace, the Archbishop of St Boniface informed the Department that Father DeCorby who was in charge of this mission, intended to build at his own expense on the reserve, a new house to be used as a boarding school for Indian children who lived too far from the mission, or whose parents are willing to leave them at the mission while they are on hunting expeditions. His Grace added that he supposed that there would be no difficulty in the way because this was but an extension of the permission already granted his Church to ~~building~~ build on the said reserve. The Indian Commissioner, when forwarding the letter above referred

to

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

to, stated that he saw no objection to this as the Roman Catholic Church was the only religious body working there, having been on the reserve for many years. In reply to the Commissioner, he was informed that the Department did not see its way to grant an application of this kind, as if such authority were given, it would, judging by past experience, entail expense in the near future, either for the maintenance of pupils or the erection of buildings, and would ~~virtually~~ virtually be opening the door to the establishment of a new boarding school on the same lines as those already in operation.

R. S. McKenzie Esq
Indian Agent.
Côte Assa

Sir,

We, the undersigned, Indians of Kiskikewis Reserve, Pelly Agency, beg leave to send you this petition for a Boarding School in our Reserve.

Our reasons for asking are as follows:

We have over 30 children of school age in this reserve, and of this number there are about 24 whose parents are very anxious to comply with the Government's wishes by giving them a good education.

On Côte and Key Reserves there are 8 children who are Catholics and who are intended by their parents to be sent to a Catholic school; but without a boarding school, it is impossible for most of these children to have any education, the majority being too far to attend the day-school regularly.

We could send our children to Qu'Appelle, but it is too far and anyone who knows the Indians is perfectly aware of their weak constitution. Of all the children we have sent to the Qu'Appelle Industrial School but two are living, all the others died there or came back to die on the Reserve.

With this prospect before us it is hard to expect us to send our young children so far away, as in all probability many of them would go there and die without the comfort of both parents and children.

On the other hand we are quite prepared to send them there to complete their education when they are strong enough and advanced in age and learning.

The Reverend Father Decorby, the Priest in charge of our spiritual welfare in our Reserve, is trying to build a big house suitable for a boarding school and this building is in a convenient location for all of us. We understand from the Reverend Father that it will be ready for occupation about the middle of the coming summer, if the governments grant is favourable; thus the expense of building will not be required of the Government.

Our neighbouring Reserve, Côté, has a boarding school, and a good one of its class, and were are pleased that they have this advantage. If the same could be obtained for us, we would be grateful for the Department.

Trusting you will kindly lay this matter before the Department of Indian Affairs at your earliest convenience for their kind consideration.

We remain your petitioners

herewith a petition received from
the Indians of Kisiickone reserve
praying for assistance from the
Department in the way of a grant
(per capita) towards the maintenance
of a Boarding School on their reserve
under the direction of the Roman
Catholic Mission.

I would respectfully
recommend the establishment of
this school for the following reasons.

1. Owing to the peculiar shape
of the reserve it is impossible to
have a day school situated in
a place convenient for all parties.
2. On the Northern part of this
Reserve quite a few families

P.S. I may point out that taking into consideration the teacher's salary, 130 pounds &c.
 repairs & maintenance of building that the money thus expended is practically
 thrown away when compared with the results obtained from the day school on
 this reserve.
 R. S. McKenzie
 C.A.

when they are away take their children with them having no means of leaving them in the vicinity of the school.

3. The day school as taught at present is useless as an educational factor, the attendance being ridiculously small, and in any case the education of these children in habits of Thrift & discipline is certainly not taught at their homes, but would be so at this school.

4. I may say that the building erected was at the sole cost of the mission & the department has not been asked to contribute to the cost.

In conclusion I beg to state that the Rev. Father De Carby informs me that the school will be ready for operation by the 1st July. I do not think the number of pupils who will attend will exceed 20 & in any case could a grant be allowed for 15 or 20 pupils I am sure it will be of great benefit to these Indians whose children are at present practically receiving no education.

I have the honour to be

Sir

MAR 26 1902

The Secretary

Mr Agent McKenzie forwards a petition from the Indians of Keeseekouse reserve asking for the establishment of a boarding school there. A similar application was received a few days ago from His Grace the Archbishop of St Boniface on which I prepared a memorandum on No. 1 of this file which is now before the Deputy Minister.

Some years ago they had an excellent day school on this reserve with an average attendance of over 20 and Agent Herchmer in his report for '85 stated that the Keeseekouse Band possessed the most successful school he had yet seen and if it has been allowed to run down it is not the Department's fault. Father DeCorby, who is missionary in charge of this reserve and who prepared the petition now under consideration states that "we could send our children to Qu'Appelle, but it is too far and any one who knows the Indians is perfectly aware of their weak constitution. Of all the children we have sent to the Qu'Appelle Industrial school but two are living, all the others died there or came back to die on the reserve".

Mr Agent McKenzie in his last annual report says that "the general health of the Indians has not been as good as in former years the cause being traceable to pulmonary troubles and a good deal of mortality amongst the children, the result of measles."

"A

Mr Grant: When I made my note in the memo of the 18th re this school I did not know this report was in from the agent. I think however it would be well to have a fuller report on the lines indicated in the memo. The objection which has occurred to me is that the school is too far from the reserve.

W. J. McKenzie
25 March 1902

School
26/3/1902

"A certain number of chronic cases suffering from
"scrofulous tuberculosis are attended by the medical
"health officer, Dr Cash, on his several visits; How-
"ever but little can be done for this class of patient
"toward a permanent cure, although the doctor is very
"earnest in his work and gives a great deal of care
"to those he attends".

It would seem, therefore, that it would not
be wise to bring children who are likely to be so
weakly together in a boarding school.

Ex'd.

OTTAWA, 10th April, 1902

Sir,

Several applications have been received for a grant for the establishment of Roman Catholic boarding school near Keeseehouse reserve, which up to the present have not been complied with. The Department is advised that Rev. Father DeCarby, Roman Catholic missionary on the reserve, has put up a building for this purpose and His Grace the Archbishop of St Boniface has applied to have the school recognized with a grant for 25 pupils. Mr Agent McKenzie lately forwarded a petition from the Indians for recognition of this school.

A protest has, however, been received from Rev. Dr Baird against the establishment of the school and the Department would, therefore, like you to be good enough to report as to the necessity for it. No action will, however, be taken towards its establishment this year.

I have the honor to be, Sir,

Your obedient servant,

"A couple of years ago the Roman Catholics asked permission from the Government to build a boarding school on the Keeseekouse Reserve, about four miles from the Agency. This permission was not granted, so they selected a spot, just off the reserve to the East, and started building.

Now they have their building almost completed and with their usual persistence, they are going to worry the Government into giving them a grant, and it will require all that we can do to prevent it. If they get it opened it will be a decided injury to us.

Quite recently the priest gave the Indians provisions to have a feast and a palaver that they might talk up the matter and urge upon the Government to give them a boarding school. I have a report of that meeting and am told they counted 23 children they could put in the school to begin with. But of these 23 children 7 are pupils of our school. One of these seven belongs to the Roman Catholics and if they had a school they would have a right to claim him. The other six are the children of one man, a hunting pagan Indian. He is not a Roman Catholic and we have helped him continuously in the matter of clothing for many years. But the Catholic school would be within about four miles of his home and would of course be more convenient for him when he wanted to see his children. At the meeting he, while acknowledging our kindness to him for so long and our good care of his children, expressed himself anxious to have his children that much nearer home. If they can worry the Government into giving them a grant, there is no doubt a strong effort will be made to take this family from us. And that will only be the beginning of the trouble. We have in school children of

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

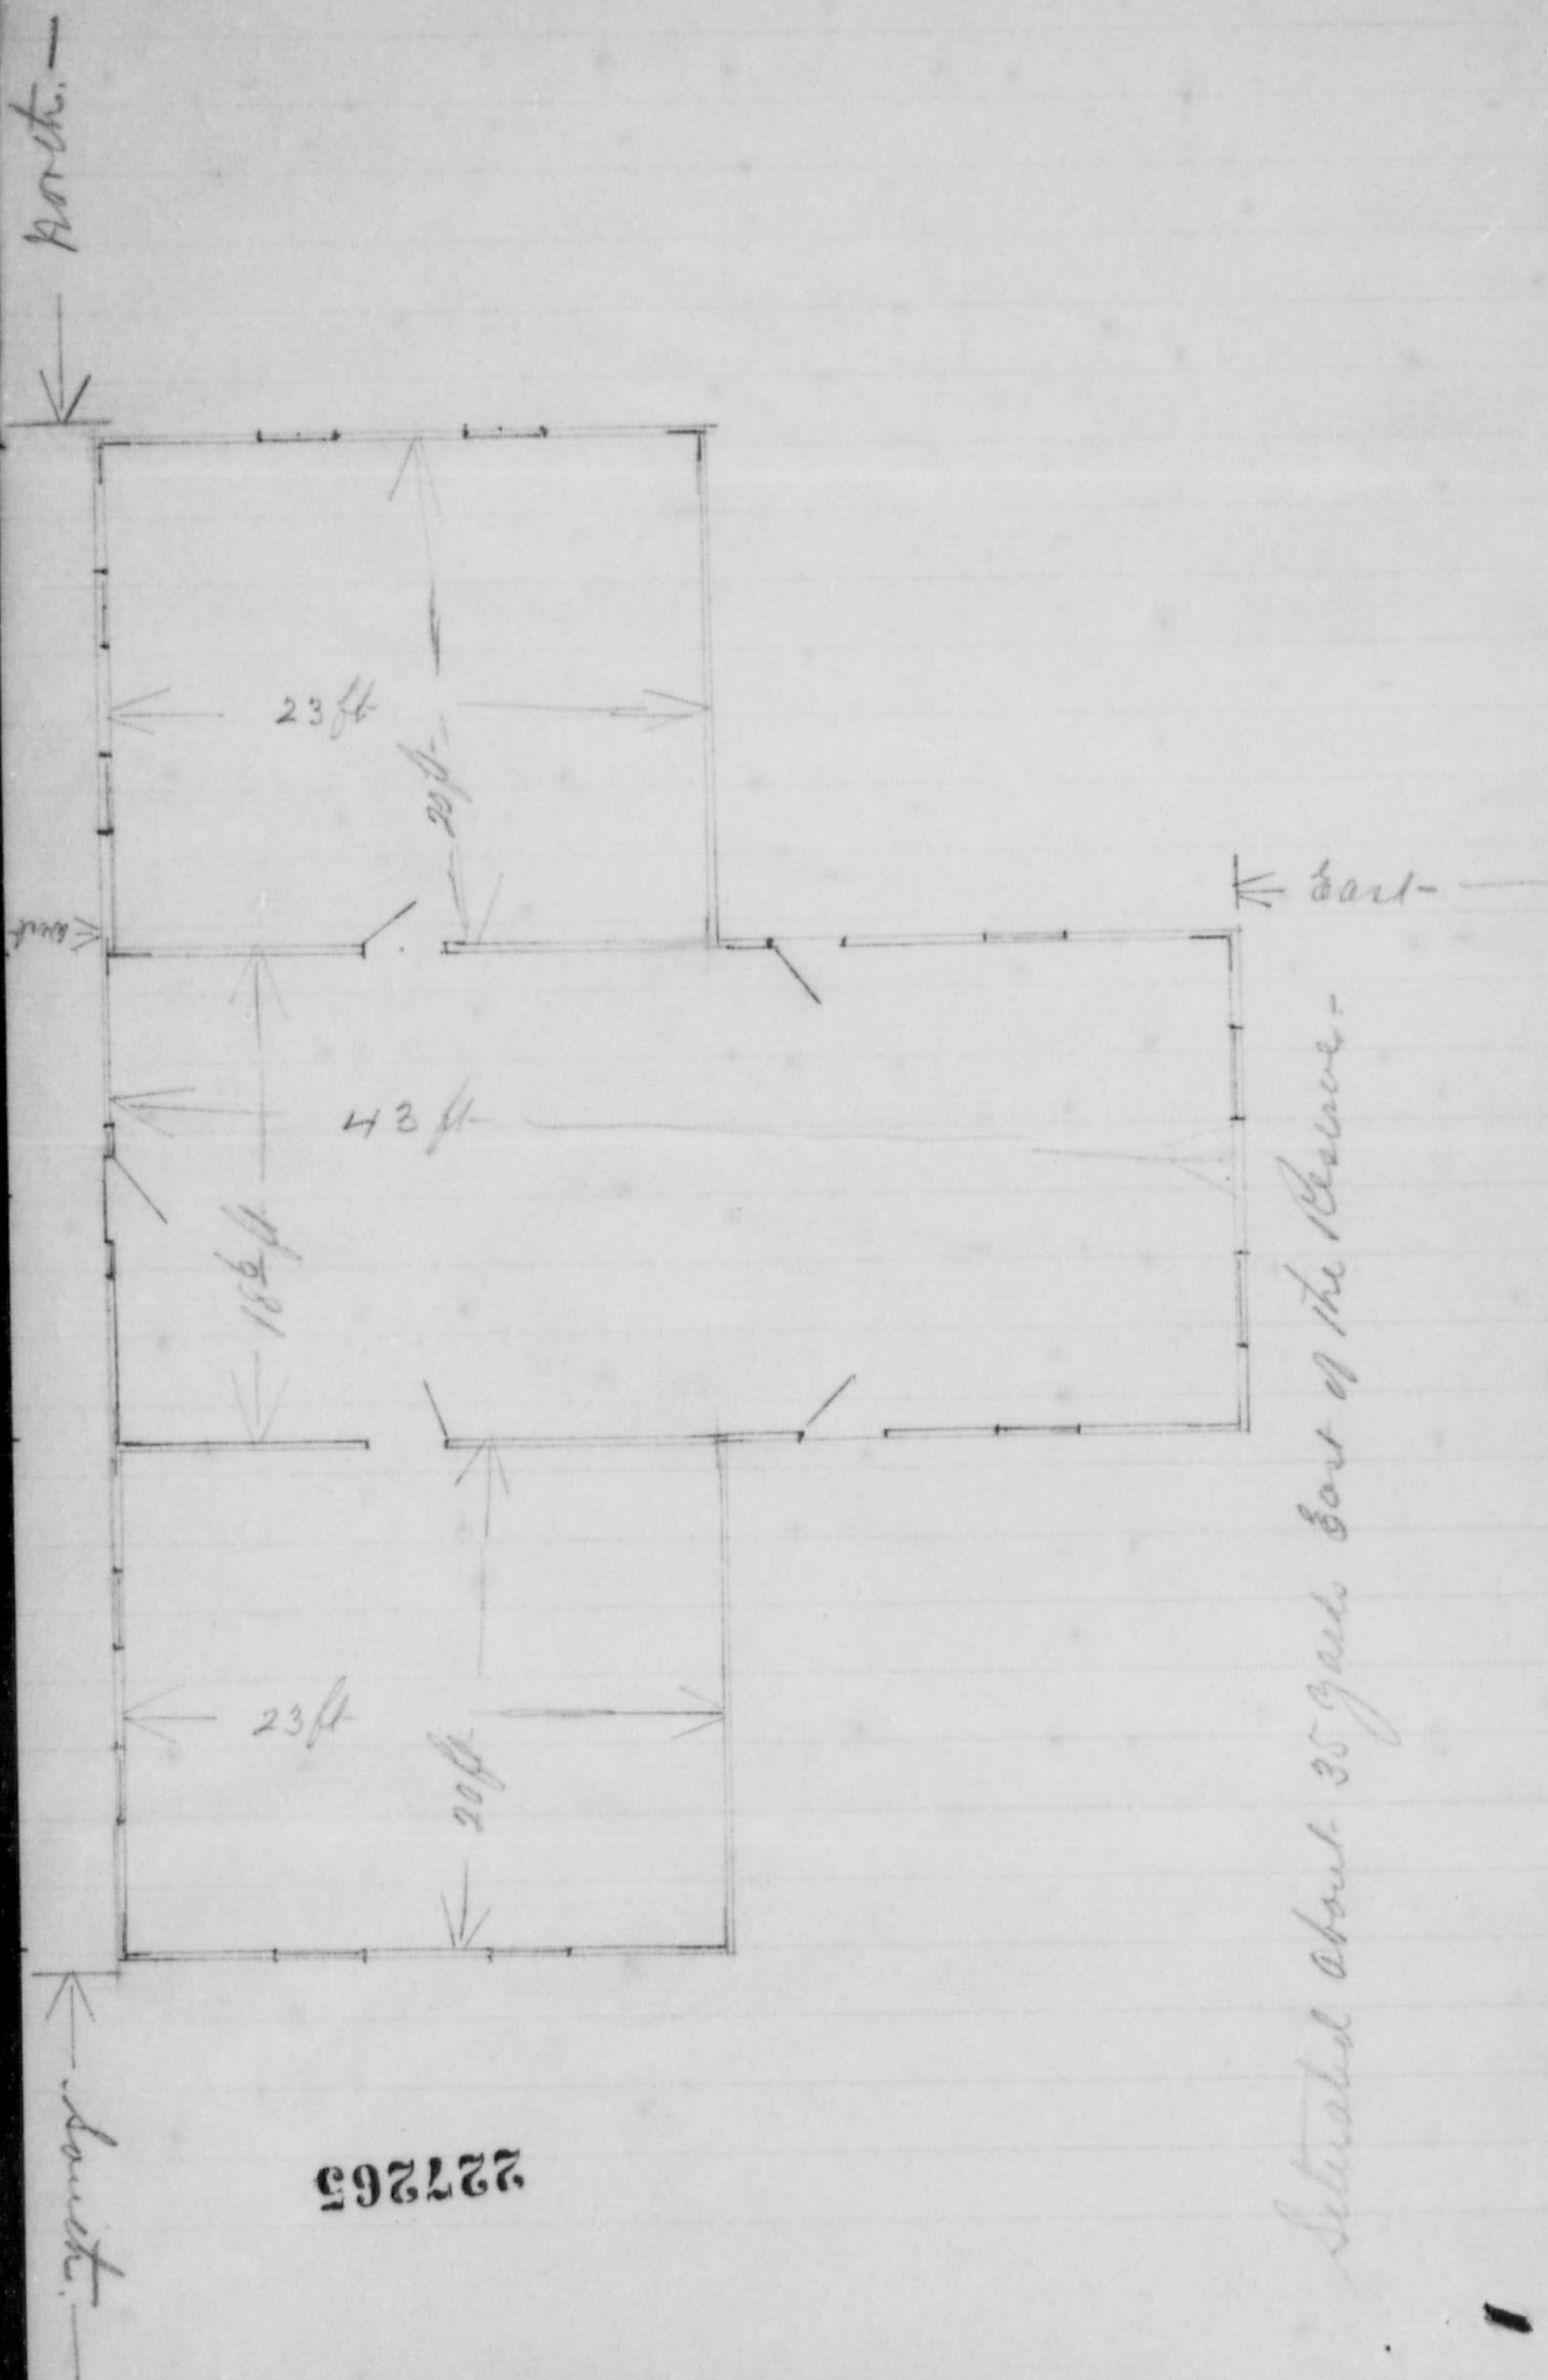

dians who have not joined any Church and whose children were not baptized. Now the Priest is after these people and getting them to permit him to baptize those smaller ones of the same family at home, so that he can claim them when they are grown old enough for school.

Then too it is going to spoil the Indians having the two schools so near. Both schools will want to get the children, and the Indians are cunning enough to take advantage of that and grow very unreasonable.

No doubt the Catholics are now after the Department, trying to get a sum placed in their estimates for next year, so that it would be well to take action at once if you think anything can be done to prevent the Government giving them a grant other than they have already for their day schools."

Lch

Sir,—

which will be rough cast on the outside & plastered on the inside

I have the honour to acknowledge the receipt of your letter above quoted relative to the proposed establishment of a boarding school on the Kivichane Reserve.

In reply I beg to report as follows—

The building is of logs on a stone foundation chink plastered on the outside, sleepers & joists on but no flooring laid down yet. Roof on, also doors and windows well along. 42 x 18 x 6. Lime, Sand, & Lumber on the premises. I enclose a sketch giving an idea of the size and shape of the building. The ceilings are 9 feet high upstairs & down.

The Building is distant two

The Secretary
Dept of Indian Affairs
Ottawa.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

two miles and one quarter east
of the old day school and about
35 yards off the Reserve.

I must say that the present
day school from an educational
point of view is no use & I
consider its maintenance but
a waste of money.

A great many Indians
on this Reserve are hunters &
when they go hunting, take all
their family with them therefore
the attendance is irregular,
whereas if a boarding school was
in operation the parents would leave
their children there & a good many
more whose children have never
even attended day school on
account of the distance from their
homes would be willing to send
their children where they knew
they would be well cared for.

In respect to the health
of the Indians on this Reserve
they certainly are predisposed
to Scrofulous tuberculosis, but
I think that owing to the school
being in the locality where
they have been brought up
& seeing their parents occasionally
would have the effect of
making them cheerful, happy
and contented & they would have
more

227265

more freedom than in an
Industrial school & Their numbers
fewer.

The Rev. Father DeCorry
expects to have the building ready
for occupancy in about three
months & he also intends to
move the mission to that point
& also erect separate buildings
for the staff required.

If provision could be
made to cover a grant towards
the maintenance of 12 or 15 pupils
to start I think the Rev.
gentleman would be very
thankful & I really think if
any education is intended for
the children on this Reserve
a Boarding School on the
Reserve or nearby is the only
advantageous method of
obtaining the best results.

The Rev. Father also informs me
that the school will be in the hands
of Sisters & 1 brother which no doubt
will be satisfactory.

I have the honour to be
Sir,

Your oth Servt

with them & in consequence
the children cannot attend
school.

Another factor in the
case is the rambling, straggling,
shape of the reserve which
renders it an impossibility to
place a day school within a
convenient ^{distance} ~~place~~ for all.

With regard to the former
attendance at this school, on
looking back to old returns, I
find the highest average to be
7. (In 1892) Prior to this I
do not know what the
attendance was, as there are
no earlier returns on file, in
this office. The latest return has
an average of 5.6, making only a
difference of 1.4 in 10 years.

for Manitoba and the Northwest Territories

In your reply refer to
No. 134/G
and date of this letter and
address
Hon. David Laird,
Indian Commissioner,
Winnipeg, Man.

Winnipeg,

30 Oct. 1902.

234562

Sir,

184,487

Referring to your letter of 10th. April last asking me to report on the necessity of establishing a Boarding School near Keeseekouse reserve, Pelly Agency, I may say that when Mr. Agent McKenzie was here a few weeks ago on his return from Ottawa I discussed with him fully the application for a per capita grant for said proposed Boarding School. He said there is a number of R.C. children in the neighborhood but as not a few of these are diseased and would not pass the necessary medical admission examination, he thought at present not more than ten on the reserve are sufficiently healthy to be taken into such a School as pupils.

In view of this information, I am of opinion that the recognition of a Boarding School at the place named may be postponed for a year or two.

Your obedient servant,

D. Laird
Indian Commissioner.

Department of Indian Affairs,

OTTAWA, 4th November, 1902

Approved
For Secy
The Secretary:-

Memo. re application for grant for the establishment of a Roman Catholic boarding school near Keeseekouse reserve.

The question of the recognition of this school has been before the Department since May 1899 and up to the present time it has not been favorably entertained. In April last the Indian Commissioner was asked to report as to the necessity for this school. He replies under date the 30th ulto. that after having discussed the question fully with Mr Agent McKenzie, he is of opinion that the recognition of this school may be post-poned for a year or two. He bases his opinion on the ground that there are not enough healthy Roman Catholic children in the neighborhood to justify it. If the Department concurs in the Commissioner's view, His Grace, the Archbishop of St Boniface, who has been urging the claims of the school, should be advised.

To Minister

Approved

Department of Indian Affairs,

OTTAWA, 12th November, 1902

The Secretary:-

With reference to the request of His Grace Archbishop Langevin for a grant for 10 boarders for a Roman Catholic boarding school at Fort Pelly (St Phillip's) I beg to say that applications have been made for the establishment and recognition of this school, which has been built near the Keeseekouse reserve, since May 1899 when Rev. Father DeCorby, missionary at Ft. Pelly forwarded a request to the Rt. Hon. the Premier for permission to build a boarding school on Keeseekouse reserve. This application was not favorably entertained and in June of that year the Premier was advised, in reply to a further communication addressed to him by Father DeCorby, that the Department did not consider it necessary that a boarding school should be established at this point.

His Grace Archbishop Langevin again brought this matter to the attention of the Department in 1901 when the Minister approved of the action already taken by the Deputy Superintendent General and directed that His Grace should be so informed and advised of the reasons as to why it was not considered expedient to accede thereto, which was chiefly on the ground that there were not enough children on the reserve to justify its establishment. His Grace renewed his application on the 6th March 1902 and on the 29th of that month he was informed

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

that the Department had not sufficient information to enable it to arrive at a decision before the supplementary estimates would be submitted to Parliament, but that steps would be taken to officially enquire into the educational needs of these Indians. The Indian Commissioner, who was directed to make the necessary enquiries reported on the 30th ulto. that after consulting with Mr McKenzie, who has charge of the Pelly Agency, he is of opinion that the recognition of a boarding school at this place might be postponed for a year or two as the Agent informed him that not a few of the Indian children are diseased and could not pass the necessary medical examination, there not being more than ten on the Reserve sufficiently healthy to be taken into such a school.

On the 4th instant the Commissioner was advised that the Department approved of his recommendation that the recognition of this school be postponed.

The Archbishop's statement that there are thirty children regularly going to school is not borne out by the Agent's report. The Roman Catholics have a day school on Keeseekouse reserve which is not well attended at present although some years ago it was in a prosperous condition. It is not the Department's fault that it has been allowed to run down and I think that if the missionary was as anxious to keep up the day school as he is to obtain recognition for the boarding school, much better results would follow.

There is no use disguising the fact that it is more in the interests of religious bodies carrying on ^{mission} ~~religious~~ work among the Indians to extend

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

the boarding school system at the expense of the day school. The Indian in this district are chiefly hunters and their children will have to follow the same pursuit, and as I have frequently pointed out life in a boarding school is not the best means of fitting them to follow the chase.

I am of opinion that Indian education should be adapted to the mode of life of the Indians. They can obtain the rudiments of an English education at day schools, which is all the nomadic Indians will ever require. Boarding schools are best suited to the needs of Indians who are likely to take up farming and follow the white mode of life, while Industrial schools should only be for such Indians as are likely to come into closer contact with the whites.

The Department has knowledge that a building has been put up with the intention of carrying on a boarding school, but no encouragement was ever held out to the Church authorities that they would be recompensed for the building or furnished a grant for the maintenance of pupils. In fact they were not allowed to put up their building on the reserve. A protest was received from Rev. Dr. Baird, of the Presbyterian Missionary Society against the recognition of this school, as a boarding school is conducted by that Society at Crowstand in this neighborhood. The only weight that could be attached to this protest was that there was no possible need of a second school there for the Roman Catholics.

Limiting their request to a grant for ten pupils, as I take it for six years, is only another way for inserting the thin edge of the wedge as past experience shows that if a school is once recognized

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

there is practically no limit to further demands.

The Archbishop's postscript that the local Agent and the Indian Commissioner are both in favor of this school is not borne out by the Commissioner's report above referred to.

Indian Commissioner

for Manitoba and the Northwest Territories,

Winnipeg, 16th February 1904.

In your reply refer to
No. 64/38
and date of this letter and
address
Hon. David Laird,
Indian Commissioner,
Winnipeg, Man.

Sir, -

116,751

I beg to refer to my report of the 28th of April last upon the proposal from the Church authorities to take over the St. Boniface School and to substitute therefor boarding schools. The proposal was to build three boarding schools, each to cost \$11,174.27, and convey the same to the Government; the per capita grant now provided for the St. Boniface School to be divided among these three and the boarding school erected in the Pelly Agency near Keeseekouse's reserve. The suggested division was as follows:- The proposed school at Fort Alexander to be allowed 45 pupils, that at Sandy Bay 42, that at Fort Francis 40, and the school at Pelly 25.

Not knowing whether the proposal would be entertained, I reported after my visit to Pelly in favor of provision being made for paying a per capita grant to the School at Keeseekouse. Provision was accordingly made in the draft estimates for fifteen pupils at \$72.00 per capita, and a copy of my memorandum in the matter was attached. When in conference with the Minister on the estimates I learned that the proposal for the taking over of

The Secretary,

Department of Indian Affairs,

Ottawa.

the

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

-2-

the St. Boniface School had been favorably entertained and I then stated that as this proposal included the apportioning of a part of the St. Boniface grant to the new School at Keeseekouse, it would not be necessary to make a special provision in the estimates. The Minister agreed with this, and the amount was struck out.

Father Magnan has to-day applied for payment on account of the pupils of the School at Keeseekouse out of the St. Boniface grant. The last return shows that there are 69 pupils at St. Boniface. 100 pupils are provided for. There are therefore funds immediately available for paying for up to 25 pupils at the new School. When at the Pelly Agency in the Fall I visited the School I found a number of children there well provided for. The building is a substantial and commodious one that can easily accommodate 25 pupils. I do not know whether that number has yet been secured, but I do not think there will be any difficulty in securing the full attendance.

I would therefore recommend that a per capita grant of \$72.00 be allowed to the new School at Keeseekouse's out of the grant for the St. Boniface Industrial School, and that returns be sent to Father De Corby, the Principal, so that he can report the number of pupils in attendance for the quarter beginning the 1st of October.

It is of course understood the St. Boniface grant will be lessened to the extent it

is

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

OTTAWA, 24th February, 1904

Carb

The Deputy Superintendent General:-

The Assistant Indian Commissioner writes under date of the 16th instant recommending that a per capita grant of \$72.00 be allowed for the new Roman Catholic boarding school at Keeseekouse, out of the unearned grant made for the St Boniface school, and that the Principal be authorized to fill in a return from 1st October last in order to draw this grant for 25 pupils, if he has that number in attendance.

This school has been put up without consulting the Department or obtaining its consent, and if we accede to the request it will be another case of recognizing the right of the Roman Catholic Church to open boarding schools when and where they please and then obtaining the recognition of the Department by the voting of a per capita grant.

You will see by the second paragraph of Mr McKenna's letter that he discussed this matter with the Minister and that no special provision is being made in next year's estimates for this new school, but there is nothing on file to show that the Minister consented to the above proposition.

MEMORANDUM:

For the Deputy Supt. General of I.A.

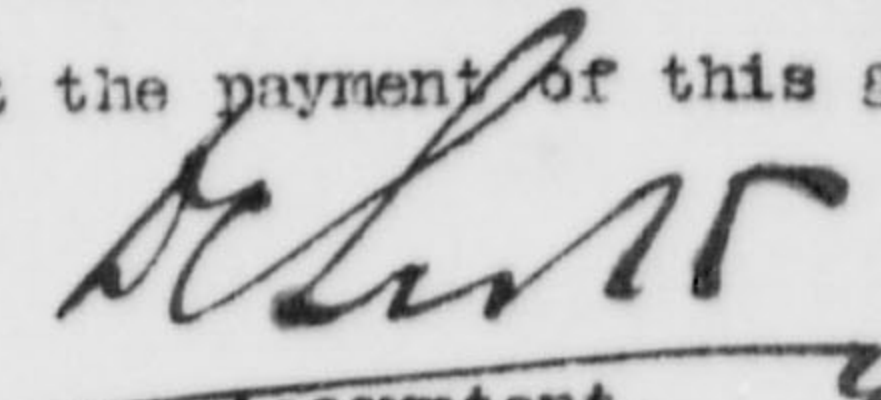

The new Roman Catholic Boarding School on the Keesee-kouse Reserve at Pelly figures in the agreement for the transfer of the St. Boniface Industrial School property.

It is so far recognized that we are pledged to pay for 25 pupils at \$72 from the grant for the St. Boniface Indus. School. By admitting the Pelly School into the organization of the St. Boniface matter, we have virtually recognized it even though we did not agree that the building should ~~actually~~ be erected. The only point for us now to decide is whether we are agreeable to beginning the grant at once instead of at a date when the remaining features of the agreement become operative.

I take it that the Ass't. Commissioner's statement that there are 69 pupils now at St. Boniface is correct, although Mr. Benson/s has not said so., I know that 100 pupils are provided for, and if the actual attendance is 69, there is a considerable surplus.

I am as much opposed as ever to recognizing unfounded claims from denominations for new schools, but in the present instance we have virtually recognized the school, and it might be considered a hardship if we were to refuse to assist it with a per capita grant now that it is in working order.

The Ass't. Commissioner's report states that the children were well-provided for and that the building is substantially ~~is~~ & commodious. Taking all the circumstances into consideration, I do not feel disposed to stand out against the payment of this grant.

Accountant.

Schools

Office of the
INDIAN COMMISSIONER
for Manitoba and the Northwest Territories.
Winnipeg, 21st March, 1904.

Sir,-

120,078

The Department's letter of the 15th instant, respecting my recommendation that a grant be made to the new Boarding School at Keeseekouse's Reserve out of the unearned grant for the St. Boniface Industrial School, came to hand just as I was being interviewed by the Rev. Father De Corby in respect to providing for the fifteen Indian pupils at the new Boarding School. I read him the letter which was quite a disappointment to him.

I went into the whole question of the proposed exchange of the St. Boniface Industrial School building for three Boarding School buildings, and the division of the grant now made to the St. Boniface School among four Boarding Schools, and I had no idea at all that under the arrangement made none of the grant of the St. Boniface School could be deflected until an exchange of properties was effected

As stated in my letter to you of the 16th ultimo provision was made in the estimates for the coming year for paying for 15 pupils at \$72.00 per capita at the Boarding School at Keeseekouse's, and it was only struck out of the estimates because it was understood by the Minister that the arrangement in regard to the exchange of the St. Boniface School building and the division of the grant admitted of

the

-2-

the proposed grant for the School at Keeseekouse's being paid out of the grant for the St. Boniface Industrial School. It was part of the policy adopted this year of using the unexpended balance of the School vote to meet increasing demands instead of enlarging the appropriation year by year without taking into account the extent to which it annually lapsed. If it had been for a moment supposed that provision could not thus have been made for the School at Keeseekouse's the item would have stood in the estimates and money would have been available therefore to have paid for 15 pupils at that School from the 1st of July next. If nothing can be done until the exchange of properties is effected the School will be without a grant for a couple of years, because we cannot expect that the Church will erect and completely equip three large boarding school buildings much within that time. In fact, I am given to understand that the authorities do not expect to have the buildings in a position to hand over much before two years.

It strikes me that if our object is to have the Indian children educated we should gladly avail ourselves of the opportunity offered by the erection of the School by Father De Corby rather than imperil its success by refusing to pay it the regular grant out of money that is lying idle.

Your obedient servant,

J. A. McNeill
Asst. Indian Commissioner.

P.S.- It has occurred to me that possibly the Department has overlooked the fact that this School is not in a building that is to be exchanged for the St. Boniface Building. It is only to share in the grant.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

Referring to my letter of the 21st of March last, I beg to transmit herewith quarterly return of the attendance at the boarding school on Keesickouse's Reserve, which Father De Corby has forwarded in the belief that the application for payment of the ordinary per capita grant under the arrangement for the transfer of the St. Boniface School property would be entertained.

On the 5th of April my letter of the 21st of March was acknowledged, and I trust the consideration which the Department has since been able to give the question has led it to concurrence in my recommendation that the school be recognized and the per capita grant paid.

I have returned the applications for admission to the school so as not to commit the Department by passing upon them in advance of its decision.

I may add that I visited the school shortly after it was opened, and was greatly impressed with the good work that Father De Corby was doing. I am pleased now to be able to give this extract from a report of Dr. Cash, - "May 30th. Was spent on Keesickouse Reserve, and "in visiting St. Phillip's Indian School. I was very much pleased

In your reply refer to
No. 64/38
and date of this letter and
address
Hon. David Baird,
Indian Commissioner,
Winnipeg, Man.

Sir, -

I have your letter of the 14th instant, in which you state that the Department cannot recede from the stand taken on the application for payment of a per capita grant to the Keeseekouse's Boarding School.

I beg to submit that when I presented to the Minister the estimates for the Indian service in the West, there was a provision in the said estimates for a grant of \$72.00 a head for 15 pupils at this School. The Minister took no objection to the provision; but agreed with me that as this was one of the schools to participate in St. Boniface grant, it would be better to strike the item out and pay the amount out of the unused portion of the St. Boniface grant, as the agreement for the exchange of the St. Boniface property for boarding schools and the division of the grant was approved, and the providing by Parliament, pending the formal transfer of properties, of a grant for the Keeseekouse's Boarding School might complicate the matter.

You will see at a glance that to now debar the Keeseekouse's school from any aid until the three new boarding schools are completed and transferred to the Government would be a great hardship and a violation of the understanding on which the amount was struck out of the estimates; for it was struck out not merely because of the arrangement

The Secretary,
Department of Indian Affairs,
Ottawa.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

-2-

arrangement in regard to the St. Boniface School, but because it was considered that under that arrangement money was made available to ^{at once} admit of the contribution being made which it was the design of the provision in the estimates to provide for the School.

I feel quite sure that if the matter is submitted to the Minister he will recall what took place between us at the time that the estimates were before him in regard to this school. I am afraid if assistance is not given to Father De Corby he will be unable to continue the school, ^{a result which would be} to the great disadvantage of the Indians in that part of the Country, and that even if he succeeds in keeping it open he will be so crippled at the start as to permanently interfere with the success of the institution.

Your obedient servant,

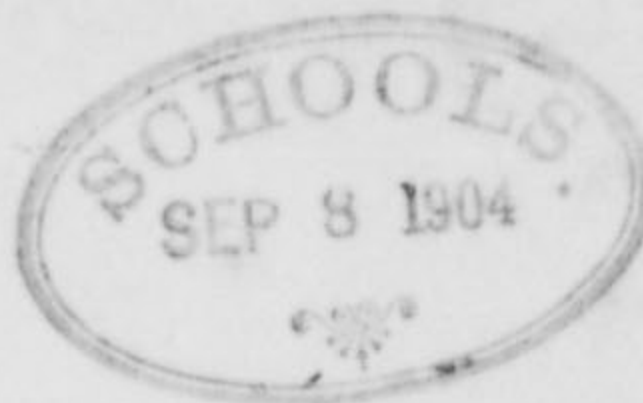

J. M. Newman
Asst. Indian Commissioner.

OTTAWA, 28th July, 1904:-

The Deputy Superintendent General:-

The Assistant Indian Commissioner has been informed repeatedly that the Department will not be prepared to pay a per capita grant to the Keeseekouse school until the proposed exchange of St Boniface Industrial school for four boarding schools is consummated. I do not see, therefore, that his letter underneath calls for any reply. It is for the Asst. Commissioner to bring this matter to the attention of the Minister.

Mark Benson

OTTAWA, 27th February, 1905

Sir,

In answer to your verbal enquiries of to-day regarding the Roman Catholic boarding school at St Philip's, Ft Pelly, near the Keeseekouse reserve, I beg to say that up to the present this school has not been recognized by the Department and no grant can be made until the arrangements for the transfer of the St Boniface Industrial school to "Les Reverends Peres Oblates" of St Boniface, Man. are carried out. The undertaking with the Oblate Fathers is that they shall erect three boarding schools at Sandy Bay, Fort Frances and Fort Alexander in exchange for the above property. The present per capita grant for the St Boniface school is at the rate of \$110.00 for 100 pupils, in all \$11,000.00 and this grant is to be divided at the boarding school rate of \$72.00 per cap. as follows:-

Sandy Bay, , , , , 42 pupils		\$3,024.00
Fort Francis. . . 40 "		2,880.00
Fort Alexander. 45 "		3 240.00

In addition to this, a proportion of the grant remaining may be applied by the Oblate Fathers to a fourth school, which was nearly completed at Fort Pelly when the agreement for the transfer of the property was

made

Dear Sir :-

With reference to your favour of the 6th inst. with inclosed letter from Mr. E. A. W. R. McKenzie, ^{herewith returned} of Fort Pelly, regarding the Rev. Father DeCorby's mission there and certain trading operations he is said to be conducting, I beg to say that Father DeCorby is Principal of the Roman Catholic boarding school (St. Phillip's) Fort Pelly, near the Keeseekoose reserve, but that up to the present this school has not been recognized by the Department and no grant has been made prior to the 1st instant. This is one of the schools which is to be handed over by the Reverend Oblate Fathers of St. Boniface in exchange for the St. Boniface Industrial School and when the transfer is consummated a portion of the grant now paid to the St. Boniface School, amounting to \$1,800.00 annually, will be available for this school.

Yours very truly,

Frank Pedley

Deputy Supt. General
of Indian Affairs.

E. L. Cash, Esq., M.D., M.P.,

House of Commons,

In your reply, refer to
No. 122/88

and date of this letter and
address

Hon. David Laird,
Indian Commissioner,
Winnipeg, Man.

PXH

[Handwritten signature]

See 116751

Sir,

I am forwarding returns from the Keeseekouse Boarding School, Pelly Agency, for the September, December, March and June quarters last. In this connection I beg to say that this school is one of four handed over to the Department in exchange for the St. Boniface Industrial School, which was closed with the consent of the Department on the 1st. of May last. I would refer you to your letter of the 14th. of July 1904 in this connection, distinctly stating it was not to be recognized until the completion of the above exchange.

I20078

On the other hand there may be a balance of the appropriation made for the St. Boniface School and the Department may see its way to use it partly in compensation of the work already done, or at least from 1st. of May last, when I was authorized to transfer the St. Boniface School pupils to the schools to be opened in its stead.

Your obedient servant,

Laird
Indian Commissioner.

Secretary,

No 122/88

Rev Sir,

Referring to your interview here on the 16th instant, I am advised that a cheque has been issued by the Department for the payment of the grant of the Keeseekoose's school for the year ending June 30th 1905, on the basis of a Day school. This cheque is being forwarded under separate cover -

I am also informed by the Department that the Boarding School grant for this school will not be paid until the completion of the Oblate Fathers' bargain with the Department for the exchange of the St Boniface School -

Yours truly

Affairs, Ottawa

Dear Mr. Pedley
I beg to enclose you copy
of a letter from Mr. Lash, Secretary
to the Indian Commissioner, addressed
to Rev. J. Secorby, stating that the
grant for the Keeweenaw Indians
could not be paid at present.
I believe there is a misunderstanding
between Mr. Lash and the Department,
as if I remember well, it was
understood that said grant would
be paid. Hoping you will do me the
favor of rectifying this matter,
I remain
Yours sincerely
J. A. Heston

10.11.1905

Ottawa, November 23, 1905.

Dear Mr. Cyr,-

Replying to your letter of the 11th inst. I beg to say that the Department has decided to recognize the Keeseekoose Boarding School as entitled to share in the per capita grant at present provided for the St. Boniface Industrial School to the number of 25 pupils at \$72 each per annum from July 1, last. This grant will be paid upon the receipt of the usual quarterly returns showing the attendance. I may add that the Indian Commissioner has been advised accordingly.

Yours very truly,

Deputy Supt. General
of Indian Affairs.

J. Ernest Cyr, Esq., M.P.,

Winnipeg, Man. February 22nd. 1908.

The Superintendent General of Indian Affairs,
Ottawa, Ont.

Sir,

I beg to submit to your consideration the following projected improvements for the Boarding School situated at Fort Pelley, Cote P.O. Sask. The present school which was built at the Mission's expense and a plan of which accompanies this letter has become altogether too small to accommodate the staff and authorized number of children (25). Moreover the present buildings are primitive and something more up-to-date and comfortable is very desirable. We propose building an extension to measure 30 X 45 ft. Here the boys could be provided with a suitable dormitory and recreation hall and the class room and infirmary could find place.

I take the liberty, in consequence, to petition as follows:-

1st. That a grant of \$3,000.00 be made towards this building.

2nd. That the sum of \$1,000.00 be granted to provide a hot air furnace for said building.

3rd. That the number of children be increased from 25 to 35.

4th. That the capitation be increased to \$100.00.

I may add that Mr. Inspector Graham is in favour of the proposed improvements and is ready to give them his support.

I have the honour to be

Your obedient Servant,

J. H. Fortin

OSTH Ottawa, 22nd February, 1908.

Reverend Sir,-

I have to acknowledge receipt of your letter of the 23rd of January asking for certain financial assistance to the Boarding School situated near Fort Pelly in Keeseekoose Reserve; and in reply I have to draw your attention to the fact that the number of pupils at this school is regulated by Order-in-Council of February 8th, 1904, which authorized the transfer, under certain conditions, of the St. Boniface Industrial School. The number of pupils for the Fort Pelly School is placed at 25 and I am inclined to let it remain at that figure. At present I do not feel inclined to authorize any additional capital expenditure for Boarding Schools in the way of increased accommodation which will lead to a larger pupilage.

8

The question of an increase in the per capita grant for Boarding Schools is receiving consideration by the Department, and you will be advised in due course if it has been decided to give any general increase.

WCS

It is not clear from the second clause of your requisition whether the thousand dollars necessary to provide

Rev. Father Poitras,

a hot air furnace is for the old building or the establishment as it would stand with the new addition. If the present heating apparatus is not working properly, it should be overhauled and the proper alterations made, and if an estimate for this work is presented the Department will be disposed to authorize it and bear the expense. It is highly desirable that every Boarding School should be in a thoroughly sanitary state, and if you have any recommendations which will improve the ventilation and general arrangements of the school I should be glad to receive them.

Yours very truly,

Superintendent General
of Indian Affairs.

Sir,-

Referring to your letter of

No.

In connection with the St. Phillips school
I beg to report to the Department that two days ago
I received information that some time ago there had
been young men visiting this school and having the
older girls leave the dormitories under cover of the
darkness, and meet them in the adjacent bush.
Yesterday I visited the school and questioned the
Principal and one of the larger girls and found that
during the month of August, after vacation and after
the Sisters had left and a new and very green staff
was in charge, some seven of the larger girls had on
five or six different occasions left the school at
night and spent over a hour each time in the company
of seven young men from Key's and Keeseekoonse Reserves.
I could not learn that any illicit connections had
taken place but the probabilities ^{point} ~~are~~ very strongly

It is to be regretted that the Principal did not see fit to report this matter when it took place but left it for us to find out months after. He says he came once to tell me but as I was away he overlooked it. He lays the blame on the fact that he had a new staff who trusted the girls and did not take the proper precautions with them. He also lays the whole cause of this trouble on Sarah Kishane, whom he says is a very bad girl and whom he has had discharged during last month. The Rev. Father assured me that nothing like that would happen again as he was now sleeping in the main building himself instead of in the boy's building adjacent. I might add that the school building in general as well as the children are not nearly as clean and tidy as before the Sisters left the school. I hope the new staff will soon become better used to the work and give better satisfaction.

Your obedient Servant.

Ottawa, December 11, 1909.

Sir,-

I have to acknowledge the receipt of your letter of the 4th inst., and in reply I beg to say that the Department regrets to learn the occurrences reported therein.

These matters should have been reported to you by the Principal. This officer is responsible for proper discipline at the school, and as a change of staff evidently took place recently the need for vigilance on his part was much greater.

Your remarks with reference to ~~the reference to~~ the condition of the building and the children are noted, and the Department trusts that you will find a decided improvement when you next visit the school.

The Department would like to have fuller information with reference to the changes in the staff. Your letter gives the impression that the Sisters have left the school and that their places have been taken by others, presumably not members of any order.

The Principal should be advised of the purport of this letter.

Your obedient Servant,

W.G. Blewett, Esq.,

Sir,-

Referring to your letter of December 11, 1909.

No. 184487/I.

I beg to say that, as I reported, the Sisters who were formerly in charge of the work in this school and ~~who~~ were very particular about the appearance of the children and the buildings as well as the moral behavior of the children, and I was very sorry to see them leave as they really managed the whole working part of the school. In place of these there are local ladies of no experience in this kind of work and who apparently let the children do very much as they please, which has had the usual bad result. I have informed the Principal of the contents of your letter above quoted and hope to see improvements at my next visit. I might add that ^{in my opinion} the Principal, who is a pioneer Missionary, and has done faithful work in that capacity for forty years, and who spares no pains or work to carry on his school successfully, has lived so long with the Indian in his roving days, that he is

The Keeseekame Boarding School
June 4th 1910

1
Sch

Sir

I am sorry I have to report again
a sad experience from some ^{of the girls of} the Keeseekame
Boarding School

After an exemplary behavior since last
fall I thought it would not be bad to allow
them to go in a little Indian Camp a couple
of miles from the school to see their parents
after the receipt of their annuities and maybe
have a little money for their small satisfactions.

The Sisters, on account of some extra work
and bad weather could not accompany
them, but I went myself. Every thing
went on all right until about five o'clock
I was always outside washing (we went
to the camp only after dinner). But, as it was
rather cold and raining like I went in
a tent to get warm, I was not very long in.
Maybe 20 minutes; when I came out I
noticed that few of the girls had disappeared
in a little bush near by and that some
of the young Indians who were playing a
little distance, at foot ball, had followed
them. Without delay I was starting
bringing back two big girls and a smaller
one and sending all back to the school.

The girls say that they have been
followed without their knowledge - I
won't swear to that; but I am pretty
sure that nothing very wrong has not
been done by the fact that there have never
been a short time since their disappearance
and that there were too many boys
all boys and girls to tell the truth.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

started to go back at once to the camp all the same. It was a great act of disobedience a very risky step and a very bad example.

The boys were eight; the girls & Indian from the Key's Reserve: 3 from our school: all boys and girls pretty near the same who were were a cause of trouble to our school last fall.

The names of the girls are,
 Mary Stevenson No 2 16
 Helen Dorence No 6 13
 Mary Adelaide Thomas No 5 13

Only one, I think, had in her mind to leave a boy. an Indian from Key's Reserve & with whom she has kept last winter, a secret correspondence until we came to the discovery of it.

The Indian Agent will deal with the boys as he will think proper, but for the girls & boy to ask from the Indian Department: 1. The transfer of Mary Stevenson to the Industrial School of St. Appelle - she is completely an orphan and she wants a protection for the holidays. 2. The discharge of Helen Dorence, if her father does not like to send her to St. Appelle: her father and mother are living. They can take care of her. 3. Mary Adelaide Thomas - is young and we will keep her here.

Hoping that the Ind. Dept. will understand this sad business and be indulgent.

I remain
 Sir your obedient servant

P.X.3

Ottawa, June 15, 1910.

Rev. Sir,-

I have to acknowledge the receipt of your letter of the 4th inst., and in reply I beg to say that the Department regrets to learn of the unfortunate occurrence referred to therein.

In regard to the future of the girls I may say that it is not considered advisable to grant the discharge of Mary Stevenson at present, provided she can be placed in the Qu'Appelle Industrial School. You should communicate with Rev. Father Hugonard with a view to ascertaining whether he has vacancies for her and Helen Quewezance and advise the Department. It will be necessary for you to furnish the Department with certificates that these girls are in good health before the transfers are made, if arranged for.

I regret to have to report on St Phillip's School
as follows:-

On the 3rd inst. the Chief and head men of
Keeseekoonse Band came to this Office and reported to me
that Rev. Father Rouelle, who was assisting Rev. Father DeCorby
at St Phillips School had been intoxicated at the school
and had made a scene there, having taken a rifle and told
those present that he was going to shoot some of them.
Several Indians saw the whole affair and all were very
much annoyed about it. I have been told that the Rev. Father
was very much intoxicated in Kamsack about the same time
also. I tried to see Father De Corby at once but missed him,
he has arranged to see me soon however, when I shall ask
him to report fully to the Department about this matter.
I have been informed that since this happened Father Rouelle
has left and is not likely to return. Two Rev. Fathers have
arrived at the school, I am told, and no doubt are settling
this trouble. It is to be regretted that such a thing did
happen as it will turn the Indians against the school.

Your obedient servant.

Sent to J. D. McLean

Ottawa, November 17, 1911.

Rev. Sir,

I have to acknowledge the receipt of your letter of the 11th instant, and in reply I beg to inform you that Mr. Ogilvie, the Department's architect, will shortly have plans and specifications of the proposed improvements to the Keeseekouse Boarding School ready for transmission. When the additional accommodation called for by these plans is ready the Department will be prepared to provide for forty pupils at this school.

*See
Frank
Hus*

With regard to the Cowessess Boarding School I may say that provided the alterations, improvements and additions called for by Mr. Ogilvie's report on the school are completed with satisfaction to the Department sixty pupils will be allowed at this school, and the same number will be allowed at the Kenora School on the same conditions.

It would be a great convenience if you would let the Department have a separate communication for each school that you may wish to write on.

DEPT. OF INDIAN AFFAIRS,
NOV 18 1911
ARCHITECT.

Your obedient servant,

(Sgd) J. D. McLean

Assistant Deputy and Secretary.

184487-1
Winnipeg. November 13, 1911.

The Superintendent General of Indian Affairs,
Ottawa, Ontario.

Sir:

We beg to lay before you an application to have our Indian Boarding School, commonly known as "Keeseekouse" school, recognized as class "A" school, with an authorized number of 40 children to be received and kept in said school at a per capita grant of \$125.00

If our request is granted, we are now willing to make, as soon as possible, improvements which, we believe, would enable the school building there to rank as class "A" and to accommodate 40 children.

Namely, we would undertake to erect a substantial new frame building, built on a good stone foundation with good basement with cement floor etc; such building to be of a sufficient size to provide accommodation for laundry, bath-rooms, boys recreating room, class room for boys and girls, boy's dormitory, office and rooms for Principal and assistant. We would also remodel the actual building so as to provide ample accommodation for kitchen and dining room, girls recreation room and dormitory, sewing room, isolation hospital, chapel, and sister's quarters. We would have plentiful water supply distributed throughout the whole building, a proper system of sanitary water closets drainage and disposal of sewage, a steam heating apparatus, a system of acetylene gas to light the building, sufficient ventilation in dormitories and class-room.

We have already a sufficient area of land for farm and garden. It would be easy to recruit the number of children for which the authorities is presently asked for and there is no doubt that, with the present staff in charge of the school this school would work in a most satisfactory manner.

We hope therefore that our present request will be favorably considered and granted.

Yours truly,

Les Reverends Peres Oblats.

Mr. Ogilvie

EXCD

Ottawa, November 21, 1911.

Rev. Sir,

In reply to your letter of the 13th instant with reference to the proposed new buildings at the Keeseekoose Boarding School I beg to inform you that the Rev. Chas. Cahill was communicated with on the 17th instant and advised that the Department's architect would shortly have plans and specifications of the proposed new buildings ready for transmission and that, when this additional accommodation is provided, the Department will be prepared to provide for forty pupils.

To deal further with your own letter it is clear that the proposed buildings will entitle the school to be ranked in class "A" and to receive a per capita grant of \$125.00. After the improvements are made they will, of course, be inspected by the architect before the grant is pledged for continuance.

Before the buildings are begun the school can only receive
per capita the rate of \$72 per cap

Your obedient servant,

Assistant Deputy and Secretary

Assistant Deputy and Secretary

Department of Indian Affairs

Ottawa -

203831

Dear Sir,

Referring to the last part of your letter of 21st instant - no. 184487/1 - in which you state that, "until the buildings are begun at the Keeseehouse Boarding School, that school can only receive pay at the rate of \$72.⁰⁰ per capita," we beg to pray the Department to deign to reconsider this matter and to condescend to give a per capita grant of \$100.⁰⁰ for the twenty five children authorized for that school under the old system; said grant to be paid from 1st of April of present year.

We admit that - presently the buildings have not all the improvements and specifications required by the new regulations, but we think that, under actual circumstances, the Department could very well grant our request. The school has now a very good staff and is doing very good work. Taking every thing together we think that the school is provided with the most important requirements.

It is not altogether ^{through} our fault or negligence if we have not started sooner to make the changes and improvements required. As you are aware, we have offered the Department to undertake

to own the school and to do the work. Having received a negative reply, we had to wait - the inspection of your architect, his report and plans, before we could undertake any thing. Now it would not be possible to start the work before next spring on account of the winter.

We may state that we have already incurred considerable expenses - (over \$1,000⁰⁰) this year to improve the school, viz: having a wind-mill erected to bring the water into the school building, purchasing farm horses and implements &c - We have already begun to gather the stones which will be required for the basement of the addition to be built. &c - -

We have shown our good will during the present year by spending very considerable sums of money to improve our other schools and particularly at Kenora where we have spent \$13,000⁰⁰ and at Touchwood Hills where the expenses will reach the sum of nearly \$2,000⁰⁰. On many regards we have certainly done more than we were strictly obliged to do. So we think we are justified to expect that the Department, taking all these things into consideration, will consider favorably our request and grant it.

We are very thankful for the favorable reply received concerning our other schools.

Yours truly -

J. D. McLean Esq.

Asst. Deputy Minister & Secretary,
Indian Affairs, OTTAWA.

Dear Sir:-

Rev. Father Magnan has already replied to your letter of 3rd. inst. (134-487, 1), but I may be allowed to add a few observations. When in Ottawa last spring, I interviewed Mr. Ogilvie as to plans for improvements to Keeseekoose Boarding School, and he told me that, owing to pressure of work, he had not as yet begun on these plans - and I doubt if they are yet ready. I will also observe that, as we had several Schools to improve, it was difficult, not to say impossible for us, to carry on this work simultaneously ^{at} all these points. We gave our attention to Kenora and Touchwood Schools first, where we carried on very extensive alterations, even in excess of what was strictly required by the Department. We have left the Keeseekoose School till the last, as it was the least important one, and because we were somewhat undecided if conditions there would guarantee the expenditure. I think that, on the whole, we have been more expeditious than the Department itself, with its own schools, since the enlargements planned for Fort Alexander, Fort Frances and Sandy Bay have not yet been started.

I trust therefore that the present Grant of \$100.00 will be

Dear Sir:-

In reply to your letter of 3rd inst. No. 184,487-1, I am sorry I have to inform you that we did not proceed, as we had sincerely proposed to do, with the necessary repairs and improvements to be done at the Keeseehouse Boarding-School. I may say that all that we have done is the gathering of the stones necessary for the basement of the new addition which we intended to build.

We were expecting to receive plans for said improvements. But the principal reason, I must say, was that, owing to certain causes and especially to the establishment of a day-School on the Key's Band's Reserve, we did not feel sure enough to be able to recruit a sufficient number of children, and we did not think it wise to undertake an enlargement of buildings, which would cost so much, before making sure whether we will be able or not to recruit a sufficient number of children.

In the mean time, I think we have done our best to keep the school in good condition.

Yours truly,

J. P. Magnan *P. M. M.*

EXD.

Ottawa, November 29, 1912.

Rev. Sir,-

I have to acknowledge the receipt of your letter, dated August 27th last, also letter of the Rev. Charles Cahill, O.M.I., Provincial, of the 28th of August, referring to the extension of and repairs to the Keeseekouse Indian School, Sask., for which plans were to be prepared by the Department's architect on lines discussed with you and others interested, while at the school during July the 17th, 1911 and following days.

Preliminary floor plans of these have been prepared and blue print plans of same are being sent to you by concurrent mail, for your approval, providing it is your intention to proceed with the alterations and additions to the present building.

It is noted that there is uncertainty as to your being able to recruit a satisfactory number of pupils on these reserves for the enlarged school, owing to the reasons stated in your letter; you will no doubt now, however, be in a position to determine this matter and to decide if you will build the school at this point, and, if so, the extent of the improvements to be made.

The plan has been carefully worked out and provides the necessary accommodation for forty pupils (the number to be allotted) at the least expense, adhering as closely as possible to the sketch made and agreed on while at the building,

Rev. J. P. Magnan, O.M.I.,
353 St. Mary's Avenue
Winnipeg,
Manitoba.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

certain changes, however, were necessary in this sketch which you will note, such as the placing of the infirmary on the upper flat with separate stair entrance from outside, instead of on the lower floor and the placing of Sister's accommodation and girls' dormitories in slightly different order so as to secure satisfactory entrances and lighting for the different rooms.

If there are any changes desired in the arrangement of the rooms as shown or in the position of fixtures, etc., please note these on the plan and when returned to the Department any suggestions will be carefully considered and adopted, if possible, where not conflicting with the Department's requirements.

It is also understood that while there is no stone or concrete foundation under the old portion of the building as required by Department's regulations and that the present building is not fully up to requirements, yet as it is your intention to steam heat and ventilate the old portion from plant in the addition and ultimately re-build the entire old building to accord with the new wing, the Department will

St. Boniface, Winnipeg Sept. 18th 1913 191

Dear Sir:-

After mature consideration we have come to the conclusion to close the Keesekoos Boarding School, at St. Philips, Sask. It is a question of rebuilding or closing, and as the prospects are not bright for the future of that School, and as the few Children there could easily be drafted into our other schools, we consider we would not be justified in either building ourselves or asking the Government to build. Moreover, the Principal, Rev. Father Ruelle, has been quite unwell for the past year and has to be withdrawn from the work altogether. I have therefore given instructions for this School to be closed at the end of the present Quarter.

I trust this measure will be ratified by the Department and that notice thereof will be sent to the local Agent.

I have the honor to be

Ottawa August 2, 1913.

Memorandum.

Mr. Pedley, -

So far as I am aware the Department has not undertaken or contemplated the erection of a school at Pelly to be conducted by the Roman Catholic Church, but when Father Cahill was here last week he mentioned to me that he would like the Department to provide a new building for the Keeseekouse school as the Church was unable to obtain the requisite funds to re-build.

The present Keeseekouse boarding school building does not meet the Department's requirements, and two years ago Fathers Cahill and Magnan intimated that the Church was willing to carry out additions and improvements that would entitle the school to be recognized as in "Class A", with an authorized enrolment of 40 children. Father Magnan was informed that the Department's architect would shortly have plans and specifications of the proposed ^{atluahm 10th} ~~new~~ building ready for transmission. Blue prints were sent to Father Magnan last year, but nothing further was done. Father Cahill, as before mentioned

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

wishes to have an entirely new building, which would not cost much more than the proposed addition and would be much better adapted for school purposes than if the alterations and additions were made. He wishes the Department to assume the whole cost and own the building and told me that they would be content with the grant allowed for Government owned buildings.

184487-1

Ottawa, August 12, 1913.

Memorandum

for the Deputy Minister,

The Keeseekouah Indian Boarding School is erected on property owned by the Oblates Order, the main building is built of logs, apparently erected at three different times, having also two small frame extensions in the rear.

The building is warmly constructed but has very low ceilings and provides accommodation for fifteen pupils only, while having floor accommodation for nearly three times that number, yet, owing to the nature of the construction, the present building cannot be altered to accommodate a greater number economically.

At the time of my inspection, the school authorities were very anxious to maintain the school and as the condition of their finances was such that they could not then erect a new building, this could only be done by utilizing the old building to its fullest extent for the requirements which had no fixed standard for floor and air space, and

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

**PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA**

erecting a wing providing class-room, dormitories for boys, offices, principal's quarters, heating plant for entire building, boys' recreation-room, shower baths for boys and girls, and a large dining room. The old building was divided so as to provide the other accommodation necessary, including a fully equipped isolation infirmary, with nurse's room and ward for boys and girls with separate entrance from outside thereto.

The new portion of the building is designed as a boys' wing for what will ultimately be a complete building, the old portion only remaining in use until it was possible to finish the balance of the new building required, as the present building is not expected to remain in condition longer than five years at most.

This method of extension is not, however, an economical one if the building is to be erected and owned by the Department, as the adapting of the old building for school use is a temporary expedient only, and an entirely new building will prove ~~more economical~~ less expensive in cost of erection and maintenance.

The plan of the buildings prepared and sent to the school authorities was of a preliminary character only as it appears that early in 1912 the Department contemplated the establishing of an Indian day school in the vicinity of the Keeseekouse school on the Key's Band reserve which

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

it was feared would interfere with the^{ir} chances of recruiting a sufficient number of pupils for this school when and the plans were sent to the Rev. Father Magnan, this was called to his attention; but so far as I have been able to determine no further information respecting this is on file.

I would, therefore, recommend that providing a sufficient number of pupils can be recruited to establish and maintain this school, and it is decided to proceed with this as a departmental owned school that an entirely new building be erected.

Robert M. Capelin

Architect.

MEMORANDUM

Mr. Pedley,-

I have read the reports of Mr. Benson and Mr. Ogilvie on the question of the proposed new school building owned by the Government on the Keeseekouse Reserve.. I have hope that the Church will go on with the additions and improvements to their own buildings. It might almost be said that the said buildings are unfit for occupation as an Indian Boarding School and it was the only school which continued to receive the grant at the old rate, that is \$75.00 per capita when we made the changes in 1911. Please note Father Magnan's letter of the 27th November and our letter of December 2nd. ¹⁹¹¹ We have continued the per capita grant of \$100.00 although in the Spring of 1912 no very vigorous action was taken to meet the conditions imposed in our letter of December 2nd 1911.. We provide for 25 pupils at this school and there are now 25 in attendance.. There are only about 500 Indians on the Reserve, of which 204 are Roman Catholics and 88 Pagans.. As we cannot make very large

INDIAN AGENT'S OFFICE,

Kamsack, Sask

April 20th 1914

IN YOUR REPLY REFER TO
No. 124
ALSO
TO DATE OF THIS LETTER

460092

Sir,—

I beg to say that the Indians of Keeseekoonse Band have expressed a desire to have a day school on the Reserve, as it is understood, the St Phillips School is not to be reOpened. There are about 20 children of school age to attend school, and several others now at Boarding school, these latter need not be returned to the day school unless so desired by the Department and Principal of the Boarding school. A married teacher would have to be employed, as there is no suitable boarding place for a teacher. The Indians asked that the old school house, fitted up for a Farmer, be used as a teachers residence, and no new Farmer be appointed. They wish Farmer Anderson of Cote Band to look after them also. If I am allowed to retain Mr Christianson as Clerk this would work out, as he too is a good practical man, who talks the Indian language and would be willing to aid in the Farmers work whenever needed. He and I could, in spare time, give help enough to enable Farmer Anderson (who is the best Farmer we have ever had here) to enable him to look after both reserves. If this be granted the old church near the residence above mentioned, could be used as a school till a new one is built. The Indians agree to do the work of building, if the Department supply the material, or consent to have a school built from their Capital Account entirely. The school would have to be frame as no logs are available in this reserve, or near by. It should be about 18ft X 24 ft. and would cost, if built by a contractor, about \$1000.00

The Secretary

about \$1000.00, but if the Indians did the work, it would not cost over \$800.00. I understand, the reason the Rev. Father Brouellette, spoke of these Indians moving to Shoal River Reserve, as previously reported, was to get sufficient numbers#together, to enable them to get a good Boarding school, at Shoal River instead of at St Phillips, but the Band does not want to move.

If this request is deemed advisable to be granted I should be glad to have a reply in time to prevent Mr Clerk Christianson leaving at the end of this month.

Your obedient servant.

W. G. Blewett

Indian Agent.

P.S.

The new school house, if built should be about one-half a mile from the Farmer's residence, to be in a central location, but this would be near enough for a teacher to walk to school every day.

Sir, -

124

I have to acknowledge the receipt of your letter of the 20th ultimo stating that the Indians of the Keeseekouse Band have expressed a wish to have a day school on their reserve.

In reply I beg to say that the Department is disposed to give favourable consideration to their request, but it cannot entertain the proposition submitted by you to use the farmer's house for a teacher's residence. The Department would like to know what prospects there would be of obtaining a competent teacher to take charge of this school and also to have an approximate estimate of the cost of erecting a combined school-house and teacher's residence. On receipt of this information you will be further advised.

Your obedient servant,

J. D. McLEAN

Children to be taught and don't know a thing
I am not saying the contrary what I am saying
about the children that are taught in high school
The teacher is not much good that's why the
child does not know anything the ones that
keep the children they don't teach them well
they just think of the money you are paying
them that's why they don't want to lose it.
and also they keep them very long just because
they want to pay for them you better change
arrangement to put as the child not to stay
long in school for nothing and not know
any thing it is better to teach the child to
talk English and write, and to know how to
count and let him go as rather than to stay
long in school for nothing I am not think
ing only myself of what I am telling you
it is my neighbors that force me to tell you
this I would be very glad you would tell
me right away about this This is about
all I can say I suppose you will understand
what I am telling you please answer as soon
as possible and tell me what you think
This is about all Best regards

Sir,

401516

Referring to the Department's Letter of the 2nd inst No184487/1, re school at Keeseekoonse Reserve I beg to say that I have made inquiry from several, who are in that work, and they tell me that a good teacher can be engaged here at almost any time, but that the salary would be from \$ 50.00 to \$ 70.00 per month, according to the grade of Certificate, and whether the teacher was married or single. If the house were furnished with the heavy articles such as stoves, tables, bed and chairs it would also help in getting a teacher.

A building large enough for school room for the Band's needs and three or four rooms additional, for teacher would cost about \$ 2000.00 from rough estimates which I have made here. I would like to suggest that, if this building is erected, a small stable also be built to enable some who may be some distance from school, to drive and stable their horses with very little extra material and the Indians aid this can be done at small cost.

Your obedient servant

Referring to the Department's letter of the 20th inst, No. 184487/1.

I beg to enclose herewith a rough sketch of the ground floor of a building which would be large enough to accomodate the children for school room also rooms for a married teacher. The dwelling part should be 1½ stories to allow for bed rooms on the second floor. The division of the living quarters can be made by the Department's architect in the manner he thinks would give most convenience.

I would suggest that a basement be put under the dwelling and as much of the school room as may be necessary to allow of a furnace being used to heat both parts, thus necessitating only a cook stove being used and lessening the dangers of fire.

Chief Andrew Quewezance and one of the Head Men asked me to request that only a married teacher be engaged, and I think this is wise as a single teacher either male or female would not care to live alone in so quiet a place.

With further reference to my letters re day school on Keeseekoonse Reserve I beg to say that I have just received a letter from the Rev. Father Brouillette, of St Phillips School, from Winnipeg, where he went prior to taking a months holiday to Montreal. As it concerned the school business I deemed it wise to advise the Department of its contents for consideration, and add hereto a copy of the letter:—

" St Boniface, Man. May 26th 1914.

Dear Mr Blewett

I am sorry I could not see you before I left Sunday, I am now in St Boniface, I am leaving for Montreal tonight. I spoke to Father Cahill here and I believe it would be good for the Indians to wait awhile, we could have the boarding school if they would wait, the Father is now looking for Sisters. I would like it if you would let the Indians know it.

Yours truly

(sgd) C. Brouillet

I did not yet speak to any of the Indians and will not until advised by the Department as to its wish in this matter.

MEMORANDUM.

Mr. McLean, -

Father Priest called at the office today and asked for a new boarding school building on the Keesee-kouse reserve. He was informed that there are no funds available. The question of establishing a day school was brought up and he thinks that we would not be justified in going to any expense for a building, but he is willing to loan us enough room in the old boarding school building to give the day school a start and he says that he thinks he could get a teacher if authorized. I would recommend that we communicate with Mr. Blewett and give the day school a trial.

Ottawa, July 11, 1914.

Sir,-

In further reference to the application of the Keeseekouse Indians for the establishment of a day school on their reserve I beg to say that the Rev. Father Brouillette called at the Department a few days ago and asked for the establishment of a new boarding school. He was informed that there were no funds available for this purpose. The question of establishing a day school was brought up and he stated that he did not consider that the Department would be justified in going to any expense for a building, but he is willing to loan enough room in the old boarding school building to give a day school a trial. He expressed the opinion that he could secure a teacher.

The Department would be inclined to give a day school a trial there and you might consult with Father Brouillette on his return and report the result to the Department, when, if you consider conditions favourable, you will be further instructed in regard to the matter.

Sir,—

Referring to the Department's letter of the 11th inst, No. 184487/1, re day school for Keeseekoonse Band, I beg to say that I had been to see Father Brouillette, a day or two before I received the letter above quoted. He told me that the day school was to be started and he was lending the class room in the old boarding school for that purpose. He stated that he would heat and light the room and keep it clean for \$ 15.00 per month. Father Brouillette has a teacher already at the school, a Miss Guertin, who taught school at Fort Alexander, Manitoba, some time. She has not a Professional Certificate, but is well recommended.

Father Brouillette told me he had hired her at \$60.00 a month, and that she could open school any time, but I asked him to wait till August 1st as no doubt the Department would advise me about the school, and that I could not act until I had some instructions.

The school is not centrally located, being outside the Reserve on the East side and some distance from all but two families, and I do not think the average attendance will be high, especially in cold or stormy weather.

Your obedient servant

W.G. Blewett

Sir,—

I beg to say that I was called to St Phillips to the Day School there, yesterday, by Father Ruelle, who told me that the teacher Miss Guertin was leaving.

On arrival I found that she had made out her resignation which I enclose herewith. She left last night and Father

Ruelle has undertaken to teach the school himself. He wished me to write the Department and advise it that he would like

to teach the school himself, for the present at least. I

think that Father Ruelle would make a very good teacher here

while the school is held in the old Boarding School, he has

had many years experience and is well educated as well as

being a splendid disciplinarian. While the salary is small

for a man of his education and standing, I think he would

be satisfied if he got an increase after he proved that he

was especially capable and successful in this work. There

has been an average of 11 pupils attending and I would not

like to see the school get a set back now, so ^{told} ~~asked~~ Father

Ruelle to keep on teaching until I had a reply from the

Department and I trust this will meet with approval.

St Philip's Indian School

Sept 16th 1915 -

Mr M. Christenson,

Acting Agent.

Re - Renting St Philip's Indian School

Dear Sir,

Would you kindly call the attention of the Department to the fact that the Rev. Oblate Fathers receive only \$15⁰⁰ ^{per month} for the renting of St Philip's Indian School, which the above Corporation considers too little for the trouble + expenses resulting from it. ~~Kindly~~ inform the Department that the said corporation 1st had to remodel the school almost completely in order to answer the purpose; 2nd they have to keep up two large rooms

(School-room, dinner + recreation room) in a good sanitary condition; 3rd they have to allow at least two acres of land to be used as a school recreation yard. For these very reasons, the above Corporation think it fair + reasonable to receive an extra \$10⁰⁰ per month for the renting of the said school.

Re - serving warm dinner to children

Dear Sir, The Oblate Fathers have been requested also by the Inspector of the Department to serve a warm meal (dinner) to children attending this school -

Now, here, would you kindly inform the Department that the Oblate Fathers will accept of this requisition upon the following conditions -

1st This is a private house - and therefore the Department cannot expect that we shall give free access to Indian children either to the kitchen or the cellar for cooking purpose. Consequently, our own servant girls & maids will have to keep the cooking & management of same -

2nd, The Inspector has proposed that the Dept. provides meat and whatever is necessary for the purpose of serving this meal - but this seems practically impossible to us. The school is located too far out of town and we have no refrigerator whereby to keep fresh meat or any other groceries.

Therefore, the above Corporation suggests

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

111

That an extra of 10 cents per head be
paid by the Dep. for every meal - and the
Corporation itself will see to provide
such meal as requested by the Dep.

Now, dear Sir, we trust ^{that} you will take
these matters up with the Dep. and
that a favorable answer will soon
reach us —

Yours very Respectfully,

The Rev. Oblate Fathers

SCHOOLS BRANCH
OCT 4 1915

I hereby beg to enclose a letter which I received from The Rev. Father Poulet, principal of St. Phillip's School. The Church evidently think they are not receiving sufficient rent for School. They have added a recreation room and greatly improved the general conditions both inside and outside and are under the impression that they should receive \$25.00 per month instead of \$15.00 per month as is now paid. Regarding the matter of mid-day meal to be served at the School which Father Poulet offers to serve for 10¢ per child, I think this is very reasonable and should work out just as cheap and satisfactory as if the Department furnished the supplies.

I have the honour to be,

Sir,

Your obedient servant,

M. Christman
Acting Indian Agent.

The Secretary,

Department of Indian Affairs,

St Philip's Indian School

Nov 23^d - 1915 -

Mr. M. Christianson, Acting Agent.
Telly's Agency

Dear Sir,

In reference to the "Re - Renting St. Philip's Indian School," would you kindly ask the Department of Indian Affairs to re-consider our petition for an extra grant of \$10.00 for the renting of our school. We regard as unfair its refusal for such a grant - especially - when we received orders from the Inspector to keep an extra room to be used as dining-room as well as recreation hall for the children. We hope that the Department will meet our petition this time, and will ~~not~~ force the Oblate Fathers to retract and cancel all former agreements in this regard.

Now, as regards to the Re. serving a warm dinner to children - we will accept whatever the Department will decide as long as our own Matrons will have the supervision & management of same -

Believe me, dear Sir,

Yours very Respectfully,

Joseph Poulet O.M.I.

I beg to enclose herewith a letter from the Rev. Father Poulet, Principal of St. Phillip's Day School, wherein he asks the Department to reconsider their request for additional rent of \$10.00 per month for their building in which school is held, also the serving of a warm dinner to the children. In this matter I beg to refer you to my letter to the Department of Sept. 24th. No. 105, enclosing letter from Father Poulet.

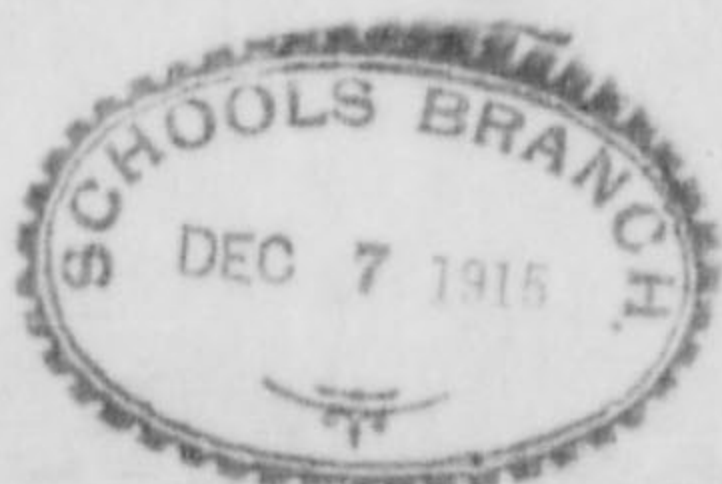

With reference to the Father's request in this matter I would like to see this adjusted amicably, as the school is now run in a very satisfactory manner.

I have the honour to be,

Sir,

Your obedient servant,

Acting Indian Agent.

D.C. Scott Esq.

Deputy Superintendent General of Indian Affairs,
Ottawa, Ont.

Dear Sir

I am going to write to you and tell you how my Indians wants from this reserve they told me to write to you they want me to tell you how they like for their children going to day school they dont want another Bazaran they dont want their children to be kept in a boarding school, and of course their children did not know anything from there since the children began to go to day school they find that the children know quite a lot this is why they want me to write to you and tell you what they like I heard that Father Pouellet wrote to you and told you that he wants to keep the children in the school, but the Indians dont like this, and I will tell you what they want, they want to have a day school in the reserve, the first time the Indians

had their treaty it was said to have
a day school in the reserve that's
41 years ago since that was promised
to the Indians. so the Indians were
told that they would have school
in the reserve. I have the letter
from my Uncle. Old Kessekose
which is written all what was promised
to the Indians at first sometimes I
wish to go and see you for I want to
know how things are going on and
of course when I ask anything here
from the Agent they can't tell me
don't be surprise if you see me there
some day. here are the names of
the Indians that their children go to
day school. I am sorry when ever
I want to write to you that I can't find
any body to write for me so I hope you
will understand all what I say
this is all. I am telling you I hope
you will write to me when you
get my letter.

I am yours Truly

Chief,-

In reply to your letter of the 10th of December, last, I beg to inform you that it is not the intention of the Department to re-open the boarding school on the Keeseekouse Reserve.

The Department is pleased to learn that you are interested in the day school and it is hoped that you will use your influence to see that the children attend regularly.

Ottawa, February 13, 1916.

Sir,-

105

I have to acknowledge the receipt of your letter of the 30th of November, last enclosing a communication from the Rev. Father Poulet, teacher of the St. Phillip's Day School, in which he asks the Department to re-consider the request for an additional rent of \$10.00 per month for the building in which the school is held and also the serving of a warm dinner to the children.

In reply I beg to say that, as you have already been informed, the Department does not consider that the church authorities are entitled to any higher rent than that already paid and it is not prepared to make a cash grant for the mid-day meal for the pupils attending this school. If Father Poulet will submit a requisition through you for supplies that can be furnished from the stock at the agency the same will be considered. Owing to the war the Department is forced to exercise the strictest economy in regard to the schools under its control.

Your obedient servant,
J. D. McLEAN

Asst. Deputy and Secretary.

Dear Mr. Scott:

While I was in Ottawa I spoke to you regarding the matter of a mid-day meal for the children attending the Kee See Kouse Day School, Peely Agency. I am not quite positive, but my impression is that you thought favorably of this matter.

As you are aware a mid-day meal is served at the Cote School on the adjoining Reserve. This is provided by the Department and the Indians of the Kee See Kouse Reserve feel that they are entitled (to)

D. C. Scott, Esq.,
Deputy-Supt. General,
Indian Affairs,
Ottawa, Ont.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

to the same treatment as those of
Cote Reserve.

The work done by the teacher of
St. Philip's is of a high standard,
and the advancement made by
the children was quite noticeable
on the occasion of my last visit to
this school. The children are very
regular in attendance though many
of them come long distances, and
I would be glad if you would
authorize this simple meal.

The agent could purchase the
supplies, as is done in the case of
the Cote School.

Yours sincerely,

W. P. H. H.

Ottawa, May 18, 1917.

Sir,-

I have to acknowledge the receipt of your letter of the 8th instant in regard to furnishing a mid-day meal for the children attending the Keeseekouse Day School.

In reply I beg to say that the Department has decided to provide a mid-day meal for the pupils of this school and Mr. Agent Christianson is being informed accordingly.

I am sending you herewith a form for monthly report of provisions used at day schools. The Department is not prepared to furnish for the mid-day meals any supplies not mentioned on this form and the cost of these meals must be kept under seven cents per day per pupil.

Your obedient servant,

Asst. Deputy and Secretary.

W. M. Graham, Esq.,
Inspector of Indian Agencies,
Balcarres, Sask.

2 letters

Ottawa, May 18, 1917.

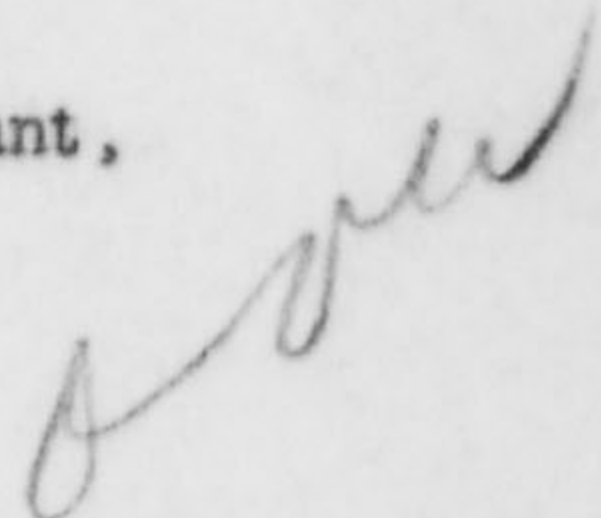

Sir,-

The Department is in receipt of a communication from Mr. Inspector Graham in which he requests that a mid-day meal be furnished for the children attending the Keeseekouse Day School.

A simple mid-day meal may be furnished for the pupils of this school and requisitions for the supplies required should be forwarded in the usual way. I am sending you herewith a supply of forms for monthly reports of provisions used and you will be good enough to give these to the teacher. You should instruct him to make out one of these reports at the end of each month, giving all the information as called for, and forward it to the Department through your office. The Department is not prepared to furnish for the mid-day meal any supplies not mentioned on this form and the cost of the meals must be kept under seven cents per day per pupil.

Sir,—

Reference your #117-3-1 dated 19th inst
Teacher at Keeseekoonse Day School.

I have the honour to inform you that Father
Ruelle left St Phillips Mission for Winnipeg at the end
of June and informed me personally that he did not know
how long he would be away and left Mr Monaghan to teach
during his absence.

I received a letter from Father Ruelle from
Lebret dated 28th June where he had gone direct from
Winnipeg stating that he might be back at any time, and
again a letter dated 2nd July saying he might reach
Kamsack at any time.

Father Ruelle also filled out the Declaration
of Head of Household and had it sworn to before a J.P
during July, without stating that he was not returning
to his duties here.

I visited the School at St Phillips during
School hours while Mr Monaghan was teaching and questioned
him as to his qualifications etc and both he and Father
Ruelle informed me that he had taught at St Phillips
on a previous occasion during the absence of the regular
teacher.

In September

The Secretary,
Department of Indian Affairs,
Ottawa. Ont.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In September I was at St Phillips during the visit of the Roman Catholic priest stationed at Kamsack, who is holding devine services weekly at St Phillips during the absence of the incumbent and at that time went into the matter with him and he informed me that he believed it was the intention of the Oblats De Marie Immaculate to discontinue the day school at that point, but in the mean time would I allow the School to remain open under Mr Monaghan.

I informed him that I would take up the matter with the Indian Department at Ottawa and in the mean time to continue the School.

I took this course as I thought it better for the children to be attending Day School than to be running wild on the Reserve.

Since the above mentioned conversation it has come to my notice that the Mission has disposed of all their Live stock and have closed up the buildings with the exception of the School, I now believe their farm is offered for sale.

Owing to pressure of work I had not taken up this matter with with the Department as promised.

In previous years the St Phillips day School closes during the worst of the winter weather owing to the distance some of the children have to walk to attend School, and therefore do not close during the summer holidays.

I would therefore suggest that Mr Monaghan be allowed to keep this School open until Christmas when it could be closed for the winter if no other teacher is to be appointed or until other arrangements can be made in the spring.

I have the honour to be,

Sir,

Your obedient servant.

Ottawa, Ont.

Dear Sir,

No doubt you are aware that there is an Indian school at St. Philippe, Sask. This school has been opened till last Christmas. The Indians would like to have the said school reopened, and promise about 20 children to attend.

The only teacher I find just now to take that school, at \$60.⁰⁰/₁₀₀ a month, is Mr. William Monaghan, returned soldier, though he has no qualifications, I think he can teach pretty well, for he has taught before in few places. So if you grant us permission to reopen the said school and accept Mr. Monaghan, please let me know at once and notify the Agent, Mr. Bradbrooke, that we may open the school as soon as possible. Yours truly,

Reverend Sir,-

I have to acknowledge the receipt of your letter of the 14th instant, in which you request permission to re-open the St. Phillip (Keeseehouse) Indian Day School, and stating that you have secured the services of Mr. William Monaghan, a returned soldier, as teacher.

In reply I beg to say that the Department will approve of this school being re-opened, in view of the fact that you state there are about twenty children who would attend. The school is to be conducted continuously during the summer months. The appointment of Mr. Monaghan is approved with salary at the rate of \$60.00 per month.

It is noted that, although he has no special qualifications, he has had previous experience as a teacher and it is, therefore, hoped that he will meet with every success.

Both Mr. Agent Bradbrooke and Mr. Commissioner Graham are being informed of authority being granted for the re-opening of the school and the appointment of a teacher with the salary he is to receive.

23rd April 1921.

Major Bradbrooke.
Kamsack.

Dear Sir:-

With regard to the Indian School of St Phillips,
I beg to present you Mr William Monaghan as temporary
teacher.

This gentleman is a returned soldier and though
not a certified teacher I think he would do well. As soon
as a priest will take charge of the Mission then it will
be easier for us to arrange things properly.

Just now as no one stationed at the Mission
Mr Monaghan is the only one who consents to stay there
alone.

Hoping, Sir that you will kindly approve my
request. I remain

Yours truly.

OBLATE MISSIONNARIES OF
MARY IMMACULATE.

310-14

ST Boniface Nov.21 1921

W.M. GRAHAM
COMMISSINER OF INDIAN AFFAIRS
REGINA.

Dear Sir:

On several occasions, the Indians of the Reserves around Kamsack, appealed to me for the reopening of the old St Philip Boarding School.

Last month I sent Rev. Father Chaumont and R.F. Brassard to make a special inquiry into the conditions and dispositions of these Indians.

A careful census showed 52 children of school age, all Catholics, in the Reserves of Keeseekonse, Key and Valley River. Most of these do not attend any school; an average of seven only going to the St Philip day school.

I do not need to insist on the necessity of reopening our Boarding school, with You, who have a wide and long experience of the Indians all over the West.

This former Boarding School was closed, we being unable at the time to provide for the necessary staff. This we are now in a position to furnish; but unfortunately, lack the financial means to erect a substantial building for from 50 to 60 children.

Handwritten notes:

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

The old school building could be used as a residence for the principal and male employees of the school, the remaining space serving as store rooms.

I consequently join with our Catholic Indians to ask You and through You The Indian Department, to grant us the said Boarding School; the Oblate Fathers agree to transfer free of all charge to the Indian Department all the land necessary for the erection of the school and provide the necessary staff in Fathers and Sisters to satisfactorily manage same.

I feel confident, Master Graham, that You will receive this our petition favorably, knowing that You have devoted Your life to the civilisation and welfare of the Indians, with a zeal and success not surpassed by anyone in our North-West. Your helping hand has gone to all, irrespective of race or creed.

Your Humble Servant

J. B. Bess

NO.

D

REGINA, SASK., Nov. 26th, 1921.

ALSO TO DATE OF THIS LETTER

Dear Mr. Scott:

560308

I am enclosing herewith ~~copy of~~ a letter which I received from the Provincial of the Oblate Order, in which he makes an appeal to have the St. Philip's Boarding School, on the Keeseeekoonse Reserve in the Pelly Agency, re-opened.

As you will notice, the Provincial points out that there are 52 children in this Agency who are not attending school. This is a situation which should not be. So long as we carry out the present plan of having a Day School on the Reserve, we can only get those children who are immediately surrounding the school to attend. It would be impossible for these children at any distance to take advantage of a Day School. No matter where it was situated on the Reserve there would always be those who would be too far away. I have not the slightest doubt that the Church would be quite willing to reopen the School, and use the existing building for the time being; but sooner or later, the Department or the Church will be called upon to erect suitable buildings to carry on the work. I feel quite satisfied that if the Church had been able to furnish the proper staff, the School would never have been closed, but now, from the Reverend Father's letter, I would judge they are prepared to go into the matter again and furnish a proper staff to carry on the work. Perhaps the Department would see fit to put an amount in the Estimates this year for the purpose of erecting a school to accommodate from 50 to 60 children; and if not to erect a school, place an amount for the maintenance of so many children in the existing building.

Yours very truly,

W.M. Graham

By *R. J. F.* *noted*
 Ottawa, December 1, 1921.

Memorandum.

Mr. Scott:

The subject matter of the communications from Father Beys and Commissioner Graham was discussed by the Reverend Fathers Guy and Boyer at the time of their visit to the Department yesterday.

The situation, in brief, is as follows: The 1915 census shows that on the Keeseekouse, Key and Valley River reserves the Roman Catholics have a following of 182, as compared with 89 adherents to all other denominations. The Day School has been more or less of a failure: an average attendance of but 7 obtained. There are 52 children of school age, and the Reverend Father Beys is asking for the erection of a residential school to accommodate that number.

The old building, which in the event of a new school being erected could be used as a residence for the staff and storehouse, would be given to the Department of Indian Affairs in addition to perhaps 20 acres of land. I am convinced that if we asked for the whole of the quarter section that belongs to the Oblate Fathers and which is contiguous to our reserve, our request would be granted.

Mr. Commissioner Graham is in favour of a boarding school at this point or the reopening of the old building, with a view to ascertaining whether the Church would at this time make a success of a residential school at this point.

I personally believe that the Oblate Fathers would rather not try to carry on their activities in the old building, as it was a matter of accommodation that discouraged them some years ago. If we cannot afford to build on the Keeseekouse reserve this next fiscal year, I believe that Father Beys and his staff would rather postpone commencing operations until such time as we can finance the project.

In the meantime, Sir, I will give this request due consideration in connection with the papers from the Reverend Father Guy, that you handed to me yesterday.

Ottawa, January 30, 1922.

Memorandum.Mr. Scott *noted bel.*

Father Boyer, of Father Beys' staff at Winnipeg, wishes to draw the attention of the Department to the fact that there is now available a principal and staff for the proposed St. Phillips Boarding School on the Keesekouse reserve, Pelly agency.

The Reverend Father wishes to impress upon the Department that if no building programme for this school is arranged for this year, in all probability an efficient staff and principal would be very hard to secure in future years. The R. C. Church authorities are willing to give us certain property rights at this time, as mentioned in my memorandum to you on this matter, of the first ultimo. If nothing is done this fiscal year, Father Beys will likely dispose of the property which they own in the Pelly agency.

DEPARTMENT OF INDIAN AFFAIRS
CANADA

Ottawa, April 20, 1922.

MEMO FOR FILE:

Father Boyer, of Father Boyer's staff, Winnipeg, and I have discussed at some length the possibilities in connection with the initial efforts to get the St. Phillips Boarding School on the Keeseekouse reserve, Pelly Agency, Sask. in an active condition again.

It has been suggested that the Keeseekouse Day School be enlarged in its activity to a semi-boarding school type. We might call it an Improved Day School.

The old buildings could be repaired for a few hundred dollars and made habitable for a staff of perhaps 3 and 20 younger pupils. The 3 members of the staff could be called Senior and Junior teachers and Field Matron. Their duties would be to take charge of the house and to carry on the teaching operations in conjunction with a principal or Mr. Monaghan, who is at present conducting a day school on the property.

If the Department could make a liberal grant for salaries and for provisions (on the Improved Day School plan) Father Boyer is of the opinion that a nucleus would be set up, from which would grow a small boarding school when funds could be provided for a new building.

The aim for the interim before a building is erected would be 2 classrooms - one for girls and one for boys - a total of perhaps 50 pupils, 20 of whom would be boarders.

R.T.T.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, April 20, 1922.

Sir:-

The future of the Keeseekouse Indian Day School has been discussed at some length by a member of Father Beys' staff of Winnipeg and this Department. I refer you also to your file No. 310-14 and your communication of November 26th, last. In all probability, funds will not be found for the erection of the St. Phillips Boarding School, on this reserve, in the next two or three years, and it has been suggested that the Keeseekouse day school be enlarged in its activity to semi-boarding school in type. We might call it an Improved Day School. The old buildings could be repaired for a few hundred dollars and made habitable for a staff of perhaps 3 Sisters and about 20 younger pupils. The Sisters could take charge of the house and carry on the teaching operations in conjunction with a principal or Mr. Monaghan who is the present incumbent at the day school on the same property.

The Department might make a liberal grant for salaries and for provisions (on the improved day school plan) and a nucleus for a future small boarding school would be established. The aim in the interim before a building could be erected would be two classrooms, one for girls and one for boys - a total of 50 pupils, 20 of whom would be boarders. Equipment could be provided from either stores or from that which is at present in Le Pas, Man. This last supply has been lately mentioned by you on your file No. 205/15 (12th instant).

If you believe that such a scheme is worthy of our attention and would achieve results, I would be pleased if you would instruct Mr. Agent Bradbrook to give every assistance to a member of Father Beys' staff, who will visit Kamsack, I believe the first week in May. Our representative and the Rev. Father can give the Department an idea as to how much is needed in the way of repairs and what equipment should be provided.

As far as the cause is concerned, I agree with you and the church representatives that the Indian children are numerous enough to warrant this, and even a larger undertaking.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

The Secretary Department of Indian Affairs. - Ottawa.
Dear Sir: -

At the request of the Rev. S. Perault, O.M.S. of St. Philip's Mission here, I beg to state that I am personally acquainted with Miss A. McLeish, and know that she is thoroughly conscientious and trustworthy, and quite competent to take charge of the Keesee House Indian School at St. Philip's Mission.

She intends following the teaching profession, and is at present studying to get a Saskatchewan Certificate. She has had some experience at teaching, and our Public School Inspector - who also knows her, offered to grant her a permit to teach, in case she cared to try to get a school in his Inspectorate. Until she is able to get a Professional Certificate for Sask.

I think she is twenty-eight years of age, and of sound constitution. Her three sisters are trained nurses, and she has a certain amount of experience in that line herself, which might be very useful to a teacher in charge of a number of children.

I am,
Yours Truly,
George Marton.

Sir, -

I have to acknowledge the receipt of your letter of the 26th ultimo, enclosing a communication from Rev. S. Perrault, priest at St. Phillip's Mission, in which he nominates Miss Anna McLeish as teacher of the Keeseekouse (St. Phillip's) Indian Day School, from the 1st instant. The letter enclosed from the Secretary-Treasurer of the Stratford School District regarding the qualifications which Miss McLeish possesses was also received.

In reply I beg to say it is noted that Mr. W. Monaghan, the present teacher, is no longer physically fit to continue in this position, and, in view of the request of Father Perrault and your recommendation, the Department will approve of the appointment of Miss McLeish to take charge of this school from the 1st instant. The salary allowed her will be at the rate of \$650 per annum, plus bonus at the rate of \$150 per annum during the present fiscal year ending March 31, 1922.

You will be good enough to inform Father Perrault of the appointment of Miss McLeish, and he should arrange for her to take up duties as soon as possible. It is noted that most of the pupils attend during the summer months, and that holidays are taken in the winter.

Mr. Commissioner Graham is being informed of the authority granted for the appointment of Miss McLeish.

Ottawa. October 20, 1922.

Sir,-

The Department is in receipt of a report from Mr. Inspector Merrill who visited the Keeseekoose Indian Day School on September 28th, last.

It is apparent from this report that the inspector considers that the school will not make decided progress under the present teacher, Mr. Joseph Inglett.

In view of this report I would, therefore, request you to get in touch with Reverend Father Perrault and an endeavour should be made to have the teacher take more interest in his work or arrangements made to secure another teacher, preferably one with provincial qualifications. As soon as you have seen Father Perrault in regard to this matter, we will be pleased to hear what action will likely be taken.

It is also noted from the Inspector's report that the attendance has not been satisfactory.

The Department trusts that you will do everything possible to encourage the Indians to send their children to school regularly.

Your obedient servant,

A. F. MacKenzie,
Acting Asst. Deputy and Secretary

C. A. Bradbrooke, Esq.,

IN YOUR REPLY REFER TO
No. 11
ALSO
TO DATE OF THIS LETTER

27th October 1922

574137

Sir,—

Reference your #117-3-1 dated 20th inst
Report of Mr. Inspector Merrill on Keeseekoonse day School.

I have the honour to report that I visited
Rev Father Perrault at St. Phillip's yesterday the 26th
inst and discussed the situation with him.

Father Perrault explained that Mr. Inglott
commenced teaching on the 25th September instead of the
2nd October as Miss McLeish wished to leave and Mr. Inglott
had already arrived and was willing to commence duties
on the 25th September instead of the 2nd October.

Mr. Merrill inspected the School on the 28th
ultimo, arriving about 9.00 A.M. and as most of the
children come a considerable distance there is not
generally a very full attendance until about 10.00 A.M.,
especially in bad weather.

Rev Father Perrault also informed me that
Mr. Inglott has had 8½ years experience teaching Indian
children, seven years at the Waterhen Reserve and 18
months at the Blood Vein Reserve, both in Manitoba.

With reference to the inspection made by
Mr. Merrill, I was not aware that this inspection had
been made on the 28th ultimo until I made an inspection
myself on the 12th inst and saw Mr. Merrills' name on
the register.

I knew of course that Mr. Inglott was to
commence his duties on the 2nd October, but wished to
give him time to settle down before I visited him.

I arrived about 11.00 A.M and found a good
attendance, the teacher told the children to stand up
on my entry and I told him to proceed with his work as
if I were not present, I was there 30 minutes and then
left to talk to Father Perrault. I told the Rev Father
that Mr. Inglott was without a collar and should be
cleaner about his person, otherwise I made no comment.

I have not.

The Secretary,
Department of Indian Affairs,
Ottawa. Ont.

CANADA

I have not seen a copy of Mr. Merrills report and do not know what remarks he made, but I think that the School Inspector should notify the Agent when an inspection will be made, also leave a copy of his report with the Agent as a guide to him on other inspections.

Mr. B. W. Wallace, who inspected Cote School was very helpful in this way as he left his report for me to forward to Regina and also discussed the School with Me.

St. Philip's Park. 3-1

October 26th, 1922.

Honorable Duncan Scott, Deputy
Indian Department,
Ottawa, Ontario. 574403

Dear Sir:

Mr. C. A. Bradbrooke, Indian Agent,
Pelly Agency, called on me, yesterday, in
regard to the report made by School
Inspector, Mr. Arthur L. Merrill, against
Mr. J. Inglott, as not being qualified to
teach in the St. Philip's Indian School.

Mr. Merrill, says in his report, that
there is no progress. How can he know it,
for he was coming for the first time?

The word "progress" pre-supposes two
points of comparison. How can he form a
judgment, if he sees only one side of the
question, unless he wishes to imitate the
hunter, pointing his gun, without taking

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2

any aim? Moreover, how can Mr. Merrill substantiate his statement that there is no progress, for the most of the pupils arrived at school, when the inspection was over?

Mr. Merrill started his inspection, at nine o'clock. As the children come from a distance, they generally arrive at nine-thirty, or ten o'clock, when the weather is bad. Therefore, he found, in the class room, only seven pupils, of whom, there were white children, and the new teacher, Mr. Ingloft, not yet dressed, for his class.

Had Inspector Merrill come, at ten o'clock, he would have found twelve children, Indian children: fifteen, including the three white children, and the teacher, in proper attire.

He would then have made a more complete and satisfactory inspection.

I was present, myself, at the inspection,

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and I am glad to state that the three white children passed a good, interesting examination, and could compare, favorably, with any other pupils, of their age, in the public schools. Mr. Merrill should, at least, have given credit for them, or does he belong to that class of men who see everything black in Catholic schools?

I may say that I have had some twenty-five years experience in Indian schools, and I can certify that the Indian pupils, who were inspected by Mr. Merrill, showed as much proficiency, as those in other Indian schools. This Indian school may be the first one Mr. Merrill has visited.

Another point to consider, is that this school has been closed, for months at a time, giving these children less chance, than other children, to make a good showing. Comparing their advancement

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

today, to what it was, three months ago. Their progress is evident, and proves much in favor of their attendance at school, and the efficiency of their former teacher, Miss McLeish.

But, even if there was no progress, as stated in the Inspector's report, Mr. Merrill should not throw the blame on Mr. Inglott.

Mr. Inglott was appointed by the Indian Department as teacher to begin his duties, as such, at the beginning of this quarter.

Miss McLeish left St. Philips on the 24th of September, and, through kindness, Mr. Inglott finished out her term, beginning to teach on the 25th of September, two days before the inspection. No wonder, he was not prepared for a complete and advantageous examination of his pupils. He hardly knew their names, nor their standing, in the school. Mr. Merrill was

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

informed of this fact, and, for that reason, his indulgence was requested.

However, Mr. Merrill had the boldness, to use a lenient word, to make a report against Mr. Inglott, stating he was not qualified to teach in the St. Philips Indian School, and suggesting his dismissal.

An explanation of Mr. Merrill's lack of judgment, common justice, and of his faulty reasoning, could not be found in the deep dissertations of Aristotle's philosophy.

Was it because Miss Mc Leish, being a Protestant, he wanted to cover her with his paternal cloak, preferring to throw whatever blame there was, on Mr. Inglott, who is of the Catholic faith, belonging to that faith, which makes him a ready mark for unfairness and injustice?

If this is so, Mr. Merrill is certainly

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

lacking in the most elementary qualifications required of an Inspector, unless one must infer he is afflicted with a sudden aberration of mind, a thing to be regretted, but not to be condoned.

I am strongly protesting against this stupid, senseless report, apt to hurt and injure a first class teacher, who is, probably, more informed on educational matters, than Mr. Merrill himself, as proof of which, I refer you to the enclosed two copies: references of his qualifications.

Moreover, Mr. Inglott, in 1912, was teaching the Matriculation class, in the Jesuit College, in Malta. Therefore, there is no question about his qualification for teaching in an Indian school. He is fully competent to be a Professor in any school or University, where he would find a ready admission, had he, in view, a good salary, and the comforts of life.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

7

Inspired by a high ideal devotedness, and self-denial, he prefers teaching in Indian schools, at a poor salary, with all the attending discomforts of teaching in a poor Indian school.

The Indian Department should be proud to count such a man on the staff of teachers, in Indian schools, and should certainly encourage him, by appreciating his worth.

It is a duty for me to rehabilitate his reputation, before the Indian Department, against the unjust accusation made by Mr. Merrill, who was lacking in justice, even common sense, or he would have suspended his judgment until his second inspection.

I beg, at least, that you advise Mr. Merrill to make an apology for his unjustified accusation against Mr. Inglott, otherwise, I would be forced

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

to have recourse to the public press.

I also desire that the St. Philips Indian school be inspected by another School Inspector, than Mr. Merrill.

I have given many proofs that I have very much at heart the education of the Indian children, and will always be pleased to receive any advice or suggestion, benefitting the schools under my care, but I would be disheartened to have the St. Philips school inspected by such an unfair, partial, and so evidently ill-disposed a man as Mr. Merrill has shown himself to be.

Trusting in the fair play, and sense of justice of the high officers of the Indian Department, regardless of creed or race,

I am, Most Respectfully,

S. Perrault. O.M.S.
Missionary.

Ottawa, Nov. 9, 1922.

Sir:-

I have your No. 11 of the 27th ultimo, relative to Mr. Public School Inspector Merrill's report on the Keeseekouse Indian Day School. I have noted that Mr. Inglott, the Teacher, had but a few days with his class before the inspector's visit, and undue importance will not be attached to his rather critical report.

As was suggested to you in official communication of this file number, of the 20th ultimo, you might give the teacher any assistance possible.

Your obedient servant,

J. D. McLEAN

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, Nov. 13, 1922.

Dear Father Perrault:-

I have received your letter of the 26th ultimo, referring to the report made by a Provincial Public School Inspector on the Keeseehouse (St. Phillip's) Indian Day School.

On receipt of the report referred to, this Department wrote Mr. Agent Bradbrooke, asking him to help the teacher in any way he could and to discuss with you the advisability of making a change in teachers. When our representative reported that Mr. Inglott had commenced teaching but a day or two prior to the inspector's visit we, of course, did not attach so much importance to the critical remarks of Mr. Inspector Merrill; and a communication is being addressed to Mr. Bradbrooke, again suggesting that he give every assistance to the new teacher as he commences his work.

I have noted your remarks concerning Mr. Inglott's qualifications, and I look for a career of much usefulness in his case.

The teachers of Indian day schools are not directly responsible to public school inspectors, as these schools are controlled and managed by this Department. The powers of appointment and dismissal rest with the church authorities and the Department of Indian Affairs. When we asked the Provincial Department to inspect Indian schools, the aim was to obtain uniformity. If the teachers and others interested in the work consider the inspection from this point of view, much assistance will be given by the Provincial officers.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

St. Philips Sask. September 6th 1922

Dear Mistress

I have received lately an application for the St Philips Indian school from a married man who has been teaching for 3 years in a lonely mission of Lake Winnipeg, he has to quit on account of the bad health of his wife. he has applied to teach at St. Philips where they will find a more comfortable life which they much deserved.. He will teach and his wife will keep the house, they have no children. Consequently they will be the right people in the right place. I have decided to accept them as much for my advantage than for theirs. He shall begin his functions at the beginning of October. Therefore your services as teacher are no more required after this month.

I am taking this opportunity to thank you for your

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 1)

devotidness, certainly ~~you~~ have been very punctual in
your functions as teacher, and taking much interest in
your class, so the Indians are well pleased of the pro-
gress of their children, and satisfied with the way you
treat them.

I am thanking you also for the trouble you are taking in
cleaning my house and the church.

I may assure you that I will keep a good souvenir of your
sojourn at St. Philips, and I will be always happy to see
you coming ^{for a visit} into this little mission where you have
started your functions as teacher.

Yours sincerely

S. Perault. O.M.D.

Dear Sirs

Miss A. S. McLeish was engaged
to teach the above school, on July 3rd, on the
understanding that she would be employed until
Christmas.

She was dismissed on Sept 30th without good cause.

I enclose the letter of dismissal which speaks for itself.

Miss McLeish claims her salary in full until Christmas.

Miss McLeish is my wife's sister and has asked me to
see about the matter.

Yours Truly
Hugh Monaghan

ST PHILIP INDIAN BOARDING SCHOOL

?
REOPENING:-Very Rev. Fr Beys has sent me a very strong letter urging the reopening of St Philip Boarding School and advising me that he considers this request as the most important matter concerning the Indians in the territory under his jurisdiction. He admits of the enlarging of certain schools but he states that before proceeding with that work it is a duty for the Department to build first in places where children are entirely deprived of educational facilities. Enlarging of schools come after in his opinion specially in the schools under his care. But the construction and reopening of St Philip should be the first consideration of the Department and he suggests that economy be practiced on some items and this would afford the necessary money for the work to be done at St Philip. He even adds that the neglect in which the reserves around Kamsak (Keeseekouse, Key and Valley River) are kept in regard to education is a dark spot for the Department. Commissioner Graham must have sent to the Department a letter sent to him by Very Rev. Fr Beys on November 21st, 1921 and giving all details in the matter. If there is no copy of said letter on file at the Department I will be pleased to forward one at your request. I therefore insist upon this request and ask for your kind and efficacious attention in dealing with it.

By
Sir:-

Ottawa, Dec. 15, 1922.

I have your No. 11 of the 8th instant, enclosing an application from Mr. H. Rossington for the position of teacher at the Keeseekouse Indian Day School. I have noted that the Rev. Fathers Perrault and Leonard recommend Mr. Rossington for this work.

In reply I beg to state that the Department has had some experience with Mr. Rossington at the Qu'Appelle Industrial School. We feel, however, that he is well qualified to do day school work and he has been given a second opportunity under our auspices. His appointment to the position of teacher of the Keeseekouse Indian Day School is approved. The salary allowed will be at the rate of \$650 per annum, supplemented by any bonus provided by law. I hope that his efforts will meet with success at this point.

Will you please arrange with Mr. Rossington to take charge of the school immediately after the new year. I am enclosing, at Mr. Rossington's request, a recommendation from the Principal of the Qu'Appelle Industrial School. This should be returned to the new teacher.

Sir : -

I beg to say that I am in receipt of a letter from the Indian Agent at Kamsack in which he informs me that a meeting was held at the Agency office of the Keeseekoonse Band and that they requested him to write and ask that a day school be situated on the middle of their Reserve for the better convenience of their children. They point out that the present school (St. Phillips) is situated off the Reserve and it means that the children would have to travel a considerable distance to get to school, in fact some of the children are going without education on this account.

There has been considerable correspondence on the subject of a school on this Reserve during the last year, and I have before me your letter of the 20th of April last No. 117-3-1 and I discussed the subject of this letter with Father Beys, who was in this office some time after the receipt of the letter, and nothing definite was arrived at at the time.

I may say that there were three teachers on this Reserve during the last year and we have not had any success to speak of so far. A report made by Inspector Merrill on the 28th of September last was anything but satisfactory. You will recall that he thought we would be just as well not having the school open at all as going on as we were. I understand Mr. Rossington has been appointed and I have my doubts whether this man will be much better than any one we have had in the past. Personally I think the solution of the question is to build another school there to take in all Roman Catholic children on

Key, Keeseekoonse and Cote Reserves. This might be built at some point near Mamsack. If the Department cannot do this then steps should be taken by the Roman Catholic church to put the existing school in good shape and take the children in as boarders. As a day school it will never be a success, situated where it is.

Your obedient servant,

W.M. Graham

Dear Mr. Graham:

My attention has been drawn to your No. 310-11 of the 8th instant, with general reference to the educational problem on the Key, Keeseekouse and Cote Reserves.

I wish to inform you that such strong representations have been made to this Department, regarding the need for proper facilities for the Roman Catholic children of these reserves, that I have caused to be placed in the Main Estimates for the coming fiscal year an item to provide a small residential school near Kamsask, Sask. After our estimates have been passed by the House, you will be further informed. For the time being, please treat this information as confidential.

Yours very truly,

Duncan C. Scott

ALSO TO DATE OF THIS LETTER

Dear Mr. Scott,-

I have your letter of Feb. 15th, 1923, No. 117-3-1 and am pleased to note that you have placed an item in the Estimates to provide for a small residential school to accommodate the children of the Pelly Agency, belonging to the Roman Catholic faith.

You will perhaps remember that in my letter of Nov. 26th, 1921, No. 310-14 I recommended that such a school be provided, and I am very glad to note that there is now hope of my suggestion becoming an accomplished fact.

We have excellent farming land on Cote Reserve that would be available as a site for such a school. The nearest point of this reserve is about two and a half miles from Kamsack.

Duncan C. Scott, Esq.,
Deputy Supt. General
Of Indian Affairs,

Ottawa.

Yours very truly,

Indian Commissioner.

Sir:-

I beg to say that I am in receipt of a communication from Indian Agent C. A. McConnell, stating that Mr. H. Rossington, teacher at the St. Phillip's School, requested two weeks leave of absence in order that he could proceed to Willow Bunch where his farm was completely hailed out, and where it was necessary for him to be personally, on the grounds that the claim Adjuster would be there. It is absolutely unnecessary, in my opinion, for Mr. Rossington to close the school for two weeks. He could easily have done the whole thing in four or five days. However, if it is necessary for him to go there, I have no doubt the Department will grant him leave.

Your obedient servant

Department of Indian Affairs - Ottawa.

Dear Sir:

Scott Esq.

Below is a copy of a letter I have just sent to Duncan

As I understand that the position of teacher of the
Keese-Koose Indian Day School is now vacant, I hereby forward my
application for the position.

I have been in pretty close touch with these Indians for many
years, and have always taken a deep interest in their welfare, and I
understand their nature pretty well.

With regard to my character etc. I could refer you to the Provincial,
or almost any of the Priests of the Oblate Order of St. Boniface.

As to my qualifications I was born and educated in Manchester
England. I am enclosing three or four certificates that I happen to still
possess, for your inspection. One is a "Second Class" College of Preceptors
Certificate, in which I passed in the highest Division.

I am enclosing the examination papers for the certificates enclosed
in order to give you a better idea of the standing of these certificates.

In the "Science and Arts" examinations I had five certificates, but
at the present time I can only find three of them. The subjects were:-

Pure Mathematics; Magnetism & Electricity; Inorganic Chemistry;
Practical Plane, Solid Geometry; and Free-hand drawing.

George Barton
Secretary-Treasurer

ST. PHILIPS, Sask., Dec 28th 1923.

I enclose three of these Certificates, but all the examination papers.

While these qualifications seem pretty old, I might add, that I have been very much interested in education for many years. I have been secretary-treasurer of two Public School Districts for the last twelve years and three years respectively. And have had practically most of the management of them, as all the trustees are foreigners and very illiterate.

And I am enough interested in Education, to have paid my own expenses as delegate attending School Conventions for the last few years, as our trustees would not pay for their delegate.

As I intended at one time to secure a Teacher's Certificate, I did a certain amount of studying on the methods of teaching, but finding the Profession was overcrowded at that time, I gave up the idea. And except for a little private teaching, I have not had actual charge of the teaching of a school, but anticipate no trouble in doing so.

I will be very much obliged if you will kindly return the enclosed Certificates and Examination Papers, under registered mail. And an early reply to my application will be greatly appreciated, in order to give me time to make my plans, if my application should be accepted.

I am
Yours very truly,
George Barton.

R

Sir,—

I wish to draw your attention to the condition of the Keeseekoonse Indian Day School. This building is rented from the Roman Catholic Church and is situated just off the Keeseekoonse Reserve, which condition means that the children have to come long distances, which in bad weather is a hardship, as they have to travel on foot or otherwise as best they can.

The School itself has long past its usefulness, as it is badly lighted and heated and no proper ventilation, the ceiling is low, and there is not the cubic space of air necessary that there should be to keep children in good health and mental alertness while studying.

The place looks wretched and dilapidated, the Indians are anxious to have a School centrally situated on the Reserve, and am of opinion that this course would be of benefit to all concerned.

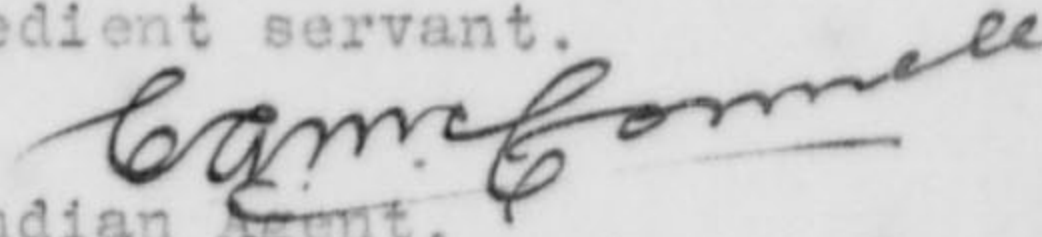

The number of children of school age on this reserve is about 25 and there would be better control in getting a fuller attendance with a school on the reserve than there is at present, with the school situated where it is.

I therefore beg your consideration in this matter, as the conditions are such that this school has outlived its usefulness and is now on the score of health alone, unfit to use.

I have the honour to be,

Sir,

ST PHILIP INDIAN RESIDENTIAL SCHOOL.

CONSTRUCTION OF NEW SCHOOL.

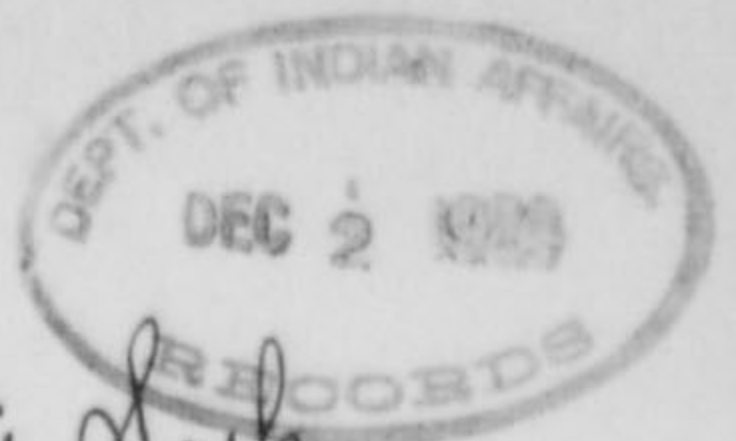

*Noted &
Estimates*

Right Reverend Bishop
Prudhomme sends me a very strong letter urging the
re-opening of St. Philip Boarding School. He
considers this matter of great importance for the
advantage of the Indians in the Territory under
his jurisdiction. A request for the re-opening of
that School would be found on file at the Depart-
ment and I therefore endorse the Right Reverend
Bishop's request by asking that a sum of about
\$50000.00 be included in the estimates for the cons-
truction of a new building at or near the present
location.

St. Philip's Spkr.
Nov. 20th 1924.

The Hon. *Samuel Scott*
Deputy Minister of the Indian Department

Dear Sir.

All the Indians of this Keeseekoose Reserve are well aware of your deep interest and solicitude in their welfare. They therefore apply to you for a Boarding School for this Keeseekoose and the surrounding Reserves.

The school should be built close to the present buildings of St. Philip's Roman Catholic Mission.

There are a great many children left without any education, especially on Key Reserve, - Valley River and Shoal River.

The necessity of this school has been recognised and approved the year before last by a vote of Parliament. The building however of this school was postponed for a more pressing one.

We beg to state that the necessity of a boarding school here is very urgent and we hope that you will take immediate steps, so that this school may be built next summer and our many children receive a proper education.

We on our part will do our best so that the school will prove a success in every way. We would willingly grant on our Reserve all the land necessary for the buildings and management of the school. In fact we have all signed our names on a petition, to show that we are of the same mind as our chief in this matter, which petition is attached to this letter.

EXTRACT FROM TEACHER'S ANNUAL REPORT ON THE
KEESECKOUSE INDIAN DAY SCHOOL FOR THE YEAR
ENDED MARCH 31, 1925. SASKATCHEWAN.

no action

I think some extra remuneration should be allowed to the teacher or his wife at this particular school, where so much extra work is done in the preparation and serving of such a good mid-day meal, which I will guarantee is not excelled in any day school of the Department (Cote included) where a matron is engaged.

I also grow enough potatoes and vegetables here to last the year. The Indians work on the reserve was about fruitless last year on account of the hard frost we got here together with rust. About the only source of revenue they have is the selling of dry wood and the reserve is pretty well cleaned out of that now.

George Barton,

Teacher.

Plenary

Mr. Duncan C. Scott,
Deputy Supt Gen. of Indian Affairs,
OTTAWA, Ont.

Dear Mr Scott:-

A deputation of Indians from Kamsack and surrounding points will likely meet Rev. Fr Beys and myself in connection with the construction of a new Residential School at St Philip.

Could you kindly give me your opinion in the matter and advise me of what I can tell those people? Rev. Fr Beys seems to be in favor of erecting a school at that point but it is understood that the opinion of the Department is to predominate.

A letter can be sent to me at Duck Lake before the 16th or if after that date, at Le Pas, Man.

Yours very truly,

Joseph Guyon

Ottawa, July 11, 1925.

Dear Father Guy:

I have your letter of the 6th instant, with reference to the proposed reconstruction of the Keeseekouse Indian Residential School. I regret that I cannot give you a definite message for the Roman Catholic Indian people of this locality, as our building programme is entirely determined by the funds that are provided by Parliament for the purpose. Rest assured, however, that the Department is aware of the need, and the advisability of providing a small residential school at or near St. Philip's will not be overlooked.

Yours very truly,

Duncan C. Scott

Deputy Superintendent General.

Ottawa, Canada, 192

Very Rev. Fr Beys and myself have examined different sites on the KeeseeKouse reserve and in the municipality of Kamsack and surroundings. In our estimation, the S.E. $\frac{1}{4}$ of Sec. 3, Tp. 32, Re. 32, W. of 1st M. and the N. E. $\frac{1}{4}$ of Section 34, Tp. 31, Re. 32, W. of 1st M. would be most adequate for the purpose stated. In fact, those two quarter sections are situated in front of the church and former school (just across the road). The Indians have signed a petition to surrender the two quarter sections and I herewith join same to the present request.

I also annex a map of the locality the portion circumscribed in yellow pencil favouring the recruiting grounds of the intended school.

I therefore urgently press the Department for a favourable decision in the above matter by enclosing in the Estimates a sum of about \$80,000.00 for the construction of a frame building on the site referred to at St. Philip's, Sask., for the accommodation of 100 children.

Ottawa, Canada, October 30 1925

CONSTRUCTION OF A RESIDENTIAL SCHOOL AT ST. PHILIP'S, SASK.

\$80,000.00

Estimates
It has been the matter of serious thought on the part of Oblate Missionaries authorities for the last few years to provide for adequate educational facilities for a large number of Indian children, living on KeeseeKouse, Côté, Key, Valley River, Nut Lake, Birch River, Swan River, Pelican Reserves and others.

By
A residential school has been already in full activity at St. Philip's but has been replaced by a temporary Day School for reasons known to the Department. After a careful survey of the situation and in consideration of repeated requests from the Indians, we have come to the conclusion that the erection at St. Philip's, Sask., of a modern building to accommodate about 100 children has become a necessity of such an importance that we do not hesitate to place the request for the construction of said building as the very first item on our list of major needs in view of the Estimates.

Commissioner Graham has discussed the situation thoroughly with Very Rev. Beys, O.M.I., and has reached the same conclusion as the latter, viz: The immediate necessity of the erection of a Residential School at St. Philip's.

Of course, we are aware that some of the above mentioned reserves are nearer certain other schools if a straight line is drawn but in reality we deem that it is only at St. Philip's that railway accommodation is most convenient and recruiting work possible.

In the course of my last visit West Very Rev. Fr Beys and myself met the Catholic Indians of KeeseeKouse and Côté Reserves who made to us a very strong request and offered to surrender a half section of land on the KeeseeKouse Reserve for the proposed school. Herewith annexed please find copy of petitions from the Indians of KeeseeKouse, Côté and Valley River Reserves, to build a residential school at St. Philip's.

The matter of the site might be a source of discussion but I take the liberty of expressing the Oblate Missionaries' opinion in the matter without prejudice to the decision of the Department.

St Philip's Sask.

Dec. 5th 1925.

Russell T. Ferrier Esq. Superintendent Indian Education, Ottawa.

~~Dear Sir~~
~~Immediate~~

I would like to get permission to make a change in the vacations of the St Philip's Indian Day School on Keeseehouse Reserve. For about the last three years the vacations at this school have been taken in Jan, and February. I would much prefer to divide the study time up a little better, by taking January, - (the coldest month), and August, (the hottest month). Two months at one time seem rather long for children to be away from school, and they are likely to forget a great deal. And it is a pretty long grind from the beginning of March until Xmas, through all the hot harvest weather, for both children and teacher.

All the schools around here, including the Cote Indian school, have vacations in August. The teachers can get away in summer for a rest far better, and most children are wanted, and are kept home for help during the harvest in August anyhow.

I have always had a good attendance in December and March here, and I am pretty sure I would, also have in February if the school was open.

I think my suggestion is well worthy of your approval. In fact it was only on account of one teacher here 3 or 4 years ago, that the present system was adopted. The teachers following since, though not liking it, thought it had always been that way here, and said nothing.

If the change of vacations from January and February to ~~January~~ January and August, meets with your approval, and I feel sure it will, perhaps you will be kind enough to let me know as soon as possible, I can then notify the children before they leave for Xmas.

Yours very respectfully
George Barton - Teacher.

Ottawa, December 9th, 1925.

Sir:

The Department is in receipt of a letter from Mr. George Barton, teacher of the Keeseekouse Indian Day School, in which he suggests that one month's holidays be taken in January and the other month in August. He states that he feels that this would meet with the approval of all concerned, and would be a better arrangement than the present one of taking the holidays during January and February and continuing school throughout all the summer months.

Please discuss this matter with the teacher, and, if you consider it advisable to have the holidays taken in the manner he suggests, you may give him the necessary authority. You should also inform him that in matters of this kind he should communicate with you and not direct to the Department. Please advise what decision you make in the matter.

Your obedient servant,

A. F. MacKenzie

Sir:-

In reply to your letter #117-3-1 of the 9th inst concerning the communication from Mr. George Barton, teacher at St. Phillip's School, I beg to state that I have taken the matter up with him regarding the holidays at the school, and after discussion have agreed to his suggestion that one month's holidays be taken in January and one month in August.

This method I find used to be in vogue until a priest who used to teach there altered it to suit his requirements.

I have also instructed Mr. Barton that in matters of this kind, he must take the matter up with me and not direct with the Department as per your instructions.

I have the honour to be,

Sir,

Your obedient servant.

Records

R

117-3-1

St. Philip's Sch.
Feb. 5th 1926.

Russell E. Herrier Esq. - Superintendent Indian Education - Ottawa.

Dear Sir:

As the teacher of the St. Philip's Indian Day School - Neessakouse Reserve - Kelly Agency - I beg to bring to your notice a few facts, of which perhaps you are unaware, and of which I respectfully beg your favorable consideration.

This is one of the very few day schools that provide the children with a full hot meal at noon. This naturally entails considerable extra work, and in fact in some of the other day schools that do likewise a special matron is engaged, and the teacher has only to attend to the teaching.

The children here get hot meat and vegetable soups, - bread, lard, rice, beans, jam, biscuits, and tea, sugar, and milk, and sometimes eggs in summertime. The vegetables I provide - viz. - potatoes - carrots, - onions, and turnips - by putting in a good school garden, which provides enough for the whole year. Milk, jam, and eggs I also provide free myself. The rest is provided by the Department.

Now a great deal of this cooking has necessarily to be done by my wife during school hours, and takes up an hour or two every morning, besides baking bread twice a week for the school. Then although I am with the children during the dinner and washing up, she cooks and watches them while I eat my dinner, so they are never alone.

You see we are doing our very best to conduct this school in the way such a school should be run. At the same time the salary for all this work is very small. We would therefore like to ask you if you could not see your way to allow my wife a small allowance of pay \$10.00 per month for the matron's work which she is obliged to do for this school, and which she has done now for over two years.

If you can see your way to assist us in this, and which I think you will agree is not asking too much of the Department, I assure you we will be very grateful indeed.

Yours very respectfully - George Norton - (Teacher)

Ottawa, February 25, 1926.

Sir:

Representations have reached the Department relative to the amount of work attendant upon the preparation of the noonday lunch for the pupils of the St. Philip's Indian Day School. I am informed that a full hot meal is served, that the vegetables are grown in the school garden, that milk, jam and sometimes eggs are provided by the teacher. It is stated that Mrs. Barton bakes bread twice a week for the school and spends considerable time in connection with the noon meal.

Please let me have a report in this connection and make a recommendation concerning allowing \$100 a year for this work. It is not proposed to appoint Mrs. Barton as field matron, but the Department might increase Mr. Barton's salary because of the work that his wife is doing.

Re - ~~M. Keesekouse~~ Day School.

St Philip's P. I. Sch.
April 30th 1926.

Russell J. Ferrier Esq. - Superintendent of Indian Education - Ottawa.

Dear Sir -

I have been told by your local representative here, that my request for a small extra allowance for the nation work carried on here, had received a favorable decision from you. And that the salary would be increased by \$100. per year, commencing from April 1st.

For this kindness my wife and I wish to thank you very much, but we are very much disappointed at the delay.

She has carried on this work all through the years 1924, and 1925. for nothing. So do you think it is quite fair Mr. Ferrier, to delay it for another whole quarter in 1926? For the request was made early in the year.

I feel sure you will see the justice of this, and grant her the extra allowance for February and March, at least.

Yours very sincerely

George Barton.

(Teacher - Keesekouse. I.R.)

R R
Saint-Boniface, Man. April 29 1926 192

To Mr DUNCAN C. SCOTT
Deputy Superintendent General
Department of Indian Affairs
Ottawa Ont.

Dear Sir:

This year, in the immense territory of which I have charge, only one small school is to be built, the one of St Philips, near Kamsack, Sask..

Recently an increase in the grant has been attributed to some schools. In union with the four Bishops of my territory as well as their advisors and mine, I want to express that public moneys would be better used in building schools or enlarging the present ones, so as to give an opportunity to every Indian child to receive an education. The schools were going on and I am not aware that the cost of living has increased lately. Instead if the same part of the population of Canada were acquainted with conditions in many reserves where all children are left in absolute material and mental neglect, a cry of protest would rise from one end of the Dominion to the other.

I am very anxious that the little granted to us be executed as early as possible so as to have some possibility to gather up the children next fall. I expected the tenders for our school to come out with those for the Sturgeon Landing School

Dear Sir:

On April 29th, I wrote to You on important matters which, after consulting with those closely interested in Indian work, I felt it was my duty to let known to You.

Today, I am really sorry to have to point out, that receipt of my letter has not as yet been acknowledged.

Yours sincerely:

J.B. Beys

May 26, 1926.

Reverend and dear Sir,-

I am in receipt of your letter of April 29th, and your note of May 20th reminding me that you had received no acknowledgment of it.

I am very sorry indeed that I have not had time to reply at an earlier date, but the matter was receiving constant attention and the case of the proposed new school on the Keeseekoose Reserve has not been in any way prejudiced by my delay in replying. Father Guy has kept diligently before me the needs for this school, and has promoted in every way the interest of the project. The Department, however, has to look over the whole field and make a fair distribution of the restricted appropriation which Parliament will allow us this year. We will not be able to build the school at Keeseekoose this summer, but intend to build on the Peigan Reserve, to begin the school on the Onion Lake Reserve, and finish the school at Sturgeon Landing. We must undertake this last-mentioned work because the school was erected in part last year and cannot be allowed to stand uncompleted. The claims for new schools at the Peigan and Onion Lake Reserves are pressing, and our own officers find that there is no situation which so urgently requires to be improved. I beg to remind you that the erection of the St. Philip's school was set aside in favour of the new establishment of the McIntosh school. In view of this fact and of the large expenditure within your province during the last few years in the purchase of residential schools, it was thought that the erection of St. Philip's school could be again postponed.

Yours very truly,

Rev. J. B. Beys, O.M.I.,
340 Provencher Avenue,
St. Boniface, Man.

Deputy Superintendent General.

PRESBYTERY OF KAMSACK

R

KAMSACK, SASK. June 17th 1926

Mr Duncan C. Scott,
Deputy Minister of Indian Affairs,
Ottawa, Canada.

Dear Sir,-

It has been reported to me several times of late that it is the intention of the Government to build a rather expensive Indian Boarding School on the Kesekoose Reserve five miles north of the present Cote Improved Day School on the Cote Reserve. In connection with this I would like very respectfully to call your attention to the following considerations which may not have come under your notice:-

1. There was a boarding school at or near the same location several years ago, which was closed owing largely to a lack of sympathetic support from the Indians. Later a day school was started in the same buildings
2. There are only about ten Roman Catholic families on this Reserve and in order to get any considerable number of pupils from the neighboring reserves an effort may be made to recruit from Protestant families. This would naturally lead to friction and difficulties for Departmental officials.
3. If, as is stated it is the intention to draw a large number of the pupils from other Reserves a hundred or more miles away, would it not be better to build the school nearer those Reserves from which most of the recruits would naturally come?
4. The Cote Day School has been serving the educational needs of the great majority of the Cote Indians for the past ten years, but as you may readily suppose there are some who would like to be set free from the responsibility of caring for their children and these have been talking of petitioning the Government to replace the present Cote Day School with a boarding school. I do not think such action is necessary at the present time but the grounds for the request are as good as in the case of the proposed school on the Kesekoose Reserve. But if that school is erected then the situation is changed and it may become very desirable from our point of view.

You will see therefore the complications that this proposed building would lead to and quite unnecessarily. The needs of the Kesekoose people could very well be served at a fraction of the expense by the erection of a day school in a central position. Such a school could be so located that only one family would have more than two miles to come to school.

In conclusion, let me say, that I write you in confidence that this matter will receive your careful consideration and that you will try to do what is best for all concerned.

I Am,

Yours Very Respectfully,

W. McWhinney

Dear Mr. McWhinney:

I have your letter of the 17th instant, concerning the proposal to erect a residential school for Roman Catholic Indian children at St. Philips, Sask. It is true that the advisability of providing a small institution at this point has engaged the Department's attention. There is no likelihood of any building activity in this connection this year. When our plans for the future are being determined, your remarks will not be overlooked.

Ottawa, June 18th. 1926.

Dear Mr. McPhee,

I have to acknowledge the receipt of your letter of the 11th. June with reference to the proposal to erect an Indian boarding school on the Keeseekouse reserve, north of Kamsack. It was necessary to present to Parliament a moderate estimate for building operations during 1926-1927 and it was found impossible to provide for this building.

The Department is endeavouring to substitute modern buildings for those which were erected years ago by the missionary societies and to establish new schools where they are found to be necessary. Certain reserves have a prior claim to the Keeseekouse reserve at Kamsack but it is hoped that the building there may be supplied before long.

Yours faithfully,

(Chas. Stewart)

..... Of course, there is another problem which confronts us in the event of moving the Cote Indians to the Peepaw Plains and that is the long distance the agency would be from the Keeseekouse reserve, and it seems to me that perhaps the question of transferring the Keeseekouse Indians as well might be seriously considered. If the Department would consider this proposition, my advice would be that the matter of building a new Roman Catholic School on the Keeseekouse reserve be deferred. I do not see that the R. C. Church authorities would object very much to this being done. They could transfer their appropriation to the building of a school at some other point for this year. We will certainly get nowhere with the Indians on the Cote reserve so long as existing conditions continue.

Oblate Missionaries of Mary Immaculate

Provincial Administration

Saint-Boniface, Man. August 10th 1927

Mr. Duncan C. Scott,
Deputy Superintendent General.
Ottawa, Ont.

Dear Sir:-

January last you wrote to my predecessor, Reverend Father Beys, that "before this time next year we shall have our new school at Keeseekoose in running order."

As the construction work is going on nicely at present, it seems that your prediction will be fully realized. Needless to say that the Oblate Fathers are well pleased and will be ready to cooperate with the Department for the complete success of this new school.

I have the honour to present to the approval of the Department of Indian Affairs the choice of Reverend Father Conrad Brouillet as Principal of the Keeseekoose School. The Reverend Father has had already experience with the Indians and with the management of Indian schools as Principal of Kenora and Muscowequan Schools. Having a fair knowledge of the Otchipwe language he will be in a position to do much good among the Indians.

Yours sincerely,

J. Magnan

OFFICE OF
INDIAN AGENT

Kamsack, Sask.

15th. March 1928.

No. 11.

Sir,-

In reply to your letter No. 117-3-1 of the 6th. inst. I beg to advise that the Principal of the Indian Boarding School at St. Philips expects to open the school on April 1st. next, that is providing all of the furniture has arrived by then.

The Blowey Henry Co. Ltd. have not as yet forwarded any advice to me of the order placed with them for furniture as per list contained in your letter of Jan. 27th. last. Am not certain of their address, so could you get in touch with them and have them advise when this shipment will be forwarded so that I can advise the Principal at the school.

Having reference to the St. Philips Day School, being closed, I beg to advise that in accordance with the usual custom the school did not open in January and was thought then that the new school would be in readiness during the month of February and understood that the activities of the day school would automatically lapse with the opening of the other school. In view of the fact that the new school is expected to open on April 1st. I do not think it necessary to continue with the day school there prior to the opening of the residential school

Sir:

The Department has received a communication from Chief William Quewezance, of the Keeseekouse Band, in which he requests that, when the new St. Phillip's Indian Residential School opens, all the Indian children of the Band at present attending other residential schools attend the new school. He states that there are children from his Reserve in attendance at the present time at File Hills and Qu'Appelle Residential Schools, and that the question of the religion of a child should not deter them from attending the new St. Phillip's Residential School.

I have to request that you will inform the Chief that the St. Phillip's Residential School is for the education of Roman Catholic Indian children only, and that the Department has no intention of transferring children at present in Protestant schools who belong to the Keeseekouse Reserve. The first consideration of the Department is the interest of the Indian children, and any transfers from other residential schools to the new St. Phillip's School will be dealt with on their merits.

Copy

Kamsack, August 15th, 1929

Mr. W.M. Graham,
Indian Commissioner,
Regina, Sask.

Dear Mr. Graham:-

I have your letter of August 3rd. to hand and note what you say in regard to increased accommodation at the Cote School.

*Mymer
file*
I would like again to repeat what I said before that I have no wish whatever to build up a boarding school at this point. No one would be better pleased than myself to find that there was no necessity for such a step, because I am fully aware of other problems which would be raised thereby. But as I said before the conditions which have given rise to this request have been brought about by the Indian Department erecting the St. Phillips School in such close proximity to the Cote School and where there was no real necessity for such action. I am told that we can send our pupils who cannot attend the Day School to File Hills or Brandon. Why did not the Department tell the Keeseecoos R.C. people to send their children to Lebret or some other R.C. boarding school? They have less pupils who cannot attend a day school than we have. If this had been done two years ago, many thousands of Government money would have been saved and the present problem which is troubling us would not have arisen.

You assure me that our Protestant children cannot enter the St. Phillips School because the Department would not allow it. I know this is an old principle but you must know that it exists more in theory than in practice. A year ago two Protestant girls were taken into the St. Phillips School. I protested against it. The parents insisted on keeping them there where they could see them at any time. I brought the matter to the attention of Mr. Russell Ferrier when he was here a year ago and he stated that where the parents insisted on such an action and continued to insist the Department did not insist on the regulation being carried out. Therefore you will see very clearly that I have good grounds for feeling that the present conditions are bound to work out in such a way as will be unfair to us and will give an undue advantage to the R.C. people. Let the Indian Department give me a sufficient guarantee that none of our pupils will be allowed to go into the St. Phillips School and I shall be satisfied. Other wise I shall carry this matter to such authorities in our Church as will compel justice to be done. Surely this is only what is fair.

There are a number of children on this Reserve now who should go to school but are not going anywhere. I shall be pleased to hear from you further in regard to this matter

(Sgd.) W. McWhinney.

ALSO TO DATE OF THIS LETTER

COMMISSIONER'S OFFICE,

D REGINA, SASK., August 19th, 1929

Sir:-

I am enclosing herewith copy of a letter that I received from Rev. W. McWhinney, of Kamsack, in which he takes serious objection to the Department's action in building a Boarding School on the Keeseekoonse Reserve in the Pelly Agency, and more particularly to the attitude of the Department in not enforcing the regulation re children of Protestant parents being taken into the R.C. School. I think it is just as well that this matter should be brought to the attention of the Department, and I should be glad to be advised if it is proposed that any action shall be taken. I am informing Mr. McWhinney that I have taken the matter up with Ottawa.

Your obedient servant,

W. M. Graham,
Indian Commissioner.

Ottawa, September 5, 1929.

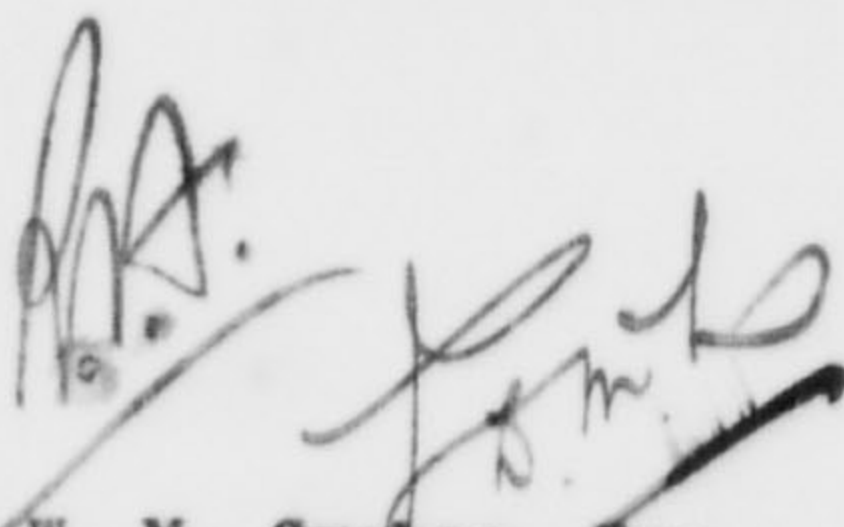

Sir:

I have your 310-11A Gen. of the 19th ultimo, enclosing copy of a letter from Rev. W. McWhinney, of Kamsack. I do not believe there is anything to be gained by answering this missionary's objection to the establishment of the St. Philips Indian Residential School. You may inform him, however, that the Department will not approve of the admission of Protestant children to this institution. Where parents insist on an education under Roman Catholic auspices and continue to do so and the Department is convinced of the bona fide of their wishes, their children may quite properly be considered Roman Catholics. The Department of Justice has so ruled.

Mr. McWhinney refers to the daughters of Joe Keshane. The information from the Indian agent was that Joe Keshane was pagan, although his wife was Protestant. After considerable correspondence and a delay of some months, to make sure that the father's wishes were bona fide, the children were admitted to the St. Philips School. You may forward the information concerning the Keshane children to Mr. McWhinney.

C O P Y

Kamsack, Sept. 13th 1929.

Mr. M. Graham,
Indian Commissioner,
Regina, Sask.

Dear Sir,-

I have your letter of the 13th stating that the Department has stated it will not approve of the admission of Protestant children to the St. Philips Schoo. I have delayed replying because Mr. Rhodes had promised at my request to come over and see what children he could get to go to File Hills. He came last week and I spent a day with him taking him to those I thought might and should go to File Hills. I gave him every assistance but as far as I am now aware his visit did not get him any pupils. I was not with him the last forenoon and do not know what assurances he may have received but fear they did not amount to much. This corroborates what I have said previously that these people do not want to send their children away to a distant school. When they cannot find accommodation for them at Cote there is always the temptation to put them into St. Philips.

Since writing you last I have discovered that a child of Bob Cote's who has been cared for by her grandmother, Mrs. Jimmie Cote has been admitted to St. Philips. Her mother was protestant but is now dead. Her father is nominally a protestant and the grandmother is a member of our Church. The reason the grandmother placed her in that school was because she was unable to provide for her at home. This is a clear case of a violation of the Department's regulation and I demand that she be taken out from St. Philips at once. I am told that she and her younger sister were both baptized before she was admitted but this was done merely to give the admission an appearance of legality.

Our difficulties of this nature as well as the difficulty of getting pupils to go to File Hills would be much lessened if the Department could put some restraint on the recruiting activities of Father Brouillete and keep him from enticing these protestant children to his School.

Since commencing this letter I have discovered that Allan Fiddler signed an application while Mr. Rhodes was here for one of his children to go to File Hills School.

I Remain,

Yours Respectfully,

(Sgd) W. McWhinney

COMMISSIONER'S OFFICE.

REGINA, SASK. September 26th, 1929.

ED
[Signature]

Sir:-

I am enclosing herewith a copy of a letter which I have received from the Rev. W. McWhinney, Missionary on the Cote Indian Reserve. In your letter of the 5th instant, No. 117-3-1, you informed me that the Department would not approve of the admission of Protestant children to the Roman Catholic School.

I am merely passing this letter on for your information.

Your obedient servant,

[Signature]
W. M. Graham,
Indian Commissioner.

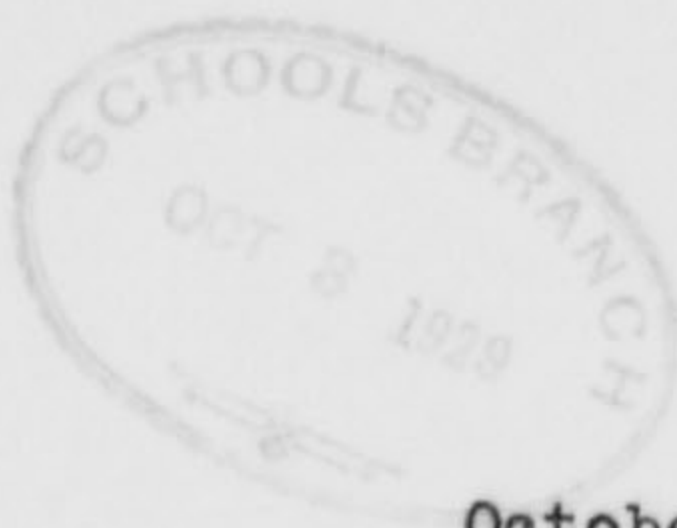

The Secretary,
Dept. of Indian Affairs,
OTTAWA.

MEMORANDUM:-

With reference to Indian Commissioner Graham's letter of the 26th ultimo, enclosing copy of letter received by him from Rev. W. McWhinney, it will be noted that the letter protests against the admission of Charlotte Cote to the St. Philips Indian Residential School.

On File 117-3-10, there is an application for the admission of this girl to the St. Philips School, enclosed under cover of Agent McKenzie's letter of August 24th, 1929. The application form states that the father is living, the mother dead, and that the religion of the child is Roman Catholic. The application was signed by the father, Robert James Cote, and the admission was approved by Mr. Agent McKenzie.

A handwritten signature, possibly 'M. McKenzie', followed by a long, sweeping diagonal line that extends from the signature towards the bottom right of the page.

ST. PHILLIPS INDIAN RESIDENTIAL SCHOOL (R.C.)-Keesekoonse

The work in the senior classroom is supervised by Sister St. Veronica. This Sister has only been in charge since the fall term opened, but I understand she is a qualified teacher and I would judge that she will obtain good results. The grades are as follows:-

Grade I	-	4
" II	-	11
" III	-	4
" V	-	5

The children appeared to be well along in their grades and, when questioned, answered freely.

The classroom was neat and tidy, as also were the children.

The junior classroom is in charge of Miss Samson and there are 25 children, all in the primary department. A number of these children have only been in the school a few months, but are showing marked progress, and I would judge that Miss Samson will prove a successful teacher.

The work in the sewing room, laundry and kitchen is supervised by the various Sisters, and the children undoubtedly are given the best of instruction.

The building throughout was spotlessly clean, and the dormitories were all well aired. The battleship linoleum, which covers the tables in the children's dining room, curls up badly around the edge of the table. It is difficult to keep it from being

broken.

Indian Affairs. (RG 10, Volume 6334, file 662-1, part 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

ST. PHILLIPS INDIAN RESIDENTIAL SCHOOL (CONT'D.)

broken. This could be remedied by using binding which can be purchased for this purpose.

The following buildings have been erected during the summer:-

A large barn where cattle & horses can be housed.

Implement Shed

Granary

Chicken House

Pig Pen

As everything is new at the school, the general upkeep should be very light for some years.

The Department supplied a number of Ayrshire cattle here last year, so that the school now has plenty of milk for its needs.

On account of the extreme dry weather, it was impossible to get a lawn started this year in front of the school, but the Rev. Father Brouillet intends to have this work carried out next year. At present in front of the school the fence is built of three strands of barbed wire. The appearance would be greatly improved if the school could be provided with a woven fence along the front and at each side in order to protect the ground where it is the intention to have the lawns. Cedar posts should also be provided for the erection of this fence.

I have the honour to be,

Sir,

Your obedient servant,

A. G. Hamilton

MEMORANDUM

MR. ORR.

Will you please cube up the dormitories and classrooms at the St. Philip's Indian Residential School, and advise as to the number of pupils for which there is air space (500 cubic feet per pupil). While this school was erected for 50 pupils, the Church authorities claim that there is sufficient air space in the dormitories to accommodate a larger number.

MEMO:

At 500 cubic feet per pupil the dormitories provide accommodation for 51, but I see no objection if the Principal was allowed to accommodate 60 pupils in the building.

Very Reverend Sir:

Pursuant to our conversation regarding the accommodation at the St. Philips Indian Residential School, I wish to inform you that there is room for a maximum of 60 pupils. At a later date, when funds can be provided for the purpose, a pupilage of this number could be allowed. For the present fiscal year, of course, the pupilage has been fixed at 50.

Your obedient servant,

Russell T. Ferrier,
Supt. of Indian Education.

Kamsack Sask.

Dear Sir

I beg that you would recommend to the Department that our school be authorized for 65 sixty five pupils as you are well aware there are over 10 ten children of school age in these reserves, we could not even with an augmentation of five take them all but we could not accommodate more but we can accommodate five there is ample room in the class rooms the dining room will manage the five and the sisters offer to give one of their apartments as a dormitory, in these hard times we could not ask for an enlargement of the building but with this sacrifice of the sisters, we will alleviate the tension of that much

Trusting that with your recommendation this will be granted I remain dear Sir Yours truly

E. Powell

January 12th, 1942.

Report on St. Philips Indian Residential School

I wish to inform you that during my last inspection trip to the Pelly Agency, just before Christmas, I visited the St. Philips Indian Residential School.

Buildings

As a Mr. Wallace, from Winnipeg, with whom I am not acquainted, inspected the buildings shortly before I arrived, there is no need for me to make any reference to them.

Farming

There is a farm operated in connection with the School consisting of 280 acres but only 90 acres of this is under cultivation. The crop harvested last Fall was only fair.

Cattle

The number of cattle kept at the School is 20 and 9 of these animals are cows. The Principal informed me that naturally the 9 cows did not furnish sufficient milk for the School as there are times during the year when some of these cows are dry and to keep more cows at the School it would be necessary to build an addition on the barn, which is a good building but not long enough to take care of more cattle than are being housed at the present time. However, I notice that the School has built a stable out of logs and they house some of the younger stock there. They have 7 horses, 2 of which are old, and they also keep pigs and chickens.

Health

There are 76 children in residence at the School and this is two more than the grant of 74. I spoke to these children in their classrooms and playrooms and they all looked well and happy. From all appearances this School is run very well and I believe we have a first class Principal in Father Paradis.

Attention Mr. Hoey

Dear Sir:

Reverend Father Lavigne, Provincial of the
Manitoba Province, would like to make a change in the
principalship of the St. Philips Indian School,
Saskatchewan.

Reverend Father Paradis, who has filled
the position of Principal for the last several years,
has been appointed Procurator of the College of
Gravelbourg, and is temporarily leaving the Indian
service. Reverend Father Emile Tétrault, who has
had several years of experience as missionary among
the Indians, has been appointed to replace him
provided the Department approves his nomination.

An early reply would oblige.

Yours very truly,

QUARTERLY REPORT ENDING JUNE 30th, 1945, ON PELLY INDIAN AGENCY

XX

XX

XX

SCHOOLS

We only have one Residential school situated in this agency, but they have been fortunate in being able to keep a capable staff of teachers all during the war, and children attending are much further advanced than those attending the day schools, and are also obtaining other useful instruction, in house work, cooking, sewing, carpenter work, painting, and care of stock, and are certainly much better fitted for a useful life upon leaving school. About the only complaint from the Indians that you hear about this school is that too much time is devoted to religious training. It would be a great help to many of the girls if they were allowed to continue their studies until they were at least 17 years of age, they would thus avoid some of the pitfalls that face them as they leave school at sixteen. Unfortunately in many cases they get little help or encouragement to conduct themselves properly, and parents appear to have very little control over them, and in many cases the example of the parents leaves a great deal to be desired.

September 20, 1945

Dear Sir,

The war is over but our difficulties are not.
To-day I thought of presenting you one of my difficulties and not the least.

I am paid here for 70 children. This year for some reason, family allowance, or other, we have a much greater number of children in school. In fact we have now 82 children. And if we had had more room we would have still more.

So you can see by yourself that this is a great burden on me and my finances. I talked the thing over with Mr. J. Bryant, and He told me that He would write to the Department on this matter.

I am requesting that the Department pay me for the number of children in school. I think this is just fare and just. On account of the present conditions of living it is extremely difficult to make both ends meet.

Hoping that the Department will be favourable to my request,
I remain

Sincerely yours.

Rev. P. L. Petrucci
Sincerely yours.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Ottawa, 24th September, 1945.

Reverend Sir:

I have your letter of the 20th instant requesting an increase in pupilage of the St. Philips Indian Residential School.

In the last report we received, your school gave the size of dormitories as follows:

Boys	-	36 x 31 $\frac{1}{2}$ x 10	-	32 beds
Girls	-	39 x 31 $\frac{1}{2}$ x 10	-	37 beds
Small	-	22 x 12 x 10	-	7 beds

The cubic capacity of the dormitories as computed from the above figures is 29,410 cu. ft. and the total number of beds available is 76.

Considering the cubic content, I may say that it is our desire that practically all residential schools have a cubic capacity in the dormitories of 500 cu. ft. for each child. When we allowed an enrolment of 70 at St. Philips School it was really larger than the cubic content of the dormitories warranted. Consequently I do not feel it is advisable for you to take another 12 children as this will still further reduce the amount of air space for each pupil.

With the above in mind, it is difficult for us to consider increasing the pupilage.

Yours sincerely,

Philip Phelan,
Chief, Training Division.

OCT 5 1945
REGISTERED

Dear Sir,

I have your letter of the 24th, answering my request to be paid for the number of children now in our school.

Your answer was to me quite disappointing.

In my last letter I said we had 82 children, the exact number is 81.

I saw Mr. J. Bryant this morning about this question, and his answer was that the children were now in school, and that he saw no other alternative that they remain in school. They are in here by the will of the parents who do not want to see their children going to a far-away school. And the fact is that all other schools have also more children than they should, so they can not take the ones we have to many.

And as said Mr. Bryant: we are not to put these children in the road, they are in school to stay. We have made room for them. We have exchange some large beds for smaller ones. A six foot bed is too large for a child of 7 or 8 or 9 years of age. So with smaller beds, we were able to put more in the same room.

In your letter you give as number of beds 76. We have now 81, that means only five more. As for the cu. air space we can provide good air by more ventilation.

As Mr. Bryant was saying this morning: you have gone out of your way to accommodate these children it is but fair and just that you be paid for their upkeep.

These children have just as much right to school as any other child. And if we have to send them back home, it would be fair to them.

If our school is too small, this is not our fault. Here is the whole trouble. This school is too small all together. We had to refuse many children this year. So many children are without schooling, although it was promised to the Indians that schools would be given them and the facilities to acquire an education.

You have handle school affairs long enough to know how hard it is for a small school, to make both ends meet. I have here as many employees as in many other schools. It cost me just as much for fuel, light, water etc. as in most schools. And because these schools are paid for 100 to 120 they will receive nearly up to 5,000. every three months, whilst I receive 3,150.00 And these schools complain that it is hard for them to make both ends meet, what about us then?

So I sincerely hope that you will reconsider this question and that soon you may let me know that I will be paid for children present in school. I am not asking for a favour, but that justice be given to this school as to other schools.

I remain,

Sincerely Yours.

P. L. Tétrault Jnr.

Dear Father Tetrault:

I have your letter of the first instant, with further reference to your request for an increase in pupilage at the St. Philips Indian Residential School.

The Director, Mr. Hoey, has been absent from the office through illness, but we expect him back before the end of the month. As soon as he returns I will bring to his attention your recent communications.

Yours very truly,

Philip Phelan,
Chief, Training Division.

[Signature]
Mr. A. Hoey Director

Dear Sir,

I have sometime ago written to Mr. P. Phelan, about our financial situation here in regard to the number of children in school, and the number for which I am paid. As you know I am paid for 70 and we have now 81 in school. This is a great burden to our school, and it is quite impossible to carry on that way.

May I offer a suggestion to the members of the Department. So far you are opposed in increasing our grant. My suggestion is this. Ask the Members of the Department to adopt eleven orphans for six months or a year, and you will find out what a burden it is to feed and clothe them.

To prove my statement here is the balance of my books for each month since January 1945.

January.....	Deficit.....	\$ 241.11
February	"	643.23
March	"	1242.75
April	"	990.06
May	"	206.40
June	"	354.41
July	"	957.97
August	Balance	210.58
September	Deficit	2678.93
October	"	2671.17
November	"	399.73

On top of this deficit for this month I have for \$859.21 to pay for goods bought for the school in food, clothing etc. and in wages not paid. So it means that our cheque is always spent before it reaches us.

I have shown my books to our Agent Mr. J. Bryant. In a small school as ours, the overheads are as great as that of larger school, and our grant is from two to three thousands dollars less every three months. So it makes it impossible to make both ends meet. Moreover we had to turn down this year many children from lack of room.

Hoping that you will do something for us in the near future.

I remain Sincerely Yours.

Memorandum:

MR. HOEY.

In addition to the requests for increased pupilage, which I brought to your attention in a memorandum this morning, the following request has reached the office this afternoon:-

St. Philips Indian Residential School -
Pelly Indian Agency, Sask.

This school has an authorized pupilage of 70, but their average attendance for the past four quarters has always been over that number and for one quarter it was 78; in other words, the school management has been providing education and maintenance for several more children than the number for which grant is allowed.

The Principal points out that it is absolutely essential that the pupilage should be increased and requests that we allow grant for an additional 10 pupils, or 80 pupils in all.

If this increase is granted, the extra expenditure for the fiscal year 1945-46 would be as follows:

10 pupils at \$165 per capita	-	\$1,650.00
Special grant of \$15.00 for 10 pupils	-	150.00
Total	-	\$1,800.00

Education

Indian education is a subject that has, I am sure given our department and all who are really interested in the Indians, very serious thought, the problems are many and it would appear that there is still room for some improvement in our present set up. Very few of the day schools have qualified teachers and I think these should be employed by the department and not by any church organization if we are going to get suitable men and women for this very important work. A day school teacher could be employed for the full 12 months, and they should devote considerable in organizing sports and healthy recreation for the young people.

We have one Residential school and two day schools at this agency, but have several pupils from all reserves attending residential schools at other points in Saskatchewan and Manitoba. In a residential school good management and an efficient teaching staff are a prime necessity and in St Philips school here, we fortunately have a good teaching staff and a school that is exceptionally well managed. Apart from academic subjects the pupils are taught cooking, sewing, general housework, manual training, field work, care of livestock, and poultry etc. This school is filled to capacity at present and there are several pupils at home at present that should be in school if accommodation was available. There should be provision made for at least another 40 pupils and this may not be sufficient in another ten years. We would also like to see pupils that are anxious to make something of themselves, given the opportunity of staying on in school after they are 16 years old, in fact I think it would be a great help to many of the girls if they were kept in Boarding school at least another year longer.

I beg to submit herewith a report on the affairs of this Agency, for the quarter ending June 30th, 1946.

file
EDUCATION:-

Miss Robertson of Cot Bay School has returned to her home and I understand will not return. She is a very fine woman and certainly did not spare herself trying to manage a very heavy school. However she has been in poor health and latterly the children became very difficult for her to handle, infact they were almost out of hand entirely. in the appointment of a successor I think we should insist on a male teacher. as I do not think there would be a bit of use sending another woman teacher for this difficult school. There is also to be a change at Key Day school, and here again I hope we can have someone appointed that really knows something about teaching and the handling of Indian children. Nothing definite has been done about starting day school at Valley River. We may have to use some of the new ~~catholic~~ catholic church for this purpose until we can build a school at a rental of \$40.00 per month, but here again I would not recommend starting a day school there unless we can be assured that a male teacher that has some experience can be supplied for that point.

St Philips Residential school has built an addition to the present school and will be able to accommodate more pupils this coming term. This school is well managed, children are happy and on the whole parents are satisfied with the results.

File #1251-310-11 ARC.

Regina, August 6th, 1946.

Indian Affairs Branch, Department of Mines & Resources, OTTAWA.

The Department has been informed that a new addition has been erected on the St. Philip's Indian Residential School of the Pelly Agency, the basement allowing for a large play room, the first floor a chapel, and the second floor additional dormitory space.

Now that there is ample dormitory space, allowing 500 cu. ft. per child, I would recommend that the pupilage allowed at the St. Philip's School be increased to 84 for the new term.

The total dormitory space is 41,830 cu. ft. made up as follows:

Girls' Dormitory	-	11,520 cu. ft.
Girls' Dormitory	-	13,800 cu. ft.
Boys' Dormitory	-	12,480 cu. ft.
Boys' Dormitory	-	4,030 cu. ft.

Memorandum:

DIRECTOR.

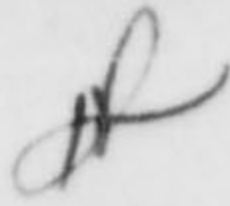

Increased Pupilage for St. Philips
Indian Residential School.

An addition has been built to this school and we have had repeated requests to increase the pupilage from the Reverend Principal, the Indian Agent, and now from Inspector Ostrander.

I believe Mr. Phelan has previously discussed this request with you. The present pupilage is seventy but the average attendance has always been well in excess of this number. If this increase is granted the extra expenditure for the fiscal year 1946-47 would be as follows:

10 pupils at \$165. per capita	- \$1,650.00
Special grant of \$15.00 for 10 pupils	- <u>150.00</u>
Total	- \$1,800.00

The present dormitory space is 41,830 cubic feet, sufficient to accommodate eighty-three children.

MEMORANDUM:

EX'D.

- THE ACTING DEPUTY MINISTER -

I am sending forward herewith a memorandum received by me from the Superintendent of Welfare and Training.

I may state by way of explanation that requests for an additional enrolment of pupils at the St. Philips school have been considered and reviewed by the Welfare and Training Division on a number of occasions in recent years. The request is now supported by Indian Agent Bryant and by Inspector Ostrander. Inspector Ostrander in a letter dated August 6, 1946, states:

"Now that there is ample dormitory space, allowing 500 cu. ft. per child, I would recommend that the pupilage allowed at the St. Philip's School be increased to 84 for the new term."

The actual enrolment according to the last return received from the Principal is 82, although per capita grants have been allowed for only 70. The Indian population of the Pelly Agency classified as Roman Catholics in the last census return is 553. This figure would indicate that there must be at least 110 children of school age in the area served by the St. Philips School. While I hesitate to make a recommendation for an increased pupilage at a residential school, in view of the fact that our educational policy is now under review by the Joint Parliamentary Committee, nevertheless I feel that the requests for an enrolment of ten additional pupils should be granted in this case.

Mr. R.A. Hoey,
Director of Indian Affairs.

Re: Increased Pupilage for St. Philips
Indian Residential School.
Your File 117-3-1 (D.I.A.)

I discussed with the Minister your memorandum of the 21st instant in reference to the above. In view of the fact that the Indian educational policy is now being considered by the Joint Parliamentary Committee, the Minister thought this was not the time to increase the pupilage of the Indian Residential Schools. If the increase were allowed and it became necessary to establish a day school to provide the education to the children in the vicinity of the school, it might cause a hardship to the school authorities if the pupilage were reduced. The report of the Superintendent is returned herewith.

Re: Pupilage increase for St. Philips School.
Attention: Mr. P. Phelan.

My dear Mr. Phelan:

You are acquainted with the fact that, in order to take care of the increased demand for admission to the above school, the Oblate Fathers, during the present summer, have added a wing measuring 30' in width by 60' in length, basement and two stories.

With this addition, the school can accommodate between 15 and 20 additional pupils and I have been requested by the Provincial of the Oblate Fathers, St. Boniface, Manitoba, to ask that the school be allowed to receive this additional number of pupils, as of September 1st this year.

In a former letter, I called your attention to the very large increase in the school population of this district and stated that rather than see such large number of children grow up in ignorance, the Oblate Fathers had decided to use missionary bequests to meet this expenditure.

I hope, therefore, that the Department will grant Father Lavigne's demand.

Thanking you in anticipation, I remain,

Very truly yours,

J.O. Plourde, O.M.I.

Dear Father Plourde:-

I am in receipt of your letter of the 7th instant applying for an increase in the pupilage at the St. Philips Residential School.

A similar request was recently received from Mr. J.P.B. Ostrander, Inspector of Indian Agencies. When the latter letter reached this branch it was submitted to the Minister's office for approval. We were advised in reply that it was not considered timely to increase the pupilage at this school.

Yours truly,

Bernard F. Neary,
Supt. of Welfare & Training.

Dear Mr. Jackson,-

I recently wrote to Mr. R. A. Hoey, of the Indian Affairs Branch, asking that an increase in the pupilage of the St-Philips Indian Residential School be granted, as of September 1st this year.

To my great surprise my request has been refused. As there must be some misunderstanding regarding the nature of my demand, I take the liberty of writing you about it.

You know that St. Philips has a long waiting list and that it has also provided additional space for the admittance of at least 20 pupils above its former attendance. This additional space has cost the Church authorities a considerable amount of money and it would be unfortunate if it were not used immediately. I therefore hope that you will be good enough to reconsider our request and allow the admittance of 20 additional pupils, as of September 1st, 1946.

Thanking you in anticipation I remain,

Very truly yours,

Memorandum: -

Mr. Hoey

Since July 15th, 1946, we have received the following requests for increase in pupilage:-

<u>Name of Residen- tial School</u>	<u>Present Pupilage</u>	<u>Pupilage Requested</u>	<u>Date Increase Requested</u>
St. Philips Residential School	80	90 ✓	1 September 1946
Cariboo Residential School	123 + 12	140	1 October 1946
Kamloops Residential School	285 + 10	305	1 October 1946
Lejac Residential School	160 + 15	185	1 October 1946
Sechelt Residential School	80 + 90	100	1 October 1946
Squamish Residential School	60 + 65	75	1 October 1946

Bernard F. Neary,
Supt. of Welfare & Training.

EXTD.

Ottawa, September 27, 1946.

Dear Father Plourde:

I have for acknowledgment your letter of September 18th, in which you renew your request for an increased pupilage at the St. Philips Indian Residential School.

I have been informed by the officials of the Indian Affairs Branch that somewhat similar requests have been received by them from the Cariboo, Kamloops, Lejac, Sechelt and Squamish Residential Schools, amounting, if granted, to an additional enrolment at these schools of one hundred and seven pupils.

The Minister, to whom this request was submitted, naturally hesitated to grant it at this particular time for a number of reasons. The educational policy of the Indian Affairs Branch is, as you know, under review by a Special Parliamentary Committee, the members of which will no doubt make definite recommendations with respect to the educational needs of the Indian population in due course. In addition to this, it is our intention to have a number of educational surveys undertaken by a capable educationist at the earliest possible date. These surveys will be designed to determine the educational needs of Indians over a long period of years and to determine also how these needs can be most effectively met, particularly by the establishment of improved Indian day schools. It would not, in our judgment, be fair to the Churches to grant increased enrolments at this date, only to discover later that the operation of day schools was seriously reducing the number of pupils seeking residential school accommodation. This is a matter on which the Churches cooperating with the Government in the operation of schools will no doubt desire to make certain recommendations; in the meantime and until such recommendations are made, we feel that it would be in the interests of all parties concerned to continue the operation of our schools with the enrolments already authorized.

Reverend J. O. Plourde, O.M.I.,
University of Ottawa,
Laurier Avenue, East,
O t t a w a, Ontario.

Yours sincerely,

Deputy Minister.

Ottawa, 6 November 1946.

Memorandum: Mr. Hoey

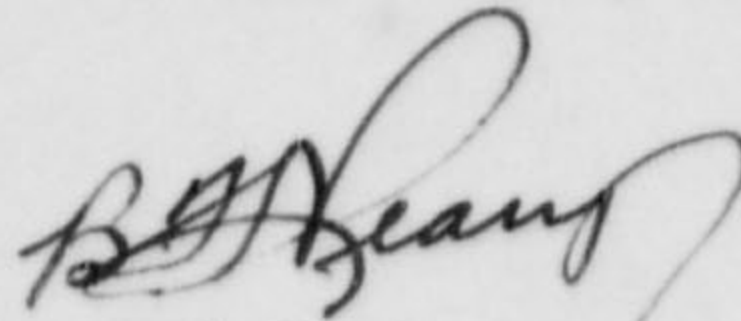

We have carefully considered the contents of the attached letter received by Mr. Jackson from Rev. J.O. Plourde, O.M.I., and suggest that the under-mentioned decisions be made:-

1. ST. Phillips Residential School - increased pupilage from 80 to 90.

There is sufficient accommodation in this particular school for the number suggested and reports received indicate that there are many children in this Agency who should be attending school.

2. (a) Cariboo Residential School - 123 plus 12 supernumerary
- (b) Lejac Residential School - 160 " 15 " "
- (c) Sechelt Residential School - 80 " 10 " "
- (d) Squamish Residential School - 60 " 5 " "
- (e) Kamloops Residential School - 285 " 10 " "

DP
You will note that in the case of the five schools last mentioned, we are suggesting that supernumerary grants be allowed instead of increasing the authorized pupilage. We feel that this is a flexible manner of handling the request for more pupilage as it permits us to discontinue the supernumerary allowance at any time if day schools are established in the vicinity of any of these residential schools. The school management will also understand that it is only a temporary arrangement.

Bernard F. Neary,
Supt. of Welfare & Training.

MEMORANDUM:

- The Acting Deputy Minister -

I am returning herewith a letter dated October 10, 1946, received by you from the Reverend J. O. Flourde, O.M.I.

I have again discussed the subject matter of this letter with the Superintendent of Welfare and Training, who, in response to my request, prepared a memorandum which I am submitting for your consideration. It is our intention, as you know, to undertake a number of educational surveys in the prairie provinces and in northern British Columbia, with the object of discovering what type of school would be most suitable to meet the educational needs of the Indian population in each district. It is not at all likely, however, that we will be in a position to undertake this work at any time in the immediate future. The official we have in mind for this task will require to become thoroughly acquainted with our educational policy before undertaking field work. In the meantime and particularly in view of the provisions in the Family Allowance Act which compel children of school age to attend school before qualifying for allowances, the Superintendent of Welfare and Training and I are disposed to think that supernumerary grants might be authorized for Cariboo, Lejac, Sechelt, Squamish and Kamloops Indian Residential Schools, and that an increased pupilage of ten be allowed at St. Phillips. As a matter of fact, supernumerary grants will still fall short of the payment we should make if we recognize this year's actual enrolment at these institutions.

I am asking Colonel Neary to go into this matter with you more fully at your convenience.

Director.

OTTAWA, 10th October, 1946.
Ontario

Mr. C. W. Jackson,
Secretary and
Chief Executive Assistant,
Department of Mines & Resources,
O t t a w a.

Dear Mr. Jackson,-

I beg to acknowledge yours of September 27th last written in answer to my request for an increase of pupilage at the St. Philips Indian Residential School. You also mention in your letter, a request of a similar nature which I made for the British Columbia Catholic Residential School.

I am very much surprised at the stand taken by yourself and your Minister in this very serious matter. All the schools for which an increase has been asked are situated in districts where a large proportion of the Indians are growing up in ignorance. Our Church is acquainted with this fact and is doing everything possible to supply education to as large a number of children as it is humanly possible to do so; but the cooperation of your Department is essential to enable them to continue this policy.

We know that it is the intention of your Department to have educational surveys made throughout the Dominion. We approve of these surveys, but as Government Agencies move slowly, a whole generation of Indian children is likely to grow up in ignorance, waiting for their results. This is most unfortunate and should not exist. You know, for instance, that Bishop Coudert has been asking for a much needed residential school in his Vicariate and that your Department has been delaying the execution of this project with the statement that an educational survey would be made. Nothing has yet been done and in the meantime, the Bishop has had to send over forty Catholic children to schools, a thousand miles away.

Furthermore, we are not asking for these increases as a permanent policy of the Department. We are willing to take these children presently in our residential schools, on the understanding that if later on, any survey made by your Department should find it necessary to reduce the pupilage of these schools on account of the establishment of day schools in the same territory, we will gladly return to our former pupilage. What is uppermost in our mind at the present moment is that these Indian children are growing up in ignorance and something should be done, not in three or four or five years, but immediately, to relieve the situation.

2
MEMORANDUM:

- Mr. Hoey -

I discussed with the Minister your memorandum of the 9th instant in reference to the request that has been made for an increase in the pupilage of the St. Phillips Indian Residential School.

In reconsidering the matter, the Minister thought the Department might be justified in granting a temporary increase to this school, and if necessary at the other schools mentioned in Colonel Neary's memorandum of the 6th instant, the increase to continue until the Department is in a position to provide the required day school accommodation at the various places mentioned. Approval is, therefore, given to this action being taken. It is to be understood that careful inquiry will be made into the requested increases in each case to make sure that the number is not excessive. The various church organizations concerned should be very clearly and definitely informed that the grant is only a temporary one and that when day school accommodation is provided, the pupilage will be reduced.

note
I am returning Father Plourde's letter of the 10th instant to which you might draft a reply for my signature.

EXD.
Ottawa, November 20, 1946.

Dear Father Plourde:

Your letter of October 10 has received very careful consideration.

In reconsidering this matter the Minister has decided that the Department can grant a temporary increase in the pupilage of the St. Philips Indian Residential School. Therefore as of November 1, 1946, the pupilage at this school will be increased from 80 to 90.

As a temporary measure the Department is also prepared to authorize the following supernumerary grants as of October 1, 1946:-

Cariboo Residential School	- 123 plus 12 supernumerary.
Lejac Residential School	- 160 plus 15 supernumerary.
Sechelt Residential School	- 80 plus 10 supernumerary.
Squamish Residential School	- 60 plus 5 supernumerary.
Kamloops Residential School	- 285 plus 10 supernumerary.

It is felt that these increases are as large as these schools can accommodate with present dormitory facilities.

The Minister wishes it very clearly and definitely understood that this grant is only a temporary one and that when day school accommodation is provided, the pupilage will be reduced. Therefore I would request that in writing to the Principals of the Schools concerned, you emphasize this point to them and inform them that this is purely a temporary increase to accommodate Indian children for whom at present adequate educational facilities are not provided.

Yours sincerely,

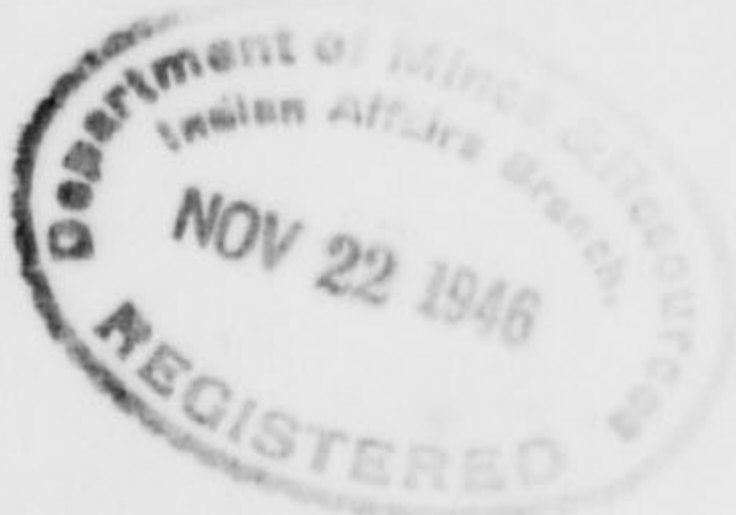

Reverend J.O. Plourde, O.M.I.,
University of Ottawa,
Laurier Avenue East,
Ottawa, Ontario.

1. In reference to the above, please be advised that in p.m. of this date Father REUST of the St. Phillips Indian School, called at this office and stated that the captionally noted was missing from the school and believed to have run away. He stated that they had missed her at about 10.30 a.m. same date as above. She was only 12 years of age and at the time of her disappearance, was dressed only in a light house-dress. Father REUST was of the opinion that she may be trying to go back to Legett, Sask. where she used to go to school or back to her home at Carlisle. He stated that he would like police assistance and if located to make arrangements for her transportation back to the Indian School.

2. A check was made around town by Cst. Forbes and the writer as to the possibility of the girl having come to Kamsack. This failed to produce results, so a patrol was made to the outskirts of town on #8 Highway towards St. Phillips. In a short while an Indian girl was sighted in the ditch walking towards Kamsack. When questioned, she stated that she was Norma WHITEHEAD from the St. Phillips School and was running away because she did not like the place.

3. A patrol was made by Cst. Forbes and the writer to the St. Phillips Indian School, where the girl was handed over to Father JEANOTTE. Patrol returned to detachment at 6.00 p.m. same date. This file is considered closed at this detachment.

CONCLUDED HERE: Expenses on F.93.
